Until nations are generous they never will be wise.
True policy is generous policy. All selfishness may
gain small ends but lose great ones. Expedients may
answer for the moment; they gain a point but do not
establish a principle.

Washington Irving, *Journals and Notebooks*.

COMING OF AGE

Barry Turner

The European Union is stronger on economics than on politics. The balance needs to be corrected.

The example has been set by Chancellor Gerhard Schröder. Now it is time for other leading politicians to do some serious thinking about how the European Union is to be governed. The concept of the EU as primarily a trade association is wearing wafer thin, as the Eurosceptics rightly point out, but still there is a reluctance to concede that economic integration must lead to a form of political integration. The reason for this is not hard to detect. However keen some politicians may be to promote the European ideal, they cannot rid themselves of the fear that their voters will not rise to the challenge.

The compromise has been to argue every issue in terms of financial gain while hoping that surreptitious moves towards closer political relations will go unnoticed until familiarity breeds contentment. As a result, Europe thrives economically but is in poor political shape with an unaccountable bureaucracy (the Commission), an ineffectual elected body (the European Parliament), a bunch of high-powered fixers who, with honourable exceptions, perform as spokesmen for national interests (the Council of Ministers), and a European Council of heads of government who meet twice a year for a photo opportunity. Outbreaks of democracy, as when the Parliament (but, in effect, the Council of Ministers) forced the mass resignation of a venal Commission, are the exceptions that prove the rule. Politically, Europe is a mess.

The target for reform is the 2004 Intergovernmental Conference. While most likely participants are none too keen to anticipate what will certainly be a lively discussion, Mr Schröder has got in early with a thorough-going programme of changes that could transform the EU into something approaching a workable democracy. His plan takes for its inspiration the German governmental model of a two chamber parliament in which regional interests are strongly represented in the Bundesrat, or upper house. The EU equivalent would be a senate, or the Council of Ministers by another name, with representatives appointed by national parliaments but, in contrast to current practice, open to democratic checks and balances. These would be chiefly provided by an enhanced European Parliament which would take control of the EU budget including the biggest slice of expenditure which goes to the antiquated but, in some eyes, still sacrosanct Common Agricultural Policy. If Germany's European partners go along with the plan, there could at last be a concordat on the distinction between regional, national and supra-national responsibilities. But will they?

First reactions were not exactly encouraging. The reflex opposition from Paris, voiced by prime minister Lionel Jospin in his May speech, was to be expected. There is a world of difference between the German and French systems of government. While the German constitution makes a clear distinction between regional and national spheres of authority, the French model is centralist and essentially bureaucratic. Under the Fifth Republic which emerged from the post-war chaos of conflicting interests, the legislature is secondary to a powerful executive. Democratic dissent is more often acted out on the streets than in the Assembly. The preferred strategy of the French is for an intergovernmental approach to EU evolution. This would allow member states to negotiate directly with one another to arrive at deals that would protect national interests. The unstated aim in all this is to contain Germany, after unification the most populous European country and even more obviously the powerhouse of the EU economy, while at the same time defending the Common Agricultural Policy for which Germany is the chief provider and France the chief beneficiary.

The British attitude is characteristically ambivalent. While constant lip service is paid to the need to strengthen democracy in Europe there is a worry of allowing Germany to become too powerful. It has escaped notice in London that, for example, Germany has most to gain from a strengthened EU Parliament since, by virtue of population, it will hold the greatest number of seats. Yet with devolution of power to

Scotland and Wales now central to UK constitutional reform which, in turn, has reinforced the popular antipathy to the Brussels tendency for interfering in matters which could best be handled at regional level, there is support for a two tier European government that would restrict the authority of the central bureaucracy. However, the first priority for Britain is to sort out its policy on the Euro. Until that is settled, little of real consequence for the future of Europe is likely to come from Whitehall.

But French obstruction and British prevarication does not mean that the constitutional debate must come to a grinding halt. To see why, it is only necessary to think back to the Nice summit of December 2000. It was not altogether the disaster portrayed by the media. President Chirac took the brunt of the criticism for what was seen as bullying tactics for French *gloire* but the other big powers were equally assertive and yet failed to win their demands. What was important about Nice was not so much the much publicized row over the division of votes between France and Germany in the Council of Ministers but the fact that the smaller democracies, whose co-operation is essential if the EU is ever to be more than a loose alliance of trading partners, succeeded in making their collective voice heard.

In leading the fight for equal representation on the European Commission, Belgian prime minister Guy Verhofstadt was dubbed 'a hero for Europe' by his Finnish counterpart Paavo Lipponen. And rightly so. The deal he brokered means that every new member state, and there are currently twelve hopefuls negotiating with Brussels, will be treated on the same basis as the EU veterans. After 2005, Germany, France, Britain, Italy and Spain will have just one instead of two commissioners. This will put them on par with other members including those in the queue of applicants. Once a ceiling of 27 commissioners has been reached, seats will be filled by rotation. In itself, this does not represent a fundamental change in the balance of power. But it is a welcome recognition that if a European democracy is to be achieved, the big powers must stop behaving as if the EU is their exclusive preserve.

Just how counter productive strong-arm tactics can be was highlighted at the time of Denmark's referendum on joining the Euro. The chief blame for the narrow but clear rejection of a common currency was the fall in the value of the Euro making it, in the view of some voters, an unsafe bet for an otherwise strong economy. But a critical secondary factor was the untimely bullying of Austria, another small democracy, over government jobs that had been allocated to the right-wing Freedom Party. While there was barely any support in Denmark for the rabble-rousing policies of Jörg Haider, the threat of sanctions against an EU member that had offended, none too seriously, dominant opinion in Brussels, was hard to stomach. Sharing a border with the goliath of Europe, Denmark has every reason to be wary of any form of European integration that allows unwarranted interference in the internal affairs of smaller states. This concern has certainly influenced opinion in Norway and Switzerland, both of which have rejected EU membership as a threat to their national identities.

When it comes to a choice between the German and French models of government, there are no prizes for guessing which one finds favour with the smaller countries, including the former communist states who are in the front line for EU admission.

But it will take more than structured reform to achieve a true democracy. If Europe is to move towards an open society, there must be an end to the excessive secrecy that is the mark of EU politics. Sweden, at the time of writing the holder of the rotating European presidency, is making the case for freedom of information in line with the Swedish constitutional requirement for transparent government. It is hard to believe that countries like Britain and France with their exaggerated view of political confidentiality will immediately throw open their ministerial files but this does not detract from the importance of the Swedish case or from its ultimate validity.

Those who favour diplomacy and deal fixing behind closed doors have thrived on the multiplicity of official languages. Translations by linguists who are not themselves specialists in any particular EU activity leads to misunderstandings and constant reinterpretation. But this too will change as English is confirmed in its role as the second language of Europe. Democracy requires a common political idiom and English is well placed to provide it. It is encouraging that a majority of

European citizens already feel this way. A survey held in the spring of 2000 found that approval for English as the first second language ranged from 62 per cent in Ireland to 82 per cent in the Netherlands. Even France, where linguistic nationalism is strongest, came in at 66 per cent.

All of which leads up to the delicate matter of majority voting. While there has been a steady increase in the number of questions that the Council of Ministers can decide by a simple majority, voting on sensitive issues is weighted heavily in favour of the big powers. With only 27 votes needed to stop a radical proposal in its tracks, any three of the core powers (France, Germany, Italy, Spain and the UK) acting together can impose their views. Unanimous agreement is needed to push through changes in taxation. Attempts to introduce a fairer system closer to one country one vote have been frustrated by those who have, or think they have, most to lose. With a fear amounting to paranoia, the Eurosceptic persuasion protests against any move that might put their own country at the mercy of others ganging up against them. The fear is most pronounced in the leading powers where politicians imagine having to face up to an alliance of smaller countries, a prospect that grows more nightmarish with every step towards EU enlargement.

But the risk of this actually happening is remote. As Dick Benshop, the Dutch foreign minister in charge of European affairs, points out, 'We are not linked to any fixed coalition. As neighbours of the big powers we are used to co-operating with them. At the same time we have interests in common with, say, the Nordic countries, particularly on matters like open government and the quality of the environment.' It is not hard to find differences that cut across assumed alliances. The ambivalent attitude to EU enlargement in Ireland and Portugal may not be altogether disassociated with a worry that once the Czech Republic, Latvia, Lithuania and the rest have joined the club, the bulk of Brussels funding may switch from west to east. That smaller states will always see eye to eye is no more likely than a permanent division between the interests of little and large.

The EU has much to gain by taking more notice of those countries where the concept of a participating democracy is furthest advanced, countries like the Netherlands, Denmark and Sweden. 'In Denmark,' says Claus Larsen-Jensen, Chairman of the Parliamentary European Committee, 'the link between government and the voters is only a phone call away.' It is from Denmark that the Brussels establishment might learn a thing or two about the appropriate balance between the affairs that may be safely ascribed to central decision making and those that are more appropriate to national or regional governments.

When the Danes decided against the Euro it was widely assumed, particularly in Britain where a referendum on the common currency is in prospect, that an anti-Euro vote had to be also anti EU. Not true. The Danes are enthusiastic Europeans; in a recent poll, there was 80 per cent approval for remaining part of the EU and, more significantly, an assumption by 60 per cent of the sample that Denmark would be part of Euro-land within five years. Apart from the tendency towards muscle diplomacy, what seems to count against Brussels is lack of communication (that old problem of bureaucratic secrecy again) and the reluctance of politicians to admit the connection between economics and politics. The lesson of the Danish referendum is that there can be little progress towards European integration until democracy is given a chance. A good start would be for the big powers to think and talk less about national interests and more about the grand vision of a Europe that combines individual liberty, economic opportunity, a commitment to social welfare and a real sense of community.

THE UNITED NATIONS (UN)

Origin and Aims. The United Nations is an association of states which have pledged themselves to maintain international peace and security and co-operate in solving international political, economic, social, cultural and humanitarian problems towards achieving this end. The name 'United Nations' was devised by United States President Franklin D. Roosevelt and was first used in the Declaration by United Nations of 1 Jan. 1942, during the Second World War, when representatives of 26 nations pledged their Governments to continue fighting together against the Axis Powers.

The United Nations Charter, the constituting instrument of the UN, was drawn up by the representatives of 50 countries at the United Nations Conference on International Organization, which met in San Francisco from 25 April to 26 June 1945. Those delegates deliberated on the basis of proposals worked out by the representatives of China, the Soviet Union, the United Kingdom and the United States at Dumbarton Oaks (Washington, D.C.) from 21 Aug. to 28 Sept. 1944. The Charter was signed on 26 June 1945 by the representatives of the 50 countries. Poland, which was not represented at the Conference, signed it later and became one of the original 51 member states. Nothing contained in the Charter authorizes the organization to intervene in matters which are essentially within the domestic jurisdiction of any state.

The United Nations officially came into existence on 24 Oct. 1945, with the deposit of the requisite number of ratifications of the Charter with the US Department of State. United Nations Day is celebrated on 24 Oct. each year.

Over the past five decades, international co-operation has brought advances in every area of the United Nations Charter but the post-cold war era brings new challenges to the UN. Peacekeeping operations, for which demand has increased sharply, now operate under greatly expanded mandates in response to the bitter conflicts which menace societies from within. Today, 80% of the UN's work is devoted to helping developing countries build the capacity to help themselves. This includes promoting the creation of independent and democratic societies, which it is hoped will offer vital support for the Charter's goals in the 21st century; the protection of human rights; saving children from starvation and disease; providing relief assistance to refugees and disaster victims; countering global crime, drugs and disease; and assisting countries devastated by war and the long-term threat of landmines.

Members. Membership is open to all peace-loving nations which accept the obligations of the Charter and, in the judgement of the Organization, are willing and able to carry them out. New member states are admitted by the General Assembly on the recommendation of the Security Council. The Charter provides for the suspension or expulsion of a member for violation of its principles, but no such action has ever been taken. It has 189 member states. (For a list of these, see below.)

Finance. Assessments on member states constitute the main source of funds. These are in accordance with a scale specified by the Assembly, and determined primarily by the country's share of the world economy and ability to pay, in the range 25%–0.001%. The Organization is prohibited by law from borrowing from commercial institutions.

A Working Group on the Financial Situation of the United Nations was established in 1994 to address the long-standing financial crisis which has come about because of the non-payment of assessed dues by many member states, severely threatening the Organization's ability to fulfil its mandates. Member states owed the UN a total of US\$2,530,474,876 as of 30 June 1999, including

US\$915,215,293 in unpaid regular budget assessments. The USA owed US\$1,637,587,361.

Official languages. Arabic, Chinese, English, French, Russian and Spanish.

Structure. The UN has six principal organs established by the founding Charter. All have their headquarters in New York except the International Court of Justice, which has its seat in The Hague. These core bodies work through dozens of related agencies, operational programmes and funds, and through special agreements with separate, autonomous, intergovernmental agencies, known as Specialized Agencies, in order to provide an increasingly cohesive programme of action in the fields of peace and security, justice and human rights, humanitarian assistance, and social and economic development. The six principal UN organs are as follows:

1. **The General Assembly**, composed of all members, is the main deliberative body; each member has 1 vote. It meets once a year, commencing on the first Tuesday following 1 Sept., and the general debate is organized over a period of 2 weeks, beginning the 3rd week of Sept. (The 55th Session opened on 6 Sept. 2000.)

At the start of each session, the Assembly elects a new President, 21 vice-presidents and the chairmen of its six main committees, listed below. To ensure equitable geographical representation, the presidency of the Assembly rotates each year among the five geographical groups of states: African, Asian, Eastern European, Latin American, and Western European and other States. Special sessions may be convoked by the Secretary-General if requested by the Security Council, by a majority of members, or by 1 member if the majority of the members concur. Emergency sessions may be called within 24 hours at the request of the Security Council on the vote of any 9 Council members, or a majority of United Nations members, or 1 member if the majority of members concur. Decisions on important questions, such as peace and security, new membership and budgetary matters, require a two-thirds majority; other questions require a simple majority of members present and voting.

The work of the General Assembly is divided between 6 Main Committees, on which every member state is represented. These are: Disarmament and International Security Committee (First Committee); Economic and Financial Committee (Second Committee); Social, Humanitarian and Cultural Committee (Third Committee); Special Political and Decolonization Committee (Fourth Committee); Administrative and Budgetary Committee (Fifth Committee); Legal Committee (Sixth Committee).

There is also a General Committee charged with the task of co-ordinating the proceedings of the Assembly and its Committees, and a Credentials Committee. The General Committee consists of 28 members: the president and 21 vice-presidents of the General Assembly and the chairmen of the 6 main committees. The Credentials Committee consists of 9 members appointed by the Assembly on the proposal of the President at each session. In addition, the Assembly has 2 standing committees—an Advisory Committee on Administrative and Budgetary Questions, and a Committee on Contributions; and may establish subsidiary and *ad hoc* bodies when necessary to deal with specific matters. These include: Special Committee on Peacekeeping Operations (34 members), Human Rights Committee (18 members), Committee on the Peaceful Uses of Outer Space (61 members), Conciliation Commission for Palestine (3 members), Conference on Disarmament (38 members), International Law Commission (34 members), Scientific Committee on the Effects of Atomic Radiation (21 members), Special Committee on the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples (25 members), and Commission on International Trade Law (36 members).

The General Assembly has the right to discuss any matters within the scope of the Charter and, with the exception of any situation or dispute on the agenda of the Security Council, may make recommendations on any such questions or matters. While it has no power to compel action by any Government, its recommendations are seen to carry the weight of world opinion. Occupying a central position in the UN, the Assembly receives reports from other organs, admits new members, directs

activities for development, sets policies and determines programmes for the Secretariat, appoints the Secretary-General, who reports annually to it on the work of the Organization, and approves the UN budget.

Under the 'Uniting For Peace' resolution adopted by the General Assembly in Nov. 1950, the Assembly is also empowered to take action if the Security Council, because of a lack of unanimity of its permanent members, fails to exercise its primary responsibility for the maintenance of international peace and security in any case where there appears to be a threat to the peace, breach of the peace or act of aggression. In this event, the General Assembly may consider the matter immediately with a view to making appropriate recommendations to members for collective measures, including, in the case of a breach of the peace or act of aggression, the use of armed force when necessary, to maintain or restore international peace and security.

2. The Security Council has primary responsibility, under the Charter, for the maintenance of international peace and security. It is so organized as to be able to function continuously. A representative of each of its members must be present at all times at UN Headquarters, but it may meet elsewhere as best facilitates its work.

The Presidency of the Council rotates monthly, according to the English alphabetical order of members' names. The Council consists of 15 members: 5 permanent and 10 non-permanent elected for a 2-year term by a two-thirds majority of the General Assembly. Each member has 1 vote. Retiring members are not eligible for immediate re-election. Any other member of the United Nations may participate without a vote in the discussion of questions specially affecting its interests.

Decisions on procedural questions are made by an affirmative vote of at least 9 members. On all other matters, the affirmative vote of 9 members must include the concurring votes of all permanent members (subject to the provision that when the Council is considering methods for the peaceful settlement of a dispute, parties to the dispute abstain from voting). Consequently, a negative vote from a permanent member has the power of veto, and all five permanent members have exercised this right at one time or other. If a permanent member does not support a decision but does not wish to veto it, it may abstain. Under the Charter, the Security Council alone has the power to take decisions which member states are obligated to carry out.

The Council has 2 standing committees at present—the Committee of Experts on Rules of Procedure and the Committee on the Admission of New Members. In addition, as needed, it may establish *ad hoc* committees and commissions, such as the Committee on Council Meetings away from Headquarters.

When a threat to peace is brought before the Council, its first action is usually to recommend to the parties agreement by peaceful means. It may undertake mediation and set forth principles for a settlement, and may take measures to enforce its decisions by ceasefire directives, economic sanctions, peacekeeping missions, or in some cases, by collective military action. For the maintenance of international peace and security, the Council can, in accordance with special agreements to be concluded, call on the armed forces, assistance and facilities of the member states. It is assisted by a Military Staff Committee consisting of the Chiefs of Staff of the permanent members of the Council or their representatives.

The Council also makes recommendations to the Assembly on the appointment of the Secretary-General and, with the Assembly, elects the judges of the International Court.

Permanent Members. China, France, Russian Federation, UK, USA (Russian Federation took over the seat of the former USSR in Dec. 1991).

Non-Permanent Members. Bangladesh, Jamaica, Mali, Tunisia, Ukraine (until 31 Dec. 2001); Colombia, Ireland, Mauritius, Norway and Singapore (until 31 Dec. 2002).

Finance. The total cost of all UN peacekeeping operations in 1999 was anticipated to be US\$650m., down from more than US\$3bn. in 1994. In June 1999 the UN was owed US\$1.55bn. in current and back peacekeeping dues.

3. The Economic and Social Council (ECOSOC) is responsible under the General Assembly for co-ordinating the functions of the UN with regard to international economic, social, cultural, educational, health and related matters. The year-round work of the Council is carried out by related organizations, specialized agencies, and subsidiary bodies, commissions and committees, which meet regularly and report back to it.

It consists of 54 member states elected by a two-thirds majority of the General Assembly for a 3-year term. Members are elected according to the following geographic distribution: Africa, 14 members; Asia, 11; Eastern Europe, 6; Latin America and Caribbean, 10; Western Europe and other States, 13. A third of the members retire each year. Retiring members are eligible for immediate re-election. Each member has 1 vote. Decisions are made by a majority of the members present and voting.

The Council holds one 5-week substantive session a year, alternating between New York and Geneva, and one organizational session in New York. The substantive session includes a high-level special meeting attended by Ministers, to discuss major economic and social issues. Special sessions may be held if required. The President is elected for 1 year and is eligible for immediate re-election.

The subsidiary machinery of ECOSOC is as follows:

Nine Functional Commissions. Statistical Commission; Commission on Population and Development; Commission for Social Development; Commission on Human Rights (and Subcommittee on Prevention of Discrimination and Protection of Minorities); Commission on the Status of Women; Commission on Narcotic Drugs (and Subcommittee on Illicit Drug Traffic and Related Matters in the Near and Middle East); Commission on Science and Technology for Development; Commission on Crime Prevention and Criminal Justice; Commission on Sustainable Development.

Five Regional Economic Commissions. ECA (Economic Commission for Africa, Addis Ababa, Ethiopia); ESCAP (Economic and Social Commission for Asia and the Pacific, Bangkok); ECE (Economic Commission for Europe, Geneva); ECLAC (Economic Commission for Latin America and the Caribbean, Santiago, Chile); ESCWA (Economic Commission for Western Asia, Amman, Jordan).

Nine Standing Committees and Subsidiary Expert Bodies. Committee for Programme and Co-ordination; Commission on Human Settlements; Committee on Non-Governmental Organizations; Committee on Natural Resources; Committee for Development Planning; Committee on Economic, Social and Cultural Rights; Committee on New and Renewable Sources of Energy and on Energy for Development; Ad Hoc Group of Experts on International Co-operation in Tax Matters; Committee of Experts on the Transport of Dangerous Goods.

Other related operational programmes, funds and special bodies, which report to ECOSOC (and/or the General Assembly) include: the United Nations Children's Fund (UNICEF); Office of the United Nations High Commissioner for Refugees (UNHCR); United Nations Conference on Trade and Development (UNCTAD); United Nations Development Programme (UNDP) and Population Fund (UNFPA); United Nations Environment Programme (UNEP); World Food Programme (WFP); International Research and Training Institute for the Advancement of Women (INSTRAW); United Nations International Drug Control Programme (UNDCP).

In addition, the Council may make arrangements for consultation with international non-governmental organizations (NGOs) and, after consultation with the member concerned, with national organizations. There are over 1,500 non-governmental organizations which have consultative status with the Council. Non-governmental organizations may send observers to the Council's public meetings and those of its subsidiary bodies, and may submit written statements relevant to its work. They may also consult with the UN Secretariat on matters of mutual concern. The term of office of the members listed below expires on 31 Dec. of the year mentioned after the country.

Members. Andorra (2003), Angola (2002), Argentina (2003), Austria (2002), Bahrain (2002), Benin (2002), Bolivia (2001), Brazil (2003), Bulgaria (2001), Burkina Faso (2002), Cameroon (2002), Canada (2001), China (2001), Congo, Democratic Republic of (2001), Costa Rica (2002), Croatia (2002), Cuba (2002), Czech Republic (2001), Denmark (2001), Egypt (2003), Ethiopia (2003), Fiji Islands (2002), France (2002), Georgia (2003), Germany (2002), Greece (2002), Guinea-Bissau (2001), Honduras (2001), Indonesia (2001), Iran (2003), Italy (2003), Japan (2002), South Korea (2003), Mexico (2002), Morocco (2001), Nepal (2003), Netherlands (2003), Nigeria (2003), Norway (2001), Pakistan (2003), Peru (2003), Portugal (2002), Romania (2003), Russia (2001), Rwanda (2001), Saudi Arabia (2001), South Africa (2003), Sudan (2002), Suriname (2002), Syria (2001), Uganda (2003), United Kingdom (2001), USA (2003), Venezuela (2001).

Finance. The UN has US\$6,300m. a year to spend on economic and social development.

4. **The Trusteeship Council** was established to ensure that Governments responsible for administering Trust Territories take adequate steps to prepare them for self-government or independence. It consists of five permanent members of the Security Council. The task of decolonization was completed in 1994, when the Security Council terminated the Trusteeship Agreement for the last of the original UN Trusteeships (Palau), administered by the USA. All Trust Territories attained self-government or independence either as separate States or by joining neighbouring independent countries. The Council formally suspended operations on 1 Nov. 1994 following Palau's independence.

The proposal from UN Secretary-General Kofi Annan, in the second part of his reform programme, in July 1997, is that it should be used as a forum to exercise their 'trusteeship' for the global commons, environment and resource systems.

Members. China, France, Russia, UK, USA.

5. **The International Court of Justice** is the principal judicial organ of the UN. It has a dual role: to settle in accordance with international law the legal disputes submitted to it by States; and to give advisory opinion on legal questions referred to it by duly authorized international organs and agencies.

It operates under a Statute, which is an integral part of the United Nations Charter. All UN members are *ipso facto* parties to the Statute of the Court. Switzerland, although not a member of the UN, is a party to the Statute. The Court is composed of 15 judges, each of a different nationality elected with an absolute majority to 9-year terms of office by both the General Assembly and the Security Council. The composition of the Court must also reflect the main forms of civilization and principal legal systems of the world. Elections are held every 3 years for one-third of the seats, and retiring judges may be re-elected. Members do not represent their respective governments but sit as independent magistrates in the Court, and must possess the qualifications required in their respective countries for appointment to the highest judicial offices, or be jurists of recognized competence in international law.

Candidates are nominated by the national panels of jurists in the Permanent Court of Arbitration established by the Hague Conventions of 1899 and 1907. The Court elects its own President and Vice-President for a 3-year term, and is permanently in session.

Decisions are taken by a majority of judges present, subject to a quorum of 9 members, with the President having a casting vote. Judgement is final and without appeal, but a revision may be applied for within 10 years from the date of the judgement on the ground of a new decisive factor. When the Court does not include a judge possessing the nationality of a State party to a case, that State has the right to appoint a person to sit as judge *ad hoc* for that case, on equal terms with Members.

While the Court normally sits in plenary session, it can form chambers of 3 or more judges to deal with specific matters. Judgements by chambers are considered as rendered by the full Court. In 1993, in view of the global expansion of environmental law and protection, the Court formed a 7-member Chamber for Environmental Matters.

Judges. The 9-year terms of office of the judges currently serving end on 5 Feb. of the year indicated next to their name: Gilbert Guillaume, President (France) (2009), Shi Jiuyong, Vice-President (China) (2003), Carl-August Fleischhauer (Germany) (2003), Géza Herczegh (Hungary) (2003), Abdul G. Koroma (Sierra Leone) (2003), Shigeru Oda (Japan) (2003), Mohammed Bedjaoui (Algeria) (2006), Thomas Buergenthal (USA) (2006), Pieter H. Kooijmans (Netherlands) (2006), José F. Rezek (Brazil) (2006), Vladlen S. Vereshchetin (Russian Federation) (2006), Awn Shawkat Al-Khasawneh (Jordan) (2009), Rosalyn Higgins (UK) (2009), Gonzalo Parra-Aranguren (Venezuela) (2009), Raymond Ranjeva (Madagascar) (2009).

Competence and Jurisdiction. In contentious cases, only States may apply to or appear before the Court, which is open only to parties to its Statute, which automatically includes all Members of the UN. The conditions under which the Court will be open to other states are laid down by the Security Council. The jurisdiction of the Court covers all matters which parties refer to it, and all matters provided for in the Charter or in treaties and conventions in force. Disputes concerning the jurisdiction of the Court are settled by the Court's own decision. The Court may apply in its decision:

- (a) international conventions;
- (b) international custom;
- (c) the general principles of law recognized by civilized nations;
- (d) as subsidiary means for the determination of the rules of law, judicial decisions and the teachings of highly qualified publicists. If the parties agree, the Court may decide a case *ex aequo et bono*.

Since 1946 the Court has delivered 71 judgements on disputes concerning *inter alia* land frontiers and maritime boundaries, territorial sovereignty, the non-use of force, non-interference in the internal affairs of States, diplomatic relations, hostage-taking, the right of asylum, nationality, guardianship, rights of passage and economic rights.

The Court may also give advisory opinions on legal questions to the General Assembly, the Security Council, certain other organs of the UN and 16 specialized agencies of the UN family.

Since 1946 the Court has given 23 advisory opinions, concerning *inter alia* admission to United Nations membership, reparation for injuries suffered in the service of the United Nations, territorial status of South-West Africa (Namibia) and Western Sahara, judgements rendered by international administrative tribunals, expenses of certain United Nations operations, the applicability of the United Nations Headquarters Agreement, the status of human rights informers and the threat or use of nuclear weapons.

Finance. The expenses of the Court are borne by the UN. No court fees are paid by parties to the Statute.

6. The Secretariat services the other 5 organs of the UN, administering their programmes and carrying out the Organization's day-to-day work with its increasingly streamlined staff of some 8,900 at the UN Headquarters in New York and all over the world.

At its head is the Secretary-General, appointed by the General Assembly on the recommendation of the Security Council for a 5-year, renewable term. The Secretary-General acts as chief administrative officer in all meetings of the General Assembly, Security Council, Economic and Social Council and Trusteeship Council. An Office of Internal Oversight, established in 1994 under the tenure of former Secretary-General Boutros Boutros-Ghali (Egypt), pursues a cost-saving mandate to investigate and eliminate waste, fraud and mismanagement within the system. The Secretary-General is assisted by Under-Secretaries-General and Assistant Secretaries-General. A new appointment of Deputy Secretary-General was agreed in principle by the General Assembly in 1997 and was announced in Jan. 1998.

INTERNATIONAL ORGANIZATIONS

A Quiet Revolution. The agenda of the UN's 52nd General Assembly (1997) was dominated by the Secretary-General's reform plans to make the UN leaner, more efficient and more effective, cutting administrative costs by as much as a third by 2000. Initiatives included the rationalization and consolidation of the UN's bureaucratic machinery by merging overlapping programmes and departments, and streamlining management, in an attempt to shift resources from administration to development work for the poorest nations. The proposals included the establishment of a new, less-personal, cabinet-style administration; the appointment of a Deputy Secretary-General; and a Millennium Assembly in 2000 with a companion People's Assembly to focus on defining the UN's role for the 21st century.

Finance. The Secretariat had a budget of US\$2,535,689,200 for the 2-year period 2000–01. This represented over US\$320m. in savings achieved through efficiency gains and a 25% cut in staff (from a 1984 high of more than 12,000 to 8,900 by 1998).

UNIVERSAL DECLARATION OF HUMAN RIGHTS

On 10 Dec. 1948 the General Assembly of the United Nations adopted and proclaimed the Universal Declaration of Human Rights.

Preamble

Whereas recognition of the inherent dignity and of the equal and inalienable rights of all members of the human family is the foundation of freedom, justice and peace in the world,

Whereas disregard and contempt for human rights have resulted in barbarous acts which have outraged the conscience of mankind, and the advent of a world in which human beings shall enjoy freedom of speech and belief and freedom from fear and want has been proclaimed as the highest aspiration of the common people,

Whereas it is essential, if man is not to be compelled to have recourse, as a last resort, to rebellion against tyranny and oppression, that human rights should be protected by the rule of law,

Whereas it is essential to promote the development of friendly relations between nations,

Whereas the peoples of the United Nations have in the Charter reaffirmed their faith in fundamental human rights, in the dignity and worth of the human person and in the equal rights of men and women and have determined to promote social progress and better standards of life in larger freedom,

Whereas Member States have pledged themselves to achieve, in co-operation with the United Nations, the promotion of universal respect for and observance of human rights and fundamental freedoms,

Whereas a common understanding of these rights and freedoms is of the greatest importance for the full realization of this pledge,

Now, Therefore THE GENERAL ASSEMBLY proclaims THIS UNIVERSAL DECLARATION OF HUMAN RIGHTS as a common standard of achievement for all peoples and all nations, to the end that every individual and every organ of society, keeping this Declaration constantly in mind, shall strive by teaching and education to promote respect for these rights and freedoms and by progressive measures, national and international, to secure their universal and effective recognition and observance, both among the peoples of Member States themselves and among the peoples of territories under their jurisdiction.

COMPREHENSIVE NUCLEAR-TEST-BAN TREATY

The Comprehensive Nuclear-Test-Ban Treaty (CTBT) prohibits any nuclear weapon test explosion or any other nuclear explosion anywhere in the world. UNITED NATIONS SYSTEM

Operational Programmes and Funds. The total operating expenses for the entire UN system, including the World Bank, IMF and all the UN funds, programmes and specialized agencies, come to US\$18,200m. a year. Some 53,300 people work in the UN system, which includes the Secretariat and 28 other organizations.

Social and economic development, aimed at achieving a better life for people everywhere, is a major part of the UN system of organizations. In the forefront of efforts to bring about such progress is the United Nations Development Programme (UNDP), the world's largest agency for multilateral technical and pre-investment co-operation. It is the funding source for most of the technical assistance provided for sustainable human development by the UN system, and in 1997 helped people in 174 countries and territories, supporting some 6,000 projects, which focus on poverty elimination, environmental regeneration, job creation and the advancement of women.

UNDP assistance is provided only at the request of governments and in response to their priority needs, integrated into overall national and regional plans. Its activities are funded mainly by voluntary contributions outside the regular UN budget. 87% of the UNDP's core programme funds go to countries with an annual per capita GNP of US\$750 or less, which are home to 90% of the world's poorest peoples. Headquartered in New York, the UNDP is governed by a 36-member Executive Board, representing both developing and developed countries.

Administrator: Mark Malloch Brown (UK).

UN development programmes include the *United Nations Children's Fund (UNICEF)*. Established in 1946 to deliver post-war relief to children, UNICEF now concentrates its assistance on development activities aimed at improving the quality of life for children and mothers in developing countries. Working in some 150 countries, its programmes focus on immunization, primary healthcare, nutrition and basic education. *The State of the World's Children Report*, published annually by UNICEF, has helped to spread acceptance by local and national leaders of a strategy for child health and nutrition which UNICEF estimates could save the lives of 7m. children. UNICEF has focused on popularizing 4 primary healthcare techniques which are low in cost and produce results in a relatively short time. These include: oral rehydration therapy to fight the effects of diarrhoeal infections, which kill some 4m. children each year; expanded immunization against the 6 most common childhood diseases; child growth monitoring; and promotion of breastfeeding. UNICEF works closely with the World Health Organization (WHO), providing training, equipment and the services of healthcare professionals. It is the world's largest supplier of oral rehydration salts and vaccines, and of the 'cold chain' equipment needed to deliver them.

Executive Director: Carol Bellamy (USA).

The *UN Population Fund (UNFPA)*, established in 1969, carries out development programmes in over 130 countries and territories, and is the largest international provider of population assistance to developing countries. In 1996 it provided support to 168 countries. The Fund's aims are to build up capacity to respond to needs in population and family planning; to promote awareness of population problems in both developed and developing countries and possible strategies to deal with them; to assist developing countries at their request in dealing with population problems.

The Fund provides assistance for sustainable reproductive healthcare and family planning; for population data collection, analysis and demographic research; and for population policy formulation, as well as for special programme interests, such as gender issues, ageing and HIV/AIDS. In addition, it provides most of the funding for the *United Nations Population Information Network (POPIN)*, a decentralized community of population institutions, whose objectives are to identify, establish, strengthen and co-ordinate information activities at international, national and regional levels; and to facilitate the availability and exchange of population information and related issues. *UNFPA's State of the World Population Report* is published annually.

Executive Director: Dr Nafis Sadik (Pakistan).

The UN Environment Programme (UNEP), established in 1972, works to encourage sustainable development through sound environmental practices everywhere. Its activities cover a wide range of issues, from atmosphere and terrestrial ecosystems, to the promotion of environmental science and information, to an early warning and emergency response capacity to deal with environmental disasters and emergencies. UNEP's present priorities include: environmental information, assessment and research; enhanced coordination of environmental conventions and development of policy instruments; fresh water; technology transfer and industry; and support to Africa. Information networks and monitoring systems established by the UNEP include: the Global Environment Information Exchange Network (INFOTERRA); Global Resource Information Database (GRID); the International Register of Potentially Toxic Chemicals (IRPTC); and the recent UNEP.net, a web-based interactive catalogue and multifaceted portal that offers access to environmentally relevant geographic, textual and pictorial information. UNEP.net is being developed in partnership with the Environment Systems Research Institute (ESRI) and National Geographic. In June 2000 the World Conservation and Monitoring Centre (WCMC) based in Cambridge, UK became UNEP's key biodiversity assessment centre. UNEP's latest state-of-the-environment report is the *Global Environment Outlook 2000 (GEO 2000)*. GEO 3 will be published in 2002.

Executive Director: Klaus Töpfer (Germany).

Other UN programmes working for development include: the *UN Conference on Trade and Development (UNCTAD)*, which promotes international trade, particularly by developing countries, in an attempt to increase their participation in the global economy; and the *World Food Programme (WFP)*, the world's largest international food aid organization, which is dedicated to both emergency relief and development programmes.

The *UN Centre for Human Settlements (Habitat)*, which assists over 600m. people living in health-threatening housing conditions, was established in 1978. The 58-member *UN Commission on Human Settlements (UNCHS)*, Habitat's governing body, meets every 2 years. The Centre serves as the focal point for human settlements action and the co-ordination of activities within the UN system.

In addition to its regular programmes, the UNDP administers various special-purpose funds, such as the *UN Capital Development Fund (UNCDP)*, a multilateral donor agency working to develop new solutions for poverty reduction in the least developed countries, the *United Nations Volunteers (UNV)* and the *UN Development Fund for Women (UNIFEM)*, whose mission is the empowerment of women and gender equality in all levels of development planning and practice. Its 3 areas of immediate concern are: strengthening women's economic capacity; engendering governance and leadership; and promoting women's rights. Together with the World Bank and UNEP, the UNDP is one of the managing partners of the Global Environment Facility (GEF), a US\$2,000m. fund to help countries translate global concerns into national action so as to help fight ozone depletion, global warming, loss of biodiversity and pollution of international waters. The UNDP is also one of 6 UN sponsors of a global programme on HIV/AIDS.

The United Nations Development Programme has a network of 134 country offices. At country level, it is responsible for all UN development activity. The head of each country office acts as Resident Co-ordinator for UNDP.

The *United Nations International Drug Control Programme (UNDCP)*, established in 1991 and headquartered in Vienna, has 23 field offices around the world. UNDCP spearheads international efforts at fighting drug abuse and trafficking. Its annual total budget is in the region of US\$80m. At the core of its activities are 3 internationally agreed conventions (treaties) on policy. The Commission on Narcotic Drugs, the body which oversees UNDCP, meets once a year. UNDCP is now an integral part of the UN Office for Drug Control and Crime Prevention (ODCCP), together with the Centre for International Crime Prevention (CICP). Collaborating with UNDCP is the International Narcotics Control Board (INCB), an independent and quasi-judicial control organ (established in 1968) for the implementation of UN drug conventions.

Executive Director: Pino Arlacchi (Italy).

The UN work in crime prevention and criminal justice aims to lessen the human and material costs of crime and its impact on socio-economic development. The UN Congress on the Prevention of Crime and Treatment of Offenders has convened every 5 years since 1955 and provides a forum for the presentation of policies and progress. The Ninth Congress (Cairo, 1995) also reviewed practical measures aimed at combating corruption among public officials. The *Commission on Crime Prevention and Criminal Justice*, a functional body of ECOSOC, established in 1992, seeks to strengthen UN activities in the field, and meets annually in Vienna. The interregional research and training arm of the UN crime and criminal justice programme is the *United Nations Interregional Crime and Justice Research Institute (UNICRI)* in Rome. An autonomous body, it seeks through action-oriented research to contribute to the formulation of improved policies in crime prevention and control.

Humanitarian assistance to refugees and victims of natural and man-made disasters is also an important function of the UN system. The main refugee organizations within the system are the *Office of the United Nations High Commissioner for Refugees (UNHCR)* and the *United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA)*.

UNHCR, created in 1951, was charged primarily with resettling 1.2m. European refugees left homeless in the aftermath of the Second World War, and was envisioned as a temporary office with a projected lifespan of 3 years. Today, with more than 22.3m. people in over 150 countries under its concern, it has become one of the world's principal humanitarian agencies. Headquartered in Geneva, its Executive Committee comprises 57 member states. It has offices in 120 countries, with a staff of 5,203, and has twice been awarded the Nobel Peace Prize. The High Commissioner is elected by and reports annually to the UN General Assembly, the latter through ECOSOC.

The work of UNHCR is humanitarian and non-political. International protection is its primary function. Its main objective is to promote and safeguard the rights and interests of refugees. In so doing UNHCR devotes special attention to promoting a generous policy of asylum on the part of Governments and seeks to improve the legal status of refugees in their country of residence. Crucial to this status is the principle of *non-refoulement*, which prohibits the expulsion from or forcible return of refugees to a country where they may have reason to fear persecution. UNHCR pursues its objectives in the field of protection by encouraging the conclusion of intergovernmental legal instruments in favour of refugees, by supervising the implementation of their provisions and by encouraging Governments to adopt legislation and administrative procedures for the benefit of refugees. UNHCR is often called upon to provide material assistance (i.e. the provision of food, shelter, medical care and essential supplies) while durable solutions are being sought. Durable solutions generally take one of 3 forms: voluntary repatriation, local integration or resettlement in another country.

UNHCR works in tandem with governmental and non-governmental organizations, and within the UN framework its closest partnership is with the World Food Programme. Other partners include UNICEF, WHO, UNDP and the Office for the Coordination of Humanitarian Affairs. The Red Cross (ICRC and IFRC) and the International Organization for Migration (IOM) are also close allies. Financial institutions such as the World Bank are also likely to increase their involvement with UNHCR in addressing the social and economic conditions underlying many refugee movements. At present, UNHCR is funded almost entirely by voluntary contributions. UNHCR expenditure amounted to approximately US\$1,000m. in 2000.

High Commissioner: Ruud Lubbers (Netherlands).

UNRWA was created by the General Assembly in 1949 as a temporary, non-political agency to provide relief to the nearly 750,000 people who became refugees as a result of the disturbances during and after the creation of the State of Israel in the former British Mandate territory of Palestine. 'Palestine refugees', as defined by UNRWA's mandate, are persons or descendants of persons whose normal residence was Palestine for at least 2 years prior to the 1948 conflict and who, as a result of the conflict, lost their homes and means of livelihood. UNRWA has also been called upon to help persons displaced by renewed hostilities in the Middle East in 1967. The situation of Palestine refugees in south Lebanon, affected in the aftermath of the 1982 Israeli invasion of Lebanon, was of special concern to the Agency in 1984. Over 2m. refugees are registered with UNRWA. Education and basic healthcare account for over 80% of the Agency's budget, financed by voluntary contributions from Governments. Its mandate is renewed at intervals by the UN General Assembly.

The UN's activities in the field of human rights are the primary responsibility of the *High Commissioner for Human Rights*, a post established in 1993 under the direction and authority of the Secretary-General and currently held by Mary Robinson (Ireland). The High Commissioner is nominated by the Secretary-General for a 4-year term, renewable once. The principal co-ordinating human rights organ of the UN is the *Commission on Human Rights*, set up by ECOSOC in 1946. It has 53 members elected for 3-year terms, meets for 6 weeks in Geneva each year, and is aided in its task by a Subcommission on Prevention of Discrimination and Protection of Minorities, composed of 26 experts from all over the world. The

implementation of international human rights treaties is monitored by 6 committees (also called treaty bodies): the Human Rights Committee; the Committee against Torture; Committee on the Rights of the Child; Committee on Economic, Cultural and Social Rights; Committee on the Elimination of Racial Discrimination; Committee on Elimination of Discrimination against Women.

Training and Research Institutes. There are 6 training and research institutes within the UN, all of them autonomous.

United Nations Institute for Training and Research (UNITAR). Established in 1965 to enhance the effectiveness of the UN in achieving its major objectives. Recently, its focus has shifted to training, with basic research being conducted only if extra-budgetary funds can be made available. Training is provided at various levels for personnel on assignments under the UN, its specialized agencies or related organizations. By mid-2000 almost 47,000 participants from 200 countries had attended UNITAR courses, seminars or workshops.

Address: Palais des Nations, 1211 Geneva 10, Switzerland.

United Nations Institute for Disarmament Research (UNIDIR). Established by the General Assembly in 1980 to undertake research on disarmament and related problems, particularly international security issues, its programme is reviewed annually subject to approval by its Board of Trustees, and its Director reports to the General Assembly.

Address: Palais des Nations, 1211 Geneva 10, Switzerland.

United Nations Research Institute for Social Development (UNRISD). Established in 1963 to conduct multidisciplinary research into the social dimensions of contemporary problems affecting development, it aims to provide governments, development agencies, grassroots organizations and scholars with a better understanding of how development policies and processes of economic, social and environmental change affect different social groups.

Address: Palais des Nations, 1211 Geneva 10, Switzerland.

United Nations International Research and Training Institute for the Advancement of Women (INSTRAW). Established by ECOSOC and endorsed by the General Assembly in 1976, INSTRAW provides training, conducts research, and collects and disseminates information to stimulate and assist women's advancement and integration into the development progress. Its 11-member Board of Trustees, which reports to ECOSOC, meets annually to review its programme and to formulate the principles and guidelines for INSTRAW's activities.

Address: POB 21747, Santo Domingo, Dominican Republic.

United Nations University (UNU). Sponsored jointly by the UN and UNESCO, UNU is guaranteed academic freedom by a charter approved by the General Assembly in 1973. It is governed by a 28-member Council of scholars and scientists, of whom 24 are appointed by the Secretary-General of the UN and the Director-General of UNESCO. Not traditional in the sense of having students and awarding degrees, it works through networks of collaborating institutions and individuals to undertake multidisciplinary research on problems of human survival, development and welfare; and to strengthen research and training capabilities in developing countries. It also provides postgraduate fellowships to scholars and scientists from developing countries. The University focuses its work within two programme areas: peace and governance, and environment and sustainable development.

Address: 53-70 Jingumae 5-chome, Shibuya-ku, Tokyo 150-8925, Japan.

University for Peace. Founded in 1980 to conduct research on, *inter alia*, disarmament, mediation, the resolution of conflicts, preservation of the environment, international relations, peace education and human rights. The University has a European centre in Belgrade.

Address: POB 138, Ciudad Colon, Costa Rica.

Information. *The UN Statistics Division* in New York provides a wide range of statistical outputs and services for producers and users of statistics worldwide, facilitating national and international policy formulation, implementation and

monitoring. It produces printed publications of statistics and statistical methods in the fields of international merchandise trade, national accounts, demography and population, gender, industry, energy, environment, human settlements and disability, as well as general statistics compendiums including the *Statistical Yearbook* and *World Statistics Pocketbook*. Many of its databases are available on CD-ROM, diskette, magnetic tape and the Internet.

SPECIALIZED AGENCIES OF THE UN

The intergovernmental agencies related to the UN by special agreements are separate autonomous organizations which work with the UN and each other through the co-ordinating machinery of the Economic and Social Council. 16 of them are 'Specialized Agencies' within the terms of the UN Charter, and report annually to ECOSOC.

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS (FAO)

Origin. In 1943 the International Conference on Food and Agriculture, at Hot Springs, Virginia, set up an Interim Commission, based in Washington, with a remit to establish an organization. Its Constitution was signed on 16 Oct. 1945 in Quebec City. Today, membership totals 180 countries. The European Union was made a member as a 'regional economic integration organization' in 1991.

Aims and Activities. The aims of FAO are to raise levels of nutrition and standards of living; to improve the production and distribution of all food and agricultural products from farms, forests and fisheries; to improve the living conditions of rural populations; and, by these means, to eliminate hunger. Its priority objectives are to encourage sustainable agriculture and rural development as part of a long-term strategy for the conservation and management of natural resources; and to ensure the availability of adequate food supplies, by maximizing stability in the flow of supplies and securing access to food by the poor.

In carrying out these aims, FAO promotes investment in agriculture, better soil and water management, improved yields of crops and livestock, agricultural research and the transfer of technology to developing countries; and encourages the conservation of natural resources and rational use of fertilizers and pesticides; the development and sustainable utilization of marine and inland fisheries; the sustainable management of forest resources and the combating of animal disease. Technical assistance is provided in all of these fields, and in nutrition, agricultural engineering, agrarian reform, development communications, remote sensing for climate and vegetation, and the prevention of post-harvest food losses. In addition, FAO works to maintain global biodiversity with the emphasis on the genetic diversity of crop plants and domesticated animals; and plays a major role in the collection, analysis and dissemination of information on agricultural production and commodities. Finally, FAO acts as a neutral forum for the discussion of issues, and advises governments on policy, through international conferences like the 1996 World Food Summit in Rome.

Special FAO programmes help countries prepare for, and provide relief in the event of, emergency food situations, in particular through the setting up of food reserves. The *Special Programme for Food Security*, launched in 1994, is designed to assist target countries to increase food production and productivity as rapidly as possible, primarily through the widespread adoption by farmers of available improved production technologies, with the emphasis on high-potential areas. FAO provides support for the global co-ordination of the programme and helps attract funds. The *Emergency Prevention System for Transboundary Animal and Plant Pests and Diseases (EMPRES)*, established in 1994, strengthens FAO's existing contribution to the prevention, control and eradication of diseases and pests, with locusts and rinderpest among its priorities. The *Global Information and Early Warning System* provides current information on the world food situation and identifies countries threatened by shortages to guide potential donors. Together with the UN, FAO sponsors the *World Food Programme (WFP)*.

Finance. The budget for the 2000–01 biennium is US\$650m. FAO's Regular Programme budget, financed by contributions from member governments, covers the cost of its secretariat and Technical Co-operation Programme (TCP), and part of the costs of several special programmes.

The technical assistance programme is funded by extra-budgetary sources. Its single largest contributor is the UN Development Programme (UNDP), which in 1998 accounted for US\$32.7m., or 12% of field project expenditures. Increasingly important are the trust funds that come from donor countries and international financing institutions, totalling some US\$208m., or 75% of technical assistance funds. In 1998 FAO's contribution under its TCP and Special Programme for Food Security was US\$34.7m., or 13%. Its total field programme expenditure for 1998 was an estimated US\$277.5m. In 1998 there were 2,215 field projects in operation: 31% in Africa, 22% in Asia and the Pacific, 11% in Latin America and the Caribbean, 11% in the Near East, 4% in Europe, and 21% interregional or global.

Organization. The FAO Conference, composed of all members, meets every other year to determine policy and approve the FAO's budget and programme. The 49-member Council, elected by the Conference, serves as FAO's governing body between conference sessions. Much of its work is carried out by dozens of regional or specialist commissions, such as the Asia-Pacific Fishery Commission, the European Commission on Agriculture and the Commission on Plant Genetic Resources. The Director-General is elected for a renewable 6-year term.

INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT (IBRD) — THE WORLD BANK

Origin. Conceived at the UN Monetary and Financial Conference at Bretton Woods (New Hampshire, USA) in July 1944, the IBRD, frequently called the World Bank, began operations in June 1946, its purpose being to provide funds, policy guidance and technical assistance to facilitate economic development in its poorer member countries. The Group comprises 4 other organizations (see below).

Activities. The Bank obtains its funds from the following sources: capital paid in by member countries; sales of its own securities; sales of parts of its loans; repayments; and net earnings. A resolution of the Board of Governors of 27 April 1988 provides that the paid-in portion of the shares authorized to be subscribed under it will be 3%.

INTERNATIONAL ORGANIZATIONS

The Bank is self-supporting, raising most of its money on the world's financial markets. In the fiscal year ending 30 June 1997 it achieved a net income of US\$1,285m.; medium- and long-term borrowing equivalent of US\$15,100m. in 18 currencies; average medium- to long-term borrowing costs, after swaps, of 5.01%; financial returns on its investment folio of 5%; a reserves-to-loan ratio of 14%; and decline in its net administrative expenditure in real terms to a figure set at \$1,177m.

The Bank lends in the region of US\$22,000m. a year. At 30 June 1997 it had lent a total of US\$106,000m. to member countries. 89% of borrowers took advantage of the new single-currency loans which became available in June 1996 to provide borrowers with the flexibility to select IBRD loan terms that are consistent with their debt-managing strategy and suited to their debt-servicing capacity. In order to eliminate wasteful overlapping of development assistance and to ensure that the funds available are used to the best possible effect, the Bank has organized consortia or consultative groups of aid-giving nations for many countries. These include Bangladesh, Belarus, Bolivia, Bulgaria, Egypt, Ethiopia, Jordan, Kazakhstan, Kenya, Kyrgyzstan, Macedonia, Malaŵi, Mauritania, Moldova, Mozambique, Nicaragua, Pakistan, Peru, Romania, Sierra Leone, Tanzania, the [Palestinian] West Bank and Gaza Strip, Zambia, Zimbabwe and the Caribbean Group for Co-operation in Economic Development.

For the purposes of its analytical and operational work, in 1996 the IBRD characterized economies as follows: low-income (average annual *per capita* GNP of \$785 or less); middle-income (between \$786 and \$9,635); and high-income (\$9,636 or more).

A wide variety of technical assistance is at the core of IBRD's activities. It acts as executing agency for a number of pre-investment surveys financed by the UN Development Programme. Resident missions have been established in 64 developing member countries and there are regional offices for East and West Africa, the Baltic States and South-East Asia which assist in the preparation and implementation of projects. The Bank maintains a staff college, the *Economic Development Institute* in Washington, D.C., for senior officials of member countries. In 1997 the institute held training workshops on anti-corruption strategies and public integrity in more than 10 countries as part of IBRD's initiative to combat corruption.

The Strategic Compact. Unanimously approved by the Executive Board in March 1997, the Strategic Compact set out a plan for fundamental reform to make the Bank more effective in delivering its regional programme and in achieving its basic mission of reducing poverty. Decentralizing the Bank's relationships with borrower countries is central to the reforms. The effectiveness of devolved country management and the bank's promotion of good governance and anti-corruption measures to developing countries are likely to be key policies of the new strategy.

Organization. As of Dec. 2000 the Bank had 182 members, each with voting power in the institution, based on shareholding which in turn is based on a country's economic growth. The president is selected by the Bank's Board of Executive Directors. The Articles of Agreement do not specify the nationality of the president but by custom the US Executive Director makes a nomination, and by a long-standing, informal agreement, the president is a US national (while the managing director of the IMF is European). The initial term is 5 years, with a second of 5 years or less.

INTERNATIONAL DEVELOPMENT ASSOCIATION (IDA)

A lending agency established in 1960 and administered by the IBRD to provide assistance on concessional terms to the poorest developing countries. Its resources consist of subscriptions and general replenishments from its more industrialized and developed members, special contributions, and transfers from the net earnings of IBRD.

In 1997 the IDA lent a total of US\$101,600m. for 2,780 development projects in around 100 countries. The same year, however, saw overall loan commitments for the poorest countries fall by almost a third, to US\$4,600m., with commitments 15% down on the lower end of its US\$5,300–6,600m. planning range for that year. The biggest shortfall has been in lending to Africa.

Officers and staff of the IBRD serve concurrently as officers and staff of the IDA at the World Bank headquarters.

INTERNATIONAL FINANCE CORPORATION (IFC)

Established in July 1956 to help strengthen the private sector in developing countries, through the provision of long-term loans, equity investments, guarantees, standby financing, risk management and quasi-equity instruments such as subordinated loans, preferred stock and income notes. It helps to finance new ventures and assist established enterprises to expand, improve or diversify, and provides a variety of advisory services to public and private sector clients. To be eligible for financing, projects must be profitable for investors, must benefit the economy of the country concerned, and must comply with IFC's environmental guidelines.

About 80% of its funds are borrowed from the international financial markets through public bond issues or private placements, 20% from the IBRD. Its authorized capital is US\$2,450m.; paid-in capital at 30 June 1996 was US\$2,076m. The IFC invested US\$6,700m. in project financing in 1997 and approved 276 private-sector projects in around 80 countries. It has 172 members.

MULTILATERAL INVESTMENT GUARANTEE AGENCY (MIGA)

Established in 1988 to encourage the flow of foreign direct investment to, and among, developing member countries, MIGA is the insurance arm of the World Bank. It provides investors with investment guarantees against non-commercial risk, such as expropriation and war, and gives advice to governments on improving climate for foreign investment. It may insure up to 90% of an investment, with a current limit of US\$50m. per project. In March 1999 the Council of Governors adopted a resolution for a capital increase for the Agency of approximately US\$850m. In addition US\$150m. was transferred to MIGA by the World Bank as operating capital. By 1999 it had 151 member countries and a further 15 countries in the process of fulfilling membership requirements. It is located at the World Bank headquarters (see above).

INTERNATIONAL CENTRE FOR SETTLEMENT OF INVESTMENT DISPUTES (ICSID)

Founded in 1966 to promote increased flows of international investment by providing facilities for the conciliation and arbitration of disputes between governments and foreign investors. It does not engage in such conciliation or arbitration. This is the task of conciliators and arbitrators appointed by the contracting parties, or as otherwise provided for in the Convention. Recourse to conciliation and arbitration by members is entirely voluntary.

INTERNATIONAL ORGANIZATIONS

At 31 Oct. 1997 its Convention had been signed by 143 countries. 47 cases had been registered by it (3, conciliation; 44, arbitration) and 12 arbitrations were pending. Disputes involved a variety of investment sectors: agriculture, banking, construction, energy, health, industrial, mining and tourism.

ICSID also undertakes research, publishing and advisory activities in the field of foreign investment law. Like IDA, IFC and MIGA, it is located at the World Bank headquarters in Washington (see above).

INTERNATIONAL CIVIL AVIATION ORGANIZATION (ICAO)

Origin. The Convention providing for the establishment of the ICAO was drawn up by the International Civil Aviation Conference held in Chicago in 1944. A Provisional International Civil Aviation Organization (PICAO) operated for 20 months until the formal establishment of ICAO on 4 April 1947. The Convention on International Civil Aviation superseded the provisions of the Paris Convention of 1919 and the Pan American Convention on Air Navigation of 1928.

Functions. It assists international civil aviation by establishing technical standards for safety and efficiency of air navigation and promoting simpler procedures at borders; develops regional plans for ground facilities and services needed for international flying; disseminates air-transport statistics and prepares studies on aviation economics; and fosters the development of air law conventions. As an administrative arm of the UN Development Programme, it provides technical assistance to states in developing civil aviation programmes.

Organization. The principal organs of ICAO are an Assembly, consisting of all members of the Organization, and a Council, which is composed of 33 states elected by the Assembly for 3 years, which meets in virtually continuous session. In electing these states, the Assembly must give adequate representation to: (1) states of major importance in air transport; (2) states which make the largest contribution to the provision of facilities for the international civil air navigation; and (3) those states not otherwise included whose election would ensure that all major geographical areas of the world were represented. The ICAO's main subsidiary bodies are: 15-member Air Navigation Commission appointed by the Council; Committee on Joint Support of Air Navigation Services; Personnel Committee; the Finance Committee; Committee on Unlawful Interference; Technical Co-operation Committee; Air Transport Committee (all open to Council members); and the Legal Committee, on which all 185 of the Organization's members may be represented. The budget approved for 1998 was US\$54.6m.

INTERNATIONAL FUND FOR AGRICULTURAL DEVELOPMENT (IFAD)

The idea for an International Fund for Agricultural Development arose at the 1974 World Food Conference. An agreement to establish IFAD entered into force on 30 Nov. 1977, and the agency began its operations the following month. IFAD's

purpose is to mobilize additional funds for improved food production and better nutrition among low-income groups in developing countries through projects and programmes directly benefiting the poorest rural populations while preserving their natural resource base. In line with the Fund's focus on the rural poor, its resources are made available in highly concessional loans and grants. By 1999 the Fund had invested US\$6,400m. in financing 520 projects in 114 developing countries.

Organization. The highest body is the Governing Council, on which all 160 member countries are represented. Operations are overseen by an 18-member Executive Board (with 17 alternate members), which is responsible to the Governing Council. The Fund works with many co-operating institutions, including the World Bank, regional development banks and financial agencies, and other UN agencies; many of these co-finance IFAD projects.

INTERNATIONAL LABOUR ORGANIZATION (ILO)

Origin. The ILO was established in 1919 under the Treaty of Versailles as an autonomous institution associated with the League of Nations. An agreement establishing its relationship with the UN was approved in 1946, making the ILO the first Specialized Agency to be associated with the UN. An intergovernmental agency with a tripartite structure, in which representatives of governments, employers and workers participate, it seeks through international action to improve labour and living conditions, to promote productive employment and social justice for working people everywhere. On its fiftieth anniversary in 1969 it was awarded the Nobel Peace Prize. In Oct. 2000 it numbered 175 members.

Functions. One of the ILO's principal functions is the formulation of international standards in the form of International Labour Conventions and Recommendations. Member countries are required to submit Conventions to their competent national authorities with a view to ratification. If a country ratifies a Convention it agrees to bring its laws into line with its terms and to report periodically how these regulations are being applied. More than 6,600 ratifications of 183 Conventions had been deposited by 30 Sept. 2000. Procedures are in place to ascertain whether Conventions thus ratified are effectively applied. Recommendations do not require ratification, but member states are obliged to consider them with a view to giving effect to their provisions by legislation or other action. By 30 Sept. 2000 the International Labour Conference had adopted 191 Recommendations.

The ILO's programme and budget set out 4 strategic objectives for the Organization at the turn of the century: i) to promote and realize fundamental principles and rights at work; ii) to create greater opportunities for women and men to secure decent employment and income; iii) to enhance the coverage and effectiveness of social protection for all; iv) to strengthen tripartism and social dialogue.

Activities. In addition to its research and advisory activities, the ILO extends technical co-operation to governments under its regular budget and under the UN Development Programme and Funds-in-Trust in the fields of employment promotion, human resources development (including vocational and management training), development of social institutions, small-scale industries, rural development, social security, industrial safety and hygiene, productivity, etc. Technical co-operation also includes expert missions and a fellowship programme.

In 1994 the technical services offered by the ILO to its tripartite constituents came under scrutiny leading to a re-affirmation of technical co-operation as one of the principal means of ILO action. Since 1994 the process of implementing the new Active Partnership Policy made significant progress and today 16 multidisciplinary advisory teams are engaged in a dialogue with ILO constituents centred on the identification of Country Objectives to form the basis of the ILO's contribution.

In June 1998 delegates to the 86th International Labour Conference adopted a solemn ILO Declaration in Fundamental Principles and Rights at Work, committing the Organization's member states to respect the principles inherent in a number of core labour standards: the right of workers and employers to freedom of association and the effective right to collective bargaining, and to work toward the elimination of all forms of forced or compulsory labour, the effective abolition of child labour and the elimination of discrimination in respect of employment and occupation.

In June 1999 delegates to the 87th International Labour Conference adopted a new Convention banning the worst forms of child labour.

Finance. In 1999 expenditure on operational activities under all sources of funding totalled US\$97.1m., compared to US\$93.7m. in 1998, representing a slight increase of 3.6%. The three leading programmes in terms of annual expenditure (representing 52% of total expenditure) were in employment and training (US\$17.1m.), enterprise and co-operative development (US\$16.2m.) and development policies (US\$15.8m.). Other programmes dealt with working conditions and environment (US\$13.7m.), including an International Programme for the Elimination of Child Labour (US\$10.5m.). Interregional and global activities accounted for some US\$18.8m. In terms of regional distribution, Africa accounted for 35% of total expenditure (US\$33.8m.), Asia and the Pacific for 20% (US\$19.5m.), and Latin America and the Caribbean for 14% (US\$13.8m.). Expenditure in Europe showed an increase from US\$5.2m. in 1998 to US\$6.85m. in 1999 and the Arab States programme almost doubled from US\$2.3m. in 1998 to US\$4.3m. in 1999.

The ILO's *International Institute for Labour Studies* promotes the study and discussion of policy issues. The core theme of its activities is the interaction between labour institutions, development and civil society in a global economy. It identifies emerging social and labour issues by opening up new areas for research and action; and encourages systematic dialogue on social policy between the tripartite constituency of the ILO and the international academic community, and other public opinion-makers. It achieves its mandate through research networks; courses and seminars; social policy forums; internships; visiting scholar and internship programmes; and publications.

The *International Training Centre* of the ILO, in Turin, was set up in 1965 to lead the training programmes implemented by the ILO as part of its technical co-operation activities. Member states and the UN system also call on its resources and experience, and a UN Staff College was established on the Turin Campus in 1996.

Organization. The International Labour Conference is the supreme deliberative organ of the ILO; it meets annually in Geneva. National delegations are composed of 2 government delegates, 1 employers' delegate and 1 workers' delegate. The Governing Body, elected by the Conference, is the Executive Council. It is composed of 28 government members, 14 workers' members and 14 employers' members. 10 governments of countries of industrial importance hold permanent seats on the Governing Body. These are: Brazil, China, Germany, France, India, Italy, Japan, Russia, UK and USA. The remaining 18 government members are elected every 3 years. Workers' and employers' representatives are elected as individuals, not as national candidates. The International Labour Office serves as secretariat, operational headquarters, research centre and publishing house. The ILO has a branch office in London (for UK and Republic of Ireland), and regional offices in Abidjan (for Africa), Bangkok (for Asia and the Pacific), Lima (for Latin America and the Caribbean) and Beirut (for Arab States). The ILO budget for 2000–01 is US\$481m.

INTERNATIONAL MARITIME ORGANIZATION (IMO)

Origin. The International Maritime Organization (formerly the InterGovernmental Maritime Consultative Organization) was established as a specialized agency of the UN by a convention drafted in 1948 at a UN maritime conference in Geneva. The Convention became effective on 17 March 1958 when it had been ratified by 21 countries, including 7 with at least 1m. gross tons of shipping each. The IMCO started operations in 1959 and changed its name to the IMO in 1982.

Functions. To facilitate co-operation among governments on technical matters affecting merchant shipping, especially concerning safety at sea; to prevent and control marine pollution caused by ships; to facilitate international maritime traffic. The IMO is responsible for convening international maritime conferences and for drafting international maritime conventions. It also provides technical assistance to countries wishing to develop their maritime activities, and acts as a depositary authority for international conventions regulating maritime affairs. *The World Maritime University (WMU)*, at Malmö, Sweden, was established in 1983; the *IMO International Maritime Law Institute (IMLI)*, at Valletta, Malta and the *IMO International Maritime Academy*, at Trieste, Italy, both in 1989.

Organization. The IMO has 157 members (and 2 associate members). The Assembly, composed of all member states, normally meets every 2 years. The 32-member Council acts as governing body between sessions. There are 4 principal committees (on maritime safety, legal matters, marine environment protection and technical co-operation), which submit reports or recommendations to the Assembly through the Council, and a Secretariat. The budget for 1998–99 amounted to £36.6m.

INTERNATIONAL MONETARY FUND (IMF)

The International Monetary Fund was established on 27 Dec. 1945 as an independent international organization and began financial operations on 1 March 1947; its relationship with the UN is defined in an agreement of mutual co-operation which came into force on 15 Nov. 1947. The first amendment to the IMF's Articles creating the special drawing right (SDR) took effect on 28 July 1969. The second amendment took effect on 1 April 1978. The third amendment came into force on 11 Nov. 1992; it allows for the suspension of voting and related rights of a member which persists in its failure to settle its outstanding obligations to the IMF.

Aims. To promote international monetary co-operation, the expansion of international trade and exchange rate stability; to assist in the removal of exchange restrictions and the establishment of a multilateral system of payments; and to alleviate any serious disequilibrium in members' international balance of payments by making the financial resources of the IMF available to them, usually subject to economic policy conditions to ensure the revolving nature of IMF resources.

Activities. Each member of the IMF undertakes a broad obligation to collaborate with the IMF and other members to ensure orderly exchange arrangements and to promote a system of stable exchange rates. In addition, members are subject to certain obligations relating to domestic and external policies that can affect the balance of payments and the exchange rate. The IMF makes its resources available, under proper safeguards, to its members to meet short-term or medium-term payment difficulties. The first allocation of SDRs was made on 1 Jan. 1970 with 5 SDR allocations since then. SDRs totalled SDR 21,400m. in March 1998.

To enhance its balance of payments assistance to its members, the IMF established a Compensatory Financing Facility on 27 Feb. 1963; temporary oil facilities in 1974 and 1975; a Trust Fund in 1976; and an Extended Fund Facility (EFF) for medium-term assistance to members with special balance of payments problems on 13 Sept. 1974. In March 1986 it established the Structural Adjustment

Facility (SAF) to provide assistance to low-income countries. In Dec. 1987 it established the Enhanced Structural Adjustment Facility (ESAF) to provide further assistance to low-income countries facing high levels of indebtedness. In Oct. 1999 the ESAF was renamed as the Poverty Reduction and Growth Facility (PRGF) to reflect the increased focus on poverty reduction. Because of the importance of continuing concessional ESAF support, the IMF in 1996 endorsed proposals for a continuation of ESAF operations beyond the year 2000, when ESAF/PRGF resources were expected to be fully committed. There is to be an interim period of operations from 2001–04 for which new financing will be mobilized. This will be followed in 2005, or earlier, by a self-sustained PRGF. In Dec. 1997 the Supplemental Reserve Facility (SRF) was established to provide short-term assistance to countries experiencing exceptional balance of payments problems owing to a large short-term financing need resulting from a sudden disruptive loss of market confidence, reflected in pressure on the capital account and the member's reserves. Contingent Credit Lines (CCL) were established in April 1999 as instruments of crisis prevention to counter problems of international financial contagion. In addition, in Sept. 1999, a temporary Y2K facility was created to help countries deal with potential problems ensuing from year 2000 computer disruptions.

Capital Resources. The capital resources of the IMF comprise SDRs and currencies that the members pay under quotas calculated for them when they join the IMF. A member's quota is largely determined by its economic position relative to other members; it is also linked to their drawing rights on the IMF under both regular and special facilities, their voting power, and their share of SDR allocations. Every IMF member is required to subscribe to the IMF an amount equal to its quota. An amount not exceeding 25% of the quota has to be paid in reserve assets, the balance in the member's own currency. The members with the largest quotas are: 1st, the USA; joint 2nd, Germany and Japan; joint 4th, France and the UK.

An increase of almost 60% in IMF quotas became effective in Nov. 1992 as a result of the 9th General Review of Quotas. Quotas were not increased under the 10th General Review. In the 11th General Review, the IMF's Executive Board adopted a resolution at its 1997 annual meeting, approving a one-time equity allocation of SDRs of SDR 21,400m., which would equalize all members' ratio of SDRs to quota at 29.3%. The Board also agreed to recommend a 45% increase in IMF quotas, which would raise total quotas from SDR 145,300m., in Sept. 1997, to SDR 209,500m.; an 85% majority of member countries is required for the quota increase to take effect. As of Jan. 1999 the 85% majority had been met and total quotas were SDR 212bn.

Borrowing Resources. The IMF is authorized under its Articles of Agreement to supplement its resources by borrowing. In Jan. 1962 a 4-year agreement was concluded with 10 industrial members (Belgium, Canada, France, Germany, Italy, Japan, Netherlands, Sweden, UK, USA) who undertook to lend the IMF up to US\$6,000m. in their own currencies, if this should be needed to forestall or cope with an impairment of the international monetary system. Switzerland subsequently joined the group. These arrangements, known as the General Arrangements to Borrow (GAB), have been extended several times. In early 1983 agreement was reached to increase the credit arrangements under the GAB to SDR 17,000m.; to permit use of GAB resources in transactions with IMF members that are not GAB participants; to authorize Swiss participation; and to permit borrowing arrangements with non-participating members to be associated with the GAB. Saudi Arabia and the IMF have entered into such an arrangement under which the IMF will be able to borrow up to SDR 1,500m. to assist in financing purchases by any member for the same purpose and under the same circumstances as in the GAB. The changes became effective by 26 Dec. 1983. In view of the expected continuing high demand for IMF's resources, a doubling of borrowed resources under the GAB to SDR 34,000m. was endorsed through the development of New Arrangements to Borrow (NAB) in Jan. 1997, with 25 member countries agreeing to make loans to the IMF when supplementary resources are needed to forestall or cope with an impairment of or threat to the international monetary system.

In order to oversee the compliance of members with their obligations under the Articles of Agreement, the IMF is required to exercise firm surveillance over members' exchange rate policies. In conjunction with the need for up-to-date reliable data to support its surveillance activities, it encourages member countries to make available to the public and to financial markets core financial and economic data. In April 1996 the IMF established the Special Data Dissemination Standard (SDDS) to improve access to reliable economic statistical information for member countries that have, or are seeking, access to international capital markets. In Dec. 1997 it established the General Data Dissemination Standard (GDDS), which applies to all member countries and focuses on improved production and dissemination of core economic data. Information on both are available on the IMF's website.

The IMF works with the IBRD (World Bank) to address the problems of the most heavily indebted poor countries (most in Sub-Saharan Africa) through their Initiative for the Heavily Indebted Poor Countries (HIPC). The HIPC Initiative is designed to ensure that HIPCs with a sound track record of economic adjustment receive debt relief sufficient to help them attain a sustainable debt situation over the medium term. The HIPC Initiative was enhanced in late 1999 to provide deeper and more rapid debt relief to a larger number of countries.

Organization. The highest authority is the Board of Governors, on which each member government is represented. Normally the Governors meet once a year, and may take votes by mail or other means between meetings. The Board of Governors has delegated many of its powers to the 24 executive directors in Washington, who are appointed or elected by individual member countries or groups of countries. Each appointed director has voting power proportionate to the quota of the government he or she represents, while each elected director casts all the votes of the countries represented. The managing director is selected by the executive directors and serves as chairman of the Executive Board, but may not vote except in case of a tie. The term of office is for 5 years, but may be extended or terminated at the discretion of the executive directors. The managing director is responsible for the ordinary business of the IMF, under the direction of the executive directors, and supervises a staff of about 2,200. Under a long-standing, informal agreement, the managing director is European (while the President of the World Bank is a US national). There are 3 deputy managing directors. As of Dec. 2000 the IMF had 183 members.

The *IMF Institute* is a specialized department of the IMF providing training in macroeconomic analysis and policy, and related subjects, for officials of member countries, at the Fund's headquarters in Washington, the Joint Vienna Institute (JVI) and the Singapore Regional Training Institute (STI). Since its establishment in 1964, the Institute has trained more than 10,900 officials from 181 countries. Courses in Washington are in Arabic, English, French and Spanish; at the JVI, in English, with Russian interpretation; and at the STI in English.

INTERNATIONAL TELECOMMUNICATION UNION (ITU)

Origin. Founded in Paris in 1865 as the International Telegraph Union, the International Telecommunication Union took its present name in 1934 and became a specialized agency of the United Nations in 1947. Therefore, the ITU is the world's oldest intergovernmental body.

Functions. To maintain and extend international co-operation for the improvement and rational use of telecommunications of all kinds, and promote and offer technical assistance to developing countries in the field of telecommunications; to promote the development of technical facilities and their most efficient operation to improve the efficiency of telecommunication services, increasing their usefulness and making them, so far as possible, generally available to the public; to harmonize the actions of nations in the attainment of these ends.

Organization. The supreme organ of the ITU is the Plenipotentiary Conference, which normally meets every 4 years. A 46-member Council, elected by the Conference, meets annually in Geneva and is responsible for ensuring the co-ordination of the 4 permanent organs at ITU headquarters: the General Secretariat; Radiocommunication Sector; Telecommunication Standardization Sector; and Telecommunication Development Sector. The Secretary-General is also elected by the Conference. ITU has 189 member countries; a further 576 scientific and technical companies, public and private operators, broadcasters and other organizations are also ITU members.

UNITED NATIONS EDUCATIONAL, SCIENTIFIC AND CULTURAL ORGANIZATION (UNESCO)

Origin. UNESCO's Constitution was signed in London on 16 Nov. 1945 by 37 countries and the Organization came into being in Nov. 1946 on the premise that: 'Since wars begin in the minds of men, it is in the minds of men that the defences of peace must be constructed'. In Jan. 1998 UNESCO had 188 members including the UK, which rejoined in 1997. They include 4 Associate Members with no single member status in the UN (Aruba; British Virgin Islands; Macau; Netherlands Antilles). The USA is not a member.

Aims and Activities. UNESCO's primary objective is to contribute to peace and security in the world by promoting collaboration among the nations through education, science, communication and culture in order to further universal respect for justice, the rule of the law, human rights and fundamental freedoms, affirmed for all peoples of the world by the UN Charter.

Education. Various activities support and foster national projects to renovate education systems and develop alternative educational strategies towards a goal of lifelong education for all. The 4 main areas of focus, today, are: to provide basic education for all; expand access to basic education; improve the quality of basic education; and education for the 21st century. There are regional and sub-regional offices for education in 53 countries.

Science. UNESCO seeks to promote international scientific co-operation and encourages scientific research designed to improve living conditions. Science co-operation offices have been set up in Cairo, Jakarta, Nairobi, New Delhi, Montevideo and Venice. A *Sciences in the Service of Development* programme aims to provide support to member states in the fields of higher education, advanced training and research in natural and social sciences, and in the application of these sciences to development. It focuses on questions concerning issues such as peace, human rights, youth, the management of social transformations, the human genome, and man and the biosphere.

Communication. Here, activities are geared to promoting the free flow of information, freedom of expression, press freedom, media independence and pluralism. In this way, UNESCO endeavours, by disseminating information, carrying out research and providing advice to increase the scope and quality of press, film and radio services throughout the world.

Culture. In the cultural field, UNESCO's focus areas are research on the link between culture and development, and action to conserve and protect the world's cultural inheritance, by assisting member states in studying and preserving both the physical and the non-physical heritage of their societies.

Organization. The General Conference, composed of representatives from each member state, meets biennially to decide policy, programme and budget. A 58-member Executive Board elected by the Conference meets twice a year and there is a Secretariat. In addition, national commissions act as liaison groups between UNESCO and the educational, scientific and cultural life of their own countries. The budget for 1996–97 was over US\$455m.

INTERNATIONAL BUREAU OF EDUCATION (IBE)

The International Bureau of Education is an international centre for the content of education. It focuses on the renewal of education curricula, contents, methods and materials, with particular emphasis on human and civic values. Founded in 1925, it became an intergovernmental organization in 1929 and since 1969 has been an integral part of UNESCO.

The IBE has three main roles: (i) organizing the sessions of the International Conference on Education as an international forum for dialogue on educational policy; (ii) collecting, analysing and disseminating educational documentation and information, in particular on innovations concerning curricula and teaching methods; (iii) undertaking surveys and comparisons in the fields of comparative education.

Within the framework of its activities in the adaptation of educational content to the 21st century, the IBE's four main functions are observation, promotion of dialogue on educational policy, strengthening of capacity building and dissemination of information.

UNITED NATIONS INDUSTRIAL DEVELOPMENT ORGANIZATION (UNIDO)

Origin. UNIDO was established by the UN General Assembly in 1966 and became the 16th UN specialized agency in 1985.

Aims. UNIDO helps developing countries, and countries with economies in transition, in their fight against marginalization and poverty in today's globalized world. It mobilizes knowledge, skills, information and technology to promote productive employment, a competitive economy and a sound environment. UNIDO focuses its efforts on relieving poverty by fostering productivity growth and economic development.

Activities. As a global forum, UNIDO provides a platform for the various actors in industrial development—decision makers in the public and private sectors, civil society organizations and the policy-making community in general—to enhance co-operation, establish dialogue and develop partnerships in order to address the challenges facing developing countries. As a technical co-operation agency, UNIDO designs and implements programmes to support the industrial development efforts of its clients. It also offers tailor-made specialized support for programme development.

Organization. As part of the United Nations common system, UNIDO has the responsibility for promoting industrialization throughout the developing world, in

co-operation with its 169 member states. Its headquarters are in Vienna, Austria, and with 35 smaller country and regional offices, 10 investment and technology promotion offices and a number of smaller offices related to specific aspects of its work, UNIDO maintains an active presence in the field. The General Conference meets every 2 years to determine policy and approve the budget. The 53-member governing body, The Industrial Development Board (33 members from developing countries, 15 from market economy countries and 5 from Eastern European countries) is elected every 4 years by the General Conference. The General Conference also elects a 27-member Programme and Budget Committee for 2 years and appoints a Director-General for 4 years.

Finance. UNIDO's financial resources come from regular and operational budgets, as well as contributions for technical co-operation activities. Derived from member states' assessed contributions, the regular budget of UNIDO for 2000–01 amounts to US\$133.3m. Administrative costs represent less than 14% of the regular budget.

Technical co-operation is funded mainly from voluntary contributions from donor countries and institutions as well as UNDP, the Multilateral Fund for the Implementation of the Montreal Protocol, the Global Environment Facility, and the Common Fund for Communities.

UNIVERSAL POSTAL UNION (UPU)

Origin. The UPU was established in 1875, when the Universal Postal Convention adopted by the Postal Congress of Berne on 9 Oct. 1874 came into force. It has 189 member countries.

Functions. The aim of the UPU is to assure the organization and perfection of the various postal services, and to promote the development of international collaboration in the field. To this end, UPU members are united in a single postal territory for the reciprocal exchange of correspondence. A Specialized Agency of the UN since 1948, the UPU is governed by its Constitution, adopted in 1964 (Vienna), and subsequent protocol amendments: (1969, Tokyo; 1974, Lausanne; 1979, Rio de Janeiro; 1984, Hamburg; 1989, Washington; 1994, Seoul; 1999, Beijing).

Organization. It is composed of a Universal Postal Congress which meets every 5 years; a 41-member Council of Administration, which meets annually and is responsible for supervising the affairs of the UPU between Congresses; a 40-member Postal Operations Council; and an International Bureau which functions as the permanent secretariat, responsible for strategic planning and programme budgeting. The budget for 2001 is 37.5m. Swiss francs.

WORLD HEALTH ORGANIZATION (WHO)

Origin. An International Conference convened by the UN Economic and Social Council to consider a single health organization resulted in the adoption on 22 July 1946 of the Constitution of the World Health Organization, which came into force on 7 April 1948.

Functions. WHO's objective, as stated in the first article of the Constitution, is 'the attainment by all peoples of the highest possible level of health'. As the directing and co-ordinating authority on international health, it establishes and maintains collaboration with the UN, specialized agencies, government health administrations, professional and other groups concerned with health. The Constitution also directs WHO to assist governments to strengthen their health services; to stimulate and advance work to eradicate diseases; to promote maternal and child health, mental health, medical research and the prevention of accidents; to improve standards of teaching and training in the health professions, and of nutrition, housing, sanitation, working conditions and other aspects of environmental health. The Organization is also empowered to propose conventions, agreements and regulations, and make recommendations about international health matters; to revise the international nomenclature of diseases, causes of death and public health practices; to develop, establish and promote international standards concerning foods, biological, pharmaceutical and similar substances.

Methods of work. Co-operation in country projects is undertaken only on the request of the government concerned, through the 6 regional offices of the Organization. Worldwide technical services are made available by headquarters. Expert committees, chosen from the 55 advisory panels of experts, meet to advise the Director-General on a given subject. Scientific groups and consultative meetings are called for similar purposes. To further the education of health personnel of all categories, seminars, technical conferences and training courses are organized, and advisors, consultants and lecturers are provided. WHO awards fellowships for study to nationals of member countries.

Activities. The main thrust of WHO's activities in recent years has been towards promoting national, regional and global strategies for the attainment of the main social target of the member states: 'Health for All by the Year 2000', or the attainment by all citizens of the world of a level of health that will permit them to lead a socially and economically productive life. Almost all countries indicated a high level of political commitment to this goal; and guiding principles for formulating corresponding strategies and plans of action were subsequently prepared.

The 50th World Health Assembly which met in 1997 adopted numerous resolutions on public health issues. *The World Health Report, 1997: Conquering suffering, enriching humanity* focused on 'non-communicable diseases'. It warned that the human and social costs of cancer, heart disease and other chronic diseases will rise unless confronted now.

The number of cancer cases was expected to double in most countries by 2020. There will be a 33% increase in lung cancers in women and a 40% increase in prostate cancers in men in European Union countries alone by 2005. The incidence of other cancers is also rising rapidly, especially in developing countries. Heart disease and stroke, the leading causes of death in richer nations, will become more common in poorer countries. Globally, diabetes will more than double by 2025, with the number of people affected rising from about 135m. to 300m., and there is likely to be a huge rise in some mental disorders, especially dementias and particularly Alzheimer's disease. Already an estimated 29m. people suffer from dementia, and at least 400m. suffer from other mental disorders ranging from mood and personality disorders to neurological conditions like epilepsy, which affects some 40m. worldwide.

These projected increases are reported to be due to a combination of factors, not least population ageing and the rising prevalence of unhealthy lifestyles. Average life expectancy at birth globally reached 65 years in 1996. It is now well over 70 years in many countries and is approaching 80 years in some. In 1997 there were an estimated 380m. people over 65 years. By 2020 that number is expected to rise to more than 690m.

The report warns that many countries will increasingly come under the double burden of both infectious and non-communicable diseases, and recommends that the 2 should be fought simultaneously on a global scale.

The 10 leading killer diseases in the world are: coronary heart disease, 7.2m. deaths annually; cancer (all sites), 6.2m.; cerebrovascular disease, 4.6m.; acute lower respiratory infection, 3.7m.; perinatal conditions, 3.6m.; tuberculosis, 2.9m.; chronic obstructive pulmonary disease, 2.9m.; diarrhoea and dysentery, 2.5m.; HIV/AIDS, 2.3m.; malaria, 2.1m. Tobacco-related deaths, primarily from lung cancer and circulatory disease, amount to 3m. a year. Smoking accounts for 1 in 7 cancer cases worldwide, and if the trend of increasing consumption in many countries continues, the epidemic has many more decades to run.

In response, WHO has called for an intensified and sustained global campaign to encourage healthy lifestyles and attack the main risk factors responsible for many of these diseases: unhealthy diet, inadequate physical activity, smoking and obesity.

Priorities for Action. These were summarized by the Report as follows:

1. Integration of disease-specific interventions in both physical and mental health into a comprehensive chronic disease control package that incorporates prevention, diagnosis, treatment and rehabilitation, and improved training of health professionals.

2. Fuller application of existing cost-effective methods of disease detection and management, including improved screening, taking into account the genetic diversity of individuals.

3. A major intensified but sustained global campaign to encourage healthy lifestyles, with an emphasis on the health development of children and adolescents in relation to risk factors such as diet, exercise and smoking.

4. Healthy public policies, including sustainable funding, and legislation on pricing and taxation, in support of disease prevention programmes.

5. Acceleration of research into new drugs and vaccines, and into the genetic determinants of chronic diseases.

6. Alleviation of pain, reduction of suffering and provision of palliative care for those who cannot be cured.

Other issues reported on to the Assembly included tropical diseases, violence, the sale of medical products through the Internet, persistent organic pollutants and cloning in human reproduction.

Cloning in human reproduction. The 1997 Assembly adopted a resolution affirming that the use of cloning for the replication of human individuals is ethically unacceptable and contrary to human integrity and morality. In accepting the resolution delegates recognized the need to respect the freedom of ethically acceptable scientific activity and to ensure access to the benefits of its applications.

Joint UN Programme on HIV/AIDS (UNAIDS). In 1996 the Assembly reviewed implementation of the global strategy for the prevention and control of AIDS, and progress of the Joint UN Programme on HIV/AIDS (UNAIDS), which became operational in 1996. The impact of the HIV/AIDS epidemic is seen to be expanding and intensifying, particularly in developing countries, and new resource mobilization mechanisms were called for to support countries in combating HIV/AIDS. The Assembly requested WHO to facilitate the incorporation of UNAIDS-specific policies, norms and strategies into the activities of WHO at global, regional and country levels, and to collaborate in all aspects of resource mobilization for HIV/AIDS activities.

World Health Day is observed on 7 April every year. The 1999 theme for World Health Day was Active Aging Makes the Difference; the theme for 1998 was Safe Motherhood. World No-Tobacco Day is held on 31 May each year; International Day Against Drug Abuse on 26 June; World AIDS Day on 1 Dec.

Organization. The principal organs of WHO are the World Health Assembly, the Executive Board and the Secretariat. Each of the 192 member states has the right to be represented at the Assembly, which meets annually in Geneva. The 32-member Executive Board is composed of technically qualified health experts designated by as many member states as elected by the Assembly. The Secretariat consists of

technical and administrative staff headed by a Director-General, who is appointed for not more than two 5-year terms. Health activities in member countries are carried out through regional organizations which have been established in Africa (Brazzaville), South-East Asia (New Delhi), Europe (Copenhagen), Eastern Mediterranean (Alexandria) and Western Pacific (Manila). The Pan American Sanitary Bureau in Washington serves as the regional office of WHO for the Americas.

Finance. The global programme budget for 1998–99 adopted by the World Health Assembly in May 1997 was US\$842.7m.

WORLD INTELLECTUAL PROPERTY ORGANIZATION (WIPO)

Origin. The roots of the World Intellectual Property Organization go back to the Paris Convention for the Protection of Industrial Property, adopted in 1883, and the Berne Convention for the Protection of Literary and Artistic Works (adopted 1886). The Convention establishing WIPO was signed at Stockholm in 1967 by 51 countries, and entered into force in April 1970. WIPO became a UN specialized agency in 1974.

Aims. To promote the protection of intellectual property throughout the world through co-operation among member states; and to ensure administrative co-operation among the intellectual property Unions created by the Paris and Berne Conventions.

Intellectual property comprises two main branches: industrial property (inventions, trademarks and industrial designs) and copyright and neighbouring rights (literary, musical, artistic, photographic and audiovisual works).

Activities. There are three principal areas of activity: the progressive development of international intellectual property law; global protection systems and services; and co-operation for development. WIPO seeks to harmonize national intellectual property legislation and procedures; provide services for international applications for industrial property rights; exchange intellectual property information; provide training and legal and technical assistance to developing and other countries; facilitate the resolution of private intellectual property disputes; and marshal information technology as a tool for storing, accessing and using valuable intellectual property information.

New approaches to the progressive development of international intellectual property law. The development and application of international norms and standards is a fundamental part of WIPO's activities. It administers 21 treaties (15 on industrial property, 6 on copyright). The Organization plays an increasing role in making national and regional systems for the registration of intellectual property more user-friendly by harmonizing and simplifying procedures.

Global protection systems and services. The most successful and widely used treaty is the Patent Co-operation Treaty (PCT), which implements the concept of a single international patent application that is valid in many countries. Once such application is filed, an applicant has time to decide in which countries to pursue the application, thereby streamlining procedures and reducing costs. In 1999 the PCT system recorded more than 74,000 applications, representing a 10.5% increase compared to 1998 and a notional equivalent of nearly 5.8m. national applications.

The treaties dealing with the international registration of marks and industrial designs are, respectively, the Madrid Agreement (and its Protocol) and the Hague Agreement. In 1999 there were more than 20,000 registrations of marks under the Madrid System, an equivalent of over 264,000 national trademark registrations. In 1999 WIPO registered 4,093 international deposits of industrial designs. Each covered on average between 11 and 12 countries, representing an equivalent of over 46,000 national applications. Moreover, these deposits contained on average 5 models each.

Co-operation for development. On 1 Jan. 2000 many developing and other countries were due, as members of the World Trade Organization, to bring their national legislative and administrative structures into conformity with the Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPS). WIPO and WTO agreed, in the framework of a Co-operation Agreement which entered into force on 1 Jan. 1996, and a Joint Initiative launched in July 1998, on a joint technical co-operation initiative to provide assistance to developing countries to meet their obligations to comply with the TRIPS Agreement. This represented a major step in the international harmonization of the scope, standards and enforcement of Intellectual Property rights. The joint initiative is intended to build on the existing co-operation between the two Organizations and their existing programmes in this connection.

The newly created WIPO Worldwide Academy co-ordinates training activities, originates new approaches and methods to expand the scope, impact and accessibility of WIPO programmes, and creates more effective training tailored for diverse-user groups. The Academy has also launched an Internet-based distance-learning programme.

Impact of digital technology on intellectual property law. WIPO takes a range of initiatives to tackle the implications of modern digital and communications technology for copyright and industrial property law, and in electronic commerce transcending national jurisdictions. The WIPO Arbitration and Mediation Centre was established in 1994 to provide online dispute-resolution services. The Centre developed an operational and legal framework for the administration of disputes, including those relating to new technologies such as Internet Domain Name Disputes.

Organization. WIPO has 3 governing bodies: the General Assembly, the Conference and the Co-ordination Committee. Each treaty administered by WIPO has one or more Governing Bodies of its own, composed of representatives of the respective member states. In addition, the Paris and Berne Unions have Assemblies and Executive Committees. There are also a number of Permanent Committees, such as the Permanent Committee on Industrial Property Information. The executive head of WIPO is the Director-General, who is elected by the General Assembly. In Jan. 2001 WIPO had 175 member states, with an international staff of around 750 from 83 countries. The budget for 2000–01 is 409.8m. Swiss francs, 86% of which is covered by revenue earned by the

Organization's international registration and publication activities, with 9% coming primarily from contributions made by member states and 5% from publications sales and other.

WORLD METEOROLOGICAL ORGANIZATION (WMO)

Origin. A 1947 (Washington) Conference of Directors of the International Meteorological Organization (est. 1873) adopted a Convention creating the World Meteorological Organization. The WMO Convention became effective on 23 March 1950 and WMO was formally established. It was recognized as a Specialized Agency of the UN in 1951.

Functions. (1) To facilitate worldwide co-operation in the establishment of networks of stations for the making of meteorological observations as well as hydrological or other geophysical observations related to meteorology, and to promote the establishment and maintenance of meteorological centres charged with the provision of meteorological and related services; (2) to promote the establishment and maintenance of systems for the rapid exchange of meteorological and related information; (3) to promote standardization of meteorological and related observations and ensure the uniform publication of observations and statistics; (4) to further the application of meteorology to aviation, shipping, water problems, agriculture and other human activities; (5) to promote activities in operational hydrology and to further close co-operation between meteorological and hydrological services; and (6) to encourage research and training in meteorology and, as appropriate, to assist in co-ordinating the international aspects of such research and training.

Organization. WMO has 179 member states and 6 member territories responsible for the operation of their own meteorological services. Congress, which is its supreme body, meets every 4 years to approve policy, programme and budget, and adopt regulations. The Executive Council meets at least once a year to prepare studies and recommendations for Congress, and supervises the implementation of Congress resolutions and regulations. It has 36 members, comprising the President and 3 Vice-Presidents, as well as the Presidents of the 6 Regional Associations (Africa, Asia, South America, North and Central America, South-West Pacific, Europe), whose task is to co-ordinate meteorological activity within their regions, and 26 members elected in their personal capacity. There are 8 Technical Commissions composed of experts nominated by members of WMO, whose remit includes the following areas: basic systems, climatology, instruments and methods of observation, atmospheric sciences, aeronautical meteorology, agricultural meteorology, hydrology, marine meteorology. A permanent Secretariat is maintained in Geneva. There are 3 regional offices for Africa, Asia and the Pacific, and North and Central America and the Caribbean. There are also 4 sub-regional offices for Western Africa, Eastern and Southern Africa, the Southwest Pacific and for North America, Central America and the Caribbean. The budget for 2000–03 is 252.3m. Swiss francs.

OTHER ORGANS RELATED TO THE UN

INTERNATIONAL ATOMIC ENERGY AGENCY (IAEA)

Origin. An intergovernmental agency, the IAEA was established in 1957 under the aegis of the UN and reports annually to the General Assembly. Its Statute was approved on 26 Oct. 1956 at a conference at UN Headquarters.

Functions. To accelerate and enlarge the contribution of atomic energy to peace, health and prosperity throughout the world; and to ensure that assistance provided by it or at its request or under its supervision or control is not used in such a way as to further any military purpose. In addition, under the terms of the Non-Proliferation Treaty, the Treaty of Tlatelolco, the Treaty of Rarotonga, the Pelindaba Treaty and the Bangkok Treaty: to verify states' obligation to prevent diversion of nuclear fissionable material from peaceful uses to nuclear weapons or other nuclear explosive devices.

Activities. The IAEA gives advice and technical assistance to developing countries on nuclear power development, nuclear safety, radioactive waste management, legal aspects of atomic energy use, and prospecting for and exploiting nuclear raw materials. In addition, it promotes the use of radiation and isotopes in agriculture, industry, medicine and hydrology through expert services, training courses and fellowships, grants of equipment and supplies, research contracts, scientific meetings and publications. During 1999 there were over 1,000 operational projects for technical co-operation. These activities involved 5,511 expert assignments while 4,001 persons received training abroad.

Safeguards are the technical means applied by the IAEA to verify that nuclear equipment or materials are used exclusively for peaceful purposes. IAEA safeguards cover more than 95% of civilian nuclear installations outside the 5 nuclear-weapon states (China, France, Russia, UK and USA). These 5 nuclear-weapon states have concluded agreements with the Agency which permit the application of IAEA safeguards to all their civil nuclear activities. Installations in non-nuclear-weapon states under safeguards or containing safeguarded material at 31 Dec. 1999 were 196 power reactors, 156 research reactors and critical assemblies, 13 conversion plants, 43 fuel fabrication plants, 6 reprocessing plants, 14 enrichment plants and 316 other installations. In 1999, 2,495 inspections were conducted under the safeguard agreements at 900 nuclear installations in 65 non-nuclear-weapon states. By Dec. 1999 a total of 224 safeguard agreements were in force with 140 states. A programme designed to prevent and combat illicit trafficking of nuclear weapons came into force in April 1996.

Organization. The Statute provides for an annual General Conference, a 35-member Board of Governors and a Secretariat headed by a Director-General. The IAEA had 130 member states in Oct. 2000.

There are also research laboratories in Austria and Monaco. *The International Centre for Theoretical Physics* was established in Trieste, in 1964, and is operated jointly by UNESCO and the IAEA.

INTERNATIONAL SEABED AUTHORITY (ISA)

The ISA is an autonomous international organization established under the UN Convention on the Law of the Sea (UNCLOS) of 1982 and the 1994 Agreement relating to the implementation of Part XI of the above Convention. It came into existence on 16 Nov. 1994 and became fully operational in June 1996.

Following its initial financing from the UN budget, its administrative expenses were to be met by assessed contributions from its members. Membership currently numbers 135 and the budget for the biennium 2001–02 is US\$10,506,400.

The Convention on the Law of the Sea covers almost all ocean space and its uses: navigation and overflight, resource exploration and exploitation, conservation and pollution, fishing and shipping. It entitles coastal states and inhabited islands to proclaim a 200-mile exclusive economic zone or continental shelf (which may be larger). Its 320 Articles and 9 Annexes constitute a guide for behaviour by states in the world's oceans, defining maritime zones, laying down rules for drawing sea boundaries, assigning legal rights, duties and responsibilities to States, and providing machinery for the settlement of disputes.

Organization. The Assembly, consisting of representatives from all member states, is the supreme organ. The 36-member Council, elected by the Assembly, includes the 4 largest importers or consumers of seabed minerals, 4 largest investors in seabed minerals, 4 major exporters of the same, 6 developing countries representing special interests and 18 members from all the geographical regions. The Council is the executive organ of the Authority. There are also two subsidiary bodies: the Legal and Technical Commission (22 experts) and the Finance Committee (15 experts). The Secretariat serves all the bodies of the Authority and under the 1994 Agreement is in charge of the Enterprise organ (until such time as it starts to operate independently of the Secretariat). The Enterprise is the organ through which the ISA carries out deep seabed activities directly or through joint ventures.

Activities. The ISA has adopted at its last session in July 2000 the regulations for prospecting and exploration for polymetallic nodules. It is in the process of issuing exploration contracts to seven registered pioneer investors who have submitted plans of work for deep seabed exploration. These include: the government of India; the Institut Français de Recherche pour l'Exploitation de la Mer (IFREMER) and Association Française pour l'Etude de la Recherche des Nodules (AFERNOD); Deep Ocean Resources Development Co. Ltd (DORD), Japan; Yuzhmorgeologiya (Russian Federation); China Ocean Minerals Research and Development Association (COMRA); Interoceanmetal Joint Organization (IOM) Bulgaria, Cuba, Czech Republic, Poland, Russian Federation and Slovakia; and the government of the Republic of Korea.

In 1999 and 2000 the ISA organized 2 workshops: one on proposed technologies for deep seabed mining of polymetallic nodules and the second on the available knowledge on mineral resources other than polymetallic nodules in the deep seabed. Both were held in Kingston, Jamaica. Two other workshops are envisaged: one on the development of a standardized system of data interpretation, during 2001; the second on the prospects for international co-operation and collaboration in marine scientific research on the deep oceans, in 2002. While continuing to develop a database on polymetallic nodules (POLYDAT), the authority has also made significant progress towards the establishment of a central data repository for all marine minerals in the deep seabed.

The *International Tribunal for the Law of the Sea (ITLOS)*, founded in Oct. 1996 and based in Hamburg, adjudicates on disputes with respect to the ISA's activities. It comprises 21 judges elected by signatories from 5 world regional blocs: 5 each from Africa and Asia; 4 from Western Europe and North America; 4 from Latin America; and 3 from Eastern Europe. Judges serve for 9 years, but 7 of the inaugural judges served for 3 years only and another 7 will serve for 6. Disputing parties may also take their case to the International Court of Justice in The Hague, or to a temporary arbitration tribunal.

Headquarters: 14–20 Port Royal St., Kingston, Jamaica.

Secretary-General: Satya N. Nandan (Fiji Islands).

WORLD TRADE ORGANIZATION (WTO)

Origin. The WTO is founded on the General Agreement on Tariffs and Trade (GATT), which entered into force on 1 Jan. 1948. Its 23 original signatories were members of a Preparatory Committee appointed by the UN Economic and Social Council to draft the charter for a proposed International Trade Organization. Since this charter was never ratified, the General Agreement remained the only international instrument laying down trade rules. In Dec. 1993 there were 111 contracting parties, and a further 22 countries applying GATT rules on a *de facto* basis. On 15 April 1994 trade ministers of 123 countries signed the Final Act of the GATT Uruguay Round of negotiations at Marrakesh, bringing the WTO into being on 1 Jan. 1995. As of Nov. 2000 the WTO had 140 members.

The object of the Act is the liberalization of world trade. By it, member countries undertake to apply fair trade rules covering commodities, services and intellectual property. It provides for the lowering of tariffs on industrial goods and tropical products; the abolition of import duties on a variety of items; the progressive abolition of quotas on garments and textiles; the gradual reduction of trade-distorting subsidies and import barriers; and agreements on intellectual property and trade in services. Members are required to accept the results of the Uruguay Round talks in their entirety, and subscribe to all the WTO's agreements and disciplines. There are no enforcement procedures, however; decisions are ultimately reached by consensus.

Functions. The WTO is the legal and institutional foundation of the multilateral trading system. Surveillance of national trade policies is an important part of its work. At the centre of this is the *Trade Policy Review Mechanism (TPRM)*, agreed by Ministers in 1994 (Article III of the Marrakesh Agreement). The TPRM was broadened in 1995 when the WTO came into being, to cover services trade and intellectual property. Its principal objective is to facilitate the smooth functioning of the multilateral trading system by enhancing the transparency of members' trade policies. All members are subject to review under the TPRM, which mandates that 4 members with the largest share of world trade (European Union, USA, Japan, Canada) be reviewed every 2 years; the next 16, every 4 years; and others every 6, with a longer period able to be fixed for the least-developed members. Also, in 1994, flexibility of up to 6 months was introduced into the review cycles, and in 1996, it was agreed that every second review of each of the first 4 trading entities should be an interim review. Reviews are conducted by the Trade Policy Review Body (TPRB) on the basis of a policy statement by the member under review and a report by economists in the Secretariat's Trade Policy Review Division.

The *International Trade Centre* (since 1968 operated jointly with the United Nations through UNCTAD) was established by GATT in 1964 to provide information and training on export markets and marketing techniques, and thereby to assist the trade of developing countries. In 1984 the Centre became an executing agency of the UN Development Programme, responsible for carrying out UNDP-financed projects related to trade promotion.

Organization. A 2-yearly ministerial meeting is the ultimate policy-making body. The 132-member General Council has some 30 subordinate councils and committees. The *Dispute Settlement Body* was set up to deal with disputes between countries. Appeals against its verdicts are heard by a 7-member *Appellate Body*. In 1997 it was composed of representatives of Egypt, European Union, Japan, New Zealand, Philippines, USA and Uruguay. Dispute panels may be set up *ad hoc*, and objectors to their ruling may appeal to the Appellate Body whose decision is virtually binding. Refusal to comply at this stage results in the application of trade sanctions. Each appeal is heard by 3 of the Appellate Body members. Before cases are heard by dispute panels, there is a 60-day consultation period. The previous GATT Secretariat now serves the WTO, which has no resources of its own other than its operating budget. The budget for 1997 was 116m. Swiss francs.

NORTH ATLANTIC TREATY ORGANIZATION (NATO)

Origin and History. On 4 April 1949 the foreign ministers of Belgium, Canada, Denmark, France, Iceland, Italy, Luxembourg, the Netherlands, Norway, Portugal, the UK and the USA signed the North Atlantic Treaty, establishing the *North Atlantic Alliance*. In 1952 Greece and Turkey acceded to the Treaty; in 1955 came the Federal Republic of Germany; in 1982 Spain; in 1999 the Czech Republic, Hungary and Poland, bringing the total to 19 member nations.

Functions. The Alliance was established as a defensive political and military alliance of independent countries in accordance with the terms of the UN Charter. It provides common security for its members through co-operation and consultation in political, military and economic as well as scientific and other non-military fields. The Alliance links the security of North America to that of Europe. NATO is the organization which enables the goals of the Alliance to be implemented.

Reform and Transformation of the Alliance. Following the demise of the Warsaw Pact in 1991, and the improved relations with Russia, NATO has undertaken a fundamental transformation of structures and policies to meet the new security challenges in Europe. Attention has focused in particular on the need to reinforce the political role of the Alliance.

An essential component of this transformation has been the establishment of close security links with the states of Central and Eastern Europe and those of the former USSR through the North Atlantic Co-operation Council (NACC), established in Dec. 1991 as an integral part of NATO's new Strategic Concept, which was adopted by heads of state and government at a summit in Rome earlier that year. The NACC was replaced by the Euro-Atlantic Partnership Council (EAPC) in 1997. The EAPC brings together NATO's 19 member countries and 27 partner countries (the 26 members of Partnership for Peace and Tajikistan).

The Partnership for Peace (PfP) programme. The PfP builds on the momentum of co-operation created by the North Atlantic Co-operation Council. It was launched at the 1994 Brussels Summit and is expanding and intensifying political and military co-operation throughout Europe. In 1997 Allied Foreign and Defence Ministers launched a wide range of enhancement measures to PfP, which have strengthened it in political, security, military and institutional fields. Its core objectives are: the facilitation of transparency in national defence planning and budgeting processes; democratic control of defence forces; members' maintenance of capability and readiness to contribute to operations under the authority of the UN; development of co-operative military relations with NATO (joint planning, training and exercises) in order to strengthen participants' ability to undertake missions in the fields of peacekeeping, search and rescue, and humanitarian operations; development, over the longer term, of forces better able to operate with those of NATO member forces. NATO will consult with any active Partner which perceives a direct threat to its territorial integrity, political independence or security; and active participation in the Partnership is to play an important role in the process of NATO's expansion.

PfP has been a key factor in promoting the spirit of practical co-operation and commitment to the democratic principles which underpin the Alliance. One of the most tangible aspects of the PfP has been the holding of joint peacekeeping exercises. PfP exercises take place on a regular basis in both NATO and Partner countries. A large number of nationally sponsored exercises in the spirit of PfP have also been set up. In Jan. 2001 NATO had 26 PfP partners: Albania, Armenia, Austria, Azerbaijan, Belarus,

Bulgaria, Croatia, Estonia, Finland, Georgia, Ireland, Kazakhstan, Kyrgyzstan, Latvia, Lithuania, Macedonia, Moldova, Romania, Russia, Slovakia, Slovenia, Sweden, Switzerland, Turkmenistan, Ukraine and Uzbekistan. Many of these countries have accepted the Alliance's invitation to send liaison officers to permanent facilities at NATO Headquarters in Brussels and to the Partnership Co-ordination Cell in Mons, Belgium, where the Supreme Headquarters Allied Powers Europe (SHAPE) is located.

Other key reforms undertaken include a reduced and more flexible force structure, development of increased co-ordination and co-operation with other international institutions (EU, UN, WEU), development of the European Security and Defence Identity (ESDI), and the agreement to make NATO's assets and experience available to support international peace enforcement operations.

Efforts to strengthen the security and defence role of NATO's European Allies (the European Security and Defence Identity) were initially organized through the Western European Union (WEU). In 2000 the crisis management responsibilities of the WEU were increasingly assumed by the European Union (EU). A number of milestones can be identified in the development of ESDI between NATO, the WEU and the EU; the signing of the Maastricht treaty in 1992, which allowed for the development of a common European security and defence policy; the endorsement of the concept of Combined Joint Task Forces in 1994 and of 'separable but not separate forces' that could be made available for European-led crisis response operations other than collective defence; the Berlin decisions in 1996, which included the building up of ESDI within the alliance; the EU Summits in Cologne and Helsinki in 1999, which led to important decisions on strengthening the ESDP and the development of an EU rapid reaction capability, and recent developments in NATO-EU defence co-operation, which resulted in the setting up of ad-hoc working groups in 4 specific areas: security arrangements, developing permanent arrangements for consultation and co-operation between the 2 organizations, defining modalities for EU access to NATO assets, and EU capability goals.

NATO's military capabilities and its adaptability to include forces of non-NATO countries were decisive factors in the Alliance's role in implementing the Bosnian Peace Agreement. Following the signing of the Agreement in Paris on 14 Dec. 1995, and on the basis of the UN Security Council's Resolution 1031, NATO commenced implementation of the military aspects of the accord through the NATO-led multinational force, the Implementation Force (IFOR), under an operation code-named Joint Endeavour. Its task was to help the parties implement the peace accord to which they had freely agreed and create a secure environment for civil and economic reconstruction. IFOR was the largest-ever military operation undertaken by the Alliance. In Dec. 1996 it was replaced by the Stabilisation Force (SFOR), which is committed to contributing to peace and stability in Bosnia-Herzegovina.

In March 1999, following the collapse of negotiations with President Milošević of Yugoslavia on a settlement to the Kosovan crisis, NATO forces launched a series of attacks on Serb military targets. After an air campaign lasting seventy-eight days these attacks were suspended and in accordance with the Military-Technical Agreement the full withdrawal of Yugoslav forces began. The deployment in Kosovo of a multinational security force, with substantial NATO participation, was synchronized with the Serb withdrawal before the end of June. The formal cessation of the air campaign was then announced by the Secretary General of NATO. Since June 1999 a NATO-led peacekeeping force (KFOR) has been deployed in Kosovo under a United Nations mandate.

Enlargement. In Dec. 1994 NATO foreign ministers initiated a study on enlargement, which was followed by intensified individual dialogues with interested partner countries and by an analysis of the relevant factors associated with the admission of new members. The conclusion was that, subject to agreed criteria, the accession of new members would enhance security and extend stability throughout the Euro-Atlantic area.

On 27 May 1997, in Paris, NATO and Russia signed the Founding Act on Mutual Relations, Co-operation and Security, committing them to build together a lasting peace in the Euro-Atlantic area, and establishing a new forum for consultations and co-operation called the NATO-Russia Permanent Joint Council.

Two days later, in Sintra, Portugal, a NATO-Ukraine charter was drawn up and initialled, to be signed in Madrid the following July. At the same time, Foreign Ministers agreed to enhance their dialogue, begun in 1995, with 6 countries of the Mediterranean (Egypt, Israel, Jordan, Mauritania, Morocco, Tunisia), and a new committee, the Mediterranean Co-operation Group was established to take the Mediterranean Dialogue forward. Algeria joined the Mediterranean Dialogue in March 2000.

At the July 1997 meeting of Heads of State and Government in Madrid it was decided to invite 3 countries (Czech Republic, Hungary and Poland) to begin accession negotiations. By Dec. 1997 the 3 had signed accession agreements, and subsequently joined NATO in March 1999.

Organization. The North Atlantic Council (NAC) is the highest decision-making body and forum for consultation within the Atlantic Alliance. It is composed of Permanent Representatives of all 19 member countries meeting together at least once a week. The NAC also meets at higher levels involving foreign ministers or heads of state or government, but it has the same authority and powers of decision-making, and its decisions have the same status and validity at whatever level it meets. All decisions are taken on the basis of consensus, reflecting the collective will of all member governments. The NAC is the only body within the Atlantic Alliance which derives its authority explicitly from the North Atlantic Treaty. The NAC has responsibility under the Treaty for setting up subsidiary bodies. Committees and planning groups have since been created to support the work of the NAC or to assume responsibility in specific fields such as defence planning, nuclear planning and military matters.

The *Military Committee* is responsible for making recommendations to the Council and the Defence Planning Committee on military matters and for supplying guidance to the Allied Commanders. Composed of the Chiefs-of-Staff of member countries (Iceland, which has no military forces, may be represented by a civilian), the Committee is assisted by an International Military Staff. It meets at Chiefs-of-Staff level at least twice a year but remains in permanent session at the level of national military representatives. The area covered by the North Atlantic Treaty is divided into 2 commands: European and the Atlantic.

Finance. The co-ordination of military plans and defence expenditures rests on detailed and comparative analysis of the capabilities of member countries. In 1997 the cost of enlargement sparked a potentially damaging dispute between the USA and European members of the Alliance following Pentagon estimates that the cost would be in the region of US\$27,000m.–35,000m. over a 12-year period. Later assessments, taking into account the fact that Britain, France and Germany are already engaged in improving and increasing the mobility of their rapid-reaction or crisis forces, reduced the estimate to current members to US\$1,300m. over 10 years, with the cost of improved military capability in line with NATO standards in new member countries being the responsibility of new members.

Under the terms of the Partnership for Peace strategy, partner countries undertake to make available the necessary personnel, assets, facilities and capabilities to participate in the programme, and share the financial cost of any military exercises in which they participate.

BANK FOR INTERNATIONAL SETTLEMENTS (BIS)

Origin. Founded in 1930 to address the questions arising from German First World War reparations, the BIS now functions as the central banks' bank. Rights of representation at the General Meeting are held at present by 49 central banks.

Aims. To act as a forum to promote discussion and facilitate decision-making processes among central banks and within the international financial community; to act as a prime counterparty for central banks in their financial operations; to serve as a centre for economic and monetary research; and act as an agent or trustee in connection with international financial settlements.

Finance. The authorized share capital of the Bank is 1,500m. gold francs, divided into 600,000 shares of equal nominal value (2,500 gold francs per share), and in March 2000, 529,165 shares were in issue and the Bank held US\$128bn. (about 7% of world foreign exchange reserves) on behalf of some 120 central banks and international financial institutions.

At 31 March 2000 the Bank's balance sheet stood at 75bn. gold francs (US\$147bn.) with funds (capital and reserves) at 3.2bn. gold francs (US\$6.7bn.).

Organization and Membership. The 17-member Board of Directors includes the governors of the central banks of the following member countries: Belgium, Canada, France, Germany, Italy, Japan, the Netherlands, Sweden, Switzerland, the UK and the USA. The Chairman of the Board, Urban Bäckström (Sweden), acts as President.

Within the BIS there are 3 Standing Committees: the Basle Committee on Banking Supervision (the Basle Committee), the Committee on the Global Financial System (CGFS), and the Committee on Payment and Settlement Systems (CPSS); and a number of specialized Groups have been set up such as the Group of Experts on Monetary and Economic Databank Questions, the Committee of Experts on Gold and Foreign Exchange and the Co-ordinating Service for Central Banks and International Organizations.

The Financial Stability Institute—a joint initiative of the BIS and the Basle Committee on Banking Supervision—began its activities in mid-1999 in response to the need to strengthen financial systems worldwide. Interaction between the private sector, central banks and supervisory authorities plays an important role in the Institute's programmes.

The Financial Stability Forum, established in Feb. 1999, promotes information exchange and co-ordination among national authorities, international institutions and international regulatory and experts' groupings with responsibilities for questions of international financial stability. The BIS and other international institutions and groupings participate in the meetings of the Forum and jointly provide its secretariat, which is located at the BIS.

Since Jan. 1998 the BIS has hosted the Secretariat of the International Association of Insurance Supervisors (IAIS). The Secretariat operates in full independence of the BIS but has its offices at the Bank.

The BIS has had a long and close association with the Group of Ten (G10) and participates at G10 meetings, which are usually held in Basle.

ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT (OECD)

Origin. Founded in 1961 to replace the Organisation for European Economic Co-operation (OEEC), which was linked to the Marshall Plan and was established in 1948. The change of title marks the Organisation's altered status and functions: with the accession of Canada and USA as full members, it ceased to be a purely European body, and at the same time added development aid to the list of its priorities. The aims of the organization are to promote policies designed to achieve the highest sustainable economic growth and employment and a rising standard of living in Member countries, while maintaining financial stability, and thus to contribute to the development of the world economy; to contribute to sound economic expansion in Member as well as non-member countries in the process of economic development; and to contribute to the expansion of world trade on a multilateral, non-discriminatory basis in accordance with international obligations.

Members. Australia, Austria, Belgium, Canada, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Japan, Korea (Republic of), Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Slovakia, Spain, Sweden, Switzerland, Turkey, UK and USA. Slovakia is the OECD's newest member, joining in Dec. 2000.

Activities. The OECD's main fields of programming in 1999 were: economic policy; statistics; energy; development co-operation; sustainable development; public management; international trade; financial, fiscal and enterprise affairs; food, agriculture and fisheries; territorial development; environment; science, technology and industry; biotechnology and biodiversity; electronic commerce; initiatives to fight corruption; regulatory reform; ageing society; education, employment, labour and social affairs.

Relations with non-member countries. The *Centre for Co-operation with Non-Members (CCNM)* serves as a focal point for policy dialogue between the OECD and countries who are not members of the organization. The CCNM manages this dialogue through multicountry thematic, regional and country programmes. The multicountry thematic programmes—the Emerging Market Economy Forum (EMEF), the Transition Economy Programme (TEP) and the Emerging Asia Programme—address specific groups of countries with common problems. Key country programmes for China, Russia and Brazil meet the individual needs of each country. An active regional programme is well established for the Baltic States and there are other programmes under development for South-East Europe and Latin America.

Relations with developing countries. The OECD's Development Assistance Committee (DAC) is the principal body through which the Organisation deals with issues related to co-operation with developing countries and is one of the key forums in which the major bilateral donors work together to increase the effectiveness of their common effort to support sustainable development. Guided by the 'development partnership strategy' (OECD, 1996), the DAC's mission is to foster co-ordinated, integrated, effective and adequately financed international efforts in support of sustainable economic and social development. In addition, the Development Centre researches social and economic issues in the developing world and the Club du Sahel acts as a forum between the countries of West Africa and OECD assistance agencies.

Relations with other international organizations. Under a protocol signed at the same time as the OECD Convention, the European Commission generally takes part in the work of the OECD. EFTA may also send representatives to attend OECD meetings. Formal relations exist with a number of other international organizations, including the ILO, FAO, IMF, IBRD, UNCTAD, IAEA and the Council of Europe. A few non-governmental organizations have been granted consultative status enabling them to discuss subjects of common interest and be consulted in a particular field by the relevant OECD Committee or its officers, notably the Business and Industry Advisory Committee to the OECD (BIAC) and the Trade Union Advisory Committee (TUAC).

Organization. The governing body of OECD is the Council, on which each member country is represented. It meets from time to time (usually once a year) at the level of government ministers, with the chairmanship at ministerial level being rotated among member governments. The Council also meets regularly at official level, when it comprises the Secretary-General (chairman) and the Permanent Representatives to OECD (ambassadors who head resident diplomatic missions). It is responsible for all questions of general policy and may establish subsidiary bodies as required to achieve the aims of the organization. Decisions and recommendations of the Council are adopted by agreement of all its members.

The Council is assisted by an Executive Committee which prepares its work and is also called upon to carry out specific tasks where necessary. Apart from its regular meetings, the Committee meets occasionally in special sessions attended by senior governments officials. The greater part of the work of the OECD is prepared and carried out by about 200 specialized bodies (Committees, Working Parties, etc). All members are normally represented on these bodies, except those of a restricted nature. Delegates are usually officials coming either from the capitals of member states or from the Permanent Delegations to the OECD. They are serviced by an International Secretariat headed by the OECD Secretary-General. Funding is by contributions from member states, based on a formula related to their size and economy.

3 other bodies are part of the OECD system: the International Energy Agency (IEA), the Nuclear Energy Agency (NEA) and the Centre for Educational Research and Innovation (CERI).

EUROPEAN UNION (EU)

Origin. The Union is founded on the existing European communities set up by the Treaties of Paris (1951) and Rome (1957), supplemented by revisions, the Single European Act in 1986, the Maastricht Treaty on European Union in 1992, the Treaty of Amsterdam in 1997 and the draft Treaty of Nice in 2000.

Members. (15). As at April 2001: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Republic of Ireland, Italy, Luxembourg, the Netherlands, Portugal, Spain, Sweden and the UK.

History. On 19 Sept. 1946, in Zürich, Winston Churchill called for a 'united states of Europe'. Two years later, the Congress of Europe (the meeting in The Hague of nearly 1,000 Europeans from 26 countries calling for a united Europe) resulted in the birth in 1949 of the Council of Europe, a European assembly of nations whose aim (Art. 1 of the Statute) was: 'to achieve a greater unity between its members for the purpose of safeguarding and realizing the ideals and principles which are their common heritage'.

On 18 April 1951, subsequent to a proposal by the French foreign minister Robert Schuman (Schuman Declaration), Belgium, France, the Federal Republic of Germany, Italy, Luxembourg and the Netherlands signed the Treaty of Paris establishing the *European Coal and Steel Community (ECSC)*. The treaty provided for the pooling of coal and steel production and was regarded as a first step towards a united Europe. Encouraged by the success of the ECSC, plans were laid down for the establishment of 2 more communities. *The European Economic Community (EEC)* and *the European Atomic Energy Community (EAEC or Euratom)* were subsequently created under separate treaties signed in Rome on 25 March 1957. The treaties provided for the establishment by stages of a common market with a customs union at its core, the approximation of economic policies, and the promotion of growth in the nuclear industries for peaceful purposes.

To this end, Euratom was awarded monopoly powers of acquisition of fissile materials for civil purposes (it is not concerned with the military uses of nuclear power). Subsequently, the various powers of the 3 communities (ECSC, EAEC, EEC, sometimes referred to collectively as the European Community or EC) were transferred by a treaty signed in Brussels in 1965 to a single Council and single Commission of the European Communities, today the core of the EU. The Commission is advised on matters relating to EAEC by a Scientific and Technical Committee.

Enlargement. On 30 June 1970, membership negotiations began between the European Community and the UK, Denmark, Ireland and Norway. On 22 Jan. 1972, all 4 countries signed a Treaty of Accession, and with the exception of Norway which later rejected membership in a referendum in Nov. that year, the UK, Denmark and Ireland became full members on 1 Jan. 1973 (though Greenland exercised its autonomy under the Danish Crown to secede in 1985). Greece joined on 1 Jan. 1981; Spain and Portugal on 1 Jan. 1986. The former German Democratic Republic entered into full membership on reunification with Federal Germany in Oct. 1990, and following referendums in favour, Austria, Finland and Sweden became members on 1 Jan. 1995. In a referendum in Nov. 1994 Norway again rejected membership.

Single European Act. The enlarging of the Community resulted in renewed efforts to promote European integration, culminating in the signing in Dec. 1985 of the Single European Act. The SEA represented the first major revision of the Treaties of Rome and provided for greater involvement of the European Parliament in the decision-making process.

Maastricht Treaty on European Union. Further amendments were agreed at the Maastricht Summit of Dec. 1991 in the draft Treaty on European Union whereby moves to a common currency were agreed subject to specific conditions (including an opt-out clause for the UK) and the social dimension was recognized in a protocol (not applicable to the UK) allowing member states to use EC institutions for this purpose. Ratification by member states of the Maastricht Treaty proved unexpectedly controversial. In June 1992 the Danish electorate in a referendum voted against it, then reversed the decision in a second referendum in May 1993. Ratification was finally completed during 1993, with the UK ratifying on 2 Aug., and the European Union (EU) officially came into being on 1 Nov. that year.

Further Enlargement. On 16 July 1997 Jacques Santer presented *Agenda 2000*, the European Commission's detailed strategy for consolidating the Union through enlargement as far eastwards as Ukraine, Belarus and Moldova. It recommended the early start of accession negotiations with Hungary, Poland, Estonia, the Czech

Republic and Slovenia under the provision of Article O of the Maastricht Treaty whereby 'any European State may apply to become a member of the Union' (subject to the Copenhagen Criteria set by the European Council at its summit in 1993). The first accessions are likely to be in 2004.

Meanwhile, other central and eastern European applicants (Bulgaria, Latvia, Lithuania, Romania and Slovakia) enjoy associate agreements to help speed up their preparations for membership. Applications to join the EU have been received by Cyprus (already favourably received), Turkey, Malta and Switzerland; and the Prince of Liechtenstein has made it known that he wishes his government to apply.

By 2000 there were 12 definite candidate countries—Bulgaria, Cyprus, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Romania, Slovakia and Slovenia.

Objectives. The ultimate goal of the EU is 'an ever closer union among the peoples of Europe, in which decisions are taken as closely as possible to the citizen'. Priorities include the implementation of the Treaty of Amsterdam (new rights for citizens, freedom of movement, strengthening the institutions of the EU, employment); economic and monetary union; further expansion of the scope of the Communities; implementation of a common foreign and security policy; and development in the fields of justice and home affairs. At the European Summit held in Nice, France in Dec. 2000 it was agreed to concentrate on four main areas—the charter of fundamental rights, simplifying EU treaties, clarifying the balance of power between the EU and member states, and the possibility of a second chamber of parliament.

Structure. The institutional arrangements of the EU provide for an independent policy-making executive with powers of proposal (European Commission), various consultative and advisory bodies, and a decision-making body drawn from the Governments (Council of Ministers).

Defence. In Nov. 2000 European Union defence ministers agreed to commit personnel and equipment to a rapid reaction force that could be deployed in tackling crises in an area up to 4,000 km from Brussels at short notice. The force is to become fully operational in 2003 and missions could include humanitarian rescue operations, the prevention of armed conflict and even full-scale interventions to separate warring parties. There will be a pool of approximately 100,000 personnel, 400 combat aircraft and 100 warships, but a maximum of 60,000 personnel will be serving at any one time to allow for the rotation of forces in the event of a lengthy operation. Although final numbers have not yet been agreed, Britain, France and Germany are likely to provide the largest number of troops, at around 12,000 to 13,000 each out of the total of 60,000. Denmark has decided to opt out.

Official languages. Danish, Dutch, English, Finnish, French, German, Greek, Italian, Portuguese, Spanish and Swedish.

1. **European Commission** consists of 20 members appointed by the member states (one from each small country, two from each big one) to serve for 5 years. The Commission President is selected by a consensus of member state heads of government and serves a 5-year term. The Commission acts as the EU executive body and as guardian of the Treaties. In this it has the right of initiative (putting proposals to the Council of Ministers for action) and of execution (once the Council has decided). It can take the other institutions or individual countries before the European Court of Justice should any of these fail to comply with European Law. Decisions on legislative proposals made by the Commission are taken in the Council of the European Union. Members of the Commission swear an oath of independence, distancing themselves from partisan influence from any source. The Commission operates through 37 Directorates-General and services.

At the European Summit held in Nice in Dec. 2000 it was decided that in 2005 Germany, France, the UK, Italy and Spain would lose their second commissioner. Each new member state will have one commissioner until there are 27 EU member countries. A permanent limit of fewer than 27 will then be set, with the seats being rotated among member states.

Secretary-General: David O'Sullivan (Ireland).

2. The European Council. Since 1974, Heads of State or Government have met at least twice a year (in the capital of the member state currently exercising the presidency of the Council of European Union) in the form of the European Council or European Summit as it is commonly known. Its membership includes the President of the European Commission, and the President of the European Parliament is invited to make a presentation at the opening session. The European Council has become an increasingly important element of the Union, setting priorities, giving political direction, providing the impetus for its development and resolving contentious issues that prove too difficult for the Council of the European Union. It has become directly responsible for common policies within the fields of foreign and security policy, justice and home affairs. Though there was no provision made for its existence in the original Treaty of Rome, its position was later acknowledged and formalized in the Single European Act.

3. Council of the European Union (Council of Ministers). Consists of foreign ministers from the 15 national governments and is the only institution which directly represents the member states' national interests. It is the Union's principal decision-making body. Here, members legislate for the Union, set its political objectives, co-ordinate their national policies and resolve differences between themselves and other institutions. The presidency rotates every 6 months. Sweden had the presidency during the first half of 2001, Belgium has the presidency during the second half of 2001, Spain will have it during the first half of 2002 and Denmark during the second half of 2002. Meetings are held in Brussels, except in April, June and Oct. when all meetings are in Luxembourg. Around 100 formal ministerial sessions are held each year. In 1999 the final adoption of some 200 legal acts took place.

Decisions are taken either by qualified majority vote or by unanimity. Since the adoption of the Single European Act, an increasing number of decisions are by majority vote, though some areas such as taxation and social security, immigration and border controls are reserved to unanimity. At the Nice Summit in Dec. 2000 agreement was reached that a further 39 articles of the EU's treaties would move to

qualified majority voting. 27 votes are needed to veto a decision, and member states carry the following vote weightings: France, Germany, Italy and the UK, 10; Spain, 8; Belgium, Greece, the Netherlands and Portugal, 5; Austria and Sweden, 4; Denmark, Finland and the Republic of Ireland, 3; Luxembourg, 2. At the EU summit held in Nice, France in Dec. 2000, the allocation of vote weightings was agreed after the 12 candidate countries have joined the EU. The new allocation is to be: France, Germany, Italy and the UK, 29; Poland and Spain, 27; Romania, 14; the Netherlands, 13; Belgium, the Czech Republic, Greece, Hungary and Portugal, 12; Austria, Bulgaria and Sweden, 10; Denmark, Finland, the Republic of Ireland, Lithuania and Slovakia, 7; Cyprus, Estonia, Latvia, Luxembourg and Slovenia, 4; Malta 3. Each member state has a national delegation in Brussels known as the Permanent Representation, headed by Permanent Representatives, senior diplomats whose committee (Coreper) prepares ministerial sessions. Coreper meets weekly and its main task is to ensure that only the most difficult and sensitive issues are dealt with at ministerial level. Coreper is also the point of reference for many of the Council's working groups of national experts. Specialist Councils such as the Agriculture Council meet to discuss matters related to individual policies.

The Secretariat provides the practical infrastructure of the Council at all levels. The JHA (Co-operation in the fields of Justice and Home Affairs), established in the Maastricht Treaty, brings together the ministries of justice and the interior of the 15 member states. It permits dialogue and co-operation between the police, customs, immigration services and justice departments of the member states in order to combat problems relating to both civil and criminal matters. The CFSP (the Common Foreign and Security Policy), also established by the Maastricht Treaty, came into force on 1 Nov. 1993. It was implemented in order to strengthen the European Union's international standing, allowing it to contribute to international peacekeeping, promote co-operation, democracy and human rights around the world and speak with one voice in order to show a common political will.

Legislation. The Community's legislative process starts with a proposal from the Commission (either at the suggestion of its services or in pursuit of its declared political aims) to the Council. The Council generally seeks the views of the European Parliament on the proposal, and the Parliament adopts a formal Opinion after consideration of the matter by its specialist Committees. The Council may also (and in some cases is obliged to) consult the Economic and Social Committee which similarly delivers an opinion. When these opinions have been received, the Council will decide. Most decisions are taken on a majority basis, but will take account of reservations expressed by individual member states. The text eventually approved may differ substantially from the original Commission proposal.

Provisions of the Treaties and secondary legislation may be either directly applicable in member states or only applicable after member states have enacted their own implementing legislation. Community law, adopted by the Council (or by Parliament and the Council in the framework of the co-decision procedure) may take the following forms: (1) *Regulations*, which are of general application and binding in their entirety and directly applicable in all member states; (2) *Directives*, which are binding upon each member state as to the result to be achieved within a given time, but leave the national authority the choice of form and method of achieving this result; and (3) *Decisions*, which are binding in their entirety on their addressees. In addition the Council and Commission can issue recommendations and opinions which have no binding force.

Transparency. The Council is making strong efforts to make more of its work accessible to its citizens. Votes on legislative matters, as well as the explanations of these votes, are now automatically made public. Other attempts to improve transparency include briefings for journalists and the provision of background notes on subjects under discussion. Europe Day is celebrated on 9 May each year.

Headquarters: 175 rue de la Loi, B-1048 Brussels, Belgium.

Secretary-General: Javier Solana.

4. European Parliament. Consists of 626 members, elected in all 15 member states for 5-year terms on 10 and 13 June 1999. A proportional representation system was used in Great Britain for the first time.

All EU citizens may stand or vote in their adoptive country of residence. Germany returned 99 members, France, Italy and the UK 87 each, Spain 64, the Netherlands 31, Belgium, Greece and Portugal 25 each, Sweden 22, Austria 21, Denmark and Finland 16 each, Ireland 15 and Luxembourg 6. At the EU summit held in Nice, France in Dec. 2000, the parliamentary allocation of seats after the forthcoming expansion of the EU to include the 12 candidate countries was announced. Out of a total of 732 seats, Germany would still have 99, France, Italy and the UK 72 each, Poland and Spain 50 each, Romania 33, the Netherlands 25, Belgium, Greece and Portugal 22 each, the Czech Republic and Hungary 20 each, Sweden 18, Austria and Bulgaria 17 each, Denmark, Finland and Slovakia 13 each, Ireland and Lithuania 12 each, Latvia 8, Slovenia 7, Cyprus, Estonia and Luxembourg 6 each, and Malta 5.

Political groupings. Following the 1999 elections to the European Parliament the European People's Party (EPP) had 233 seats, Party of European Socialists (PES) 180, European Liberal Democratic and Reformist Group (ELDR) 51, Greens/European Free Alliance (GR/EFA) 48, European Unitary Left (EUL) 42, Union for a Europe of Nations (UEN) 31, Europe of Democracies and Diversities (EDD) 16, Independents (I) 25.

The Parliament has a right to be consulted on a wide range of legislative proposals and forms one arm of the Community's Budgetary Authority. Under the Single European Act, it gained greater authority in legislation through the 'concertation' procedure under which it can reject certain Council drafts in a second reading procedure. Under the Maastricht Treaty, it gained the right of 'co-decision' on legislation with the Council of Ministers on a restricted range of domestic matters. The President of the European Council must report to the Parliament on progress in the development of foreign and security policy. It also plays an important role in appointing the President and members of the Commission. It can hold individual commissioners to account and can pass a motion of censure on the entire Commission, a prospect that was realized in March 1999 when the Commission, including the President, Jacques Santer, was forced to resign following an investigation into mismanagement and corruption. Parliament's seat is in Strasbourg where the 1-week plenary sessions are held each month. In the Chamber, members sit in political groups, not as national delegations. All the activities of the Parliament and its bodies are the responsibility of the Bureau, consisting of the President and 14 Vice-Presidents elected for a two-and-a-half year period. The Conference of Presidents is responsible for organizing Parliament's work and drawing up the agenda for plenary sessions.

Parliamentary committees generally meet for 2 weeks a month in Brussels for ease of contact with the Commission and Council of Ministers.

Location: Brussels, but meets at least once a month in Strasbourg.

President: Nicole Fontaine (France; EPP).

5. The **Court of Justice of the European Communities** composed of 15 judges and 9 advocates-general is responsible for the adjudication of disputes arising out of the application of the treaties, and its findings are enforceable in all member countries. A Court of First Instance (est. 1989) handles certain categories of cases, including cases arising under the competition rules of the EC and cases brought by Community officials.

Address: Court of Justice of the European Communities, L-2925 Luxembourg.

President of the Court of Justice: Gil Carlos Rodríguez Iglesias (Spain).

President of the Court of First Instance: Bo Vesterdorf (Denmark).

6. The **European Court of Auditors** was established by a treaty of 22 July 1975 which took effect on 1 June 1977. It consists of 15 members and was raised to the status of a full EU institution by the 1993 Maastricht Treaty. It audits the accounts and verifies the implementation of the budget of the EU.

Address: 12, rue Alcide De Gasperi, L-1615 Luxembourg.

President: Jan O. Karlsson (Sweden).

Major Policy Areas. The major policy areas of the EU were laid down in the Treaty of Rome of 25 March 1957 which guaranteed certain rights to the citizens of all

member states, including the outlawing of economic discrimination by nationality, and equal pay for equal work as between men and women.

The single internal market. The single internal market represents the core of the process of economic integration and is characterized by the removal of obstacles to the 4 fundamental freedoms of movement for persons, goods, capital and services. Under the Treaty, individuals or companies from 1 member state may establish themselves in another country (for the purposes of economic activity) or sell goods or services there on the same basis as nationals of that country. With a few exceptions, restrictions on the movement of capital have also been ended. Under the Single European Act the member states bound themselves to achieve the suppression of all barriers to free movement of persons, goods and services by 31 Dec. 1992.

The *Schengen Accord* abolished border controls on persons and goods between those EU and non-EU states which have signed it. It came into effect on 26 March 1995 and was signed by Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain and Sweden.

Economic and Monetary Union. The establishment of the single market provided for the next phase of integration: economic and monetary union. The *European Monetary System (EMS)* was founded in March 1979 to control inflation, protect European trade from international disturbances and ultimately promote convergence between the European economies. At its heart was the *Exchange Rate Mechanism (ERM)*. The ERM is run by the finance ministries and central banks of the EU countries on a day-to-day basis; monthly reviews are carried out by the EU Monetary Committee (finance ministries) and the EU Committee of Central Bankers. Greece and Sweden are not in the ERM; the UK suspended its membership on 17 Sept. 1992. In Jan. 1995 Austria joined the ERM. Finland followed in 1996, and in Nov. that year the Italian lira, which had been temporarily suspended, was readmitted.

Members are obliged to restrict the fluctuations in the value of their currencies to a variation 'band', of 15% (2.25% for Germany and the Netherlands) higher or lower than a central rate established by comparing all the currencies in the ERM and the European Currency Unit, the ecu. If a currency reaches its top or bottom limits, central banks are obliged to buy or sell currency on the foreign exchanges. Further stabilization measures would involve adjustment of national interest rates, central bank borrowing from other central banks or withdrawal of reserves from the European Monetary Co-operation Fund. The adjustment of last resort is re- or devaluation. In July 1993, following intensive currency speculation on European financial markets, forcing the weaker currencies to the edge of their permitted bands, the ERM almost collapsed. In response the fluctuation margins were widened. The ecu's value in national currencies is calculated and published daily.

Under the Maastricht Treaty the second stage in economic and monetary union began with the establishment of the European Monetary Institute (see below) in order to prepare for the implementation of a single monetary policy and single currency. A European Central Bank (ECB) has taken over the tasks of the EMI now that a single policy and currency are in place.

European Monetary Union (EMU). The single European currency with 11 member states came into operation in Jan. 1999 although it will not be until 2002 that the currency is in general circulation. Greece subsequently joined in Jan. 2001. The euro-zone is the world's second largest economy after the USA in terms of output and the largest in terms of trade. EMU currency will consist of the euro of 100 cents, with coins of 1, 2, 5, 10, 20 and 50 cents and 1 and 2 euros and notes of 5, 10, 20, 50, 100, 200 and 500 euros. From 1 July 2002 it will be the only legal currency in EMU countries. EU member countries not in EMU will select a central rate for their currency in consultation with members of the euro bloc and the European Central Bank. The rate is set according to an assessment of each country's chances of joining the euro zone.

An agreement on the legal status of the euro and currency discipline, the Stability and Growth Pact, was reached by all member states at the Dublin summit on 13 Dec. 1996. Financial penalties will be applied to member states running a GDP deficit (negative growth) of up to 0.75%. If GDP falls between 0.75% and 2%, EU finance ministers will have discretion as to whether to apply penalties. Members running an

excessive deficit will be automatically exempt from penalties in the event of a natural disaster or if the fall in GDP is at least 2% over 1 year.

In economic and financial terms, the euro-12 countries are a close match for the USA. The combined GDP of the original euro-11 countries in 1997 was US\$6.5trn., compared with America's \$6.1trn. Taken together, bond markets in euro countries are somewhat smaller than America's, although Europe's equity markets are much smaller than Wall Street. Of the European Union's total exports in 1998, 33% went to the rest of Europe and 22% to the USA. The EU and the USA account for more than half the world's GDP and almost half the world's exports.

The dollar's role in international finance is, however, far bigger. It is the main currency used for the world's trade and investment. Roughly half of world trade is invoiced in dollars. Almost all commodities are priced in dollars. According to a recent survey by the Bank for International Settlements, the dollar features in at least one side of 87% of all foreign-exchange transactions, the D-mark in 30%, and other euro-member currencies in only 24%.

Environment. The Single European Act gave environmental policy its place with the view of making the protection of the environment an integral part of economic and social policies. Community policy aims at preventing pollution (the Prevention Principle), rectifying pollution at source, and imposing the costs of prevention or rectification upon the polluters themselves (the Polluter Pays Principle). The European Environment Agency (see below) was established to ensure that policy was based on reliable scientific data.

The Common Agricultural Policy (CAP). The objectives set out in the Treaty are to increase agricultural productivity, to ensure a fair standard of living for the agricultural community, to stabilize markets, to assure supplies, and to ensure reasonable consumer prices. In Dec. 1960 the Council laid down the fundamental principles on which the CAP is based: a single market, which calls for common prices, stable currency parities and the harmonizing of health and veterinary legislation; Community preference, which protects the single Community market from imports; common financing, through the European Agricultural Guidance and Guarantee Fund (EAGGF), which seeks to improve agriculture through its Guidance section, and to stabilize markets against world price fluctuations through market intervention, with levies and refunds on exports. At present, common market organizations cover over 95% of EU agricultural production.

Following the disappearance of stable currency parities, artificial currency levels have been applied in the CAP. This factor, together with over-production owing to high producer prices, meant that the CAP consumed about two-thirds of the Communities' budget. It was finally agreed in May 1992 to reform CAP and lessen over-production by reducing the price supports to farmers by 29% for cereals, 15% for beef and 5% for dairy products. In June 1995 the guaranteed intervention price for beef was decreased by 5%. In July 1996 agriculture ministers agreed a reduction in the set-aside rate for cereals from 10% to 5%. Fruit and vegetable production subsidies were fixed at no more than 4% of the value of total marketed production, rising to 4.5% in 1999. Compensatory grants are made available to farmers who remove land from production or take early retirement. The CAP reform aims in the long term to make the agricultural sector more responsive to the level of supply and demand. Farm spending currently absorbs 50% of the EU budget but accounts for only 1.8% of Europe's GDP.

The Beef Crisis. In July 1994 Community ministers adopted measures to prevent the spread of bovine spongiform encephalopathy (BSE) by imposing strict controls on carcass beef trade. In March 1996, owing to increased fears about possible links between BSE and Creutzfeldt-Jakob Disease (CJD) and a collapse in consumer confidence in the beef market, the Commission accepted that member countries could unilaterally stop imports of beef on health grounds. By 22 March, 12 EU countries had taken the step of banning UK beef, and on 27 March the Commission agreed a ban on exports from the UK of live cattle, beef and beef products. The UK responded to the crisis with a programme of selective slaughter to eradicate BSE from the national herd, then later repudiated the agreement and applied for the ban to be suspended. This was duly rejected by the European Court of Justice in July 1996 and an additional cull on the UK herd was requested. In Aug. 1996 the Beef Assurance Scheme for specialist grass reared beef herds

which had not been affected by BSE or come into contact with meat and bonemeal was introduced. A report criticizing the UK handling of the BSE problem was published by the European Temporary Committee of Inquiry. The ban on beef exports from Northern Ireland was lifted on 1 June 1998. On 25 Nov. 1998 the European Commission adopted a proposal for a Date Based Export Scheme, for the export of deboned beef and beef products from the UK. The ban on the export of British beef was lifted on 1 Aug. 1999.

Customs Union and External Trade Relations. Goods or Services originating in one member state have free circulation within the EU, which implies common arrangements for trade with the rest of the world. Member states can no longer make bilateral trade agreements with third countries; this power has been ceded to the EU. The Customs Union was achieved in July 1968.

In Oct. 1991 a treaty forming the *European Economic Area (EEA)* was approved by the member states of the then EC and European Free Trade Association (EFTA). Association agreements which could lead to accession or customs union have been made with Cyprus, Estonia, Latvia, Lithuania, Israel, Malta, Morocco and Turkey. The customs union with Turkey came into force on 1 Jan. 1996. Commercial, industrial, technical and financial aid agreements have been made with Algeria, Egypt, Jordan, Lebanon, Morocco, Russia, Syria, Tunisia and the former Yugoslavia. In 1976 Canada signed a framework agreement for co-operation in industrial trade, science and natural resources, and a transatlantic pact was signed with the USA in Dec. 1995. Co-operation agreements also exist with a number of Latin American countries and groupings, and with Arab and Asian countries, and an economic and commercial agreement has been signed with the Association of South East Asian Nations (ASEAN). Partnership and co-operation agreements were signed with Ukraine in June 1994, Kazakhstan in Jan. 1995, Kyrgyzstan in Feb. 1995 and with Uzbekistan in June 1996. In the Development Aid sector, the EU has an agreement (the Cotonou Agreement, signed in 2000, the successor of the Lomé Convention, originally signed in 1975 but renewed and enlarged in 1979, 1984 and 1989) with some 60 African, Caribbean and Pacific (ACP) countries which removes customs duties without reciprocal arrangements for most of their imports to the Community.

The application of common duties has been conducted mainly within the framework of the *General Agreement on Tariffs and Trade (GATT)*, which was succeeded in 1995 by the establishment of the World Trade Organization.

Fisheries. The Common Fisheries Policy (CFP) came into effect in Jan. 1983, according to which all EU fishermen have equal access to the waters of member countries (a zone extending up to 200 nautical miles from the shore around all its coastlines), with the total allowable catch for each species being set and shared out between member countries according to pre-established quotas, with in some cases 'historic rights' applying, as well as special rules to conserve stock, preserve marine biodiversity, and the sustainable pursuit of fishing.

A number of agreements are in place with other countries (Canada, Norway, USA and some African countries) allowing reciprocal fishing rights. When Greenland withdrew from the Community in 1985 EU boats retained their fishing rights subject to quotas and limits, which were revised in 1995 owing to concern about overfishing of Greenland halibut. Agreements were initialled with Estonia, Latvia, Lithuania and Argentina in 1992.

Transport. Under the Maastricht Treaty, the Community must contribute to the establishment and development of trans-European networks in the areas of transport, telecommunications and energy infrastructures.

Competition. The Competition (anti-trust) law of the EU is based on 2 principles: that businesses should not seek to nullify the creation of the common market by the erection of artificial national (or other) barriers to the free movement of goods; and against the abuse of dominant positions in any market. These two principles have led among other things to the outlawing of prohibitions on exports to other member states, of price-fixing agreements and of refusal to supply; and to the refusal by the Commission to allow mergers or takeovers by dominant undertakings in specific cases. Increasingly heavy fines are imposed on offenders.

A number of structural funds have been established in an attempt to counter specific problems within and across the Community. These include:

European Social Fund. Provides resources with the aim of combating long-term unemployment and facilitating integration into the labour market of young people and the socially disadvantaged. The 1996 budget included an allocation of around ecu 7,146m. for the Fund's commitments.

European Regional Development Fund. Intended to compensate for the unequal rate of development among different regions of the EU by encouraging investment and improving infrastructure in 'problem regions'.

Finances. The general budget of the EU covers all EEC and Euratom expenditure, and the administrative expenditure of the ECSC.

EU revenue in ecu 1m.:

	1997
Own resources	81,754
Miscellaneous Community taxes, levies and dues	476
Administrative operation of the institutions	97
Contributions to EU programmes	16
Borrowing and lending	18
Miscellaneous	5
Total	82,366

Expenditure for 1996 was ecu 85,094m.

The resources of the Community (the levies and duties mentioned above, and up to a 1.4% VAT charge) have been surrendered to it by Treaty. The Budget is made by the Council and the Parliament acting jointly as the Budgetary Authority. The Parliament has control, within a certain margin, of non-obligatory expenditure (where the amount to be spent is not set out in the legislation concerned), and can also reject the Budget. Otherwise, the Council decides. An agreement of 1992 fixed the permissible ceiling of expenditure at 1.2% of EC GDP in 1993 and 1994, rising to 1.27% in 1999. In Dec. 1994, taking into account the enlargement of the EU to 15 countries (from 1 Jan. 1995), it was agreed to set a level of maximum expenditure at ecu 75,500m., in 1995, increasing to ecu 87,000m., in 1999.

The Consultative Bodies There are 3 main consultative committees whose members are appointed in a personal capacity and are not bound by any mandatory instruction.

1. *Economic and Social Committee.* The 222-member committee is consulted by the Council of Ministers or by the European Commission, particularly with regard to agriculture, free movement of workers, harmonization of laws and transport. It is served by a permanent and independent General Secretariat, headed by a Secretary-General.

Secretary-General: Patrick Venturini (France).

2. *ECSC (European Coal and Steel Community) Consultative Committee.* A 108-member committee representing producers, workers, consumers and traders in the coal and steel industry. Appointed by the Council for a 2-year term and attached to the Commission, it plays an advisory role on the coal and steel sectors.

3. *Committee of the Regions.* A new advisory body established by the Maastricht Treaty and consisting of 222 full members and an equal number of alternate members appointed by the Council for a 4-year term. The Committee must be consulted on matters regarding education, culture, public health, trans-European networks, economic and social cohesion, and on any issue with regional implications.

President: Jos Chabert (Belgium).

In addition to these, there are many advisory committees dealing with all aspects of EU policy and several hundred special interest groups, which may hold unofficial talks with the Commission.

Address: Jean Monnet Building, rue Alcide de Gasperi, L-2920 Luxembourg.

The **EU Ombudsman** was inaugurated in 1995. The present incumbent is Jacob Söderman (Finland).

EUROPEAN INVESTMENT BANK (EIB) The EIB is the financing institution of the European Union, created by the Treaty of Rome in 1958 as an autonomous body set up to finance capital investment furthering European integration. To this end, the Bank raises its resources on the world's capital markets where it mobilizes significant volumes of funds on favourable terms. It directs these funds towards capital projects promoting EU economic policies. Outside the Union the EIB implements the financial components of agreements concluded under European Union development aid and co-operation policies. The members of the EIB are the member states of the European Union, who have all subscribed to the Bank's capital. Its governing body is its Board of Governors consisting of the ministers designated by each of the member states, usually the finance ministers.

Address: 100 Bd Konrad Adenauer, L-2950 Luxembourg.

Website: <http://www.eib.org>

President and Chairman of the Board: Philippe Maystadt.

EUROPEAN SYSTEM OF CENTRAL BANKS (ESCB) The ESCB is composed of the European Central Bank (ECB) and 15 National Central Banks (NCBs). The NCBs of the member states not participating in the euro area are members with special status; while they are allowed to conduct their respective national monetary policies, they do not take part in decision-making regarding the single monetary policy for the euro area and the implementation of these policies. The Governing Council of the ECB makes a distinction between the ESCB and the "Eurosystème" which is composed of the ECB and the 11 fully participating NCBs.

Members. The 11 fully participating National Central Banks are from: Austria, Belgium, Finland, France, Germany, Ireland, Italy, Luxembourg, Netherlands, Portugal and Spain. The 4 members with special status are: Denmark, Greece, Sweden and the United Kingdom.

Functions. The primary objective of the ESCB is to maintain price stability. Without prejudice to this, the ESCB supports general economic policies in the Community with a view to contributing to the achievement of the objectives of the Community. Tasks to be carried out include: i) defining and implementing the monetary policy of the Community; ii) conducting foreign exchange operations; iii) holding and managing the official foreign reserves of the participating member states; iv) promoting the smooth operation of payment systems; v) supporting the policies of the competent authorities relating to the prudential supervision of credit institutions and the stability of the financial system.

The ECB has the exclusive right to issue banknotes within the Community.

Organization. The ESCB is governed by the decision-making bodies of the ECB: the Governing Council and the Executive Board. The Governing Council is the supreme decision-making body and comprises all members of the Executive Board plus the governors of the NCBs forming the Eurosystème. The Executive Board comprises the president, vice-president and four other members, appointed by common accord of the heads of state and government of the participating member states. There is also a General Council which will exist while there remain members with special status.

Address: Kaiserstrasse 29, 60311 Frankfurt am Main, Germany.

President: Willem Duisenberg (Netherlands).

EUROPEAN ENVIRONMENT AGENCY Launched by the EU in 1993 with a mandate to orchestrate, cross-check and put to strategic use information of relevance to the protection and improvement of Europe's environment. Based in Copenhagen, it has a mandate to ensure objective, reliable and comprehensive information on the environment at European level to enable its members to take the requisite measures to protect it. The Agency carries out its tasks through the European Information and Observation Network (EIONET). Membership is open to countries outside the EU

that share the Agency's concerns. Current membership includes all EU countries, Iceland, Liechtenstein and Norway.

EUROPOL Founded on 3 Jan. 1994 to exchange criminal intelligence between EU countries. Its precursor was the Europol Drug Unit, which initially dealt with the fight against drugs, progressively adding other areas. Europol took up its full activities on 1 July 1999. Europol's current mandate includes the prevention and combat of illicit drug trafficking, crimes involving illegal immigration networks, illicit vehicle trafficking, trafficking in human beings including child pornography, forgery of money and means of payment, illicit trafficking in nuclear and radioactive substances, and terrorism. There are about 220 staff members from all member states. Of these, 44 are ELOs (Europol Liaison Officers) working for their national police, gendarmerie or customs services. The 2000 budget was 27.5m. euros. Member countries subscribe in proportion to their GNP.

Address: Raamweg 47, The Hague, The Netherlands.

The data are directly available from the Data Shop network and from EUR-OP distribution networks.

Address: Jean Monnet Building, L-2920 Luxembourg.

Data Shop: Rue de la Loi 120, B-1049 Brussels, Belgium.

COUNCIL OF EUROPE

Origin and Membership. In 1948 the Congress of Europe, bringing together at The Hague nearly 1,000 influential Europeans from 26 countries, called for the creation of a united Europe, including a European Assembly. This proposal, examined first by the Ministerial Council of the Brussels Treaty Organization, then by a conference of ambassadors, was at the origin of the Council of Europe, which is, with its 43 member States, the widest organization bringing together all European democracies. The Statute of the Council was signed at London on 5 May 1949 and came into force 2 months later.

The founder members were Belgium, Denmark, France, Ireland, Italy, Luxembourg, the Netherlands, Norway, Sweden and the UK. Turkey and Greece joined in 1949, Iceland in 1950, the Federal Republic of Germany in 1951 (having been an associate since 1950), Austria in 1956, Cyprus in 1961, Switzerland in 1963, Malta in 1965, Portugal in 1976, Spain in 1977, Liechtenstein in 1978, San Marino in 1988, Finland in 1989, Hungary in 1990, Czechoslovakia (after partitioning, the Czech Republic and Slovakia rejoined in 1993) and Poland in 1991, Bulgaria in 1992, Estonia, Lithuania, Romania and Slovenia in 1993, Andorra in 1994, Albania, Latvia, Macedonia, Moldova and Ukraine in 1995, Croatia and Russia in 1996, Georgia in 1999, and Armenia and Azerbaijan in 2001.

Membership is limited to European states which 'accept the principles of the rule of law and of the enjoyment by all persons within [their] jurisdiction of human rights and fundamental freedoms'. The Statute provides for both withdrawal (Article 7) and suspension (Articles 8 and 9). Greece withdrew during 1969–74.

Aims and Achievements. Article 1 of the Statute states that the Council's aim is 'to achieve a greater unity between its members for the purpose of safeguarding and realizing the ideals and principles which are their common heritage and facilitating their economic and social progress'; 'this aim shall be pursued... by discussion of questions of common concern and by agreements and common action'. The only limitation is provided by Article 1 (d), which excludes 'matters relating to national defence'.

The main areas of the Council's activity are: human rights, the media, social and socio-economic questions, education, culture and sport, youth, public health, heritage and environment, local and regional government, and legal co-operation. 170 Conventions and Agreements have been concluded covering such matters as social security, cultural affairs, conservation of European wildlife and natural habitats, protection of archaeological heritage, extradition, medical treatment, equivalence of degrees and diplomas, the protection of television broadcasts, adoption of children and transportation of animals.

Treaties in the legal field include the adoption of the European Convention on the Suppression of Terrorism, the European Convention on the Legal Status of Migrant Workers and the Transfer of Sentenced Persons. The Committee of Ministers adopted a European Convention for the protection of individuals with regard to the automatic processing of personal data (1981), a Convention on the compensation of victims of violent crimes (1983), a Convention on spectator violence and misbehaviour at sport events and in particular at football matches (1985), the European Charter of Local Government (1985), and a Convention for the Prevention of Torture and Inhuman or Degrading Treatment or Punishment (1987). The European Social Charter of 1961 sets out the social and economic rights which all member governments agree to guarantee to their citizens.

European Social Charter. The Charter defines the rights and principles which are the basis of the Council's social policy, and guarantees a number of social and economic rights to the citizen, including the right to work, the right to form workers'

organizations, the right to social security and assistance, the right of the family to protection and the right of migrant workers to protection and assistance. Two committees, comprising independent and government experts, supervise the parties' compliance with their obligations under the Charter. A revised charter, incorporating new rights such as protection for those without jobs and opportunities for workers with family responsibilities, was opened for signature on 3 May 1996 and signed by 13 members.

Human rights. The promotion and development of human rights is one of the major tasks of the Council of Europe. The European Convention on Human Rights, signed in 1950, set up special machinery to guarantee internationally fundamental rights and freedoms. The European Commission of Human Rights which was set up has now been abolished and has been replaced by the new European Court of Human Rights, which came into operation on 1 Nov. 1998. The European Court of Human Rights in Strasbourg, set up under the European Convention on Human Rights as amended, is composed of a number of judges equal to that of the Contracting States (currently 41). There is no restriction on the number of judges of the same nationality. Judges are elected by the Parliamentary Assembly of the Council of Europe for a term of 6 years. The terms of office of one half of the judges elected at the first election will expire after three years, so as to ensure that the terms of office of one half of the judges are renewed every three years. Any Contracting State (State application) or individual claiming to be a victim of a violation of the Convention (individual application) may lodge directly with the Court in Strasbourg an application alleging a breach by a Contracting State of one of the Convention rights.

President of the European Court of Human Rights: Luzius Wildhaber (Switzerland).

The Social Development Fund, formerly the Resettlement Fund, was created in 1956. The main purpose of the Fund is to give financial aid in the spheres of housing, vocational training, regional planning and development. Since 1956 the Fund has granted loans totalling ecu 10,000m.

The *European Youth Foundation* provides money to subsidize activities by European youth organizations in their own countries.

Structure. Under the Statute, 2 organs were set up: an intergovernmental *Committee of [Foreign] Ministers* with powers of decision and recommendation to governments, and an interparliamentary deliberative body, the *Parliamentary Assembly* (referred to in the Statute as the Consultative Assembly)—both served by the Secretariat. A Joint Committee acts as an organ of co-ordination and liaison between the two and gives members an opportunity to exchange views on matters of important European interest. In addition, a number of committees of experts have been established. On municipal matters the Committee of Ministers receives recommendations from the Congress of Local and Regional Authorities of Europe. The Committee usually meets twice a year and has a rotatory chair; their deputies meet for several days each month.

The *Parliamentary Assembly* consists of 301 parliamentarians elected or appointed by their national parliaments (Albania 4, Andorra 2, Armenia 4, Austria 6, Azerbaijan 6, Belgium 7, Bulgaria 6, Croatia 5, Cyprus 3, the Czech Republic 7, Denmark 5, Estonia 3, Finland 5, France 18, Georgia 5, Germany 18, Greece 7, Hungary 7, Iceland 3, Ireland 4, Italy 18, Latvia 3, Liechtenstein 2, Lithuania 4, Luxembourg 3, Macedonia 3, Malta 3, Moldova 5, Netherlands 7, Norway 5, Poland 12, Portugal 7, Romania 10, Russia 18, San Marino 2, Slovakia 5, Slovenia 3, Spain 12, Sweden 6, Switzerland 6, Turkey 12, Ukraine 12, UK 18). It meets 3 times a year for approximately a week. The work of the Assembly is prepared by parliamentary committees. Since June 1989 representatives of a number of central and East European countries have been permitted to attend as non-voting members ('special guests'), namely Armenia, Azerbaijan and Bosnia-Herzegovina. Armenia and Azerbaijan have subsequently become full members.

Although without legislative powers, the Assembly acts as the powerhouse of the Council, initiating European action in key areas by making recommendations to the Committee of Ministers. As the widest parliamentary forum in Western Europe, the Assembly also acts as the conscience of the area by voicing its opinions on important current issues. These are embodied in Resolutions. The Ministers' role is

to translate the Assembly's recommendations into action, particularly as regards lowering the barriers between the European countries, harmonizing their legislation or introducing, where possible, common European laws, abolishing discrimination on grounds of nationality, and undertaking certain tasks on a joint European basis.

WESTERN EUROPEAN UNION (WEU)

Origin. In March 1948 the signing of the Brussels Treaty of Economic, Social and Cultural Collaboration and Collective Defence by Belgium, France, Luxembourg, Netherlands and the UK opened the way for the establishment of the Western European Union. Six years later, the Paris Agreements, signed in Oct. 1954, which amended the Brussels Treaty, gave birth to WEU as a new international organization and provided for the Federal Republic of Germany and Italy to join. WEU came into being in 1955. Today, as an international defence and security organization, it brings together 28 nations encompassing four types of status: member state, associate member, observer and associate partner. Only the 10 member states are signatories to the modified Brussels Treaty and have full decision making rights in WEU. The other 18 countries have been increasingly associated with WEU's activities. WEU's role and operational capabilities have developed considerably since 1991. This development has been based on close co-operation with the European Union and NATO. WEU has acquired the necessary instruments to undertake any European-led crisis management operations and has been working to develop them further as preparation for the establishment within the European Union of a crisis management capability in accordance with the decisions taken at the Cologne European Council in June 1999.

Member states. Belgium, France, Germany, Greece, Italy, Luxembourg, Netherlands, Portugal, Spain and the UK. Associate members: the Czech Republic, Hungary, Iceland, Norway, Poland and Turkey. Observers: Austria, Denmark, Finland, Ireland and Sweden. Associate partners: Bulgaria, Estonia, Latvia, Lithuania, Romania, Slovakia and Slovenia.

Reform: A joint meeting of the foreign and defence ministers within the WEU framework, held in Rome on 26–27 Oct. 1984, was marked by the adoption of the founding text of WEU's reactivation: the *Rome Declaration*. Work on the definition of a European security identity and the gradual harmonization of its members' defence policies were among the stated objectives. Ministers recognized the 'continuing necessity to strengthen western security, and that better utilization of WEU would not only contribute to the security of Western Europe but also to an improvement in the common defence of all the countries of the Atlantic Alliance'.

In 1987 WEU foreign and defence ministers adopted the *Hague Platform on European Security Interests*, defining the conditions and criteria for European security, and the responsibilities of WEU members to provide an integrated Europe with a security and defence dimension. In 1987 and 1988, following the laying of mines in the Persian Gulf during the Iran–Iraq war, minesweepers dispatched by

WEU countries helped secure free movement in international waters. Operation Cleansweep helped to complete the clearance of a 300-mile sea lane from the Strait of Hormuz, and was the first instance of a concerted action in WEU. During the Gulf Crisis, at the end of 1990 and early 1991, co-ordinated action took place among WEU nations contributing forces and other forms of support to the coalition forces involved in the liberation of Kuwait.

In Maastricht, on 10 Dec. 1991, WEU ministers stated that: 'WEU will be developed as the defence component of the European Union and as the means to strengthen the European pillar of the Atlantic Alliance. To this end, it will formulate common European defence policy and carry forward its concrete implementation through the further development of its own operational role'. The Declaration then proposed ways of strengthening WEU's relations with the European Union and NATO, as well as measures to develop its operational role. A number of practical decisions were taken, including the transfer of the WEU headquarters from London to Brussels, which was completed in Jan. 1993.

At a meeting in Bonn in June 1992 they went on to adopt the *Petersberg Declaration*, agreeing that the WEU should have a military capability in order to conduct humanitarian and rescue tasks, peacekeeping tasks and tasks of combat forces in crisis management, including peacemaking (the so-called 'Petersberg tasks') at the initiative of the WEU Council or following a request by the European Union, the OSCE or the UN.

At the Alliance Summit of Jan. 1994 NATO leaders gave their full support to the development of a European Security and Defence Identity (ESDI) and to the strengthening of the WEU. They declared their readiness to make collective assets of the Alliance available for WEU operations. The Alliance leaders also endorsed the concept of Combined Joint Task Forces (CJTFs) with the objective not only of adapting Alliance structures to NATO's new missions but also of improving co-operation with the WEU, and in order to reflect the emerging ESDI. Work on the CJTF concept came to fruition at the NATO Ministerial meeting in Berlin in June 1996. One of the fundamental objectives of the Alliance adaptation process identified by NATO Ministers in Berlin was the development of the European Security and Defence Identity within the Alliance.

With the agreement on the Treaty of Amsterdam revising the Treaty on European Union, WEU has drawn closer to the EU. In particular, the European Council's guidelines for the Common Foreign Security Policy (CFSP) 'shall obtain in respect of WEU for those matters for which the Union avails itself of the WEU'; and the Petersberg tasks have been incorporated into the EU Treaty. It is stated that WEU is an integral part of the development of the European Union, giving the Union access to an operational capability, notably in the context of the Petersberg tasks. In the WEU Ministerial Declaration of 22 July 1997 responding to the Treaty of Amsterdam, WEU confirmed its readiness to develop WEU's relations with the EU and work out arrangements for enhanced co-operation.

Further to the decisions taken by the Cologne European Council in June 1999, the EU is setting up the capabilities and instruments needed to fulfil its new responsibilities in the area of conflict prevention and crisis management tasks. As soon as the EU politico-military structures are declared operational, WEU's crisis management talks will cease. However, the organization will not disappear. A residual structure was to be in place by 1 July 2001 at the latest. It will enable the WEU member states to fulfil the commitments of the modified Brussels Treaty, particularly those arising from Article V (collective defence) and Article IX (relations with the WEU Parliamentary Assembly). It will also provide a capacity to support the Western European Armaments Group (WEAG), which will continue to carry out its functions of reflection and cooperation in the armament field.

Operations. In the context of the Yugoslav conflict, WEU has undertaken 3 operations, 2 of them to help in the enforcement of sanctions imposed by the UN Security Council (the WEU/NATO operation SHARP GUARD in the Adriatic and the WEU Danube operation) and one to assist in the European Union administration of the town of Mostar. Since 1997 WEU has deployed a Multinational Advisory Police Element (MAPE) in Albania to assist in the reorganization of the Albanian Police. The MAPE mission will be taken over in due course by the EU. A WEU Demining Assistance Mission to Croatia (WEUDAM), which began operations in

May 1999, provides advice, technical expertise and training support to the Croatian Mine Action Centre. It was to continue until May 2001 when its present mandate was set to expire.

Organization. WEU comprises an intergovernmental policy-making council and an assembly of parliamentary representatives, together with a number of subsidiary bodies set up by the council to facilitate its work (e.g. the WEU Satellite Centre located in Torrejón near Madrid and the WEU Institute for Security Studies located in Paris). Since the 1984 reforms, the Council, supreme authority of the WEU, meets twice a year at ministerial level (foreign and defence) in the capital of the presiding country. The presidency rotates biannually. The Permanent Council, chaired by the Secretary-General, meets whenever necessary at ambassadorial level, at the WEU headquarters in Brussels. The WEU Assembly, located in Paris, comprises 115 parliamentarians of member states and meets twice a year, in plenary sessions in Paris. There are Permanent Committees on: defence questions and armaments; political affairs; technological and aerospace questions; budgetary affairs and administration; rules of procedure and privileges; and parliamentary and public relations. The Institute for Security Studies and the Satellite Centre will remain under the responsibility of WEU until the setting-up, in the form of agencies within the EU, of a Satellite Centre and an Institute for Security Studies, which will incorporate the relevant features of the corresponding WEU bodies.

ORGANIZATION FOR SECURITY AND CO-OPERATION IN EUROPE (OSCE)

The OSCE is a pan-European security organization of 55 participating states. It was established as a primary instrument in its region for early warning, conflict prevention, crisis management and post-conflict rehabilitation in Europe.

Origin. Initiatives from both NATO and the Warsaw Pact culminated in the first summit Conference on Security and Co-operation in Europe (CSCE) attended by heads of state and government in Helsinki on 30 July–1 Aug. 1975. It adopted the *Helsinki Final Act* laying down 10 principles governing the behaviour of States towards their citizens and each other, concerning human rights, self-determination and the interrelations of the participant states. The CSCE was to serve as a multilateral forum for dialogue and negotiations between East and West.

The Helsinki Final Act comprised 3 main sections: 1) politico-military aspects of security: principles guiding relations between and among participating States and military confidence-building measures; 2) co-operation in the fields of economics, science and technology and the environment; 3) co-operation in humanitarian and other fields.

From CSCE to OSCE. The Paris Summit of Nov. 1990 set the CSCE on a new course. In the Charter of Paris for a New Europe, the CSCE was called upon to contribute to managing the historic change in Europe and respond to the new challenges of the post-Cold War period. At the meeting, members of NATO and the Warsaw Pact signed an important Treaty on Conventional Armed Forces in Europe (CFE) and a declaration that they were 'no longer adversaries' and did not intend to 'use force against the territorial integrity or political independence of any state'. All 34 participants adopted the Confidence and Security-Building Measures (CSBMs), which pertained to the exchange of military information, verification of military installations, objection to unusual military activities etc., and signed the Charter of Paris. The Charter sets out principles of human rights, democracy and the rule of law to which all the signatories undertake to adhere, and lays down the bases for east-west co-operation and other future action. In July

1992 member nations unanimously agreed to set up an armed peacekeeping force. The 1994 Budapest Summit recognized that the CSCE was no longer a conference and on 1 Jan. 1995 the CSCE changed its name to the Organization for Security and Co-operation in Europe (OSCE). The 1996 Lisbon Summit elaborated the OSCE's key role in fostering security and stability in all their dimensions. It also stimulated the development of an OSCE Document-Charter on European Security.

Members. Albania, Andorra, Armenia, Austria, Azerbaijan, Belarus, Belgium, Bosnia-Herzegovina, Bulgaria, Canada, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Greece, Holy See, Hungary, Iceland, Ireland, Italy, Kazakhstan, Kyrgyzstan, Latvia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Malta, Moldova, Monaco, Netherlands, Norway, Poland, Portugal, Romania, Russian Federation, San Marino, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Tajikistan, Turkey, Turkmenistan, Ukraine, UK, USA, Uzbekistan and Yugoslavia (Serbia and Montenegro). *Partners for co-operation:* Japan and the Republic of Korea. *Mediterranean partners for co-operation:* Algeria, Egypt, Israel, Jordan, Morocco, Tunisia.

Organization. The OSCE's regular body for political consultation and decision-making is the Permanent Council. Its members, Permanent Representatives of the OSCE participating States, meet weekly in the Hofburg Congress Center in Vienna to discuss and take decisions on all issues pertinent to the OSCE. The Forum for Security Co-operation (FSC), which deals with arms control and confidence and security-building measures, meets weekly in Vienna. There are also Summits—periodic meetings of Heads of State or Government of OSCE participating States that set priorities and provide orientation at the highest political level. During periods between these summits, decision-making and governing power lies with the *Ministerial Council*, which is made up of the Foreign Ministers of the OSCE participating States. It meets at least once a year (but not when there is a summit). In addition, a Senior Council is convened for periodic political deliberations. It also meets once a year as the Economic Forum. The Chairman-in-Office has overall responsibility for executive action. The chair rotates annually. The Secretary-General acts as representative of the Chairman-in-Office and manages OSCE structures and operations.

The Secretariat is based in Vienna and includes a *Conflict Prevention Centre* which provides operational support for OSCE missions. There are some 270 staff employed in OSCE institutions, and about 2,500 professionals, seconded by OSCE-participating states, work at OSCE missions and other field operations. The Secretariat is assisted by the Prague Office.

The *Office for Democratic Institutions and Human Rights* is located in Warsaw. It is active in monitoring elections and developing national electoral and human rights institutions, providing technical assistance to national legal institutions, and promoting the development of NGOs.

The *Office of the Representative on Freedom of the Media* is located in Vienna. Its main function is to observe relevant media developments in OSCE participating States with a view to providing an early warning on violations of freedom of expression.

The *Office of the High Commissioner on National Minorities* is located in The Hague. Its function is to identify and seek early resolution of ethnic tensions that might endanger peace, stability or friendly relations between the participating States of the OSCE.

The budget for 2000 was EUR 192m.

EUROPEAN BANK FOR RECONSTRUCTION AND DEVELOPMENT (EBRD)

History and Membership. A treaty to establish the EBRD was signed in May 1990; it was inaugurated on 15 April 1991. The EBRD has 62 members (60 countries, the European Community and the European Investment Bank), including 27 countries of operations in central and eastern Europe and the CIS.

Capital. Authorized capital is ecu 20bn., of which ecu 5.25bn. is paid-in capital. The Bank borrows in various currencies on world capital markets.

Objectives. The EBRD was set up to foster the transition towards market-oriented economies in central and eastern Europe, to lend funds at market rates to companies and countries 'committed to, and applying, the fundamental principles of multiparty democracy, pluralism and market economics'. Facilities were extended to the countries of the former USSR in 1992.

A policy statement of May 1991 placed initial emphasis on programmes: to support the creation and strengthening of infrastructures; privatization and reform of the financial sector, including development of capital markets and privatization of commercial banks; development of productive competitive private sectors of small and medium-sized enterprises in industry, agriculture and services; restructuring industrial sectors to put them on a competitive basis; encouraging foreign investment; and the promotion of sustainable and environmentally sound development.

Activities. Under a phased programme, countries which fulfil certain development criteria graduate out of the Bank's sphere of operations. By 30 June 1999 the Bank had mobilized total project value of commitments of EUR 43.2bn., which was composed of primary resource mobilization of EUR 30.6bn. and EBRD own financing EUR 12.6bn.

Project-related technical co-operation is a major feature of EBRD's activities. By the end of 1998, 56 co-operation fund agreements with bilateral donors, totalling ecu 598m., had been made with the Bank for this purpose; 2,106 projects, with a total estimated cost of ecu 561.3m., had been committed.

Organization. There is a Board of Governors with full management powers, and a 23-member Board of Directors elected for a 3-year term, which is involved in day-to-day operations. The President is elected by the Board of Governors for a 4-year term. The EBRD's headquarters are in London with 29 Resident Offices or other offices throughout all 26 of its countries of operations.

EUROPEAN FREE TRADE ASSOCIATION (EFTA)

History and Membership. The Stockholm Convention establishing the Association entered into force on 3 May 1960. Founder members were Austria, Denmark, Norway, Portugal, Sweden, Switzerland and the UK. With the accession of Austria, Denmark, Finland, Portugal, Sweden and the UK to the EU, EFTA was reduced to 4 member countries: Iceland, Liechtenstein, Norway and Switzerland.

Activities. Free trade in industrial goods among EFTA members was achieved by 1966. Co-operation with the EU began in 1972 with the signing of free trade agreements and culminated in the establishment of a *European Economic Area (EEA)*, encompassing the free movement of goods, services, capital and labour throughout EFTA and the EU member countries. The Agreement was signed by all members of the EU and EFTA on 2 May 1992, but was rejected by Switzerland in a referendum on 6 Dec. 1992. The agreement came into force on 1 Jan. 1994.

The main provisions of the EEA Agreement are: free movement of products within the EEA from 1993 (with special arrangements to cover food, energy, coal and steel); EFTA to assume EU rules on company law, consumer protection, education, the environment, research and development and social policy; EFTA to adopt EU competition rules on anti-trust matters, abuse of a dominant position, public procurement, mergers and state aid; EFTA to create an EFTA Surveillance Authority and an EFTA Court; individuals to be free to live, work and offer services throughout the EEA, with mutual recognition of professional qualifications; capital movements to be free with some restrictions on investments; EFTA countries not to be bound by the Common Agricultural Policy (CAP) or Common Fisheries Policy (CFP).

The EEA-EFTA states have established a Surveillance Authority and a Court to ensure implementation of the Agreement among the EFTA-EEA states. Political direction is given by the EEA Council which meets twice a year at ministerial level, while ongoing operation of the Agreement is overseen by the EEA Joint Committee. Legislative power remains with national governments and parliaments.

EFTA has formal relations with several other states. Declarations on co-operation were signed with Hungary, former Czechoslovakia and Poland (1990), Bulgaria, Estonia, Latvia, Lithuania and Romania (1991), Slovenia and Albania (1992), Egypt, Morocco and Tunisia (1995), the former Yugoslav Republic of Macedonia and the Palestine Liberation Organization (1996), Jordan and Lebanon (1997), and Croatia and the Gulf Co-operation Council (2000). Co-operation with Yugoslavia was suspended in Nov. 1991. Free trade agreements have been signed with Turkey (1991), Israel and Czechoslovakia (1992, with protocols on succession with the Czech Republic and Slovakia in 1993), Poland and Romania (1992), Bulgaria and Hungary (1993), Estonia, Latvia, Lithuania and Slovenia (1995), Morocco (1997), the Former Yugoslav Republic of Macedonia and Mexico (2000). In Dec. 1998 an interim free trade agreement was signed with the Palestinian Authority and talks on an agreement began with Egypt. Formal negotiations on a free trade agreement with Canada started in Oct. 1998. When completed they will lead to the first transatlantic trade agreement between Europe and North America. Negotiations also began with Cyprus in 2000. In addition, contacts have been established with Mercosur and ASEAN.

Organization. The operation of the free trade area among the EFTA states is the responsibility of the EFTA Council which meets regularly at ambassadorial level in Geneva. The Council is assisted by a Secretariat and standing committees. Each EFTA country holds the chairmanship of the Council for 6 months. For EEA matters there is a separate committee structure.

CERN – THE EUROPEAN ORGANISATION FOR NUCLEAR RESEARCH

Founded in 1954, CERN is the world's leading particle physics research centre. By studying the behaviour of nature's fundamental particles, CERN aims to find out what our Universe is made of and how it works. CERN's biggest accelerator, the large Electron Positron collider (LEP), recreates conditions at the birth of the Universe. A yet more powerful accelerator, the large Hadron Collider (LHC), is due for completion in 2005. One of the beneficial byproducts of CERN activity is the Worldwide Web, developed at CERN to give particle physicists easy access to shared data. One of Europe's first joint ventures, CERN now has a membership of 20 member states: Austria, Belgium, Bulgaria, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Italy, The Netherlands, Norway, Poland, Portugal, Slovak Republic, Spain, Sweden, Switzerland, United Kingdom. Some 6,500 scientists, half of the world's particle physicists, use CERN's facilities.

THE COMMONWEALTH

The Commonwealth is a free association of sovereign independent states. It numbered 54 members in 2000. With a membership of 1.7bn. people, it represents over 30% of the world's population. There is no charter, treaty or constitution; the association is expressed in co-operation, consultation and mutual assistance for which the Commonwealth Secretariat is the central co-ordinating body.

Origin. The Commonwealth was first defined by the Imperial Conference of 1926 as a group of 'autonomous Communities within the British Empire, equal in status, in no way subordinate one to another in any aspect of their domestic or external affairs, though united by a common allegiance to the Crown, and freely associated as members of the British Commonwealth of Nations'. The basis of the association changed from one owing allegiance to a common Crown, and the modern Commonwealth was born in 1949 when the member countries accepted India's intention of becoming a republic at the same time as continuing 'her full membership of the Commonwealth of Nations and her acceptance of the King as the symbol of the free association of its independent member nations and as such the Head of the Commonwealth'. In 1998 the Commonwealth consisted of 33 republics

and 21 monarchies, of which 16 are Queen's realms. All acknowledge the Queen symbolically as Head of the Commonwealth. The Queen's legal title rests on the statute of 12 and 13 Will. III, c. 3, by which the succession to the Crown of Great Britain and Ireland was settled on the Princess Sophia of Hanover and the 'heirs of her body being Protestants'.

A number of territories, formerly under British jurisdiction or mandate, did not join the Commonwealth: Egypt, Iraq, Transjordan, Burma (now Myanmar), Palestine, Sudan, British Somaliland and Aden. 4 countries, Ireland in 1948, South Africa in 1961, Pakistan in 1972, and Fiji (now Fiji Islands) in 1987 have left the Commonwealth. Pakistan was re-admitted to the Commonwealth in 1989, South Africa in 1994, Fiji Islands in 1997. Nigeria was suspended in 1995 for violation of human rights but was fully reinstated on 29 May 1999. Mozambique, admitted in Nov. 1995, is the first member state not to have been a member of the former British Commonwealth or Empire. Tuvalu is a special member, with the right to participate in all functional Commonwealth meetings and activities but not to attend meetings of Commonwealth Heads of Government.

United Kingdom Overseas Territories and Associated States. There are 13 United Kingdom overseas territories, 6 Australian external territories, 2 New Zealand dependent territories and 2 New Zealand associated states. A dependent territory is a territory belonging by settlement, conquest or annexation to the British, Australian or New Zealand Crown.

United Kingdom Overseas Territories administered through the Foreign and Commonwealth Office comprise, in the Indian Ocean: British Indian Ocean Territory; in the Mediterranean: Gibraltar; in the Atlantic Ocean: Bermuda, Falkland Islands, South Georgia and South Sandwich Islands, British Antarctic Territory, St Helena and Dependencies (Ascension and Tristan da Cunha); in the Caribbean: Montserrat, British Virgin Islands, Cayman Islands, Turks and Caicos Islands, Anguilla; in the Western Pacific: Pitcairn Group of Islands.

The Australian external territories are: Coral Sea Islands, Cocos (Keeling) Islands, Christmas Island, Heard and McDonald Islands, Australian Antarctic Territory and Ashmore and Cartier Islands. The New Zealand external territories are: Tokelau Islands and the Ross Dependency. The New Zealand associated states are: Cook Islands and Niue.

British Government Department. Since 17 Oct. 1968 the Secretary of State for Foreign and Commonwealth Affairs has been responsible for the conduct of relations with members of the Commonwealth as well as with foreign countries. While constitutional responsibility to Parliament for the government of the United Kingdom overseas territories rests with the Secretary of State for Foreign and Commonwealth Affairs, the administration of the territories is carried out by the Governments of the territories themselves.

Aims and Conditions of Membership. Membership involves acceptance of certain core principles, as set out in the Harare Declaration of 1991, and is subject to the approval of other member states. The Harare Declaration charts a course to take the Commonwealth into the 21st century and affirms members' continued commitment to the Singapore Declarations of 1971, by which members committed themselves to the pursuit of world peace and support of the UN.

The core principles defined by the Harare Declaration are: political democracy, human rights, good governance and the rule of law, and the protection of the environment through sustainable development. Commitment to these principles was made binding as a condition of membership at the 1993 Heads of Government meeting in Cyprus.

The Millbrook Action Programme of 1995 aims to support countries in implementing the Harare Declaration, providing assistance in constitutional and judicial matters, running elections, training and technical advice. Violations of the Harare Declaration will provoke a series of measures by the Commonwealth Secretariat, including: expression of disapproval, encouragement of bilateral actions by member states, appointment of fact-finders and mediators, stipulation of a period for the restoration of democracy, exclusion from ministerial meetings, suspension of all participation and aid and finally punitive measures including trade sanctions. An 8-member *Commonwealth Ministerial Action Group on the Harare Declaration (CMAG)* may be convened by the Secretary-General as and when necessary to deal with violations. The Group held its first meeting in Dec. 1995. Its terms of reference are as set out in the Millbrook Action Programme.

The *Commonwealth Parliamentary Association* was founded in 1911. As defined by its constitution, its objectives are to 'promote knowledge of the constitutional, legislative, economic, social and cultural aspects of parliamentary democracy'. It meets these objectives by organizing conferences, meetings and seminars for members, arranging exchange visits between members, publishing books, newsletters, reports, studies and a quarterly journal and providing an information service. Its principal governing body is the General Assembly, which meets annually during the Commonwealth Parliamentary Conference and is composed of members attending that Conference as delegates. The Association elects an Executive Committee comprising a Chair, President, Vice-President, Treasurer and 27 regional representatives, which meets twice a year. The Chair is elected for 3-year terms. It is financed by membership fees levied on each branch and based on the number of delegates entitled to attend the Commonwealth Parliamentary Conference. The Secretariat is headed by the Secretary-General, with access to Heads of Government; the Secretariat is staffed by officers from member countries and is financed by contributions from member governments.

Commonwealth Secretariat. The Commonwealth Secretariat is an international body at the service of all 54 member countries. It provides the central organization for joint consultation and co-operation in many fields. It was established in 1965 by Commonwealth Heads of Government as a 'visible symbol of the spirit of co-operation which animates the Commonwealth', and has observer status at the UN General Assembly.

The Secretariat disseminates information on matters of common concern, organizes and services meetings and conferences, co-ordinates many Commonwealth activities, and provides expert technical assistance for economic and social development through the multilateral Commonwealth Fund for Technical Co-operation. The Secretariat is organized in divisions and sections which correspond to its main areas of operation: international affairs, economic affairs, food production and rural development, youth, education, information, applied studies in government, science and technology, law and health. Within this structure the Secretariat organizes the biennial meetings of Commonwealth Heads of Government (CHOGMs), annual meetings of Finance Ministers of member countries, and regular meetings of Ministers of Education, Law, Health, and others as appropriate. To emphasize the multilateral nature of the association, meetings are held in different cities and regions within the Commonwealth. Heads of Government decided that the Secretariat should work from London as it has the widest range of communications of any Commonwealth city, as well as the largest assembly of diplomatic missions.

Commonwealth Heads of Government Meetings (CHOGMs). Outside the UN, the CHOGM remains the largest intergovernmental conference in the world. Meetings are held every 2 years. The theme for the 1999 CHOGM in Durban was *The Challenge of Globalisation for All Member Governments*. A host of Commonwealth organizations and agencies are dedicated to enhancing interCommonwealth relations and the development of the potential of Commonwealth citizens. A list of these can be obtained from the *Commonwealth Institute* in London.

Commonwealth Day is celebrated on the second Monday in March each year. The theme for 2001 was 'A New Generation'.

COMMONWEALTH OF INDEPENDENT STATES (CIS)

The Commonwealth of Independent States, founded on 8 Dec. 1991 in Viskuli, home of the Belarussian government, is a community of independent states which proclaimed itself the successor to the Union of Soviet Socialist Republics in some aspects of international law and affairs. The member states are the founders, Russia, Belarus and Ukraine, and 9 subsequent adherents: Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Turkmenistan and Uzbekistan.

History. Extended negotiations in the Union of Soviet Socialist Republics (USSR) in 1990 and 1991, under the direction of President Gorbachev, sought to establish a 'renewed federation' or, subsequently, to conclude a new union treaty that would embrace all the 15 constituent republics of the USSR at that date. According to a referendum conducted in March 1991, 76% of the population (on an 80% turn-out) wished to maintain the USSR as a 'renewed federation of equal sovereign republics in which the human rights and freedoms of any nationality would be fully guaranteed'. In Sept. 1991 the 3 Baltic republics—Estonia, Latvia and Lithuania—were nonetheless recognized as independent states by the USSR State Council, and subsequently by the international community. Most of the remaining republics reached agreement on the broad outlines of a new 'union of sovereign states' in Nov. 1991, which would have retained a directly elected President and an all-union legislature, but which would have limited central authority to those powers specifically delegated to it by the members of the union.

A referendum in Ukraine in Dec. 1991, however, showed overwhelming support for full independence, and following this the 3 Slav republics (Russia, Belarus and Ukraine) concluded the Minsk Agreement on 8 Dec. 1991, establishing a Commonwealth of Independent States (CIS), headquartered in Minsk. The USSR, as a subject of international law and a geopolitical reality, was declared no longer in existence, and each of the 3 republics individually renounced the 1922 treaty through which the USSR had been established.

The CIS declared itself open to other former Soviet republics, and to states elsewhere that shared its objectives, and on 21 Dec. 1991 in Alma-Ata, a further declaration was signed with 8 other republics: Armenia, Azerbaijan, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Turkmenistan and Uzbekistan. The declaration committed signatories to recognize the independence and sovereignty of other members, to respect human rights including those of national minorities, and to the observance of existing boundaries. Relations among the members of the CIS were to be conducted on an equal, multilateral, interstate basis, but it was agreed to endorse the principle of unitary control of strategic nuclear arms and the concept of a 'single economic space'. In a separate agreement the heads of member states agreed that Russia should take up the seat at the United Nations formerly occupied by the USSR, and a framework of interstate and intergovernment consultation was established. Following these developments Mikhail Gorbachev resigned as USSR President on 25 Dec. 1991, and on 26 Dec., the USSR Supreme Soviet voted a formal end to the 1922 Treaty of Union, and dissolved itself. Georgia decided to join on 9 Dec. 1993 and on 1 March 1994 the national parliament ratified the act.

The Charter, adopted on 22 Jan. 1993 in Minsk, proclaims that the Commonwealth is based on the principles of the sovereign equality of all members. It is not a state and does not have supranational authority.

Activities and Institutions. The principal organs of the CIS, according to the agreement concluded in Alma-Ata on 21 Dec. 1991, are the *Council of Heads of States*, which meets twice a year, and the *Council of Heads of Government*, which meets every 3 months. Both councils may convene extraordinary sessions, and may hold joint sittings. There is also a *Council of Defence Ministers*, established Feb. 1992, and a *Council of Foreign Ministers* (Dec. 1993). The Secretariat is the standing working organ.

At a summit meeting of heads of states (with the exception of Azerbaijan) in July 1992, agreements were reached on a way to divide former USSR assets abroad; on

the legal cessionary of state archives of former Soviet states; on the status of an Economic Court; and on collective security. In 1992 an *Inter-Parliamentary Assembly* was established by 7 member states (Armenia, Belarus, Kazakhstan, Kyrgyzstan, Russia, Tajikistan and Uzbekistan).

At a subsequent meeting in Jan. 1993 Russia, Belarus, Armenia, Kazakhstan, Kyrgyzstan, Tajikistan and Uzbekistan agreed on a charter to implement co-operation in political, economic, ecological, humanitarian, cultural and other spheres; thorough and balanced economic and social development within the common economic space; interstate co-operation and integration; and to ensure human rights and freedoms. Three participants (Ukraine, Moldova and Turkmenistan) agreed only to a declaration that the decision would be open for signing in the future. For the purpose of the maintenance and development of multilateral industrial, trade and financial relations, Heads of State established an *Inter-State Bank* and adopted a Provision on it. Its charter was signed by 10 Heads of State (Armenia, Belarus, Kazakhstan, Kyrgyzstan, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine, Uzbekistan) on 22 Dec. 1993.

The *CIS Inter-State Bank* was set up with a starting capital of 5,000m. roubles, to facilitate multilateral clearing of CIS interstate transactions. Members' contributions (by %), based on their share of foreign trade turnover in 1990, were as follows: Russia, 50%; Ukraine, 20.7%; Belarus, 8.4%; Kazakhstan, 6.1%; Uzbekistan, 5.5%; Moldova, 2.9%; Armenia, 1.8%; Tajikistan, 1.6%; Kyrgyzstan, 1.5%; Turkmenistan, 1.5%. The bank is an international settlement and financial-credit institution, established in accordance with the rules of international public law. The authorized capital on 1 Jan. 1999 was 20,000m. roubles. Members' contributions are the same as in 1993. The bank's highest management body is a Bank Council.

In accordance with the Agreement on Armed Forces and Border Troops, concluded on 30 Dec. 1991, it was decided to consider and solve the issue on the transference of the management of the General-Purpose Armed Forces in accordance with the national legislation of member states. On 14 Feb. 1992 the *Council of Defence Ministers* was established. In 1993 the Office of Commander-in-Chief of CIS Joint Armed Forces was reorganized in a Staff for Co-ordinating Military Co-operation. Its Chief of Staff is appointed by the Council of Heads of State. On 24 Sept. an Agreement on collective peacekeeping was concluded. Peacekeeping operations in intra-CIS conflicts could be implemented at the request of member states, and with the consent of parties to the conflict. CIS members contribute to this force in proportion to the size of their armed forces and are responsible for the conditions, training and supply of military and civil personnel to the conflict region; the commander is appointed on each occasion by the Council of Heads of State.

At the same meeting, Azerbaijan, Armenia, Belarus, Kazakhstan, Kyrgyzstan, Moldova, Russia, Tajikistan and Uzbekistan signed an agreement to form an *Economic Union*. Georgia and Turkmenistan signed later (14 and 23 Jan. 1994). Ukraine became an associated member on 15 April 1994. In Oct. 1994 a summit meeting established the *Inter-State Economic Committee (MEK)* to be based in Moscow. Members include all CIS states except Turkmenistan. The Committee's decisions are binding if voted by 80% of the membership. Russia commands 50% of the voting power; Ukraine 14%. The Committee's remit is to co-ordinate energy, transport and communications policies. The leading MEK organs are the Presidium and Collegium. There are 60 inter-state bodies within the CIS, 40 of them dealing with issues of economic or social policy. One of the MEK's main tasks is the co-ordination of the work of these councils or bodies. A *Customs Union* to regulate payments between member states with non-convertible independent currencies and a regulatory *Economic Court* have also been established.

On 29 March 1996 Belarus, Kazakhstan, Kyrgyzstan and Russia signed an agreement increasing their mutual economic and social integration by creating a *Community of Integrated States* (Tajikistan signed in 1998). The agreement established a Supreme Inter-Governmental Council comprising heads of state and government and foreign ministers, with a rotatory Chair, an integration committee of Ministers and an Inter-Parliamentary Committee.

On 2 April 1996 the Presidents of Belarus and Russia signed a treaty providing for political, economic and military integration, creating the nucleus of a *Community of Russia and Belarus*. The agreement establishes a Supreme Council comprising the Presidents, Prime Ministers and Speakers of both countries and the Chairman of the Executive Committee. A further treaty was signed on 22 May 1997, instituting common citizenship, common deployment of military forces and the harmonization of the 2 economies with a view to the creation of a common currency. The Community was later renamed the *Union of Belarus and Russia* and signed subsequent agreements on equal rights for its citizens and equal conditions for state and private entrepreneurship.

In March 1994 the CIS was accorded observer status in the UN.

ORGANIZATION OF AMERICAN STATES (OAS)

Origin. On 14 April 1890 representatives of the American republics, meeting in Washington at the First International Conference of American States, established an International Union of American Republics and, as its central office, a Commercial Bureau of American Republics, which later became the Pan-American Union. This international organization's object was to foster mutual understanding and co-operation among the nations of the western hemisphere. This led to the adoption on 30 April 1948 by the Ninth International Conference of American States, at Bogotá, Colombia, of the Charter of the Organization of American States. This co-ordinated the work of all the former independent official entities in the inter-American system and defined their mutual relationships. The Charter of 1948 was subsequently amended by the Protocol of Buenos Aires (1967) and the Protocol of Cartagena de Indias (1985).

Members. This is on a basis of absolute equality, with each country having 1 vote and there being no veto power. Members (2000): Antigua and Barbuda, Argentina, Bahamas, Barbados, Belize, Bolivia, Brazil, Canada, Chile, Colombia, Costa Rica, Cuba (suspended 1962), Dominica, Dominican Republic, Ecuador, El Salvador, Grenada, Guatemala, Guyana, Haiti, Honduras, Jamaica, Mexico, Nicaragua, Panama, Paraguay, Peru, St Kitts and Nevis, St Lucia, St Vincent and the Grenadines, Suriname, Trinidad and Tobago, USA, Uruguay, Venezuela.

Permanent Observers. Algeria, Angola, Austria, Azerbaijan, Belgium, Bosnia-Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Egypt, Equatorial Guinea, EU, Finland, France, Germany, Ghana, Greece, Holy See, Hungary, India, Ireland, Israel, Italy, Japan, Kazakhstan, Republic of Korea, Latvia, Lebanon, Morocco, the Netherlands, Norway, Pakistan, Philippines, Poland, Portugal, Romania, Russia, Saudi Arabia, Spain, Sri Lanka, Sweden, Switzerland, Thailand, Tunisia, Turkey, UK, Ukraine, Yemen.

Aims and Activities. To strengthen the peace and security of the continent; promote and consolidate representative democracy, with due respect for the principle of non-intervention; prevent possible causes of difficulties and ensure the peaceful settlement of disputes among member states; provide for common action in the event of aggression; seek the solution of political, juridical and economic problems;

promote by co-operative action economic, social and cultural development; and achieve an effective limitation of conventional weapons in order to devote maximum resources to economic and social development.

The Santiago Commitment to Democracy and the Renewal of the Inter-American System. With the emergence of democratically elected governments throughout the continent, the OAS has been increasingly concerned with the preservation, protection and promotion of democracy. At its 21st Regular Session (Santiago, Chile, 1991) the OAS General Assembly adopted the Santiago Commitment to Democracy and the Renewal of the Inter-American System as well as the Protocol of Washington (1992) to amend the Charter by provisions of the Resolution 1080 on representative democracy. The latter calls for collective action in the event of a 'sudden or irregular interruption of the democratic political institutional process or of the legitimate exercise of power by the democratically elected government in any of the Organization's member states'. Specifically, the Assembly approved an Article which provides that a member of OAS whose democratically constituted government has been overthrown by force may be suspended from the exercise of the right to participate in the sessions of OAS organs, and spells out the way such suspension shall be applied.

The Protocol of Washington also incorporates among the essential purposes of the OAS the eradication of extreme poverty which constitutes an obstacle to the full democratic development of the peoples of the hemisphere. This commitment was further strengthened by amendments under the Protocol of Managua the following year, with measures designed to improve the delivery of technical co-operation to such member states. At its 20th Special Session (Feb. 1994, Mexico City), the OAS General Assembly approved a resolution on a commitment to a partnership for development and struggle to overcome extreme poverty.

Declaration of Belém do Pará. At its 24th Regular Session (June 1994, Belém do Pará), the General Assembly adopted the Declaration of Belém do Pará, in which the Ministers of Foreign Affairs and Heads of Delegation of Member States declared their commitment to strengthening the OAS as the main hemispheric forum of political consensus, so that it may support: the realization of the aspirations of member states in promoting and consolidating peace, democracy, social justice, and development, in accordance with the purposes and principles of the Charter; their decision to promote and deepen co-operative relations in the economic, social, educational, cultural, scientific, technological and political fields; their commitment to continue and further the dialogue on hemispheric security in order to consolidate and strengthen mutual confidence; their determination to continue to contribute to the objective of general and complete disarmament, under effective international control; their determination to strengthen regional co-operation to increase the effectiveness of efforts to combat the illicit use of narcotic drugs and traffic therein; their decision to co-operate in a reciprocal effort towards preventing and punishing terrorist acts, methods and practices, and the development of international law in this matter; and their commitment to promote economic and social development for the indigenous populations of their countries.

The OAS also carries out programmes to promote the economic and social development of its member states. Specialized training is provided for Latin American and Caribbean citizens each year in development-related fields; and development projects are executed each year in response to requests from member governments.

Organization. Under its Charter the OAS accomplishes its purposes by means of:

- (a) The General Assembly, which meets annually.
- (b) The Meeting of Consultation of Ministers of Foreign Affairs, held to consider problems of an urgent nature and of common interest.
- (c) The Councils: The Permanent Council, which meets on a permanent basis at OAS headquarters and carries out decisions of the General Assembly, assists the member states in the peaceful settlement of disputes, acts as the Preparatory Committee of that Assembly, submits recommendations with regard to the functioning of the Organization, and considers the reports to the Assembly of the other organs. The Inter-American Council for Integral Development (CIDI) (formed

from the merger of two previous councils, the Inter-American Economic and Social Council and the Inter-American Council for Education, Science and Culture) directs and monitors OAS technical co-operation programmes.

(d) The Inter-American Juridical Committee which acts as an advisory body to the OAS on juridical matters and promotes the development and codification of international law. 11 jurists, elected for 4-year terms by the General Assembly, represent all the American States.

(e) The Inter-American Commission on Human Rights which oversees the observance and protection of human rights. 7 members elected for 4-year terms by the General Assembly represent all the OAS member states.

(f) The General Secretariat, which is the central and permanent organ of the OAS.

(h) The Specialized Organizations, intergovernmental organizations established by multilateral agreements to discharge specific functions in their respective fields of action, such as women's affairs, agriculture, child welfare, Indian affairs, geography and history, and health.

The Secretary-General is elected by the General Assembly for 5-year terms. The General Assembly approves the annual budget which is financed by quotas contributed by the member governments. The budget in 1996 amounted to US\$100.6m.

THE ANDEAN COMMUNITY

On 26 May 1969 an agreement was signed by Bolivia, Chile, Colombia, Ecuador and Peru establishing the Cartagena Agreement (also referred to as the Andean Pact or the Andean Group). Chile withdrew from the Group in 1976. Venezuela, which was initially actively involved, did not sign the agreement until 1973. In 1997 Peru announced its withdrawal for 5 years; and Panama joined.

The Andean Free Trade Area came into effect on 1 Feb. 1993 as the first step towards the creation of a common market. Bolivia, Colombia, Ecuador and Venezuela have fully liberalized the trade among them, while Peru is still implementing its liberalization process, due to end by 2005. A Common External Tariff for imports from third countries has been in effect since 1 Feb. 1995.

In March 1996 at the Group's 8th summit in Trujillo in Peru, member countries (Bolivia, Colombia, Ecuador, Peru, Venezuela) signed a reform protocol to the Agreement, according to which the Group would be superseded by the Andean Community, in order to promote greater economic, commercial and political integration between member countries under a new Andean Integration System (SAI).

The member countries and bodies of the Andean Integration System are now working to establish an Andean Common Market by Dec. 2005 at the latest and to implement a Common Foreign Policy, carry out a social agenda, execute a Community policy on border integration, and devise actions for harmonizing and reaching macroeconomic targets.

Organization. The Andean Presidential Council, composed of the presidents of the member states, is the highest-level body of the Andean Integration System (SAI). The Commission and the Andean Council of Foreign Ministers are legislative bodies. The General Secretariat is the executive body and the Andean Parliament is the deliberative body of the SAI. The Court of Justice, which began operating in 1984, resolves disputes between members and interprets legislation. The SAI has other institutions: Andean Development Corporation (CAF), Latin American Reserve Fund (FLAR), Simon Bolivar Andean University, Andean Business Advisory Council, Andean Labour Advisory Council and various Social Agreements.

SOUTHERN COMMON MARKET (MERCOSUR)

Founded in March 1991 by the Treaty of Asunción between Argentina, Brazil, Paraguay and Uruguay, the treaty committed the signatories to the progressive reduction of tariffs culminating in the formation of a common market on 1 Jan. 1995. This duly came into effect as a free trade zone affecting 90% of commodities. A common external tariff averaging 14% applies to 80% of trade with countries outside Mercosur. Details were agreed at foreign minister level by the Protocol of Ouro Preto signed on 17 Dec. 1994.

In 1996 Chile negotiated a free-trade agreement with Mercosur which came into effect on 1 Oct. Two weeks later, Bolivia signed the same. In Dec. that year, an agreement conferring associate membership on Bolivia was also endorsed.

Organization. The member states' foreign ministers form a Council responsible for leading the integration process, the chairmanship of which rotates every 6 months. The permanent executive body is the Common Market Group of member states, which takes decisions by consensus. There is a Trade Commission and Joint Parliamentary Commission, an arbitration tribunal whose decisions are binding on member countries, and a secretariat in Montevideo.

CARIBBEAN COMMUNITY (CARICOM)

Origin. The Treaty of Chaguaramas establishing the Caribbean Community and Common Market was signed by the Prime Ministers of Barbados, Guyana, Jamaica and Trinidad and Tobago at Chaguaramas, Trinidad, on 4 July 1973, and entered into force on 1 Aug. 1973.

6 additional countries and territories (Belize, Dominica, Grenada, St Lucia, St Vincent and the Grenadines, Montserrat) signed the Treaty on 17 April 1974, and the Treaty came into effect for those countries on 1 May 1974. Antigua acceded to membership on 4 July that year; St Kitts and Nevis on 26 July; the Bahamas on 4 July 1983 (not Common Market); Suriname on 4 July 1995.

Members. Antigua and Barbuda, Bahamas, Barbados, Belize, Dominica, Grenada, Guyana, Jamaica, Montserrat, St Kitts and Nevis, St Lucia, St Vincent and the Grenadines, Suriname and Trinidad and Tobago. Anguilla, the British Virgin Islands and Turks and Caicos Islands are associate members. Haiti is a provisional member.

Activities. The Caribbean Community has 3 areas of activity: (i) economic co-operation through the Caribbean Common Market; (ii) co-ordination of foreign policy; (iii) functional co-operation in areas such as health, education and culture, labour and manpower development, and women's affairs.

In 1998 the Region moved closer to putting the necessary legal instruments in place for the achievement of a CARICOM Single Market and Economy with the signing of 2 additional Protocols amending the Treaty of Chaguaramas. These were Protocol III: Industrial Policy—the objectives of which are international competitive and sustainable production of goods and services for the promotion of the Region's economic and social development; and Protocol V: Agricultural Policy—the transformation of the agricultural sector towards market-oriented, internationally competitive and environmentally sound production of traditional and non-traditional primary agricultural products, and efficient management and sustainable exploitation of the Region's natural resources. The Conference of Heads of Government of the Caribbean Community signed up to 3 additional protocols in 1999. Protocol IV was concerned with trade policy, Protocol VI with transport policy and Protocol VII with disadvantaged countries. At the eleventh Inter-Sessional Meeting of the Conference

held in Basseterre, St Kitts and Nevis on 13–14 March 2000, heads of government approved and signed the last two protocols, namely Protocol VIII, Competition Policy, Consumer Protection Subsidies and Dumping; and Protocol IX, Dispute Settlement.

The Treaty of Chaguaramas is in the process of being revised by means of 9 Protocols. With the signing of all nine Protocols, attention will be directed to the implementation of the new Treaty provisions.

At its 20th Meeting, the Conference of Heads of Government of the Caribbean Community approved for signature the agreement establishing the Caribbean Court of Justice. They mandated the establishment of a Preparatory Committee comprising the Attorney Generals of Barbados, Guyana, Jamaica, St Kitts and Nevis, St Lucia and Trinidad and Tobago assisted by other officials, to develop and implement a programme of public education within the Caribbean Community and to make appropriate arrangements for the inauguration of the Caribbean Court of Justice prior to the establishment of the CARICOM Single Market and Economy.

The agreement establishing the Regional Justice Protection Programme was also approved for signature. The agreement establishes a framework for regional co-operation in the protection of witnesses, jurors, judicial and legal officers, law enforcement personnel and their associates.

The Republic of Haiti has satisfied all the terms and conditions required by the Conference of Heads of Government for membership of the Caribbean Community, except the deposit with the Secretary-General of an appropriate instrument of accession. When this formality has been completed, Haiti will become a full member of the community.

During the First EU-Latin American and Caribbean Summit held in Rio de Janeiro (28–29 June 1999), following talks between the Heads of Government and the Prime Minister of Spain, a Framework for Co-operation between Caricom and Spain was signed. In July 2000 Heads of Government signed a Trade and Economic Co-operation Agreement with Cuba.

Structure. The Conference of Heads of Government is the principal organ of the Community, and its primary responsibility is to determine and provide the policy direction for the Community. It is the final authority on behalf of the Community for the conclusion of treaties and for entering into relationships between the Community and international organizations and States. It is responsible for financial arrangements to meet the expenses of the Community.

The Community Council of Ministers is the second highest organ of the Community and consists of Ministers of Government responsible for Community Affairs. The Community Council has primary responsibility for the development of Community strategic planning and co-ordination in the areas of economic integration, functional co-operation and external relations.

Ministerial Councils established by the Conference of Heads of Government to assist the principal organs are: Council for Trade and Economic Development (COTED); the Council for Foreign and Community Relations (COFCOR); the Council for Human and Social Development (COHSOD); and the Council for Finance and Planning (COFAP).

The Bureau of the Conference of Heads of Government which is recognized as a Committee of the Conference has the authority to initiate proposals, update consensus, facilitate implementation of Community decisions and provide guidance to the Community on policy issues. The Bureau comprises the current Chairperson of the Conference of Heads of Government, the outgoing and incoming chairpersons, as well as the Secretary-General.

The Secretariat is the principal administrative organ of the Community. The Secretary-General is appointed by the Conference (on the recommendation of the Community Council) for a term not exceeding 5 years, and may be re-appointed. The Secretary-General is the Chief Executive Officer of the Community and acts in that capacity at all meetings of the Community Organs.

ECONOMIC CO-OPERATION ORGANIZATION (ECO)

The Economic Co-operation Organization (ECO) is an intergovernmental regional organization established in 1985 by Iran, Pakistan and Turkey. ECO is the successor of the Regional Co-operation for Development (RCD) which was first established in 1964. ECO was later expanded in 1992 to include 7 new members, Afghanistan, Azerbaijan, Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan. The objectives of the organization, stipulated in its Charter, the Treaty of Izmir, include the promotion of conditions for sustained economic growth in the region. While transport and communications, trade and investment, and energy are the high priority areas in ECO's scheme of work, other fields of co-operation such as industry, agriculture, health, science and education, drug control and human development are also on the agenda.

While summit meetings lend reaffirmation of the high level commitment of ECO member states to the goals and objectives of the organization, the Council of Ministers (COM) remains the highest policy and decision-making body of the organization, which meets at least once a year and is chaired by rotation among the member states.

ECO Summits were instituted with the First Summit held in Tehran in 1992; the Second Summit was held in Istanbul in 1993, the Third in Islamabad in 1995, the Fourth in Ashgabat in 1996, the Fifth in Almaty in May 1999 and the Sixth in Tehran in 2000.

The long-term perspectives and priorities of ECO are defined in the form of 2 Action Plans: the Quetta Plan of Action, and the Istanbul Declaration and Economic Co-operation Strategy, which was adopted in 1996, with concrete targets to be achieved by 2005.

The heads of state/government of the member states and the Council of Ministers have encouraged and endorsed the establishment of co-operative arrangements between ECO and major international and regional organizations and institutions within and outside the UN system for joint efforts towards implementation of ECO's economic projects and programmes.

ECO enjoys observer status with the United Nations, World Trade Organization and the Organization of Islamic Conference. A number of resolutions have been adopted in the UN General Assembly in the context of expansion of co-operation with ECO in the 1990s, most recently in Nov. 2000.

COLOMBO PLAN

History. Founded in 1950 to promote the development of newly independent Asian member countries, the Colombo Plan has grown from a group of 7 Commonwealth

nations into an organization of 24 countries. Originally the Plan was conceived for a period of 6 years. This was renewed from time to time until the Consultative Committee gave the Plan an indefinite life span in 1980.

The Plan is multilateral in approach, bilateral in operation: multilateral in that it recognizes the problems of development of member countries in the Asia and Pacific region and endeavours to deal with them in a co-ordinated way; bilateral because negotiations for assistance are made direct between a donor and a recipient country.

Members. (Permanent Member Countries) Afghanistan, Australia, Bangladesh, Bhutan, Cambodia, Fiji Islands, India, Indonesia, Islamic Republic of Iran, Japan, South Korea, Lao People's Democratic Republic, Malaysia, Maldives, Myanmar, Nepal, New Zealand, Pakistan, Papua New Guinea, Philippines, Singapore, Sri Lanka, Thailand and USA. *(Provisional member country)* Mongolia.

Aims. The aims of the Colombo Plan are: (1) to provide a forum for discussion, at local level, of development needs; (2) to facilitate development assistance by encouraging members to participate as donors and recipients of technical co-operation; and (3) to execute programmes to advance development within member countries. The Plan currently has the following programmes:

Programme for Public Administration (PPA). Initiated in 1995 to provide developing member country officials training in all sectors of public administration in the context of market-oriented economies, drawing on the experience of more developed economies in the region. The PPA conducts joint training programmes with member countries and sponsors participants on training courses conducted by the Asian Productivity Organization (APO) and the South East Asian Fisheries Development Centre (SEAFDEC). 1999 also saw the introduction of training programmes conducted in collaboration with the Asian Development Bank Institute (ADBI) in Tokyo.

South-South Technical Co-operation Data Bank Programme (SSTC/DB). Published a report in Dec. 1997 entitled South-South Technical Co-operation in Selected Member Countries covering technical co-operation activities of India, Indonesia, Malaysia, Pakistan, Philippines, Singapore and Thailand.

Drug Advisory Programme (DAP). Initiated in 1972, it works with governments, international bodies and NGOs in the region to deliver more effective anti-narcotics programmes. It works both in supply (controlling availability of drugs) and demand (helping counter the culture and providing assistance to addicts).

Programme for Private Sector Development (PPSD). In 1998 the PPCSD conducted training programmes co-sponsored by the Asian Development Bank (ADB), the Malaysian Technical Co-operation Programme (MTCP) and the Pakistan Industrial Technical Assistance Centre (PITAC).

Colombo Plan Staff College for Technician Education (CPSC). Established in 1973, it trains management and technical staff from member countries. It is separately financed by most member countries and functions under the guidance of its own Governing Board, consisting of the heads of member countries' permanent diplomatic missions in the Philippines.

Structure. The Consultative Committee is the principal policy-making body of the Colombo Plan. Consisting of all member countries, it meets every 2 years to review the economic and social progress of members, exchange views on technical co-operation programmes and generally review the activities of the Plan. The Colombo Plan Council represents each member government and meets several times a year to identify development issues, recommend measures to be taken and ensure implementation. The Colombo Plan Council is assisted by the Colombo Plan Secretariat, which participates in an advisory capacity at meetings of the Consultative Committee and assists the Council in the discharge of its functions, servicing committees and providing administrative support. The Secretary-General of the Colombo Plan Secretariat gives guidance to the programmes and is in overall charge of all financial and administrative matters on which he reports to the council.

ASIA-PACIFIC ECONOMIC CO-OPERATION (APEC)

Origin and Aims. Founded in 1989 in response to the growing interdependence among Asia-Pacific economies. Begun as an informal dialogue group, APEC has since become the primary regional vehicle for promoting open trade and practical economic co-operation in the region. It aims to promote free and open trade in the Asia-Pacific region through trade and investment liberalization and facilitation; also, to promote economic and technical co-operation among its members. APEC's 21 member economies had a combined GDP of over US\$17trn. in 1998 and 45% of global trade. China is the APEC Chair for 2001. Membership consists of economies rather than countries. Peru, Russia and Vietnam joined the community at the 10th APEC Ministerial Meeting held in Kuala Lumpur, Malaysia, in Nov. 1998.

Members. Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, Korea (Republic of), Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Russia, Singapore, Taiwan, Thailand, USA and Vietnam.

Activities. At Blake Island near Seattle in Nov. 1993, economic leaders envisaged a community of Asia-Pacific economies based on the spirit of openness and partnership, of co-operative efforts to solve the challenges of change, of free exchange of goods, services and investment, of broadly based economic growth and higher living and educational standards, and of sustainable growth that respects the natural environment. In 1994 in Bogor, Indonesia, ministers translated the vision of an open trading system into the goal of free and open trade and investment in the Asia-Pacific by 2010 for developed member countries and 2020 for developing ones.

In Osaka in 1994 leaders adopted the Osaka Action Agenda, establishing the three pillars of APEC activities: trade and investment liberalization, business facilitation and economic-technical co-operation. The Manila Action Plan for APEC (MAPA), adopted by economic leaders in Nov. 1996, includes the individual joint activities of all APEC economies to achieve the objectives outlined in Bogor. Attention was focused on the following 6 areas of economic and technical co-operation: developing human capital; fostering safe and efficient capital markets; strengthening economic infrastructure; harnessing technologies of the future; promoting environmentally sustainable growth; and encouraging the growth of small and medium-sized enterprises.

In Vancouver, in 1997, economic leaders recognized members' efforts to improve the commitments in their Individual Action Plans and reaffirmed their intention to update these annually. Leaders endorsed their Ministers' agreement that action should be taken with respect to early voluntary sectoral liberalization (EVSL) in 15 sectors, with 9 to be advanced through 1998 and implementation to begin in 1999. At the same time, they endorsed the Vancouver Framework for Enhanced Public-Private Partnership for Infrastructure Development.

In Kuala Lumpur, in 1998, leaders reaffirmed their commitment to co-operative growth strategy. They resolved to strengthen social safety nets, financial systems, trade and investment flows, the scientific and technological base, human resources development, economic infrastructure, and business and commercial links, so as to

provide the base for sustained growth into the 21st century. They also adopted the Kuala Lumpur Action Program on Skills Development, which seeks to encourage greater participation of the private/business sectors in skills development in APEC through public-business 'smart partnership'.

In New Zealand, in 1999, leaders pledged to strengthen markets and improve the international framework governing trade and investment flows. In addition to reaffirming their commitment to the Bogor Goals of free and open trade and investment by 2010/2020, leaders endorsed new APEC Principles to Enhance Competition and Regulatory Reform, further work on the APEC Food System and agreed that priority would be given to trade facilitation in 2000.

PACIFIC ISLANDS FORUM (PIF)

In Oct. 2000 the South Pacific Forum changed its name to the Pacific Islands Forum. As the South Pacific Forum it held its first meeting of Heads of Government in New Zealand in 1971. The PIF provides an opportunity for informal discussions to be held on a wide range of issues. It meets annually or as necessary. The Forum has no

written constitution or international agreement governing its activities nor any formal rules relating to its purpose, membership or conduct of meeting. Decisions are reached by consensus. The administrative arm of the Forum, known officially as the Pacific Islands Forum Secretariat, is based in Suva, Fiji. In Oct. 1994 the Forum was granted observer status to the UN.

Members. (1998) Australia, Cook Islands, Fiji Islands, Kiribati, Marshall Islands, Micronesia, Nauru, New Zealand, Niue, Palau, Papua New Guinea, Samoa, Solomon Islands, Tonga, Tuvalu and Vanuatu. In 1999 the French territory of New Caledonia was admitted to the Forum as an observer.

Functions. The Secretariat's mission is to enhance the economic and social well-being of the South Pacific peoples, in support of the efforts of the national governments. Its particular responsibility is to facilitate, develop and maintain co-operation and consultation between and among its 16 member countries. Its mandate includes the identification of opportunities for the modification of trade patterns; investigation of development methods which are in keeping with the concept of regional enterprise and free and open trade; establishment of an advisory service on technical assistance, aid and investment finance; provision of economic expertise and assistance.

Activities. The Secretariat has 4 core divisions: Trade and Investment; Political and International Affairs; Development and Economic Policy; Corporate Services. Its focus is on providing a policy advisory role on issues which cannot be fully assessed on a national basis, and on providing high-level policy advice on trade and investment to members. Since 1989 the Forum has held Post Forum Dialogues with key dialogue partners at ministerial level. There are currently ten partners: Canada, China, EU, France, Japan, the Republic of Korea, Malaysia, the Philippines, the United Kingdom and the United States.

The *South Pacific Nuclear-Free Zone Treaty* (of Rarotonga) was signed in 1985, prohibiting the acquisition, stationing or testing of nuclear weapons in the region. The major nuclear powers were to sign a protocol to the treaty. Russia and China signed in 1987; France, the UK and USA did not. In July 1995, when the French government decided to resume testing in French Polynesia, pressure was brought to bear on the 3 governments to sign. All 3 announced their intention to accede by mid-1996. In Jan. 1996 France announced its intention to cut short its programme, and all 3 countries signed up to the Treaty in March 1996.

Organization. The South Pacific Bureau for Economic Co-operation (SPEC) was established by the Agreement of 17 April 1973 at the 4th meeting of the South Pacific Forum. In 1988 at its 19th meeting, SPEC was reorganized and renamed the South Pacific Forum Secretariat. The Secretariat has been headed (since 1977) by a Secretary-General and a Deputy Secretary-General. They form the Executive. It is governed by an executive committee, the Forum Officials Committee, which acts as intermediary between it and the Forum.

ASSOCIATION OF SOUTH EAST ASIAN NATIONS (ASEAN)

History and Membership. ASEAN is a regional intergovernmental organization formed by the governments of Indonesia, Malaysia, the Philippines, Singapore and Thailand through the Bangkok Declaration which was signed by their foreign ministers on 8 Aug. 1967. Brunei joined in 1984, Vietnam in 1995, Laos and Myanmar in 1997 and Cambodia in 1999. Papua New Guinea also has observer status. In 1998 the combined GDP of member countries was estimated to be US\$500,000m.

Objectives. The main objectives are to accelerate economic growth, social progress and cultural development, to promote active collaboration and mutual assistance in matters of common interest, to ensure the political and economic stability of the South East Asian region, and to maintain close co-operation with existing international and regional organizations with similar aims.

Activities. Principal projects concern economic co-operation and development, with the intensification of intra-ASEAN trade, and trade between the region and the rest of the world; joint research and technological programmes; co-operation in transportation and communications; promotion of tourism, South East Asian studies, cultural, scientific, educational and administrative exchanges. The decision to set up an *ASEAN Free Trade Area (AFTA)* was taken at the Fourth Summit meeting, in Singapore in 1992, with the aim of creating a common market in 15 years. The first step towards this was the Common Effective Preferential Tariff (CEPT) Scheme Agreement, setting a common tariff regime for manufactured and processed agricultural goods.

In Dec. 1995 heads of government meeting in Bangkok signed a treaty establishing a South-East Asia Nuclear-Free Zone, which was extended to cover offshore economic exclusion zones. Individual signatories were to decide whether to allow port visits or transportation of nuclear weapons by foreign powers through territorial waters. The *ASEAN Regional Forum (ARF)* was proposed at a meeting of foreign ministers in July 1993 to discuss security issues in the region. Its first formal meeting took place in July 1994 attended by all 7 members and its dialogue partners (Australia, Canada, the EU, Japan, Republic of Korea, New Zealand and the USA) and observers (People's Republic of China, Laos, Papua New Guinea, Russia and Vietnam).

Organization. The highest authority is the meeting of Heads of Government, which takes place on a formal basis every 3 years, with informal meetings each year in between. The highest policy-making body is the annual Meeting of Foreign Ministers, commonly known as AMM, the ASEAN Ministerial Meeting, which convenes in each of the member countries on a rotational basis in alphabetical order. The AEM (ASEAN Economic Meeting) meets formally or informally each year to direct ASEAN economic co-operation. The AEM and AMM report jointly to the heads of government at summit meetings. The ASEAN Standing Committee (ASC) is the policy arm and organ of co-ordination between the AMMs. An advisory body to the permanent committees, the ASC reviews the work of committees with a view to implementing policy guidelines set by the AMM. There are 5 economic committees under the AEM, and 5 non-economic committees that recommend and draw up programmes for co-operation. These committees are responsible for the operation and implementation of projects in their respective fields. Each capital has its own national secretariat. The central secretariat in Jakarta is headed by the Secretary-General, a post that revolves among the member states in alphabetical order every 5 years.

SOUTH ASIAN ASSOCIATION FOR REGIONAL CO-OPERATION (SAARC)

SAARC was established to accelerate the process of economic and social development in member states through joint action in agreed areas of co-operation. The foreign ministers of the 7 member countries met for the first time in New Delhi in Aug. 1983 and adopted the Declaration on South Asian Regional Co-operation whereby an Integrated Programme of Action (IPA) was launched. The charter establishing SAARC was adopted at the first summit meeting in Dhaka in Dec. 1985.

Members. Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, Sri Lanka.

Objectives. To promote the welfare of the peoples of South Asia; to accelerate economic growth, social progress and cultural development; to promote and strengthen collective self-reliance among members; to promote active collaboration and mutual assistance in the economic, social, cultural, technical and scientific fields; to strengthen co-operation with other developing countries, and among themselves through international forums on matters of common interest. Co-operation within the framework is based on respect for the principles of sovereign equality, territorial integrity, political independence, non-interference in the internal affairs of other states, and mutual benefit. Agreed areas of co-operation under the *Integrated Programme of Action (IPA)* include agriculture; communications; education, culture and sports; environment and meteorology; health, population activities and child welfare; prevention of drug trafficking and drug abuse; rural development; science and technology; tourism; transport; and women in development.

The eradication of poverty in South Asia by the year 2002 was accorded the highest priority at the 1991 Colombo Summit, which established an Independent South Asian Commission on Poverty Alleviation (ISACPA) to study the problem and report back with recommendations.

SAARC has taken important steps to expand co-operation among member countries in core economic areas. The completion of the Regional Study on Trade, Manufactures and Services (TMS) in 1991 was the first significant step towards strengthening co-operation in the field. A high-level Committee on Economic Co-operation (CEC), comprising the Commerce Secretaries of member states, was established in July 1991 to act as the forum for addressing trade and economic issues. Members signed a Preferential Trading Agreement (SAPTA) on 7 Dec. 1995 and are working towards the realization of a South Asian Free Trade Area by 2005 at the latest.

Organization. The highest authority of the Association rests with the heads of state or government, who meet annually at Summit level. The Council of Foreign Ministers, which meets twice a year, is responsible for formulating policy, reviewing progress and deciding on new areas of co-operation and the mechanisms deemed necessary for that. The Council is supported by a Standing Committee of Foreign

Secretaries, and by the Programming Committee and 11 Technical Committees. There is a secretariat in Káthmandu, headed by a Secretary-General, who is assisted in his work by 7 Directors, appointed by the Secretary-General upon nomination by member states for a period of 3 years which may in special circumstances be extended.

Decisions at all levels are taken on the basis of unanimity. Bilateral and contentious issues are excluded from deliberations.

Joint Action. In the political field, the League is entrusted with defending the supreme interests and national causes of the Arab world through the implementation of joint action plans at regional and international levels, and with examining any disputes that may arise between member states with a view to settling them by peaceful means. The Joint Defence and Economic Co-operation Treaty signed in 1950 provided for the establishment of a Joint Defence Council as well as an Economic Council (renamed the Economic and Social Council in 1977). Economic, social and cultural activities constitute principal and vital elements of the joint action initiative.

Arab Common Market. The Arab Common Market came into operation on 1 Jan. 1965. The agreement, reached on 13 Aug. 1964 and open to all the Arab League states, has been signed by Iraq, Jordan, Syria and Egypt. The agreement provides for the abolition of customs duties on agricultural products and natural resources within 5 years, by reducing tariffs at an annual rate of 20%. Customs duties on industrial products are to be reduced by 10% annually. The agreement also provides for the free movement of capital and labour between member countries, the establishment of common external tariffs, the co-ordination of economic development and the framing of a common foreign economic policy. In May 1997, in a move to finance economic reforms, 2 funds totalling US\$900m. were set up.

The machinery of the League consists of a Council, 11 specialized ministerial committees entrusted with drawing up common policies for the regulation and advancement of co-operation in their fields (information, internal affairs, justice, housing, transport, social affairs, youth and sports, health, environment, telecommunications and electricity), and a permanent secretariat. On the Council each state has 1 vote. Councils may meet in any of the Arab capitals. Its functions include mediation in disputes between members or a member and a country outside the League. The Secretariat is the executive organ of the Council and ministerial councils. There are also 22 specialized agencies.

The League is considered to be a regional organization within the framework of the United Nations at which its Secretary-General is an observer. It has permanent delegations in New York and Geneva for the UN, in Addis Ababa for the Organization of African Unity (OAU), as well as offices in Bonn, Vienna, Brussels, Athens, Madrid, Washington, D.C., New Delhi, Beijing, Moscow, Rome, London and Paris.

Membership applications may be made by any other country having substantial net exports of crude petroleum, which has fundamentally similar interests to those of member countries. Gabon became an associated member in 1973 and a full member in 1975, but in 1996 withdrew owing to difficulty in meeting its percentage contribution. Ecuador joined the Organization in 1973 but left in 1992.

WORLD COUNCIL OF CHURCHES

The World Council of Churches was formally constituted on 23 Aug. 1948 in Amsterdam. Today, member churches number over 330 from more than 100 countries.

Origin. The World Council was founded by the coming together of diverse Christian movements, including the overseas mission groups gathered from 1921 in the International Missionary Council, the Faith and Order Movement founded by American Episcopal Bishop Charles Brent, and the Life and Work Movement led by Swedish Lutheran Archbishop Nathan Söderblom. On 13 May 1938, at Utrecht, a provisional committee was appointed to prepare for the formation of a World Council of Churches, under the chairmanship of William Temple, then Archbishop of York.

Membership. The basis of membership (1975) states: 'The World Council of Churches is a fellowship of Churches which confess the Lord Jesus Christ as God and Saviour according to the Scriptures and therefore seek to fulfil together their common calling to the glory of the one God, Father, Son and Holy Spirit.' Membership is open to Churches which express their agreement with this basis and satisfy such criteria as the Assembly or Central Committee may prescribe. Today, more than 330 Churches of Protestant, Anglican, Orthodox, Old Catholic and Pentecostal confessions belong to this fellowship.

Activities. The WCC's Central Committee comprises the Programme Committee and the Finance Committee. Within the Programme Committee there are advisory groups on issues relating to communication, women, justice, peace and creation, youth, ecumenical relations and inter-religious relations. Following the WCC's international assembly in Harare, Zimbabwe in 1998 the work of the WCC was restructured. Activities were grouped into 4 'clusters'—Relationships; Issues and Themes; Communication; and Finance, Services and Administration. The Relationships cluster comprises 2 programmes—Action by Churches Together and the Ecumenical Church Loan Fund. The Issues and Themes cluster comprises 4 teams—Faith and Order; Mission and Evangelism; Justice, Peace and Creation; and Education and Ecumenical Formation.

In Aug. 1997 the WCC launched a Peace to the City campaign, as the initial focus of a programme to overcome violence in troubled cities.

Organization. The governing body of the World Council, consisting of delegates specially appointed by the member Churches, is the Assembly, which meets every 7 or 8 years to frame policy. It has no legislative powers and depends for the implementation of its decisions upon the action of member Churches. The 8th Assembly, in Harare in 1998, had as its theme 'Turn to God, Rejoice in Hope'. A 150-member Central Committee meets annually to carry out the Assembly mandate, with a smaller 28-member Executive Committee meeting twice a year. The General Secretariat includes Offices for Church and Ecumenical Relations, Interreligious Relations, Programme Co-ordination, Department of Communication, Office of Management and Finance, and the *Ecumenical Institute* at Bossey.

The budget in 1999 amounted to 53.9m. Swiss francs, funded by the churches and their agencies, and other project-related organizations.

UNREPRESENTED NATIONS AND PEOPLES ORGANIZATION (UNPO)

UNPO is an international organization created by nations and peoples around the world who are not represented as such in the world's principal international organizations, such as the UN. Founded in 1991, UNPO has over 50 members representing over 100m. people.

Membership. Open to all nations and peoples unrepresented, subject to adherence to the 5 principles which form the basis of UNPO's charter: equal right to self-determination of all nations and peoples; adherence to internationally accepted human rights standards; to the principles of democracy; promotion of non-violence; and protection of the environment. Applicants must show that they constitute a 'nation or people' as defined in the Covenant.

Functions and Activities. UNPO offers an international forum for occupied nations, indigenous peoples, minorities and oppressed majorities, who struggle to regain their lost countries, preserve their cultural identities, protect their basic human and economic rights, and safeguard their environment.

It does not represent those peoples; rather it assists and empowers them to represent themselves more effectively. To this end, it provides professional services and facilities as well as education and training in the fields of diplomacy, international and human rights law, democratic processes and institution building, conflict management and resolution, and environmental protection. The Organization is funded by members, private foundations and voluntary contributions.

5 former members of UNPO (Armenia, Belau, Estonia, Georgia and Latvia) subsequently achieved full independence and gained representation in the UN. Belau is now called Palau.

INTERNATIONAL COMMITTEE OF THE RED CROSS (ICRC)

Origin. Founded in Geneva in Feb. 1863. From its outset the ICRC saw that volunteers could act effectively on the battlefield, without risking rejection by officers and soldiers, only if they could be told apart from ordinary civilians by a distinctive emblem and were protected from fighting.

The 27th International Conference of the Red Cross and Red Crescent was held in Geneva in Nov. 1999 and adopted a Plan of Action for 2000–03.

Mission Statement. The ICRC acts to help all victims of war and internal violence, attempting to ensure implementation of humanitarian rules restricting armed violence.

The ICRC's mission arises from the basic human desire, common to all civilizations, to lay down rules governing the use of force in war and to safeguard the dignity of the weak. With a mandate from the international community to help victims of war and internal violence and to promote compliance with international humanitarian law, the ICRC's activities are aimed at protecting and assisting the victims of armed conflict and internal violence so as to preserve their physical integrity and their dignity and to enable them to regain their autonomy as quickly as possible. The main treaties governing international law are the Geneva Conventions (1949) to which 188 states are signed up, and the Additional Protocols of 1977 (Protocol 1 has 156 signatories and Protocol 2 has 149 signatories). The ICRC is involved not only with implementing this law but also in developing it.

* The ICRC is independent of all governments and international organizations. Its work is prompted by the desire to promote humane conduct and is guided by empathy for the victims. The ICRC is impartial: its only criterion for action is the victims' needs. The ICRC is neutral and remains detached from all political issues related to conflict.

* By applying these principles strictly, the ICRC is able to act as an intermediary between the parties to armed conflict and to promote dialogue in situations of internal violence, with a view to finding solutions for matters of humanitarian concern.

* Through its work, the ICRC helps to prevent the worsening of crises and even at times to resolve them.

* The ICRC systematically reminds all military and civilian authorities directly involved in armed conflict or internal violence of their obligations under international humanitarian law and the other humanitarian rules by which they are bound.

* The ICRC has the duty to remind all States of their collective obligation to ensure respect for international humanitarian law.

* In all societies and cultures, the ICRC endeavours to promote international humanitarian law and the fundamental human values underlying the law.

* As the founding member of the International Red Cross and Red Crescent Movement, the ICRC directs and co-ordinates the international work of the Movement's components in connection with armed conflict and internal violence.

* The ICRC gives priority to co-operation with the National Red Cross and Red Crescent Societies and their Federation. It acts in consultation with all other organizations involved in humanitarian work.

Finance. The ICRC relies for its financing on voluntary contributions from signatories to the Geneva Conventions, supranational organizations such as the European Union; and public and private sources. To obtain the necessary funding the ICRC launches annual appeals.

In 1999 the ICRC maintained a permanent presence in 60 countries with a total staff of around 10,000, and conducted operations in around 80 countries. It also stepped up its drive to raise awareness of the banning of landmines, lobbying at international, national and regional levels.

MÉDECINS SANS FRONTIÈRES (MSF)

Origin. Médecins sans Frontières was established on 20 Dec. 1971 by a group of French doctors. MSF has offices in 20 countries and provides emergency medical assistance to more than 80 countries.

Functions. MSF was the first non-military, non-governmental organization to specialize in international humanitarian aid and emergency medical assistance. MSF is dedicated to rectifying what it perceives as the shortcomings of international aid agencies who, it believes, offer too little medical assistance and are overly reticent in the face of legal and administrative obstacles. MSF works in countries where health structures are insufficient, collaborating with authorities such as the Ministry of Health to provide assistance. MSF works in rehabilitation of hospitals and dispensaries, vaccination programmes and water and sanitation projects. MSF also works in remote health care centres, slum areas and provides training of local personnel with the objective of rebuilding health structures to acceptable levels.

AMNESTY INTERNATIONAL (AI)

Origin. Founded in 1961 by British lawyer Peter Beneson as a 1-year campaign for the release of prisoners of conscience, Amnesty International has grown to become a worldwide organization, winning the Nobel Peace Prize in 1977. As defined by AI, 'prisoners of conscience' are people imprisoned solely because of their political or religious beliefs, gender, or their racial or ethnic origin, who have neither used nor advocated violence. The organization's mandate is based on the United Nations Universal Declaration of Human Rights.

AI has over 1m. members, subscribers and regular donors in more than 100 countries. The organization is governed by a 9-member International Executive Committee (IEC). It comprises 8 volunteer members elected every 2 years by an International Council comprising representatives of the worldwide movement, and an elected member of the International Secretariat. During the 12 months to 31 March 1998 the International Secretariat had expenditure of £16,312,000.

Each year, AI produces a global report detailing human rights violations in all regions of the world. The 1998 report, which detailed abuses during 1997, included the fact that executions were carried out in 40 countries, people were arbitrarily arrested and detained, or in detention without charge or trial in 53 countries, and in 117 countries people were reportedly tortured or ill-treated by security forces, police or other state authorities.

ORGANIZATION FOR THE PROHIBITION OF CHEMICAL WEAPONS (OPCW)

The OPCW is responsible for the implementation of the Chemical Weapons Convention (CWC), which became effective on 29 April 1997. The principal organ of the OPCW is the Conference of the States Parties, composed of all the members of the Organization.

Given the relative simplicity of producing chemical warfare agents, the verification provisions of the CWC are far-reaching. The routine monitoring regime involves submission by States Parties of initial and annual declarations to the OPCW, initial visits and systematic inspections of declared weapons storage,

production and destruction facilities. Verification is also applied to chemical industry facilities which produce, process or consume dual-use chemicals listed in the convention. The OPCW also when requested by any State Party conducts short-notice challenge inspections at any location under its jurisdiction or control of any other State Party.

The OPCW also co-ordinates assistance to any State Party that falls victim of chemical warfare as it fosters international co-operation in the peaceful application of chemistry.

ANTARCTIC TREATY

Antarctica is an island continent some 15.5m. sq. km in area which lies almost entirely within the Antarctic Circle. It is in general ownerless: for countries with territorial claims, see ARGENTINA; AUSTRALIA: Australian Antarctic Territory; CHILE; FRANCE: Southern and Antarctic Territories; NEW ZEALAND: Ross Dependency; NORWAY: Queen Maud Land; UNITED KINGDOM: British Antarctic Territory.

12 countries which had maintained research stations in Antarctica during International Geophysical Year, 1957–58 (Argentina, Australia, Belgium, Chile, France, Japan, New Zealand, Norway, South Africa, the USSR, the UK and the USA) signed the Antarctic Treaty (Washington Treaty) on 1 Dec. 1959. Austria, Brazil, Bulgaria, Canada, China, Colombia, Cuba, Czechoslovakia, Denmark, Ecuador, Finland, Germany, Greece, Hungary, India, Italy, South Korea, North Korea, the Netherlands, Papua New Guinea, Peru, Poland, Romania, Spain, Sweden, Switzerland and Uruguay subsequently acceded to the Treaty. The Treaty reserves the Antarctic area south of 60° S. lat. for peaceful purposes, provides for international co-operation in scientific investigation and research, and preserves, for the duration of the Treaty, the *status quo* with regard to territorial sovereignty, rights and claims. The Treaty entered into force on 23 June 1961. The 39 nations party to the Treaty (26 full voting signatories and 13 adherents) meet biennially. Decisions taken by the signatories of the 1959 Washington Treaty must be unanimous.

An agreement reached in Madrid in April 1991 and signed by all 39 parties in Oct. imposes a ban on mineral exploitation in Antarctica for 50 years, at the end of which any one of the 26 voting parties may request a review conference. After this the ban may be lifted by agreement of three quarters of the nations then voting, which must include the present 26. The agreement demilitarizes the continent, establishes the right to scientific research for all countries and creates a procedure for monitoring the environment.

INTERPOL (INTERNATIONAL CRIMINAL POLICE ORGANIZATION)

Organization. Founded in 1914 and composed of 178 member countries, INTERPOL provides assistance to the law enforcement community. The police of any member state can communicate with the police of any other member state using INTERPOL's 4 official languages: English, Arabic, French and Spanish.

Aims. Under Article 2 of the Organization's Constitution, INTERPOL's aims are:

(a) 'To ensure and promote the widest possible mutual assistance between all criminal police authorities, within the limits of the laws existing in the different countries and in the spirit of the Universal Declaration of Human Rights.

(b) To establish and develop all institutions likely to contribute effectively to the prevention and suppression of ordinary law crimes.'

The limits of its actions are laid down in Article 3:

'It is strictly forbidden for the Organization to undertake any intervention or activities of a political, military, religious or racial character.' A political offence is one which is considered to be of a predominantly political nature because of the surrounding circumstances and underlying motives, even if the offence itself is covered by the ordinary criminal law in the country in which it was committed. But

offences are not considered to be political when they are committed outside a 'conflict area', and when the victims are not connected with the aims or objectives pursued by the offenders.

Co-operation with INTERPOL is based on actions taken by the police forces in the various member states, operating within their own national boundaries and in accordance with their own national laws. All member states are provided with the same services and have the same rights, irrespective of the size of their financial contributions to the Organization.

Although governed by principles designed to ensure regularity and continuity, working methods are flexible enough to take account of the wide variety of structures and situations in different countries. Respect for these principles means that INTERPOL cannot have teams of detectives with supranational powers who travel around investigating cases in different countries. International co-operation has to depend on co-ordinated action on the part of the member states' police forces, all of which may supply or request information or services as needed.

On 15 Oct. 1996 INTERPOL obtained Observer status in the United Nations General Assembly. This decision recognized the long-term policy of co-operation between INTERPOL and the United Nations, undertaken in an effort to avoid duplication of manpower and resources in the fight against international crime and to ensure that the two organizations pursue a common strategy.

THE WORLD TOURISM ORGANIZATION

Origin. Established in 1925 in The Hague as the International Union of Official Tourist Publicity Organizations. Renamed the International Union for Official Tourism Organizations after the Second World War when it moved to Geneva, it was renamed the World Tourism Organization in 1975 and moved its headquarters to Madrid the following year.

The World Tourism Organization became an executing agency of the United Nations Development Programme in 1976 and in 1977 a formal co-operation agreement was signed with the UN itself.

Membership. The World Tourism Organization has three categories of membership: Full membership which is open to all sovereign states; associate membership which is open to all territories not responsible for their external relations; and affiliate membership which comprises a wide range of organizations and companies working either directly in travel and tourism or in related sectors. In 1998 the World Tourism Organization had 138 full members and more than 350 affiliate members.

INTERNATIONAL CONFEDERATION OF FREE TRADE UNIONS (ICFTU)

Origin. The founding congress of the ICFTU was held in London in Dec. 1949 following the withdrawal of some Western trade unions from the World Federation of Trade Unions (WFTU), which had come under Communist control. The constitution, as amended, provides for co-operation with the UN and the ILO, and for regional organizations to promote free trade unionism, especially in developing countries. By 1999 the ICFTU represented some 125m. workers across 215 national trade union centres in 145 countries.

Aims. The ICFTU aims to promote the interests of working people and to secure recognition of workers' organizations as free bargaining agents; to reduce the gap between rich and poor; and to defend fundamental human and trade union rights. In 1996 it campaigned for the adoption by the WTO of a social clause, with legally binding minimum labour standards.

Organization. The Congress meets every 4 years. The 17th Annual World Congress was held in Durban in April 2000. It elects the General Secretary and an Executive Board of 53 members nominated on an area basis for a 4-year period. 5 seats are reserved for women, nominated by the Women's Committee, and one reserved for a representative of young workers. The Board meets at least once a year. Various committees cover economic and social policy, violation of trade union and other human rights, trade union co-operation projects and also the administration of the International Solidarity Fund. There are joint ICFTU–International Trade Secretariat committees for co-ordinating activities.

WORLD FEDERATION OF TRADE UNIONS (WFTU)

Origin and History. The WFTU was founded on a worldwide basis in 1945 at the international trade union conferences held in London and Paris, with the participation of all the trade union centres in the countries of the anti-Hitler coalition. The aim was to reunite the world trade union movement at the end of the Second World War. The acute political differences among affiliates, especially the east-west confrontation in Europe on ideological lines, led to a split. A number of affiliated organizations withdrew in 1949 and established the ICFTU. The WFTU now draws its membership from the industrially developing countries like India, Vietnam and other Asian countries, Brazil, Peru, Cuba and other Latin American countries, Syria, Lebanon, Kuwait and other Arab countries, and it has affiliates and associates in more than 20 European countries. It has close relations with the International Confederation of Arab Trade Unions, the Organization of African Trade Union Unity as well as the All-China Federation of Trade Unions, all of which participated at its Congress in New Delhi, India in 2000. Its Trade Unions Internationals (TUIs) have affiliates in Russia, the Czech Republic, Poland and other East European countries, Portugal, France, Spain, Japan and other OECD countries.

The headquarters of the TUIs are situated in Helsinki, New Delhi, Budapest, Mexico, Paris and Moscow. The WFTU and its TUIs have 130m. members, organized in 92 affiliated or associated national federations and 6 Trade Unions Internationals, in 130 countries. It has regional offices in New Delhi, Havana, Dakar, Damascus and Moscow and Permanent Representatives accredited to the UN in New York, Geneva and Rome.

WORLD CONFEDERATION OF LABOUR (WCL)

Founded in 1920 as the International Federation of Christian Trade Unions, it went out of existence in 1940 as a large proportion of its 3.4m. members were in Italy and Germany, where affiliated unions were suppressed by the Fascist and Nazi regimes. Reconstituted in 1945 and declining to merge with the WFTU or ICFTU, its policy was based on the papal encyclicals *Rerum novarum* (1891) and *Quadragesimo anno* (1931), and in 1968 it became the WCL and dropped its openly confessional approach.

Today, it has Christian, Buddhist and Moslem member confederations, as well as organizations without religious reference. The WCL defines itself as pluralist and humanist. In its concern to defend trade union freedoms and assist trade union development, the WCL differs little in policy from the ICFTU above. A membership of 26m. in 114 countries is claimed. The biggest group is the Confederation of Christian Trade Unions (CSC) of Belgium (1.6m.).

Organization. The WCL is organized on a federative basis which leaves wide discretion to its autonomous constituent unions. Its governing body is the Congress, which meets every 4 years. The Congress appoints (or re-appoints) the Secretary-General at each 4-yearly meeting. The General Council which meets at least once a year, is composed of the members of the Confederal Board (at least 22 members, elected by the Congress) and representatives of national confederations, international trade federations, and trade union organizations where there is no confederation affiliated to the WCL. The Confederal Board is responsible for the general leadership of the WCL, in accordance with the decisions and directives of the Council and Congress. There are regional organizations in Latin America (Caracas), Africa (Lomé) and Asia (Manila), and 3 liaison offices (Bucharest, Geneva and Washington).

AFGHANISTAN

Islamic State of Afghanistan

Capital: Kabul

Population estimate, 2000: 25.59m.

Estimated GDP: \$20bn.

KEY HISTORICAL EVENTS

For much of the 19th century Afghanistan was part of the power struggle between Britain, as the dominant power in India, and the Russian empire. While the country achieved independence after the First World War, tribal wars and banditry restricted economic and social development. Stability came in the period of Zāhir Shah who ruled for 40 years. In 1964 he was able to overcome opposition and put through a constitution establishing parliamentary democracy. In 1973 there was a military

coup led by his cousin and brother-in-law Mohammed Daoud, who abolished the 1964 constitution and declared a republic. Zāhir Shah abdicated on 24 Aug. 1973.

The republic inherited pressure for tribal autonomy and economic crises mainly brought about by drought and famine. In April 1978 President Daoud was overthrown and killed in a further coup which installed a pro-Soviet government. The new president, Noor Mohammad Taraki, was overthrown in Sept. 1979, whereupon the Soviet Union invaded Afghanistan in Dec., deposed his successor and placed Babrak Karmal at the head of government.

In Dec. 1986 Sayid Mohammed Najibullah became president amid continuing civil war between government and rebel Muslim forces. Whereas in the 1960s both the USSR and the USA had financed government projects, in 1987 the USSR provided considerable military support and development aid to the pro-Soviet administration while the USA extended more limited support to the rebels. In the mid-1980s the UN began negotiations on the withdrawal of Soviet troops and the establishment of a government of national unity. Soviet troops began withdrawing from Afghanistan in early 1988.

After talks in Nov. 1991 with Afghan opposition movements ('mujahideen'), the Soviet government transferred its support from the Najibullah regime to an 'Islamic Interim Government'. As mujahideen insurgents closed in on Kabul, President Najibullah stepped down on 16 April 1992 but fighting continued.

In 1994 a newly formed militant Islamic movement, 'Taliban' (i.e. 'students of religion'), took Kabul, apparently with Pakistani support. They were in turn defeated by the troops of President Rabbani but in Sept. 1996 Taliban forces recaptured Kabul and set up an interim government under Mohamed Rabbani. Afghanistan was declared a complete Islamic state under Sharia law.

Government forces which had retreated to the north of Kabul counter-attacked but a new Taliban offensive, launched on 27 Dec. 1996, gave Taliban control of 90% of the country. Under the Taliban, irregular forces have been disarmed and roads cleared of bandits. Rebuilding of towns and villages has started. But the strict application of Islamic law runs counter to western sensitivities with the result that only two countries—Pakistan and the United Arab Emirates—recognize Taliban as the legal government.

In Oct. 1997 the Taliban leadership changed the name of the country to the *Islamic Emirate of Afghanistan*, but most of the world still uses the designation *Islamic State of Afghanistan*.

In March 2001 Afghanistan was widely condemned for the destruction of ancient monuments that the Taliban deemed un-Islamic, including the world's tallest Buddhas.

TERRITORY AND POPULATION

Afghanistan is bounded in the north by Turkmenistan, Uzbekistan and Tajikistan, east by China, east and south by Pakistan and west by Iran.

CONSTITUTION AND GOVERNMENT

After the removal of President Najibullah, power was exercised by a 10-member Ruling Council chaired by Burhanuddin Rabbani who became interim President of the country on 28 June 1992. In Dec. 1992 a Grand Council of 1,335 national delegates convened and re-elected Burhanuddin Rabbani president. The Grand Council was wound up after 205 of its members had been designated a constituent assembly. President Rabbani's mandate expired in June 1994 but he remained in office.

CURRENT ADMINISTRATION

The *de facto* government is formed by the Taliban movement. The *de jure* government is led by President Burhanuddin Rabbani.

De jure President: Burhanuddin Rabbani; b. 1942 (Jamiat Party; sworn in 2 Jan. 1993).

Taliban Leader: Mullah Mohammad Omar.

Minister for Foreign Affairs: Mullah Abdul Wakil Muttawakil. *Interior:* Mullah Abdul Razzaq.

DEFENCE

In 1999 military expenditure totalled US\$265m. (US\$11 per capita), representing 14.9% of GDP. In 1998 Afghanistan was estimated to have 108,000 soldiers and rebels under the age of 18—more than twice as many young soldiers as any other country.

Army. Army organization disintegrated into factional groups after the deposition of President Najibullah in April 1992. Strength was (1993) about 40,000, mainly conscripts, but most units of the Army are well below strength, largely as a result of desertions.

Air Force. Prior to the overthrow of the regime of President Najibullah in 1992, the Air Force had about 180 combat aircraft and 5,000 officers and men. Since then, the service has also been broken into various factions and few combat aircraft remain airworthy; the helicopters and transport aircraft fleet are also largely grounded.

INTERNATIONAL RELATIONS

UN sanctions on Afghanistan were imposed on 14 Nov. 1999 over the presence in the country of the Islamic militant, Osama bin Laden.

Afghanistan is a member of the UN, Asian Development Bank, ECO, Colombo Plan and OIC.

ECONOMY

Performance. Real GDP growth was estimated at 6% in both 1997 and 1998.

Currency. The unit of currency is the *afghani* (AFA) of 100 *puls*. Inflation in 1998 was estimated to be 18%.

Banking and Finance. The Afghan State Bank is the largest of the 3 main banks and also undertakes the functions of a central bank, holding the exclusive right of note issue. Foreign banks have been permitted to operate since 1990.

Weights and Measures. The metric system is in increasingly common use. Local units include: 1 *khurd* = 0.244 lb; 1 *pao* = 0.974 lb; 1 *charak* = 3.896 lb; 1 *sere* = 16 lb; 1 *kharwar* = 1,280 lb or 16 maunds of 80 lb each; 1 *gaz* = 40 inches; 1 *jarib* = 60 x 60 kabuli yd or ½ acre; 1 *kulba* = 40 jaribs (area in which 2½ kharwars of seed can be sown); 1 *jarib yd* = 29 inches.

ENERGY AND NATURAL RESOURCES

Electricity. Most generating plant is hydro-electric. Installed capacity was 494,000 kW in 1995. Production was 430m. kWh in 1998; consumption in 1996 was 660m. kWh.

Oil and Gas. Natural gas reserves were 99bn. cu. metres in 1997. Production in 1996 was 7 petajoules. A consortium of oil and gas companies ('CentGas') is planning a US\$2bn. natural gas pipeline from Turkmenistan through Afghanistan to Pakistan. However, following the withdrawal from the project of the US oil company Unocal doubts exist as to the viability of the project.

Minerals. There are deposits of coal, copper, barite, lapis-lazuli, emerald, talc and salt.

Agriculture. The greater part of Afghanistan is mountainous but there are many fertile plains and valleys. In 1997 there were 7.91m. ha of arable land and 0.14m. ha of permanent cropland; 2.8m. ha were irrigated in 1997. 69.2% of the economically active population were engaged in agriculture in 1995. Principal crops include grains, rice, fresh and dried fruits, vegetables, cottonseed and potatoes.

Production, 1998, in 1,000 tonnes: wheat, 2,834; rice, 450; barley, 330; maize, 240; potatoes, 235. Opium production in 1999 was 4,581 tonnes (approximately twice the 1998 output), or 75% of the world's total supply. In 1998 the harvest was worth an estimated US\$69m. The area under cultivation was 91,000 ha, up from 60,000 ha in the mid-1990s. For several years Afghanistan's annual narcotics production has been more than twice that of the second largest producer. However, in Feb. 2001 the United Nations Drug Control Programme reported that opium production had been almost totally eradicated after the Taliban outlawed the cultivation of poppies.

Livestock (1998): cattle, 1.5m.; horses, 300,000; camels, 265,000; sheep, 14.3m.; goats 2.2m.; asses, 1.16m.; chickens, 7m.

Forestry. In 1995 forests covered 2.1% of the total land area (3.1% in 1990). Timber production in 1998 was 8.09m. cu. metres.

Environment. According to the *World Bank Atlas* Afghanistan's carbon dioxide emissions were the equivalent of 0.1 tonnes per capita in 1996.

Fisheries. In 1998 the total catch was estimated to be 1,200 tonnes, exclusively from inland waters.

INDUSTRY

Major industries include natural gas, fertilizers, cement, coalmining, small vehicle assembly plants, building, carpet weaving, cotton textiles, clothing and footwear, leather tanning, sugar manufacturing and fruit canning.

Labour. The workforce was 8,851,000 in 1996 (65% males). In 1995 the unemployment rate was estimated at 8%.

INTERNATIONAL TRADE

Imports and Exports. Total exports (1995), US\$153m.; imports US\$344m. Main exported products: non-edible crude materials (excluding fuels), manufactured

goods (raw material intensive), machinery and transport equipment, fruits, nuts, hand-woven carpets, wool, hides, precious and semi-precious gems. Main imports: foodstuffs and live animals, beverages and tobacco, mineral fuels, manufactured goods, chemicals and related products, machinery and transport equipment. Main trading partners: Kyrgyzstan, Pakistan and Russia.

COMMUNICATIONS

Roads. There were an estimated 21,000 km of roads in 1998, of which 2,800 km were paved. All roads, particularly outside the towns, are in a very poor state of repair as a result of military action. Approximately 31,000 passenger cars (1.4 per 1,000 inhabitants) and 25,000 trucks and vans were in use in 1996.

Rail. There are no railways in the country, but the Oxus bridge—opened in 1982—brought a short section of 1,524 mm gauge track into the country from Uzbekistan. A Trans-Afghan Railway was proposed in an Afghan-Pakistan-Turkmen agreement of 1994.

Civil Aviation. There is an international airport at Kabul (Khwaja Rawash Airport). The national carrier is Ariana Afghan Airlines, which in 1998 operated direct flights from Kabul to Amritsar, Dubai and Jeddah. The UN sanctions imposed on 14 Nov. 1999 included the cutting off of Afghanistan's air links to the outside world. In 1997 scheduled airline traffic of Afghanistan-based carriers flew 6.4 m. km, carrying 90,000 passengers (51,000 on international flights).

Shipping. There are practically no navigable rivers. A port has been built at Qizil Qala on the Oxus and there are 3 river ports on the Amu Darya, linked by road to Kabul.

Telecommunications. In 1998 there were 29,000 telephone main lines, or 1.4 per 1,000 inhabitants—the lowest penetration rate of any country outside Africa. There is telegraphic communication between all the larger towns and with other parts of the world.

Postal Services. In 1995 there were 352 post offices.

SOCIAL INSTITUTIONS

Justice. A Supreme Court was established in June 1978. If no provision exists in the Constitution or in the general laws of the State, the courts follow the Hanafi jurisprudence of Islamic law. Executions take place in public—there were 12 in 1999.

Religion. The predominant religion is Islam. An estimated 84% of the population are Sunni Muslims, and 15% Shias.

Education. Adult literacy was 31.5% in 1995 (male, 47.2%; female, 15.0%). There are elementary schools throughout the country, but secondary schools exist only in Kabul and provincial capitals. Both elementary and secondary education are free. In 1995 there were 1,312,197 pupils (20,055 teachers in 1994) in primary education and 512,851 pupils (17,548 teachers in 1994) in secondary education. During the period 1990–95 only 8% of females of primary school age were enrolled in school (the lowest percentage in the world).

In 1995–96 there were 5 universities, 1 university of Islamic studies, 1 state medical institute and 1 polytechnic. Kabul University had 9,500 students and 500 academic staff.

In the areas controlled by Taliban, education is forbidden for girls. Boys' schools teach only religious education and military training. In *de jure* government-controlled areas, schools for girls and boys are still available.

Health. In 1991 there were 2,233 doctors, 267 dentists, 1,451 nurses, 510 pharmacists and 338 midwives.

Afghanistan and North Korea are the countries which have lost most ground in the battle against undernourishment in the past 20 years. Between 1980 and 1996 the proportion of undernourished people rose from 33% of the population to 62%.

CULTURE

Broadcasting. In 1997 there were 2.75m. radio receivers and 270,000 television receivers (colour by PAL).

The Taliban have closed down a number of television stations and only one is still broadcasting. The Taliban authorities have smashed or even publicly hanged television sets.

Cinema. Cinemas are banned in Afghanistan.

Press. In 1996 there were 12 daily newspapers with a combined circulation of 113,000, at a rate of 5.6 per 1,000 inhabitants.

In Taliban areas there is only one, tightly-controlled, newspaper named *Shariat*. In *de jure* government-controlled areas, amongst the highest circulation papers are *Payam Mujahid*, *Hambastegi* and *Sobh-e Omid*.

Tourism. In 1998 there were 4,000 foreign tourists bringing in receipts of US\$1m.

KEY HISTORICAL EVENTS

After the Russo-Turkish war of 1877–78, demands grew for independence from Turkey. After the defeat of Turkey in the Balkan war of 1912, Albanian nationalists proclaimed Albania's independence and set up a provisional government.

During the First World War Albania became a battlefield for warring occupation forces. Albania was admitted to the League of Nations on 20 Dec. 1920. In Nov. 1921 the conference of ambassadors confirmed her

1913 frontiers with minor alterations. Italian influence grew from the mid-1920s. A friendship pact was signed with Italy in 1926 and a defence treaty in 1927. In April 1939 Mussolini invaded Albania and set up a puppet state. During the Second World War Albania suffered first Italian and then German occupation. Resistance was carried on by royalist, nationalist republican and communist movements, often at odds with each other. The latter enjoyed the support of Tito's partisans, who were instrumental in forming the Albanian Communist Party on 8 Nov. 1941. Communists dominated the Anti-Fascist National Liberation Committee which became the Provisional Democratic Government on 22 Oct. 1944 after the German withdrawal, with Enver Hoxha, a French-educated school teacher and member of the Communist Party Central Committee, at its head. Large estates were broken up and the land distributed, though full collectivization was not brought in until 1955–59. Close ties were forged with the USSR but following Khrushchev's reconciliation with Tito in 1956 China replaced the Soviet Union as Albania's powerful patron from 1961 until the end of the Maoist phase in 1977. The regime then adopted a policy of 'revolutionary self-sufficiency'. Following the collapse of the Soviet empire the People's Assembly adopted a decree legalizing opposition parties. A non-Communist government was elected in March 1992.

In 1997 Albania was disrupted by financial crises caused by the collapse of fraudulent pyramid finance schemes. A period of violent anarchy led to the fall of the administration and to fresh elections which returned a Socialist-led government. A UN peacekeeping force withdrew in Aug. 1997 but sporadic violence continued.

In April 1999 the Kosovo crisis which led to NATO air attacks on Yugoslavian military targets set off a flood of refugees into Albania.

TERRITORY AND POPULATION

Albania is bounded in the north by Yugoslavia, east by Macedonia, south by Greece and west by the Adriatic. The area is 28,748 sq. km (11,101 sq. miles). At the census of 1989 the population was 3,184,417; density, 111 per sq. km.

The UN gives a projected population for 2010 of 3·76m.

In 1998, 62·7% of the population lived in rural areas. The capital is Tirana (population in 1999, 279,000); other large towns (population in 1,000 in 1995) are Durrës (125), Elbasan (101); (populations in 1991) Shkodër (84), Vlorë (76), Korçë (67); (populations in 1990) Fier (37), Berat (37), Lushnjë (24), Kavajë (23) and Gjirokastër (Argyrocastro) (21).

The country is administratively divided into 26 districts, 66 towns, 306 town boroughs, 537 village unions and 2,844 villages.

A consortium led by Premier Oil, an independent UK company, signed an agreement in Dec. 1997 to develop Albania's biggest onshore oilfield, Patos Merinze, by investing US\$250m. Production was to increase from 6,000 bbls. a day to more than 25,000 within 4 years as a result of the venture, which represents the largest single foreign investment made in Albania.

KEY HISTORICAL EVENTS

Algeria came under French control in the 1850s. The French settlers who subsequently arrived developed political and economic power at the expense of the indigenous Muslim population. In Nov. 1954 the *Front de Libération Nationale* (FLN), representing the Muslim majority, declared open warfare against the French administration and armed forces. There was extensive loss of life and property during the fighting which continued unabated until March 1962 when a ceasefire

was agreed between the French government and the nationalists. Against the wishes of the French in Algeria, Gen. de Gaulle conceded Algerian independence on 3 July 1962.

The Political Bureau of the FLN took over the functions of government, a National Constituent Assembly was elected and the Republic was declared on 25 Sept. 1962. The founder of the FLN, Ahmed Ben Bella, became prime minister, and president the following year. On 15 June 1965 the government was overthrown by a junta of army officers, who established a Revolutionary Council under Col. Houari Boumédiène. After 10 years of rule, Boumédiène proposed that elections should be held for a president and a National Assembly. The proposed new constitution was accepted in a referendum in Nov. 1976 and Boumédiène was elected president unopposed. A National Assembly was elected in Feb. 1977, only FLN members being allowed as candidates.

On the death of the president in Dec. 1978 the Revolutionary Council again took over the government. The Islamic Salvation Front (FIS) was banned in March 1992. The head of state, Mohamed Boudiaf, was assassinated on 29 July 1992, and a campaign of terrorism was launched by Muslim fundamentalists which has continued to the present day. It is estimated that over 100,000 lives have been lost.

In 1995, 95.4% of the population lived in urban areas.

The chief towns are Andorra-la-Vella, the capital (population, 25,000 in 1999) and its suburb Escaldes-Engordany (13,177). 30% of the residential population are Andorran, 61% Spanish and 6% French. Catalan is the official language; Spanish is widely spoken.

HDI/world rank: 0·405/160

KEY HISTORICAL EVENTS

The Portuguese were dominant from the late 19th century. Angola remained a Portuguese colony until 11 June 1951, when it became an Overseas Province of Portugal.

After the coup d'état in Portugal in April 1974, negotiations with Portugal, the MPLA (People's Movement for the Liberation of Angola), the FNLA (National Front for the Liberation of Angola) and UNITA (National Union for the Total Liberation of Angola) led to

independence on 11 Nov. 1975. The FNLA tried to seize power by force but was driven out of the capital. As independence approached, invasion from the north was combined with a South African invasion in support of UNITA. The MPLA declared independence and, subsequently, with the help of Cuban troops, defeated the FNLA in the north and drove the invading South African army out of the country. South African invasions and the occupation of large areas of Angola continued until the signing of the New York Agreement in Dec. 1988, under which South Africa agreed to withdraw its forces from Angola and Namibia (and grant independence to Namibia), while Angola and Cuba agreed to the phased withdrawal of Cuban troops.

After many abortive attempts to end the internal conflict with UNITA, a peace agreement was signed on 31 May 1991 under which a single national army was to be formed and multi-party elections held. In Sept. 1992 the MPLA won the elections and José Eduardo dos Santos was re-elected President against UNITA leader Jonas Savimbi. But the latter rejected the election results, withdrew his generals from the unified army and went back to war, seizing an estimated 70% of the country.

On 20 Nov. 1994 a peace agreement was signed in Lusaka, allowing for UNITA to share in government.

On 9 Jan. 1998 a breakthrough in negotiations between the government and UNITA rebels was announced. Jonas Savimbi, UNITA's leader, met with President dos Santos but talks soon foundered and serious fighting resumed in the north, raising fears of a major new offensive by the Angolan Armed Forces against the UNITA rebels. Meanwhile, Angolan troops fought in the Republic of the Congo alongside the forces of President Kabila in his efforts to quash a Rwandan-backed rebellion in the east of his country. They remained after the assassination of Kabila but renewed hopes of peace suggest that it may not be long before they withdraw.

TERRITORY AND POPULATION

Angola is bounded in the north by the Republic of the Congo, north and northeast by the Democratic Republic of the Congo, east by Zambia, south by Namibia and west by the Atlantic Ocean. The area is 1,246,700 sq. km (481,354 sq. miles) including the province of Cabinda, an exclave of territory separated by 30 sq. km of the Democratic Republic of the Congo's territory. The population at census, 1970, was 5,646,166, of whom 14% were urban. Official estimate, 1995, 11·5m.; density, 9·2 per sq. km. By 1998, 32·9% of the population were living in urban areas. Population figures are rough estimates because the civil war has led to huge movements of population.

There were 0·3m. Angolan refugees in the Democratic Republic of the Congo, Zambia and the Republic of the Congo in 1995.

The UN gives a projected population for 2010 of 17·18m.

The supreme organ of state is the 220-member *National Assembly*. There is an executive *President* elected for renewable terms of 5 years, who appoints a *Council of Ministers*.

Eduardo dos Santos (MPLA) was re-elected as President with 49.5% of votes cast against 40.5% for his single opponent, Jonas Savimbi (UNITA). The latter refused to accept the result. The MPLA gained 129 seats in the National Assembly with 53.74% of votes cast, UNITA 77 with 34.1%. 10 other parties gained 6 seats or less.

On 11 April 1997 a Government of National Unity was installed, with 3 ministerial posts going to UNITA. Jonas Savimbi, UNITA's leader, received the specially created position of Chief of the Principal Opposition Party.

Army. In 1999 the Army had 35 regiments. Total strength was estimated at 100,000. In addition the paramilitary Rapid Reaction Police numbered 15,000.

Navy. Naval personnel in 1999 totalled about 1,500 with 9 operational vessels. There is a naval base at Luanda.

Air Force. The Angolan People's Air Force (FAPA) was formed in 1976 and has about 11,000 personnel. Since the elections in 1992 and the relative calm, the Air Force has been run down and serviceability of combat aircraft is low. In 1999 there were 85 combat aircraft and 28 armed helicopters.

INTERNATIONAL RELATIONS

Angola is a member of the UN, WTO, OAU, African Development Bank, COMESA, SADC, IOM and is an ACP member state of the ACP-EU relationship.

ECONOMY

In 1998 agriculture accounted for 12.2% of GDP, services 36.4% and industry 51.4%.

Policy. Reforms are under way to introduce a market economy and restore private property. In April 2000 Angola signed a far-reaching agreement with the International Monetary Fund which stipulates economic reforms. In July 2000 the World Bank also signed an agreement giving a series of reforms in return for help with the country's huge foreign debt. During 2000 there were plans to privatize at least 10 large- and medium-sized companies. It is hoped to have the privatization process finished by 2003.

Performance. Total GDP was US\$7.5bn. in 1998. GDP growth, which averaged -2.3% annually between 1990 and 1995, was an impressive 8% in 1997, mainly thanks to booming diamond exports and post-war rebuilding. In 1998, however, it was negative again, at -1.1%. 1999 saw a severe recession with the economy shrinking by 19.0%.

Budget. Revenues in 1997 were KZr694.6m. and expenditure KZr521.3m.

Currency. The unit of currency is the *readjusted kwanza* (AOK) of 100 *lwei*, which replaced the former new kwanza at Kzr1 = Nkz1,000 in July 1995. In Jan. 1994 a 2-tier system was replaced by a single floating exchange rate. Foreign exchange reserves were US\$163m. in 1995; gold reserves, 46,500 troy oz in 1990. Inflation was an annualized 7,500% in 1996. It has slowed since then, and in 1998 was approximately 82%.

Banking and Finance. Banking was re-opened to commercial competition in 1991. The Banco Nacional de Angola is the central bank and bank of issue (*Governor*, Aguinaldo Jaime). All banks remain state-owned, though the government is progressively reducing its stake in them. An agricultural bank and a commercial and industrial bank were founded in 1991. 5 Portuguese banks have branches, as well as the French Banque Paribas, the Equator Bank, and the African Development Bank.

Weights and Measures. The metric system is in force.

ENERGY AND NATURAL RESOURCES

Electricity. Installed capacity was 1m. kW in 1997. Production in 1998 was 1.89bn. kWh, with consumption per capita in 1997 being 162 kWh.

Oil and Gas. Oil is produced mainly offshore and in the Cabinda exclave. Oil production and supporting activities contribute some 45% of Angolan GDP and provide the government with approximately US\$3.5bn. annually. The oil industry is expected to invest US\$3.5bn. a year in offshore Angola in the early part of the 21st century, and it is hoped that by 2005 output may be double the 750,000 bbls. a day produced in 2000. There are plans for a new US\$3.3bn. oil refinery near Lobito which is scheduled to begin operations in 2006. Only Nigeria among sub-Saharan African countries produces more oil. It is believed that there are huge oil resources yet to be discovered. Proven resources in 1999 were 5.4bn. bbls. Total production (1996) 258m. bbls. Natural gas production, 1996, 57 petajoules.

Minerals. Mineral production in Angola is dominated by diamonds, and 90% of all workers in the mining sector work in the diamond industry. Production in 1998 totalled 2,764,000 carats. Angola has billions of dollars worth of unexploited diamond fields. In 2000 the government regained control of the nation's richest diamond provinces from UNITA rebels. Other minerals produced include (1991) granite, 635,000 cu. metres; marble, 244,000 cu. metres; salt, 6,600 tonnes. Iron ore, phosphate, manganese and copper deposits exist.

Agriculture. In 1997 there were 3m. ha of arable land and 0.5m. ha of permanent crops. The agricultural population in 1995 was 8.17m., of whom 3.78m. were economically active. There were 10,300 tractors in 1997. The principal crops (with 1998 production, in 1,000 tonnes): cassava (3,211); maize (505); sugarcane (330); bananas (295); sweet potatoes (189); millet (80); dry beans (86) and citrus fruits (82).

Livestock (1996): 3.1m. cattle, 245,000 sheep, 1,470,000 goats, 810,000 pigs.

Forestry. In 1995, 222,000 sq. km, or 17.8% of the total land area, was covered by forests (18.8% in 1990), including mahogany and other hardwoods. Timber production in 1998 was 6.47m. cu. metres.

Environment. In 1996 Angola's carbon dioxide emissions were the equivalent of 0.5 tonnes per capita according to the *World Bank Atlas*.

Fisheries. In 1993 the fishing fleet had 73 vessels over 100 GRT totalling 17,332 GRT. Total catch in 1998 came to 145,811 tonnes, mainly from sea fishing.

KEY HISTORICAL EVENTS

Argentina gained its independence from Spain in 1816. Civil wars and anarchy followed until, in 1853, stable government was established.

In 1943 when Gen. Juan Domingo Perón led a military coup his regime was autocratic but popularist. His wife Eva (Evita), played a major role, giving the regime an almost cult-like following. She died in 1955 and a civilian administration followed until 1966 when the next military coup led to seven years of government by the military. However, a political party had established itself around the Peróns and when elections were held in 1973 Gen. Perón was elected

president. When he died in 1974, his widow Isobel succeeded him as president. She was deposed in 1976 following another military coup, which established a three-man junta with Gen. Jorge Videla, C.-in-C. of the army, as president. The new government instituted a savagely repressive regime.

Videla was succeeded by Gen. Leopoldo Galtieri, the army C.-in-C. In April 1982 Galtieri, in an effort to distract attention from domestic failings, invaded the Falkland Islands (Islas Malvinas). The subsequent military defeat helped to precipitate the fall of Galtieri and the junta in July 1982. Return to civilian rule took place on 10 Dec. 1983. A new Constitution was adopted in Aug. 1994 since when Argentina has reinforced its commitment to democratic rule and restructured its economy to allow for greater market freedom.

Ayre', by Pedro de Mendoza. Rising from the Rio Plata it is situated on the east coast of Argentina, covering an area of 194 sq. km. It is South America's second largest city after São Paulo.

Argentina also claims territory in Antarctica.

The area is 2,780,400 sq. km excluding the claimed Antarctic territory, and the population at the 1991 census was 32,615,528 (16,677,548 females); 1997 estimate, 36.1m. giving a density of 13 per sq. km. The official census included the 'sovereign territories of Argentina in the Antarctic': population 3,300.

The UN gives a projected population for 2010 of 41.47m.

In 1998, 89.3% of the population were urban.

In April 1990 the National Congress declared that the Falklands and other British-held islands in the South Atlantic were part of the new province of Tierra del Fuego formed from the former National Territory of the same name. The 1994 Constitution reaffirms Argentine sovereignty over the Falkland Islands.

The population of the principal metropolitan areas in 1995 was: Buenos Aires, 11,802,000; Córdoba, 1,294,000; Rosario, 1,155,000; Mendoza, 851,000; La Plata, 676,128 (1992); Tucumán, 642,473 (1992).

95% speak the national language, Spanish, while 3% speak Italian, 1% Guaraní and 1% other languages. In 1999, 12,989 immigrants were granted permanent residency, down from 18,463 in 1996.

On 10 April 1994 elections were held for a 230-member constituent assembly to reform the 1853 constitution. The Justicialist National Movement (Peronist) gained 38.8% of votes cast and the Radical Union 20%. On 22 Aug. 1994 this assembly unanimously adopted a new Constitution. This reduces the presidential term of office from 6 to 4 years, but permits the President to stand for 2 terms. A presidential candidate is elected who gains more than 45% of votes cast, or 40% if at least 10% ahead of an opponent; otherwise there is a second round. The Constitution attenuates the President's powers by instituting a *Chief of Cabinet*. On 6 Aug. 1997 the Radical Union and centre-left Frepaso parties joined together to form the Alliance to fight against the ruling Peronists in the lower house of Congress elections in Oct. 1997. 127 of the 257 seats were up for election. On 26 Oct. 1997 the Justicialist Party (JP/Peronists) suffered its first legislative defeat since 1983. The Alliance (including smaller parties) received 36.5% of votes cast and in the 10 provinces where no coalition existed the two parties separately collected an additional 9.6%, bringing the opposition tally to 46.1%. The JP received nearly 36% of votes cast, losing 12 seats and its absolute majority in Congress (it remains the largest single political bloc). As a result of the election the JP had 119 seats and the Alliance 107 (111 including smaller parties). The remainder of the seats were contested on 24 Oct. 1999, the Alliance winning 63 seats, the Peronists 50, Action for the Republic 9 and other parties 8. INTERNATIONAL RELATIONS

Argentina is a member of the UN, WTO, OAS, Inter-American Development Bank, LAIA, Mercosur, IOM and the Antarctic Treaty, and is set to apply for membership of the OECD. Diplomatic relations with Britain, broken since the 1982 Falklands War, were re-opened in 1990. Praising Argentina's 'call to peace', in Nov. 1997 US President Clinton announced his intention to give the country 'major non-NATO ally' status. The alignment with US foreign policy came after years of anti-American sentiment and a policy of neutrality.

ECONOMY

Services contributed 65.6% of GDP in 1998, industry 28.7% and agriculture 5.7%.

Policy. In 1990 the government introduced a programme privatizing some 40 public enterprises. An economic plan entering into force on 1 April 1991 guaranteed the convertibility of the currency, lowered interest rates and opened the economy to foreign imports. Agricultural export taxes were abolished in March 1991. Argentina

suffered a severe recession in 1995 but since then privatization and deregulation have improved the economy's prospects into the medium term. By 1997, 55 firms had been privatized. Tax evasion and fraud remain a major occurrence but tighter controls are being instituted. In Feb. 1998 the IMF approved a 3-year US\$2.8bn. extended fund facility for Argentina. The accord set a target for the 1998 fiscal deficit of US\$3.5bn., just over 1% of GDP, against the 1996 US\$4.5bn. target.

Performance. The economy grew by 4.4% in 1996, after falling 4.6% in 1995, and was estimated to have grown by 8.6% in 1997. It grew again in 1998 by 2.9% but shrunk by 3.1% in 1999, mainly as a result of the recession in Brazil, which started in 1998, and the devaluation of the Brazilian *real* in Jan. 1999. For 2000 zero growth was forecast. Consumer spending is recovering gradually from the 1995 recession. Total GDP was US\$298.1bn. in 1998. GDP per capita has more than tripled since 1989, to US\$9,010 in 1997, and was forecast to rise still further to US\$9,520 in 1998. In March 2001 the economy minister, José Luis Machinea, resigned after a turbulent 15 months in which he had failed to revive a stagnant economy. But his successor, Ricardo López Murphy, was himself forced to stand down just 2 weeks later over the unpopularity of his own austerity programme. His replacement, Domingo Cavallo, had been finance minister from 1991 to 1996 and was credited with combating hyper-inflation.

Budget. The financial year commences on 1 Jan.

Government revenue and expenditure (in 1m. pesos):

	1995	1996	1997	1998

Expenditure	40,644.6	41,866.9	44,697.0	45,930.4

Currency. The monetary unit is the *peso* (ARP), which replaced the austral on 1 Jan. 1992 at a rate of 1 peso = 10,000 australs. Inflation was 0.3% in 1997 and 0.8% in 1998, but in 1999 there was deflation of 1.2%. For 2000 deflation of 0.9% was forecast. Gold reserves were 330,000 troy oz in Jan. 2000. In 1999 foreign exchange reserves were estimated at US\$20.0bn. Total money supply was 22,263m. pesos in Feb. 1998.

Banking and Finance. In 1999 there were 15 government banks, 78 private banks and 24 other financial institutions. The total assets of the Argentine Central Bank (BCRA) in Feb. 2001 were 41.90bn. pesos. The *Governor* of the Central Bank is Pedro Pou. Convertibility regulations of April 1991 require the Central Bank to back the entire currency in circulation with its foreign currency reserves. The current account balance in 1999 was forecast to be US\$-16.0bn.

There is a stock exchange at Buenos Aires. Some analysts predict that it may close down before long, with activity in 2000 at its lowest level since the late 1980s.

Weights and Measures. The metric system is legal.

ENERGY AND NATURAL RESOURCES

Electricity. Electric power production (1998) was 76,200m. kWh (7,453m. kWh nuclear). In 2000 there were 2 nuclear reactors. Natural gas accounts for approximately 45% of all the energy consumed in Argentina.

Production from the US\$1.1bn. Alumbrera copper and gold mine, the country's biggest mining project, in Catamarca province in the northwest, started in

late 1997. In 1993 the mining laws were reformed and state regulation was swept away creating a more stable tax regime for investors. In Dec. 1997 Argentina and Chile signed a treaty laying the legal and tax framework for mining operations straddling the 5,000 km border, allowing mining products to be transported out through both countries.

Agriculture. In 1996 there were 25.0m. ha of arable land and 2.2m. ha of permanent crops. The agricultural population was 3.82m. in 1995, of whom 1.49m. were economically active. 1.25m. ha were irrigated in 1998. In 1998 there were a total of 421,221 farming and livestock holdings.

Argentina is the world's leading producer of sunflower seeds, and is now the fifth largest wine producer after Italy, France, Spain and the USA; the value of wine exports has grown from US\$19m. in 1995 to a predicted US\$200m. in 2000.

KEY HISTORICAL EVENTS

The early history of Armenia was one of foreign domination with, at various times, the Turkish, Persian and Russian empires claiming control. In the early part of the 20th century the Armenians under Turkish rule suffered brutal persecution. Armenia enjoyed a brief period of independence after the First World War but in 1920 the country was proclaimed a Soviet Socialist Republic. After the collapse of Communism, 99% of voters supported a breakaway from the Soviet Union. A declaration of

independence in Sept. 1991 was followed by presidential elections after which President Ter-Petrosyan came to an agreement on economic co-operation with the other Soviet republics and joined the CIS. A new constitution adopted in July 1995 led to National Assembly elections. President Ter-Petrosyan was re-elected in Sept. 1996. OSCE observers noted 'very serious irregularities' in the conduct of the election.

Hostilities with Azerbaijan were brought to an end with a 1994 ceasefire but negotiations on a territorial settlement continue. On 27 Oct. 1999, 5 men burst into the parliamentary chamber, killing the Prime Minister, Vazgen Sarkisian, and 7 other officials. Aram Sarkisian, brother of the slain prime minister, was named as his successor.

TERRITORY AND POPULATION

Armenia covers an area of 29,800 sq. km (11,490 sq. miles). It is bounded in the north by Georgia, in the east by Azerbaijan and in the south and west by Turkey and Iran. The 1989 census population was 3,304,776 (density, 111 per sq. km.), of whom Armenians accounted for 96·0% (1996), Azerbaijanis 2·6%, Kurds 1·7% and Russians 1·6%.

The UN gives a projected population for 2010 of 3·90m.

In 1998, 69·4% of the population lived in urban areas.

The capital is Yerevan (1·28m. population in 1999). Other large towns are (1994) Kirovakan (159,000) and Kumairi (formerly Leninakan) (120,000).

The official language is Armenian.

RECENT ELECTIONS

President Ter-Petrosyan resigned in Feb. 1998 in a row over the disputed Armenian-inhabited enclave of Nagorno-Karabakh in Azerbaijan. In the election which resulted, Robert Kocharian, the Prime Minister, won, obtaining 59.7% of the votes in the second round on 30 March 1998 in a run-off against Karen Demirchyan, the former Communist Party leader, having previously obtained 38.8% in the first round of voting on 16 March against 4 other candidates.

Parliamentary elections were held on 30 May 1999. The Miasnutyun (Unity) alliance won 55 of the 131 seats available with 41.2% of the vote. The Communists (HKK) were second with 11 seats and 12.1% of the vote.

KEY HISTORICAL EVENTS

Various dates are given for the discovery of Australia, including 1522 in which year it was sighted by Magellan's followers. Capt. Cook discovered the east coast in 1770 and initially the British planned to establish a colony there; instead, however, the government decided to set up a penal settlement.

The appointment of Lachlan Macquarie as Governor in 1809 began a period of development in which Australia ceased primarily to be a penal settlement. The crossing of the Blue Mountains in 1813 was the first of many expeditions which led to discovery and use of vast areas of good grazing land.

On 1 Jan. 1901 the 6 separately constituted colonies of New South Wales, Victoria, Queensland, South Australia, Western Australia and Tasmania were federated under the name of the Commonwealth of Australia, the designation of 'colonies' being at the same time changed into that of 'states'—except in the case of Northern Territory which was transferred from South Australia to the Commonwealth as a 'territory' on 1 Jan. 1911.

In 1911 the Commonwealth acquired from the State of New South Wales the Canberra site for the Australian capital. Building operations were begun in 1923 and a Federal Parliament was opened at Canberra in 1927.

Since the Second World War, Australia has played an increasingly important role in Asia and the Pacific. For much of this period central government has been in the hands of the Liberal–National Party coalition. The Australian Labor Party (ALP) has been in power for some 20 years since 1945 and during its third period of rule, between 1983 and 1996, shifted its stance on state control and economic planning to allow for an ambitious programme of privatization. In March 1986 the Australia Act abolished the remaining legislative, executive and judicial controls of the British Parliament.

A referendum to decide whether Australia should become a republic was held on 6 Nov. 1999. 54·87% of votes cast were in favour of remaining a monarchy with Queen Elizabeth II as head of state, against 45·13% in favour of a republic with a president chosen by parliament.

TERRITORY AND POPULATION

Australia, excluding external territories, covers a land area of 7,682,300 sq. km, extending from Cape York (10° 41' S) in the north some 3,680 km to Tasmania (43° 39' S), and from Cape Byron (153° 39' E) in the east some 4,000 km west to Western Australia (113° 9' E). External territories under the administration of Australia comprise the Ashmore and Cartier Islands, Australian Antarctic Territory, Christmas Island, the Cocos (Keeling) Islands, the Coral Sea Islands, the Heard and McDonald Islands and Norfolk Island. The median age of the 1996 census population was 34 years.

Australians born overseas (census 1996), 3,901,900, of whom 1,124,000 were from the UK and Ireland, and 291,400 from New Zealand. In 1998 it was estimated that 23.4% of the population was born overseas.

Aboriginals have been included in population statistics only since 1967. At the 1996 census 352,970 people identified themselves as being of indigenous origin. A 1992 High Court ruling that the Meriam people of the Murray Islands had land rights before the European settlement reversed the previous assumption that Australia was *terra nullius* before that settlement. The Native Title Act setting up a system for deciding claims by Aborigines came into effect on 1 Jan. 1994.

Under the Migration Program, the planning level for 1998-99 was 68,000. The Migration Act of Dec. 1989 sought to curb illegal entry and ensure that annual immigrant intakes were met but not exceeded. Provisions for temporary visitors to become permanent were restricted. According to the 1996 census, 68% of the population born overseas have become Australian citizens.

The national language is English.

CLIMATE

Over most of the continent, four seasons may be recognized. Spring is from Sept. to Nov., Summer from Dec. to Feb., Autumn from March to May and Winter from June to Aug., but because of its great size there are climates that range from tropical monsoon to cool temperate, with large areas of desert as well. In northern Australia there are only two seasons, the wet one lasting from Nov. to March, but rainfall amounts diminish markedly from the coast to the interior. Central and southern Queensland are subtropical, north and central New South Wales are warm temperate, as are parts of Victoria, Western Australia and Tasmania, where most rain falls in winter. Canberra, Jan. 68°F (20°C), July 42°F (5.6°C). Annual rainfall 25" (635 mm). Adelaide, Jan. 73°F (22.8°C), July 52°F (11.1°C). Annual rainfall 21" (528 mm). CONSTITUTION AND GOVERNMENT

Federal Government. Under the Constitution legislative power is vested in a Federal Parliament, consisting of the Queen, represented by a Governor-General, a Senate and a House of Representatives. Under the terms of the constitution there must be a session of parliament at least once a year.

The *Senate* (Upper House) comprises 76 Senators (12 for each State voting as one electorate and as from Aug. 1974, 2 Senators respectively for the Australian Capital Territory and the Northern Territory). Senators representing the States are chosen for 6 years. The terms of Senators representing the Territories expire at the close of the day next preceding the polling day for the general elections of the House of Representatives. In general, the Senate is renewed to the extent of one-half every 3 years, but in case of disagreement with the House of Representatives, it, together with the House of Representatives, may be dissolved, and an entirely new Senate elected. Elections to the Senate are on the single transferable vote system; voters list candidates in order of preference. A candidate must reach a quota to be elected, otherwise the lowest-placed candidate drops out and his or her votes are transferred to other candidates.

The *House of Representatives* (Lower House) consists, as nearly as practicable, of twice as many Members as there are Senators, the numbers chosen in the several States being in proportion to population as shown by the latest statistics, but not less than 5 for any original State. The 148 membership is made up as follows: New South Wales, 50; Victoria, 37; Queensland, 26; South Australia, 12; Western Australia, 14; Tasmania, 5; ACT; 3; Northern Territory, 1. Elections to the House of Representatives are on the alternative vote system; voters list candidates in order of preference, and if no one candidate wins an overall majority, the lowest-placed drops out and his or her votes are transferred. The Northern Territory has been represented by 1 Member in the House of Representatives since 1922; the Australian Capital Territory by 1 Member since 1949 and 2 Members since May 1974. The Member for the Australian Capital Territory was given full voting rights as from the Parliament elected in Nov. 1966. The Member for the Northern Territory was given full voting rights in 1968. The House of Representatives continues for 3 years from the date of its first meeting, unless sooner dissolved.

Every Senator or Member of the House of Representatives must be a subject of the Queen, be of full age, possess electoral qualifications and have resided for 3 years within Australia. The franchise for both Houses is the same and is based on universal (males and females aged 18 years) suffrage. Compulsory voting was introduced in 1925. If a Member of a State Parliament wishes to be a candidate in a federal election, he must first resign his State seat.

Executive power is vested in the *Governor-General*, advised by an Executive Council. The Governor-General presides over the Council, and its members hold office at his pleasure. All Ministers of State, who are members of the party or parties commanding a majority in the lower House, are members of the Executive Council under summons. A record of proceedings of meetings is kept by the Secretary to the Council. At Executive Council meetings the decisions of the Cabinet are (where necessary) given legal form, appointments made, resignations accepted, proclamations, regulations and the like made.

The policy of a ministry is, in practice, determined by the Ministers of State meeting without the Governor-General under the chairmanship of the Prime Minister. This group is known as the *Cabinet*. There are 11 Standing Committees of the Cabinet comprising varying numbers of Cabinet and non-Cabinet Ministers. In Labour governments all Ministers have been members of Cabinet; in Liberal and National Country Party governments, only the senior ministers. Cabinet meetings are private and deliberative, and records of meetings are not made public. The Cabinet does not form part of the legal mechanisms of government; the decisions it takes have, in themselves, no legal effect. The Cabinet substantially controls, in ordinary circumstances, not only the general legislative programme of Parliament but the whole course of Parliamentary proceedings. In effect, though not in form, the Cabinet, by reason of the fact that all Ministers are members of the Executive Council, is also the dominant element in the executive government of the country.

The legislative powers of the Federal Parliament embrace trade and commerce, shipping, etc.; taxation, finance, banking, currency, bills of exchange, bankruptcy, insurance; defence; external affairs, naturalization and aliens, quarantine, immigration and emigration; the people of any race for whom it is deemed necessary to make special laws; postal, telegraph and like services; census and statistics; weights and measures; astronomical and meteorological observations; copyrights; railways; conciliation and arbitration in disputes extending beyond the limits of any one State; social services; marriage, divorce, etc.; service and execution of the civil and criminal process; recognition of the laws, Acts and records, and judicial proceedings of the States. The Senate may not originate or amend money bills. Disagreement with the House of Representatives may result in dissolution and, in the last resort, a joint sitting of the two Houses. The Federal Parliament has limited and enumerated powers, the several State parliaments retaining the residuary power of government over their respective territories. If a State law is inconsistent with a Commonwealth law, the latter prevails.

The Constitution also provides for the admission or creation of new States. Proposed laws for the alteration of the Constitution must be submitted to the electors, and they can be enacted only if approved by a majority of the States and by a majority of all the electors voting.

The Australia Acts 1986 removed residual powers of the British government to intervene in the government of Australia or the individual states.

In Feb. 1998 an Australian Constitutional Convention voted for Australia to become a republic. In a national referendum, held on 6 Nov. 1999, 54.87% voted against Australia becoming a republic.

State Government. In each of the 6 States (New South Wales, Victoria, Queensland, South Australia, Western Australia, Tasmania) there is a State government whose constitution, powers and laws continue, subject to changes embodied in the Australian Constitution and subsequent alterations and agreements, as they were before federation. The system of government is basically the same as that described above for the Commonwealth—i.e., the Sovereign, her representative (in this case a Governor), an upper and lower house of Parliament (except in Queensland, where the upper house was abolished in 1922), a cabinet led by the Premier and an Executive Council. Among the more important functions of the State governments are those relating to education, health, hospitals and charities, law, order and public

safety, business undertakings such as railways and tramways, and public utilities such as water supply and sewerage. In the domains of education, hospitals, justice, the police, penal establishments, and railway and tramway operation, State government activity predominates. Care of the public health and recreative activities are shared with local government authorities and the Federal government; social services other than those referred to above are now primarily the concern of the Federal government; the operation of public utilities is shared with local and semi-government authorities.

Administration of Territories. Since 1911 responsibility for administration and development of the Australian Capital Territory (ACT) has been vested in Federal Ministers and Departments. The ACT became self-governing on 11 May 1989. The ACT House of Assembly has been accorded the forms of a legislature, but continues to perform an advisory function for the Minister for the Capital Territory.

On 1 July 1978 the Northern Territory of Australia became a self-governing Territory with expenditure responsibilities and revenue-raising powers broadly approximating those of a State.

DEFENCE

The Minister for Defence has responsibility under legislation for the control and administration of the Defence Force. The Chief of Defence Force Staff is vested with command of the Defence Force. He is the principal military adviser to the Minister. The Chief of Naval Staff, the Chief of the General Staff and the Chief of the Air Staff command the Navy, Army and Air Force respectively. They have delegated authority from the Chief of Defence Force Staff and the Secretary to administer matters relating to their particular Service.

1999 defence expenditure was US\$7,775m., amounting to US\$407 per capita and representing 1.9% of GDP (the lowest proportion since 1939).

Army. The strength of the Army was 25,200, including 2,600 women, in 1999. This total includes a special forces regiment and the Army Aviation Corps. The effective strength of the Army Reserve was 23,330.

Women have been eligible for combat duties since 1993.

Navy. The all-volunteer Navy in 1999 was 14,200 including 990 in the Fleet Air Arm and 2,100 women. The Fleet included 4 diesel-powered submarines, 3 destroyers and 8 frigates.

The fleet main base is at Sydney, with subsidiary bases at Cockburn Sound (Western Australia), Cairns and Darwin.

Air Force. The Royal Australian Air Force (RAAF) operated 126 combat aircraft including 36 F-111 and 69 F-18 'Hornets' in 1999. Personnel numbered 15,800, including 2,700 women. There is also an Australian Air Force Reserve, 2,060-strong.

INTERNATIONAL RELATIONS

Australia is a member of the UN, WTO, the Commonwealth, OECD, Asian Development Bank, Colombo Plan, APEC, IOM, the Pacific Islands Forum, the Pacific Community and the Antarctic Treaty.

ECONOMY

In 1999–2000 service industries accounted for around 64% of GDP and goods-producing industries around 19%.

According to the anti-corruption organization *Transparency International*, Australia ranked 13th in the world in 2000 in a survey of the countries with the least corruption in business and government. It received 8.3 out of 10 in the annual index.

Policy. Since 1942 the Federal government alone has levied taxes on incomes. In return for vacating this field of taxation, the State governments are reimbursed by grants from the Federal government out of revenue received. Payments to the States represent about one-third of Federal government outlays, and in turn the payments State governments receive from the Federal government account for nearly half of their revenues.

The Financial Agreement of 1927 established the Australian Loan Council which represents the Federal and six State governments, and co-ordinates domestic and overseas borrowings by these governments, including annual borrowing programmes. The Federal government acts as a central borrowing agency in raising loans to finance the major part of those programmes. The Loan Council in 1984 agreed upon arrangements for the co-ordination of borrowings by semi-government and local authorities, and government-owned companies.

Reforms were initiated at a special Premiers' Conference in Oct. 1990 to form a partnership between the Commonwealth, States, Territories and local government, with a view to improving national efficiency and international competitiveness, and enhancing delivery and quality of government services. In July 1991 the premiers agreed a programme of inter-state standardization and integration in such areas as the railway system, electricity grid, product control and professional qualifications.

AUSTRALIA

Performance. Real domestic demand increased by 5.2% in year average terms in 1999–2000, the 9th consecutive year of growth, and 5.6% in the calendar year 1999. GDP was \$A631,810m. for 1999–2000, nominal terms (\$A595,417m. in 1998–99); and GDP growth was 4.3% in 1999–2000 (real terms), the 9th consecutive year of real GDP growth, averaging 3.9% per annum since 1991–92 (4.7% growth in the calendar year 1999, real terms). During much of the 1990s real GDP expanded at an annual rate of 3.5% while inflation was brought down and kept low; this makes the Australian economy's performance one of the best in the OECD area.

Budget. In 1929, under a financial agreement between the Federal government and States, approved by a referendum, the Federal government took over all State debts existing on 30 June 1927 and agreed to pay \$A15.17m. a year for 58 years towards the interest charges thereon, and to make substantial contributions towards a sinking fund on State debt. The Sinking Fund arrangements were revised under an amendment to the agreement in 1976.

In Aug. 1998 the Commonwealth government introduced a tax reform package which came into effect in July 2000. The package included: the introduction of a Goods and Services Tax (GST) at a 10% rate, with all the revenues going to states provided that they agree to abolish a range of other indirect taxes; the abolition of Financial Assistance Grants to states; the abolition of wholesale sales tax (which is levied by the Commonwealth government); cuts in personal income tax; and increases in social security benefits, especially for families. In all, the fiscal balance is expected to be in surplus by \$A5.4bn. (0.8% of GDP) in the financial year 2000–01. In cash terms an underlying surplus of \$A2.8bn. (0.4% of GDP) is expected in 2000–01. The economy is predicted to continue to grow by 3.75% in 2000–01, following growth of more than 4.0% over the last 3 years.

Currency. On 14 Feb. 1966 Australia adopted a system of decimal currency. The currency unit, the Australian dollar (AUD), is divided into 100 *cents*.

Foreign exchange reserves were US\$15,627m. in Feb. 1998 and gold reserves 2.56m. troy oz in Jan. 2000. Total money supply was \$A105,781m. in Feb. 1998.

Inflation during the late 1990s remained under the Reserve Bank's 2%–3% headline inflation target, increasing by 1.2% in 1998–99, or 1.5% in the 1999 calendar year. However, for 2000 it was forecast to rise to 4.6%.

Banking and Finance. From 1 July 1998 a new financial regulatory framework based on 3 agencies was introduced by the Australian government, following recommendations by the Financial System Inquiry. The framework included changes in the role of the Reserve Bank of Australia and creation of the Australian Prudential Regulation Authority (APRA) with responsibility for the supervision of deposit-taking institutions (comprising banks, building societies, credit unions and friendly societies), life and general insurance companies and superannuation funds. It further involved replacement of the Australian Securities Commission with the Australian Securities and Investments Commission (ASIC) with responsibility for the regulation of financial services and Australia's 1.2m. companies.

The banking system comprises:

(a) The Reserve Bank of Australia is the central bank. It has 2 broad responsibilities—monetary policy and the maintenance of financial stability, including stability of the payments system. It also provides selected banking and registry services to Federal and State Government customers and some overseas official institutions. A wholly owned subsidiary of the Reserve Bank (Note Printing Australia Limited) manufactures Australia's currency notes (all polymer) and other security products. The *Governor* is a statutory appointee (present incumbent, Ian Macfarlane, appointed 1996 for a 7-year term). Within the Reserve Bank there are 2 Boards: the Reserve Bank Board and the Payments System Board; the *Governor* is the Chairman of each.

At 30 June 2000 total assets of the Reserve Bank of Australia were \$A55,694m., including gold, \$A1,233m., foreign exchange, \$A30,228m. and domestic government securities, \$A22,935m. Main liability items were capital and reserves, \$A8,966m.; Australian notes on issue, \$A25,434m.; and deposits, \$A15,486m. Responsibilities derive principally from the Reserve Bank Act 1959, the Payment Systems (Regulation) Act 1998 and the Payment Systems and Netting Act 1998.

(b) 4 major banks: (i) The Commonwealth Bank of Australia; (ii) the Australia and New Zealand Banking Group Ltd; (iii) Westpac Banking Corporation; (iv) National Australia Bank.

(c) The Commonwealth Bank of Australia has 2 subsidiaries—Colonial State Bank and Commonwealth Development Bank. There are 8 other Australian-owned banks—Adelaide Bank Ltd, AMP Bank Ltd, Bank of Queensland Ltd, Bendigo Bank Ltd, Elders Rural Bank (50% owned by Bendigo Bank Ltd), Macquarie Bank Ltd, St George Bank Ltd, and Suncorp-Metway Ltd.

(d) There are 12 banks incorporated in Australia which are owned by foreign banks and 27 branches of foreign banks (these figures include 4 foreign banks which have both a subsidiary and a branch presence in Australia).

(e) At 30 June 2000 there were 51 authorized banks with Australian banking assets of \$A730bn., with 5,000 branches and similar number of agencies, almost 11,000 ATMs and 320,000 EFTPOS terminals. As at 30 June 2000 there were 19 building societies with assets of \$A13bn. and 215 credit unions with assets of \$A22bn.

There is an Australian Stock Exchange (ASX) in Sydney.

Weights and Measures. The metric system is in use.

Environment. According to the *World Bank Atlas* Australia's carbon dioxide emissions were the equivalent of 16.7 tonnes per capita in 1996.

Fisheries. The Australian Fishing Zone covers an area 16% larger than the Australian land mass and is the third largest fishing zone in the world, but fish production is insignificant by world standards owing to low productivity of the oceans. The major commercially exploited species are prawns, rock lobster, abalone, tuna, other fin fish, scallops, oysters and pearls. Total fisheries production in 1998-99 came to 228,819 tonnes with a gross value of \$A2.04bn. In the same year

aquaculture production was 32,080 tonnes with a gross value of \$A602m., which represented 30% of the total value of fisheries production.

The majority of wage and salary earners have had their minimum wages and conditions of work prescribed in awards by the Industrial Relations Commission. In Oct. 1991 the Commission decided to allow direct employer-employee wage bargaining, provided agreements reached are endorsed by the Commission. In some States, some conditions of work (e.g., weekly hours of work, leave) are set down in State legislation. Average weekly wage, May 1999, \$A611.10 (men, \$A733.00; women, \$A483.00). Average working week, 1998-99: 35.6 hours. 4 weeks annual leave is standard. In 1999 part-time work accounted for over 26% of all employment in Australia. Trade Unions. At 31 Aug. 1999, 1,878,200 full-time employees (26.0% of total full-time employees; 23% females) were members of a trade union. There were 62 unions with fewer than 1,000 members and 15 unions with 50,000 or more members. Many of the larger trade unions are affiliated with central labour organizations, the oldest and by far the largest being the Australian Council of Trade Unions formed in 1927. In July 1992 the Industrial Relations Legislation Amendment Act freed the way for employers and employees to negotiate enterprise-based awards and agreements.

INTERNATIONAL TRADE

In 1990 Australia and New Zealand completed a Closer Economic Relations agreement (initiated in 1983) which establishes free trade in goods. Net foreign debt was \$A268.1bn. as at 30 June 2000 (an increase of 16% on the previous year). In 1998 the effect of the Asian meltdown on exports resulted increasingly in shipments of commodities and exports of manufactures and some services being redirected to other destinations, notably the USA and Europe. Merchandise exports fell by 2% in 1998–99 while imports rose by 8%. Australia is the world's largest exporter of black coal, bauxite, lead, diamonds and mineral sands.

Roads. As at June 1999 controlled access roads (motorways excluding tolled roads) totalled 1,563 km; national highways, 18,620 km; rural arterial, 94,854 km; urban arterial, 12,398 km; rural local, 600,725 km; urban local, 84,845 km.

In Oct. 1999 there were 9,686,269 passenger vehicles, 33,622 campervans, 1,721,200 light commercial vehicles, 473,413 trucks, 65,891 buses and 333,782 motorcycles. New registrations, 1999–2000, included 596,357 passenger vehicles, 110,176 light commercial vehicles, 17,866 trucks, 4,026 buses and 32,579 motorcycles.

In 2000 an estimated 1,817 persons were killed in road accidents (1,759 in 1999).

Rail. Privatization of government railways began in Victoria in 1994 with West Coast Railway and Hoys Transport being granted 7-year franchises. A 3-year extension was granted to West Coast Railway in 2001. Specialised Container Transport (SCT) won the first private rail freight franchise in 1995 followed by TNT (now Toll Holdings). Australian National Railway Commission was sold by the Commonwealth Government in Nov. 1997 and in Feb. 1999 V/Line Freight Corporation, owned by the Victorian Government, was sold to Freight Australia. Rail passenger services in Victoria were franchised in mid-1999. The Australian Railroad Group acquired Western Australia's government rail freight operation, Westrail, in November 2000. Agreement has been reached by the Federal, New South Wales and Victorian Governments that the sale of freight operator National Rail Corporation (NRC) should go ahead and the New South Wales Government is proceeding with the privatization of FreightCorp. These two sales leave QR as the only government-owned rail freight operator in Australia.

The total length of track in 1998–99 was 4,010 km (broad gauge, 1,600 mm); 16,380 km (standard, 1,435 mm); 15,120 km (narrow, 1,067 mm); 4,150 km (610 mm gauge); and 265 km (dual gauge). In the financial year 1998–99 a total of 492m. tonnes of freight were carried with a total revenue of \$A3bn.; passengers carried totalled 590m. urban (including train and tram); 10m. non-urban.

Under various Commonwealth–State standardization agreements, all the State capitals are now linked by standard gauge track. The 'AustralAsia Rail Project' involves the construction of 1,410 km standard gauge railway between Alice Springs and Darwin.

There are also private industrial and tourist railways, and tramways in Adelaide, Melbourne and Sydney.

Civil Aviation. Qantas Airways is Australia's international airline. In 1992 Qantas merged with Australian Airlines, and in 1993, 25% of the company was purchased

by British Airways. The remainder is government-owned. Ansett Australia is the second largest airline after Qantas. At 31 Dec. 1999, 59 international airlines operated regular scheduled passenger air services to and from Australia. There are 13 international airports, the main ones being Adelaide, Brisbane, Cairns, Darwin, Melbourne, Perth and Sydney. In 1998 services were also provided by Aerolíneas Argentinas, Air Calédonie International, Air China, Air Facilities, Air Mauritius, Air Nauru, Air New Zealand, Air Niugini, Air Pacific, Air Vanuatu, Air Zimbabwe, Airlines of South Australia, Airnorth Regional, Alitalia, All Nippon Airways, American Airlines, AOM French Airlines, Asiana Airlines, British Airways, Canadian Airlines International, Cathay Pacific Airways, China Eastern Airlines, Continental Airlines, Continental Micronesia, Country Connection Airlines, Eastland Air, Egyptair, Emirates, EVA Airways, Flight West Airlines, Garuda Indonesia, Gulf Air, Hazelton Airlines, Impulse Airlines, International Aviation, JAL, Kendell Airlines, KLM, Korean Air, Lan Chile, Lauda Air, Lufthansa, Macair, Malaysia Airlines, Mandarin Airlines, Merpati Nusantara Airlines, O'Connor-Mount Gambier Airline, Olympic Airways, Par Avion, Polynesian, Royal Brunei Airlines, Royal Tongan Airlines, Rottneest Airlines, Shepparton Airlines, Singapore Airlines, Skywest Airlines, Solomon Airlines, South African Airways, Swissair, Tamair, Thai Airways International, Transtate Airlines, United Airlines, United Parcel Service, Vietnam Airlines, Virgin Atlantic, Western Airlines, Whyalla Airlines and Yanda Airlines.

Sydney (Kingsford Smith) handled most traffic in Australia (49.3% of total passengers, 51.3% of total freight) in 1999, followed by Melbourne International (17.7%, 27.2%) and Brisbane (15.9%, 10.9%).

Internal airlines (domestic and regional) carried 31,356,096 passengers in 1999–2000 and (1997–98 estimate) 195,892 tonnes of cargo, including freight and mail. Domestic airlines were deregulated in Oct. 1990.

At 31 March 1999 there were 278 licensed aerodromes in Australia and its external territories.

Shipping. The chief ports are Sydney, Botany Bay, Newcastle, Port Kembla, Melbourne, Geelong, Adelaide, Hastings, Gladstone, Brisbane, Hobart, Fremantle, Dampier, Pt Hedland, Hay Point, Pt Walcott and Townsville. At 30 June 1999 the trading fleet comprised 55 vessels totalling 2,492,250 DWT, 1,853,331 GRT.

Coastal cargo handled at Australian ports in 1998–99 (in gross weight tonnes): loaded, 48.4m.; unloaded, 48.1m. International trade loaded, 432m. tonnes; unloaded, 56m. tonnes. Calls to ports made by commercial ships in 1999–2000 totalled 24,600 with 230 made by passenger vessels.

Telecommunications. Australian telecommunications are in the latter stages of an evolution from a state-owned monopoly. In 1989 the domestic market became a regulated monopoly with Telstra as the government-owned company providing all services and, in 1991, a duopoly (with Optus) in fixed network services. In 1993 Vodafone joined Telstra and Optus in the provision of mobile phone services. A new regulatory regime was created by the introduction of the Telecommunications Act 1997 and both markets were opened to wholesale and retail competition. There is no limit to the number of carriers that can hold licences under the new arrangements and by Dec. 2000 more than 60 licences had been issued. The Australian Communications Authority (ACA), formed by a merger of the Spectrum Management Authority and AUSTEL, and the Australian Competition and Consumer Commission (ACCC) are the primary regulators with responsibility for the industry's development.

Telephone main lines numbered 9,856,900 in 1999 (521.2 per 1,000 inhabitants). In March 2001 there were 9.87m. mobile phone subscribers; the largest supplier was Optus with 3.59m. subscribers. In Nov. 2000 there were 8.42m. Internet users. In 1999, 8,900,000 PCs were in use, or 471 per 1,000 persons.

Three telecommunications satellites are in orbit covering the entire continent.

Postal Services. Postal services are operated by Australia Post, operating under the Australian Postal Corporation Act 1989 as a government business enterprise. Revenue was \$A3,448.7m. in 1998–99, expenditure \$A3,074.4m. There were 4,425 post offices and other agencies in 1998–99, and 4,520.8m. postal items were handled.

SOCIAL INSTITUTIONS

Justice. The judicial power of the Commonwealth of Australia is vested in the High Court of Australia (the Federal Supreme Court), in the Federal courts created by the Federal Parliament (the Federal Court of Australia and the Family Court of Australia) and in the State courts invested by Parliament with Federal jurisdiction.

High Court. The High Court consists of a Chief Justice and 6 other Justices, appointed by the Governor-General in Council. The Constitution confers on the High Court original jurisdiction, *inter alia*, in all matters arising under treaties or affecting consuls or other foreign representatives, matters between the States of the Commonwealth, matters to which the Commonwealth is a party and matters between residents of different States. Federal Parliament may make laws conferring original jurisdiction on the High Court, *inter alia*, in matters arising under the Constitution or under any laws made by the Parliament. It has in fact conferred jurisdiction on the High Court in matters arising under the Constitution and in matters arising under certain laws made by Parliament.

The High Court may hear and determine appeals from its own Justices exercising original jurisdiction, from any other Federal Court, from a Court exercising Federal jurisdiction and from the Supreme Courts of the States. It also has jurisdiction to hear and determine appeals from the Supreme Courts of the Territories. The right of appeal from the High Court to the Privy Council in London was abolished in 1986.

Other Federal Courts. Since 1924, 4 other Federal courts have been created to exercise special Federal jurisdiction, i.e. the Federal Court of Australia, the Family Court of Australia, the Australian Industrial Court and the Federal Court of Bankruptcy. The Federal Court of Australia was created by the Federal Court of Australia Act 1976 and began to exercise jurisdiction on 1 Feb. 1977. It exercises such original jurisdiction as is invested in it by laws made by the Federal Parliament including jurisdiction formerly exercised by the Australian Industrial Court and the Federal Court of Bankruptcy, and in some matters previously invested in either the High Court or State and Territory Supreme Courts. The Federal Court also acts as a court of appeal from State and Territory courts in relation to Federal matters. Appeal from the Federal Court to the High Court will be by way of special leave only. The State Supreme Courts have also been invested with Federal jurisdiction in bankruptcy.

State Courts. The general Federal jurisdiction of the State courts extends, subject to certain restrictions and exceptions, to all matters in which the High Court has jurisdiction or in which jurisdiction may be conferred upon it.

Industrial Tribunals. The chief federal industrial tribunal is the Australian Conciliation and Arbitration Commission, constituted by presidential members (with the status of judges) and commissioners. The Commission's functions include settling industrial disputes, making awards, determining the standard hours of work and wage fixation. Questions of law, the judicial interpretation of awards and imposition of penalties in relation to industrial matters are dealt with by the Industrial Division of the Federal Court.

In June 1999 the daily prison population averaged 20,879.

Total Australian Federal Police personnel as at 30 June 2000 was 2,890, including 1,980 sworn police members and 910 staff members.

Religion. Under the Constitution the Commonwealth cannot make any law to establish any religion, to impose any religious observance or to prohibit the free exercise of any religion. The following percentages refer to those religions with the largest number of adherents at the census of 1996. Answering the census question on religious adherence was not obligatory, however.

Christian, 71% of population: Catholic, 27.0%; Anglican, 22.0%; Uniting Church, 7.5%; Presbyterian and Reformed, 3.8%; Orthodox, 2.8%; Baptist, 1.7%; Lutheran, 1.4%; Pentecostal, 1.0%; Churches of Christ, 0.4%; Jehovah's Witnesses, 0.5%; Salvation Army, 0.4%; other Christian, 2.4%. Religions other than Christian 3.4%; no religion, 16.6%; no statement, 9.0%.

The Anglican Synod voted for the ordination of 10 women in Nov. 1992.

Education. The governments of the Australian States and Territories have the major responsibility for education, including the administration and substantial funding of primary, secondary, and technical and further education. In most States, a single Education Department is responsible for these three levels but in Queensland, Western Australia and the Northern Territory, separate departments deal with school-based and technical and further education issues.

The Australian government provides supplementary finance to the States for government schools, provides the bulk of the public funding that goes to non-government schools and is responsible for direct funding of the higher education sector. It has special responsibilities for student assistance, education programmes for indigenous people and children from non-English-speaking backgrounds, and for international relations in education.

The Australian Constitution empowers the Federal government to make grants to the States and Territories and to place conditions upon such grants. The Commonwealth has worked with the States and Territories to put in place a new set of National Goals for Schooling in the Twenty-First Century, and to develop national performance measures in key areas of schooling including literacy, numeracy, science and information technology.

School attendance is compulsory between the ages of 6 and 15 years (16 years in Tasmania), at either a government school or a recognized non-government educational institution. Many children attend pre-schools for a year before entering school (usually in sessions of 2–3 hours, for 2–5 days per week). Government schools are usually co-educational and comprehensive. Non-government schools have been traditionally single-sex, particularly in secondary schools, but there is a trend towards co-education. Tuition is free at government schools, but fees are normally charged at non-government schools.

In Aug. 1999 there were 6,970 government (and 2,620 non-government) primary and secondary schools with 150,482 (65,242) full-time teachers and 2,247,674 (978,976) full-time pupils.

Vocational education and training (VET) in Australia is essentially a partnership between the Commonwealth, the States and Territories and industry. The Commonwealth is involved in VET through an agreed set of national arrangements for sharing responsibility with the States and Territories. The current mechanism for giving effect to this is the Australian National Training Authority (ANTA) Agreement, which sets out the roles and responsibilities for VET: they provide two-thirds of the funding and have all of the regulatory responsibility for the sector. They are also the 'owners' of the network of public Technical and Further Education (TAFE) institutes. In 1999 publicly-funded VET programmes were provided by some 85 TAFEs and other government institutions, 1,075 community education providers, and by some 2,465 other providers including registered training organizations. In 1999 there were 1.65m. people participating in VET.

In 2000, 45 higher education institutions received Commonwealth Government funding. Most of these institutions operate under State and Territory legislation although several operate under Commonwealth legislation. There is also a completely privately-funded university and numerous private higher education providers in a range of specialist fields. Institutions established by appropriate legislation are autonomous and have the authority to accredit their own programmes and are primarily responsible for their own quality assurance. There were 695,445 university students in 2000, of which 95,607 were overseas students. The total revenue of the higher education system was estimated at around \$A9bn. in 2000. Fields of university study with the largest number of award course students in 1999 were administration, business, economics and law (26%); arts, humanities and social sciences (24%); and science (16%).

The higher education sector contributes a significant proportion of the research and research training undertaken in Australia. The Australian Research Council provides advice on research issues and administers the allocation of some research grants to higher education sector researchers and institutions.

The Commonwealth Government offers a number of programmes which provide financial assistance to students. The Youth Allowance is available for eligible full-time students aged 16 to 24, depending on the circumstances of study. Austudy is available to eligible full-time students aged over 25. Abstudy provides financial assistance for eligible Aboriginal and Torres Strait Islanders who undertake full-time

or part-time study. AIC—the Assistance for Isolated Children scheme—provides special support to families whose children are isolated from schooling or are handicapped.

Most Australian students contribute to the cost of their higher education through the Higher Education Contribution Scheme (HECS). Most students can choose to make an upfront contribution (with a 25% discount) or to defer all or part of their payment until their income reaches a certain level when they must begin repaying their contribution through the taxation system. Overseas students generally pay full tuition fees. Universities are also able to offer full-fee places in postgraduate courses and to a limited number of domestic undergraduate students. In 2000 Australia hosted approximately 150,000 international students, mostly from Asia, who contributed around \$A3.7bn. to the local economy in fees and expenditure on goods and services.

National bodies with a co-ordinating, planning or funding role include: the Australian National Training Authority (ANTA); the ANTA Ministerial Council, comprising the Federal and State and Territory Ministers for training; the Conference of Directors-General of Education, the Australian Council for Educational Research and advisory bodies, the National Aboriginal Education Committee, Australian Research Council—Department of Education, Training and Youth Affairs; Australian Education International; Australian Qualifications Framework Advisory Board; Ministerial Council on Education, Employment, Training and Youth Affairs; and National Office of Overseas Skills Recognition and Open Learning Australia.

Total operating expenses of Australian Government on education in 1998–99 were \$A31,546m. (5.3% of GDP). Private expenditure on education amounted to \$A9,019m. (1.5% of GDP). The figures include government grants to the private sector which are also included in the operating expenses of Australian governments.

The adult literacy rate in 1999 was at least 99%.

Health. In 1998–99 there were an estimated 45,700 physicians, 7,400 dentists and 150,800 registered nurses. In 1998–99 there were 755 public hospitals, including 29 psychiatric hospitals and 502 private hospitals, including 26 psychiatric hospitals; there were an average 2.9 public hospital beds for acute care per 1,000 population (down from 3.3 in 1994–95). In 1999–2000 there were 151,200 registered nurses, 38,000 general medical practitioners, 10,700 physiotherapists and 6,800 dentists. The Royal Flying Doctor Service serves remote areas. Estimated total government expenditure on health services (public and private sectors) in 1998–99 was \$A50.3bn. (\$A47.0bn in 1997–98), representing 8.5% of GDP.

At 31 Dec. 1999 there were estimated to be 20,122 HIV cases, 8,362 AIDS diagnoses and 5,850 deaths following AIDS.

Welfare. All Commonwealth government social security pensions, benefits and allowances are financed from the Commonwealth government's general revenue. In addition, assistance is provided for welfare services.

Age Pensions—age pensions are payable to men 65 years of age or more and women 61 years and 6 months of age or more who have lived in Australia for a specified period and, unless permanently blind, also satisfy an income and assets test.

In the year ending 30 June 1999, 1,715,792 age pensioners received a total of \$A13,569.1m.

Disability Support Pension (DSP)—payable to persons aged 16 years or over with a physical, intellectual or psychiatric impairment of at least 20%, assessed as being unable to work for at least 30 hours a week. DSP for those of 21 years or over is paid at the same rate as Age Pensions and is subject to the same means test except for those who are permanently blind.

In the year ending 30 June 1999, 577,682 disability support pensioners received a total of \$A4,920.2m.

Carer Payment—payable to a person without other means of support who is providing constant care and attention at home for a severely disabled person aged 16 or over, or a person who is frail aged, either permanently or for an extended period. Since 1 July 1998 Carer Payment has been extended to carers of children under 16 years of age with profound disabilities. The rate of Carer Payment is the same as for other pensions.

In the year ending 30 June 1999, 40,070 carers received a total of \$A307.5m.

Sickness Allowance—paid to those over school-leaving age but below Age Pension age who are unable to work or continue full-time study temporarily owing to illness or injury. Eligibility rests on the person having a job or study course to which they can return.

In the year ending 30 June 1999 a total of \$A93.0m. was paid to beneficiaries.

Child Disability Allowance—payable to parents or guardians of a child under 16 years of age or full-time student aged 16–21 who lives in the family home and needs constant care and attention. Since 1 July 1998 there are 2 levels of assistance according to the level of severity of disability. The allowance is free of an income and assets test.

In the year ending 30 June 1999 a total of \$A244.9m. was paid to beneficiaries.

Family Allowance—paid to assist families with children under 16 years of age or dependent full-time students aged 16–18 years, subject to an income and assets test.

In the year ending 30 June 1999, 1,735,762 families comprising 3,337,467 children received a total of \$A6,391.5m.

Family Tax Payment—provides additional assistance to families with children, mainly through taxation although a number of low-income families receive cash payments.

Parenting Payment (Single) and (Partnered)—is paid to assist those who care for children under 16, with income and assets under certain amounts, and have been an Australian resident for at least 2 years or a refugee or have become a lone parent while an Australian resident. Since March 1998, 2 payments have replaced the Sole Parent Pension and Parenting Allowance. Parenting Payment (Single) is paid to lone parents under pension rates and conditions; Parenting Payment (Partnered) is divided into Basic Parenting Payment and Additional Parenting Payment. The former payment is free of an assets test and only the income of the primary carer is tested. The latter payment, which is paid under allowance rates, is subject to taxation and an assets and income test on the income of both the claimant and partner.

In the year ending 30 June 1999, 384,942 Parenting Payment (Single) beneficiaries received a total of \$A2,136.0m. and 625,478 Parenting Payment (Partnered) beneficiaries received a total of \$A3,267.0m.

Maternity Allowance—was introduced from 1 Feb. 1996 to assist families with the costs associated with a new baby (including forgone income). It is paid for each new child to families meeting the Family Payment residence, income and assets criteria. Since 1 Jan. 1998, Maternity Allowance is paid in 2 stages as part of the initiative to boost immunization rates. A lump sum of \$A750 is paid within 13 weeks of the birth and an additional \$A200 after the child reaches 18 months upon proof of age-specific immunization. Families are not disadvantaged in cases where children are not immunized for medical reasons, or where parents conscientiously object to immunization.

Newstart Allowance (NSA)—unemployment benefit was replaced in July 1991 by a two-payment structure under the 'Newstart Strategy': Jobsearch Allowance (JA) and Newstart Allowance (NSA). In Sept. 1996 JSA and NSA were amalgamated into a single payment called Newstart Allowance, payable to those who are unemployed. Eligibility is subject to income and assets tests and recipients must satisfy the 'activity test' whereby they are actively seeking and willing to undertake suitable paid work, including casual and part-time work. To be eligible for benefit a person must have resided in Australia for at least 12 months preceding his or her claim or intend to remain in Australia permanently; unemployment must not be as a result of industrial action by that person or by members of a union to which that person is a member. In the year ended 30 June 1999 a total of \$A5,370.7m. was paid to NSA beneficiaries.

Youth Allowance—established on 1 July 1998, replacing 5 former schemes for young people, including the Youth Training Allowance. In the year ending 30 June 1999 a total of \$A1,843.5m. was paid.

Mature Age Allowance (MAA)—paid to older long-term unemployed, over 60 years of age but less than Age Pension age. MAA is non-activity tested. In the year ended June 1999 a total of \$A401.7m. was paid.

Service Pensions—are paid by the Department of Veterans' Affairs. Male veterans who have reached the age of 60 years or are permanently unemployable, and who served in a theatre of war, are eligible subject to an income and assets test. The minimum age for female veterans' eligibility is being lifted from 55 to 60 years in 6-month increments every 2 years over the period 1995–2013. The qualifying age at 1 July 1999 was 56 years. Wives of service pensioners are also eligible, provided that they do not receive a pension from the Department of Social Security. Disability pension is a compensatory payment in respect of incapacity attributable to war service. It is paid at a rate commensurate with the degree of incapacity and is free of any income test. In the year ended 30 June 1999, \$A2,680.4m. of service pensions and \$A2,067.8m. of disability and dependants' pensions were paid out; in 1999 there were 308,558 eligible veterans.

In addition to cash benefits, welfare services are provided, either directly or through State and local government authorities and voluntary agencies, for people with special needs.

Medicare—On 1 Feb. 1984 the Commonwealth government introduced a universal health scheme known as Medicare. This covers: automatic entitlement under a single public health fund to medical and optometrical benefits of 85% of the Medical Benefits Schedule fee, with a maximum patient payment for any service where the Schedule fee is charged; access without direct charge to public hospital accommodation and to inpatient and outpatient treatment by doctors appointed by the hospital; the restoration of funds for community health to approximately the same real level as 1975; a reduction in charges for private treatment in shared wards of public hospitals, and increases in the daily bed subsidy payable to private hospitals.

The Medicare programme is financed in part by a 1.5% levy on taxable incomes, with low income cut-off points, which were \$A13,550 p.a. for a single person in 1999–2000 and \$A22,865 p.a. for a family with an extra allowance of \$A2,100 for each child. A levy surcharge of 1% was introduced from 1 July 1997 for single individuals with taxable incomes in excess of \$A50,000 p.a. and couples and families with combined taxable incomes in excess of \$A100,000 who do not have private hospital cover through private health insurance.

Medicare benefits are available to all persons ordinarily resident in Australia. Visitors from the UK, New Zealand, Italy, Sweden, the Netherlands and Malta have immediate access to necessary medical treatment, as do all visitors staying more than 6 months.

CULTURE

Broadcasting. Broadcasting is regulated by the Australian Broadcasting Authority (ABA), established under the Broadcasting Services Act 1992. Foreign ownership of commercial radio and TV companies is restricted to 20%. The national broadcasting service is provided by the Australian Broadcasting Corporation (ABC) (established 1932), an independent statutory corporation receiving 82% of its funding from the Federal Government and the remainder from independent sources, and the Special Broadcasting Service (established 1978). The latter's function is to provide radio and TV services in more than 100 languages, reflecting a multicultural society. The transmission system is PAL. There are also commercial radio and TV services operated by companies under licence, subscription TV services, community radio services operated on a non-profit basis and a parliamentary radio service to state capitals, Canberra and Newcastle. The international service Radio Australia broadcasts via short-wave to Papua New Guinea and the Pacific and also via satellite to the Asia-Pacific regions in English and other languages. As at 30 June 2000 the ABA had licensed 38 commercial TV services, 250 commercial radio services and 278 community radio services. The ABA allocated licences for 6 new commercial radio and 35 community radio services in 1999–2000.

AUSTRALIAN TERRITORIES AND STATES

AUSTRALIAN CAPITAL TERRITORY

KEY HISTORICAL EVENTS

The area, now the Australian Capital Territory (ACT), was explored in 1820 by Charles Throsby who named it Limestone Plains. Settlement commenced in 1824. Until its selection as the seat of government, it was a quiet pastoral and agricultural community with a few large holdings and a sprinkling of smaller settlers.

In 1901 the Commonwealth constitution stipulated that a land tract of at least 260 sq. km in area and not less than 160 km from Sydney be set aside from New South Wales and reserved as a capital district. The Canberra site was adopted by the Seat of Government Act 1908. The present site, together with an area for a port at Jervis Bay, was surrendered by New South Wales and accepted by the Commonwealth in 1909. By subsequent proclamation the Territory became vested in the Commonwealth from 1 Jan. 1911. In 1911 an international competition held for the city plan was won by W. Burley Griffin, of Chicago but construction was delayed by the First World War. It was not until 1927 that Canberra became the seat of government. Located on the Molonglo River surrounding an artificial lake, it was built as a compromise capital in order to stop squabbling between Melbourne and Sydney following the 1901 Federation of Australian States. Canberra's population has risen since its formal inauguration in 1927 due to the continual expansion of government offices and the establishment of the National University.

In 1989 self-government was proclaimed and the first ACT assembly was elected in May of that year.

TERRITORY AND POPULATION

The total area is 2,400 sq. km, of which 60% is hilly or mountainous. Timbered mountains are located in the south and west, and plains and hill country in the north. The ACT lies within the upper Murrumbidgee River catchment, in the Murray-Darling Basin. The Murrumbidgee flows throughout the Territory from the south, and its tributary, the Molonglo, from the east. The Molonglo was dammed in 1964 to form Lake Burley Griffin. As at 30 June 2000 the resident population was 310,839. The growth rate for 1999–2000 was 0.5%, compared with a growth rate of 0.7% in the previous year. Population (1996 census), 299,243.

SOCIAL STATISTICS

1998: births, 3,982; deaths, 1,272; marriages, 1,692; divorces, 1,521. Infant mortality (per 1,000 live births), 6.0.

CLIMATE

ACT has a continental climate, characterized by a marked variation in temperature between seasons, with warm to hot summers and cold winters.

CONSTITUTION AND GOVERNMENT

The ACT became self-governing on 11 May 1989. It is represented by 2 members in the Commonwealth House of Representatives and 2 senators.

The parliament of the ACT, the *Legislative Assembly*, consists of 17 members elected for a 3-year term. Its responsibilities are at State and Local government level. The Legislative Assembly elects a Chief Minister and a 4-member cabinet.

RECENT ELECTIONS

At the elections of 21 Feb. 1998 the Liberal Party won 7 seats, Labor 6, Greens 1 and ind. 3. One Liberal member subsequently resigned from the Liberals to become an independent member. The Liberals formed a coalition government with the minority parties.

NORTHERN TERRITORY

KEY HISTORICAL EVENTS

The Northern Territory, after forming part of New South Wales, was annexed on 6 July 1863 to South Australia and in 1901 entered the Commonwealth as a corporate part of South Australia. The Commonwealth Constitution Act of 1900 having made provision for the surrender to the Commonwealth of any territory by any state, an agreement was entered into on 7 Dec. 1907 for the transfer of the Northern Territory to the Commonwealth. It formally passed under the control of the Commonwealth government on 1 Jan. 1911. On 1 Feb. 1927 the Northern Territory was divided for administrative purposes into two territories but in 1931 it was again administered as a single territory under the control of an Administrator in Darwin. The Legislative Council for the Northern Territory, constituted in 1947, was reconstituted in 1959. In that year, citizenship rights were granted to Aboriginal people of 'full descent'. On 1 July 1978 self-government was granted to the Northern Territory.

TERRITORY AND POPULATION

The Northern Territory is bounded by the 26th parallel of S. lat. and 129° and 138° E. long. Its total area is 1,346,200 sq. km and includes adjacent islands. It has 5,100 km of mainland coastline and 2,100 km of coast around the islands. The greater part of the interior consists of a tableland rising gradually from the coast to a height of about 700 metres. On this tableland there are large areas of excellent pasturage. The southern part of the Territory is generally sandy and has a small rainfall, but water may be obtained by means of sub-artesian bores.

The estimated population of the Territory at 30 June 2000 was 192,724 (annual growth rate, 1.4%). The 1996 census was 195,101. The capital, seat of government and principal port is Darwin, on the north coast; estimated population 68,407 at 30 June 1999. Other main centres include Katherine (9,925), 330 km south of Darwin; Alice Springs (25,536), in Central Australia; Tennant Creek (3,934), a rich mining centre 500 km north of Alice Springs; Nhulunbuy (3,649), a bauxite mining centre in the Gove Peninsula Province in eastern Arnhem Land; and Jabiru, a model town built to serve the rich Uranium Province in eastern Arnhem Land. Palmerston is a Darwin satellite town and Yulara is a resort village serving Uluru National Park and Ayers Rock. There also are a number of large self-contained Aboriginal communities. People identifying themselves as Aboriginal numbered 44,486 and Torres Strait Islanders 714 at the 1996 census.

SOCIAL STATISTICS

1999: births, 3,576; deaths, 832; marriages, 885; divorces, 409. Infant mortality per 1,000 live births (1996), 11.5. Life expectancy, 1996: 69.2 years for males, 75.0 for females.

CLIMATE

See AUSTRALIA: Climate.

The highest temperature ever recorded in the NT was 118.9°F (48.3°C) at Finke in 1960, while the lowest recorded temperature was 18.5°F (-7.5°C) at Alice Springs in 1976.

CONSTITUTION AND GOVERNMENT

The Northern Territory (Self-Government) Act 1978 established the Northern Territory as a body politic as from 1 July 1978, with Ministers having control over and responsibility for Territory finances and the administration of the functions of government as specified by the Federal government. Regulations have been made conferring executive authority for the bulk of administrative functions. At 31 Dec. 1979 the only important powers retained by the Commonwealth related to rights in respect of Aboriginal land, some significant National Parks and the mining of uranium and other substances prescribed in the Atomic Energy Act. Proposed laws passed by the Legislative Assembly require the assent of the Administrator. The Governor-General may disallow any law assented to by the Administrator within 6 months of the Administrator's assent.

The Northern Territory has federal representation, electing 1 member to the House of Representatives and 2 members to the Senate.

The Legislative Assembly has 25 members, directly elected for a period of 4 years. The Chief Minister, Deputy Chief Minister and Speaker are elected by, and from, the members. The *Administrator* (Dr Neil Conn) appoints Ministers on the advice of the Leader of the majority party.

ENERGY AND NATURAL RESOURCES

Electricity. The majority of electric power is supplied by the Power and Water Authority (PAWA). There is 1 other electricity generator in the Territory—NT Power Generation, with 6% of the market. At 30 June 2000 total consumption was 1,437 GWh.

Oil and Gas. With known gas reserves in excess of 22trn. cu. ft and further exploration planned, the Timor Sea is well on its way to becoming a significant gas province. Gas is currently supplied from the Palm Valley and Mereenie fields in the onshore Amadeus Basin to the Channel Island Power Station in Darwin via one of Australia's longest onshore gas pipelines. Significant oil reserves are in production or under development. Laminaria oilfield was, in 2000, Australia's most productive oilfield. Total value of oil and gas production in 1999–2000 was estimated to be \$A1,470m., the increase over previous years owing largely to the commencement of production from the Laminaria oilfield. The Territory is estimated to have produced 9,390 megalitres of oil, and 480m. cu. metres of gas, in 2000.

Water. The Power and Water Authority (PAWA) is responsible for providing water supply (also electric power and sewerage services) throughout the NT. The Aboriginal Essential Services Branch of PAWA maintains water supply to the 85 remote communities and Aboriginal outstations.

Minerals. Mining is the major contributor to the Territory's economy. In 1998–99 mining and services to mining contributed 13.8% (\$A837m.) to the total Gross State Product (GSP). Cattle production constitutes the largest farming industry with a total value for slaughter and products in 1999–2000 of \$A230.0m. In 1997 there were 8 crocodile farms; production at 2 with abattoir facilities comprised 4,595 animals slaughtered and 15,689 kg of meat sold in the period 1 Jan.–30 June 1997.

They include three major interstate links: the Stuart Highway from Darwin to the South Australian border (1,787 km), the Barkley Highway, Three Ways to the Queensland border (434 km), and the Victoria Highway, Katherine to the Western Australian border (470 km). In addition to this there were 6,573 km of gravel roads and 4,724 km of formed roads. Total roads, excluding township and municipal, 20,541 km. Registered motor vehicles at 1 July 1997 numbered 113,554, including 93,894 light vehicles (less than 4.5 tonnes). There were 69 fatalities in road accidents in 1998.

Rail. In 1980 Alice Springs was linked to the Trans-continental network by a standard (1,435 mm) gauge railway to Tarcoola in South Australia (830 km). Construction began in 2000 on a new 1,410 km standard gauge line between Darwin and Alice Springs. This will create the AustralAsia Railway, linking Darwin and Adelaide and creating a new trade route between Asia and southern Australia. The \$A1.2bn. project is being funded by \$A165m. from the Northern Territory Government, \$A165m. from the Commonwealth Government, \$A150m. from the South Australian Government and \$A750m. from the Asia Pacific Transport Consortium, which will build, own and operate the railway. The project is due to be completed by the end of 2003.

Civil Aviation. Darwin and most regional centres in the Territory are serviced by daily flights to all State capitals and major cities. In 1998 there were direct international services connecting Darwin to Bali, Brunei, Kuala Lumpur, Kupang and Singapore. In 1997–98 Darwin airport handled 751,518 domestic and 176,707 international passengers, Alice Springs 780,409 domestic passengers, and Ayers Rock 386,885 domestic passengers.

The Port of Darwin is equipped to handle bulk, container and roll-on-roll-off traffic. 3,654 vessels visited the port and it handled 1,289,849 tonnes of cargo in 1996–97. There is a sheltered mooring basin which provides 85 non-tidal berths.

Bilingual programmes operate in some Aboriginal communities where traditional Aboriginal culture prevails. Secondary education extends from school years 8 to 12 (7 to 12 in Alice Springs).

The Northern Territory University (NTU) was founded in 1989 by amalgamating the existing University College of the Northern Territory and the Darwin Institute of Technology, with the technical and further education courses hitherto offered by the latter to be conducted by an Institute of Technical and Further Education within the new University. At 31 March 1997, 4,203 students were enrolled in a total of 4,294 higher education courses at the NTU. Batchelor College, which provides higher and vocational education and training for Aboriginal and Torres Straits Islanders, had 1,700 students enrolled in higher education or TAFE courses in 1997. There are 5 colleges of higher education. In 1997 there were 107 registered Vocational Education and Training (VET) course providers in the Territory, offering 101 courses. NEW SOUTH WALES

KEY HISTORICAL EVENTS

The name New South Wales was applied to the entire east coast of Australia when Capt. James Cook claimed the land for the British Crown on 23 Aug. 1770. The separate colonies of Tasmania, South Australia, Victoria and Queensland were proclaimed in the 19th century. In 1911 and 1915 the Australian Capital Territory around Canberra and Jervis Bay was ceded to the Commonwealth. New South Wales was thus gradually reduced to its present area. The first settlement was made at Port Jackson in 1788 as a penal settlement. A partially elective council was established in 1843 and responsible government in 1856.

Gold discoveries from 1851 had brought a large influx of immigrants, and responsible government was at first unstable, with 7 ministries holding office in the 5 years after 1856. The times were somewhat lawless and bitter conflict arose from loose land laws enacted in 1861. Lack of transport hampered agricultural expansion.

New South Wales federated with the other Australian states to form the Commonwealth of Australia in 1901.

TERRITORY AND POPULATION

New South Wales is situated between the 29th and 38th parallels of S. lat. and 141st and 154th meridians of E. long., and comprises 309,433 sq. miles (801,600 sq. km), inclusive of Lord Howe Island, 6 sq. miles (17 sq. km), but exclusive of the Australian Capital Territory (911 sq. miles, 2,359 sq. km) and 28 sq. miles (73 sq. km) at Jervis Bay.

Lord Howe Island, 31° 33' 4" S., 159° 4' 26" E., which is part of New South Wales, is situated about 702 km northeast of Sydney; area, 1,654 ha, of which only about 120 ha are arable; resident population, estimate (1996 census), 369. The Island, which was discovered in 1788, is of volcanic origin. Mount Gower, the highest point, reaches a height of 866 metres.

The Lord Howe Island Board manages the affairs of the Island and supervises the Kentia palm-seed industry.

At 30 June 2000 the estimated resident population was 6,463,455 (growth rate, 1·0%). Although NSW comprises only 10·4% of the total area of Australia, over 33·7% of the Australian population live there. Of the 77,300 immigrants to Australia in 1997-98, 31,700, or 41%, settled in New South Wales—nearly twice as many as any other state.

The state is divided into 12 *Statistical Divisions*. The estimated population of these (in 1,000) at 30 June 2000 was: Sydney, 4,085·6; Hunter, 576·9; Illawarra, 389·3; Mid-North Coast, 273·0; Richmond-Tweed, 211·2; South Eastern, 182·5; Northern, 173·2; Central West, 172·7; Murrumbidgee, 148·7; North Western, 116·9; Murray, 110·0; Far West, 23·6. CONSTITUTION AND GOVERNMENT

Within the State there are three levels of government: the Commonwealth government, with authority derived from a written constitution; the State government with residual powers; the local government authorities with powers based upon a State Act of Parliament, operating within incorporated areas extending over almost 90% of the State.

The Constitution of New South Wales is drawn from several diverse sources; certain Imperial statutes such as the Commonwealth of Australia Constitution Act (1900); the Australian States Constitution Act (1907); an element of inherited English law; amendments to the Commonwealth of Australia Constitution Act; the (State) Constitution Act; the Australia Acts of 1986; the Constitution (Amendment) Act 1987 and certain other State Statutes; numerous legal decisions; and a large amount of English and local convention.

The Parliament of New South Wales may legislate for the peace, welfare and good government of the State in all matters not specifically reserved to the Commonwealth government.

The State Legislature consists of the Sovereign, represented by the Governor, and two Houses of Parliament, the Legislative Council (upper house) and the Legislative Assembly (lower house).

Australian citizens aged 18 and over, and other British subjects who were enrolled prior to 26 Jan. 1984, men and women aged 18 years and over, are entitled to the franchise. Enrolment and voting is compulsory. The optional preferential method of voting is used for both houses.

The Legislative Council has 42 members elected for a term of office equivalent to 2 terms of the Legislative Assembly, with 21 members retiring at the same time as the Legislative Assembly elections. The whole State constitutes a single electoral district.

The Legislative Assembly has 93 members elected in single-seat electoral districts for a maximum period of 4 years.

In May 2000 the labour force was estimated to number 3,226,300 persons, of whom 3,044,400 were employed: 560,800 as intermediate clerical, sales and service workers; 580,700 as professionals; 276,200 as labourers and related workers; 400,400 as tradespersons and related workers; 221,600 as managers and administrators; 263,500 as intermediate production and transport workers, and 138,600 as advanced clerical and service workers. There were 181,900 unemployed (a rate of 5.6%) in May 2000 but by July the rate had fallen to 5.4%, the lowest since 1981.

Industrial tribunals are authorized to fix minimum rates of wages and other conditions of employment. Their awards may be enforced by law, as may be industrial agreements between employers and organizations of employees, when registered.

The principal State arbitration and conciliation tribunal is the Industrial Commission of New South Wales. The Commission is empowered to exercise all the powers conferred on subsidiary tribunals, and has in addition authority to determine any widely defined 'industrial matter', to adjudicate in case of illegal strikes and lockouts, to investigate union ballots when irregularities are alleged, and to hear appeals from subsidiary tribunals. Subsidiary tribunals are Conciliation Committees for various industries, each having an equal number representing employers and employees and a Conciliation Commissioner as chairman.

Trade Unions. Registration of trade unions is effected under the New South Wales Trade Union Act 1881, which follows substantially the Trade Union Acts of 1871 and 1876 of England. Registration confers a quasi-corporate existence with power to hold property, to sue and be sued, etc., and the various classes of employees covered by the union are required to be prescribed by the constitution of the union. For the purpose of bringing an industry under the review of the State industrial tribunals, or participating in proceedings relating to disputes before Commonwealth tribunals, employees and employers must be registered as industrial unions, under State or Commonwealth industrial legislation respectively. Trade union membership was held by 27% of employees in Aug. 1999.

Although by 1868 gold had been discovered, wool was the colony's principal product. The first railway line was opened in 1865. Queensland federated with the other Australian states to form the Commonwealth of Australia in 1901.

SOUTH AUSTRALIA

KEY HISTORICAL EVENTS

South Australia was surveyed by Tasman in 1644 and charted by Flinders in 1802. It was formed into a British province by letters of patent of Feb. 1836, and a partially elective legislative council was established in 1851. From 6 July 1863 the Northern Territory was placed under the jurisdiction of South Australia until the establishment of the Commonwealth of Australia in 1911.

TERRITORY AND POPULATION

The total area of South Australia is 380,070 sq. miles (984,377 sq. km). The settled part is divided into counties and hundreds. There are 49 counties proclaimed, and 536 hundreds, covering 23m. ha, of which 19m. ha are occupied. Outside this area there are extensive pastoral districts, covering 76m. ha, 49m. of which are under pastoral leases.

The estimated resident population at 30 June 2000 was 1,497,600 (annual growth rate, 0.4%); at 31 Dec. 1999 the population was 1,496,207. The 1996 census population was 1,427,936 (22,051 Aboriginal and Torres Strait Islanders).

The Adelaide Statistical Division had 1,045,854 persons at the 1996 census in 25 councils and 4 municipalities and other districts. Urban centres outside this area (with 1996 census populations) are Whyalla (23,382), Mount Gambier (22,037), Port Augusta (13,914), Port Pirie (13,633) and Port Lincoln (11,678).

The infant mortality rate in 1998 was 4.0 per 1,000 live births. Life expectancy for 1996–98 was 76.0 years for men and 81.6 years for women.

CONSTITUTION AND GOVERNMENT

The present Constitution dates from 24 Oct. 1856. It vests the legislative power in an elected Parliament, consisting of a Legislative Council and a House of Assembly. The former is composed of 22 members. Eleven members are elected at alternate elections for a term of at least 6 years and are elected on the basis of proportional representation with the State as one multi-member electorate. The qualifications of an elector are to be an Australian citizen, or a British subject who on 25 Jan. 1984 was enrolled on a Commonwealth electoral roll and/or at some time between 26 Oct. 1983 and 25 Jan. 1984 inclusive was enrolled on an electoral roll for a South Australian Assembly district or a Commonwealth electoral roll in any State. The person must be at least 18 years of age and have lived continuously in Australia for at least 6 months, in South Australia in the subdivision for which the person is enrolled for at least 1 month. By the Constitution Act Amendment Act, 1894, the franchise was extended to women, who voted for the first time at the general election of 25 April 1896. The qualifications for election as a member of both Houses requires Australian citizenship. Certain persons are ineligible for election to either House.

The House of Assembly consists of 47 members elected by a preferential system of voting for the term of a Parliament (approximately 4 years) and represent single electorates. Election of members of both Houses takes place by preferential secret ballot. Voting is compulsory for those on the Electoral Roll.

Electors enrolled (20 Dec. 2000) numbered 1,018,535.

The executive power is vested in a Governor appointed by the Crown and an Executive Council, consisting of the Governor and the Ministers of the Crown. The Governor has the power to dissolve the House of Assembly but not the Legislative Council, unless that Chamber has twice consecutively with an election intervening defeated the same or substantially the same Bill passed in the House of Assembly by an absolute majority.

CURRENT ADMINISTRATION

TASMANIA

KEY HISTORICAL EVENTS

Abel Janszoon Tasman discovered Van Diemen's Land (Tasmania) on 24 Nov. 1642. The island became a British settlement in 1803 as a dependency of New South Wales; in 1825 its connection with New South Wales was terminated; in 1851 a partially elected Legislative Council was established; and in 1856 responsible government came into operation. On 1 Jan. 1901 Tasmania was federated with the other Australian states into the Commonwealth of Australia.

TERRITORY AND POPULATION

Tasmania is a group of islands separated from the mainland by Bass Strait with an area (including islands) of 68,114 sq. km, or 6.8m. ha, of which 6,344,700 ha form the area of the main island. The population at 10 consecutive censuses (including full-blood Aborigines from 1966) was:

	<i>Population</i>		<i>Population</i>
1947	257,078	1976	402,868
1954	308,752	1981	418,957
1961	350,340	1986	436,353
1966	371,435	1991	452,837
1971	390,413	1996	459,659

TASMANIA

At the census of 6 Aug. 1996, 23,103 were born in the UK or Ireland, 11,120 in other European countries and 394,774 in Australia. The estimated resident population at 30 June 2000 was 470,400 (annual growth rate, -0.1%).

The largest cities and towns (with populations at the 1996 census) are: Hobart (189,944), Launceston (95,982), Devonport (23,814) and Burnie (19,283).

SOCIAL STATISTICS

CLIMATE

Mostly a temperate maritime climate. The sea, never more than 115 km distant, suppresses temperature extremes. The prevailing westerly airstream leads to a marked variation of cloudiness, rainfall and temperature. The result is a west coast and highlands that are cool, wet and cloudy, and an east coast and lowlands that are milder, drier and sunnier.

CONSTITUTION AND GOVERNMENT

Parliament consists of the Governor, the Legislative Council and the House of Assembly. The Council has 15 members, elected by adults with 6 months' residence. Members sit for 6 years, with either 2 or 3 retiring annually. There is no power to dissolve the Council. Vacancies are filled by by-elections. The House of Assembly has 25 members; the maximum term for the House of Assembly is 4 years. Women received the right to vote in 1903. Proportional representation was adopted in 1907, the method now being the single transferable vote in 5 member constituencies. Casual vacancies in the House of Assembly are determined by a transfer of the preference of the vacating member's ballot papers to consenting candidates who were unsuccessful at the last general election.

A Minister must have a seat in one of the two Houses.

RECENT ELECTIONS

At the elections of Aug. 1998 the Australian Labor Party won 14 seats in the House of Assembly, the Liberal Party 10 and the Tasmanian Greens 1.

CURRENT ADMINISTRATION

The Legislative Council is predominantly independent without formal party allegiance; 4 members are Labor-endorsed.

Governor: Hon. Sir Guy Stephen Montague Green, AC, KBE.

A majority Labor government was formed in Oct. 1998, which in Feb. 2001 comprised:

VICTORIA

KEY HISTORICAL EVENTS

The first permanent settlement in the area was formed at Portland Bay in 1834. Regular government was first established in 1839. Victoria, formerly a portion of New South Wales, was proclaimed a separate colony in 1851 at much the same time as gold was discovered. A new constitution giving responsible government to the colony was proclaimed on 23 Nov. 1855. This event had far-reaching effects, as the population increased from 76,162 in 1850 to 589,160 in 1864. By this time the main impetus behind the search for gold had waned and the new arrivals availed themselves of the opening of the pastoral and agricultural lands to smaller holders and the gradual development of manufacturing industries. Victoria federated with the other Australian states to form the Commonwealth of Australia in 1901.

TERRITORY AND POPULATION

The State has an area of 227,600 sq. km, and, at 30 June 2000, a resident population (estimate) of 4,765,900 (annual growth rate, 1.2%). The 1996 census population was 4,373,520. Victoria has the greatest proportion of people from non-English-speaking countries of any State or Territory, with (1996) 2.3% from Italy, 1.4% from Greece and 1.3% from Vietnam. Of the 84,150 immigrants to Australia in 1998–99, 17,290, or 20.5%, settled in Victoria—second only to New South Wales.

CONSTITUTION AND GOVERNMENT

Victoria, formerly a portion of New South Wales, was, in 1851, proclaimed a separate colony, with a partially elective Legislative Council. In 1856 responsible government was conferred, the legislative power being vested in a parliament of two Houses, the Legislative Council and the Legislative Assembly. At present the Council consists of 44 members who are elected for 2 terms of the Assembly, one-half retiring at each election. The Assembly consists of 88 members, elected for 4 years from the date of its first meeting unless sooner dissolved by the Governor. Members and electors of both Houses must be aged 18 years and Australian citizens or those British subjects previously enrolled as electors, according to the Constitution Act 1975. No property qualification is required, but judges, members of the Commonwealth Parliament, undischarged bankrupts and persons convicted of an offence which is punishable by life imprisonment, may not be members of either House. Single voting (one elector one vote) and compulsory preferential voting apply to Council and Assembly elections. Enrolment for Council and Assembly electors is compulsory. The Council may not initiate or amend money bills, but may suggest amendments in such bills other than amendments which would increase any charge. A bill shall not become law unless passed by both Houses.

In the exercise of the executive power the Governor is advised by a Cabinet of responsible Ministers. Section 50 of the Constitution Act 1975 provides that the number of Ministers shall not at any one time exceed 22, of whom not more than 6 may sit in the Legislative Council and not more than 17 may sit in the Legislative Assembly.

At the elections of 23 March 1996 the Liberal and National Party coalition was re-elected, with 34 seats in the Legislative Council and 58 in the Legislative Assembly.

In elections held on 18 Sept. 1999 the Labor Party won 46.4% of first-preference votes, the Liberal Party 41.4% and the National Party 4.8%. Turn-out was 76.3%.

In June 2000 bank deposits repayable in Australia totalled \$A99,977m.

There were 4 permanent building societies in 1997–98 (6 in 1994–95).

ENERGY AND NATURAL RESOURCES

Electricity. In the year to 30 June 1999 total production was 39,767m. kWh; total consumption stood at 36,314m. kWh, including 10,631m. kWh by residential customers.

In 1993 the State government began a major restructure of the government-owned electricity industry along competitive lines. The distribution sector was privatized in 1995, and 4 generator companies in 1997.

About 90% of power generated is supplied by 4 brown-coal fired generating stations. There are 2 other thermal stations and 3 hydro-electric stations in northeast Victoria. Victoria is also entitled to approximately 30% of the output of the Snowy Mountains hydro-electric scheme and half the output of the Hume hydro-electric station, both of which are in New South Wales.

Oil and Gas. Crude oil in commercially recoverable quantities was first discovered in 1967 in 2 large fields offshore, in East Gippsland in Bass Strait, between 65 and 80 km from land. These fields, with 10 other fields since discovered, have been assessed as containing initial recoverable reserves of more than 2,930m. bbls. of treated crude oil. Estimated reserves of crude oil (June 1997) 106.2bn. litres; gas, 130.7bn. cu. metres.

Production of crude oil (1998–99), 9,481m. litres.

Natural gas was discovered offshore in East Gippsland in 1965. The initial recoverable reserves of treated gas are 220,400m. cu. metres. Production of natural gas (1998–99) was 5.7bn. litres. Natural gas is distributed to residential and industrial consumers through a network of 23,400 km of mains.

Liquefied petroleum gas is produced after extraction of the propane and butane fractions from the untreated oil and gas.

Brown Coal. Major deposits of brown coal are located in the Central Gippsland region and comprise approximately 94% of the total resources in Victoria. In 1993 the resource was estimated to be 0.2m. megatonnes, of which about 52,000 megatonnes was economically recoverable. It is young and soft with a water content of 60% to 70%. In the Latrobe Valley section of the region, the thick brown coal seams underlie an area from 10 to 30 km wide extending over approximately 70 km from Yallourn in the west to the south of Sale in the east. It can be won continuously in large quantities and at low cost by specialized mechanical plant.

The primary use of these reserves is to fuel electricity generating stations. Production of brown coal in 1998–99 was 66.7m. tonnes.

Minerals. Production, 1998–99: gold, 4,948 kg; (in 1,000 tonnes) basalt, 9,918; sand for concrete, 4,368.

Land Settlement. Of the total area of Victoria (22.76m. ha), 13,973,915 ha on 30 June 1984 were either alienated or in the process of alienation. The remainder (8,786,085) constituted Crown land as follows: perpetual leases, grazing and other leases and licences, 2,160,352; reservations including forest and timber reserves, water, catchment and drainage purposes, national parks, wildlife reserves, water frontages and other reserves, plus unoccupied and unreserved including areas set aside for roads, 6,625,733.

Victoria's rail network comprises over 5,000 km of track, comprising 1,274 km of standard gauge (1,435 mm). There are 3,745 km of broad gauge (1,600 mm) of which 336 km are electrified. 849 km of standard gauge lines form part of the interstate rail network from Brisbane to Perth and are under the control of the Australian Rail Track Corporation. In 1999–2000, 7.2m. tonnes of freight were carried by Freight Australia and there was a total of 131.6m. passenger boardings (7.4m. non-urban). Melbourne's tramway and light rail network extends to 241 km and is the tenth longest in the world. There were 128.2m. boardings in 1999–2000.

Civil Aviation. There were 11,169,679 domestic and regional passenger movements and 2,653,705 international passenger movements in 1999 at Melbourne (Tullamarine) airport (Australia's second busiest airport after Sydney). Total freight and mail handled 1999 was 261,550 tonnes (international, 184,856; domestic, 76,694).

Shipping. The 4 major commercial ports are at Melbourne, Geelong, Portland and Hastings. Together, these ports serviced 3,861 ships (Melbourne, 2,964; Geelong, 478; Hastings, 179; Portland, 240) with a total trade of 36m. mass tonnes in 1998–99.

Telecommunications. In May 1998, 93.5% of households had a fixed telephone connected; 44.3% had mobile phones. In 1999 there were 873,000 households with home computer access (51% of all households) and 395,000 households with home Internet access (23%).

Postal Services. At June 2000 there were 1,062 retail outlets including 848 licensed post offices. Postal items handled by Australia Post in Victoria (1999–2000) totalled 1.637.2m.

SOCIAL INSTITUTIONS

Justice. There is a Supreme Court with a Chief Justice and 21 puisne judges. There are a county court, magistrates' courts, a court of licensing and a bankruptcy court.

During 1996–97 the State's prisons were replaced with new facilities developed, owned and operated by the private sector. During 1997–98 approximately 46% of Victoria's prison population was accommodated in the 3 private prisons. There are 10 public prisons remaining.

At 30 June 1999 there were 2,923 prisoners (2,506 sentenced prisoners).

Religion. There is no State Church, and no State assistance has been given to religion since 1875. At the 1991 census the following were the enumerated numbers of the principal religions: Catholic, 1,237,399; Anglican, 772,632; Uniting, 342,493 (including Methodist); Orthodox, 199,063; Presbyterian, 193,300; other Christian,

255,375; Muslim, 49,617; Jewish, 33,882; Buddhist, 42,350; no religion, 612,074; not stated, 474,921.

Education. In 1999 there were 1,631 government schools with 524,849 pupils and 35,156 full-time teaching staff plus full-time equivalents of part-time teaching staff: 310,218 pupils were in primary schools and 214,631 in secondary schools. As from 1990 students attending special schools have not been identified separately and have been allocated to either primary or secondary level of education. They are integrated where possible into mainstream education. There were, in 1999, 688 non-government schools, excluding commercial colleges, with 18,203 teaching staff and 269,705 pupils; 136,787 pupils at primary schools; and 132,918 pupils at secondary schools.

All higher education institutions, excluding continuing education and technical and further education (TAFE), now fall under the Unified National System, and can no longer be split into universities and colleges of advanced education. In addition, a number of institutional amalgamations and name changes occurred in the 12 months prior to the commencement of the 1992 academic year. There are 10 publicly funded higher education institutions including 8 State universities, Marcus Oldham College and the Australian Catholic University (partly privately funded), and the Melbourne University Private, established in 1998. At 31 March 1999 there were 183,882 students in higher education and 17,152 full-time teaching staff.

Health. In 1998–99 there were 142 public hospitals with 11,638 beds, and 95 private hospitals; 17,214 nurses were employed in public hospitals. Total government outlay on health in 1999–2000 was estimated to be \$A5,092m.

Welfare. Victoria was the first State of Australia to make a statutory provision for the payment of Age Pensions. The Act providing for the payment of such pensions came into operation on 18 Jan. 1901, and continued until 1 July 1909, when the Australian Invalid and Old Age Pension Act came into force. The Social Services Consolidation Act, which came into operation on 1 July 1947, repealed the various legislative enactments relating to age (previously old-age) and invalid pensions, maternity allowances, child endowment, unemployment and sickness benefits and, while following in general the Acts repealed, considerably liberalized many of their provisions; it has since been amended.

The number of age and disability pensions (including wives' and carers' pensions) on 30 June 1999 was: age, 439,595; carer, 10,266; disability support, 136,218. There were 7,680 widows' and 84,368 single parent payments current at 30 June 1999, and basic family payment was being paid for 789,899 children under 16 years.

WESTERN AUSTRALIA

KEY HISTORICAL EVENTS

In 1791 the British navigator George Vancouver took formal possession of the country around King George Sound. In 1826 the government of New South Wales sent 20 convicts and a detachment of soldiers to King George Sound and formed a settlement then called Frederickstown. The following year, Capt. James Stirling surveyed the coast from King George Sound to the Swan River, and in May 1829 Capt. Charles Fremantle took possession of the territory. In June 1829 Capt. Stirling founded the Swan River Settlement (now the Commonwealth State of Western Australia) and the towns of Perth and Fremantle and was appointed Lieut.-Governor.

Large grants of land were made to the early settlers and agricultural and pastoral occupations were pursued by a small population with varying success until, in 1850, with the colony languishing, the inhabitants' petition that it be made a penal settlement was acceded to. Between 1850 and 1868 (in which year transportation ceased), 9,668 convicts were sent out. In 1870 partially representative government was instituted, and in 1890 the administration was vested in the Governor, a legislative council and a legislative assembly. The legislative council was, in the first instance, nominated by the Governor but in 1893 it became elective. Western Australia federated with the other Australian states to form the Commonwealth of Australia in 1901.

In the 1914–18 war Western Australia provided more volunteers for overseas military service in proportion to population than any other State (possibly because Western Australia had a higher proportion of British migrants and single men).

The worldwide depression of 1929 brought widespread unemployment (30% of trade union membership), and in 1933 over two-thirds voted to leave the Federation. While there were modest improvements in the standard of living through the 1930s, it was the 1939–45 war which brought regular employment for all.

Japanese aircraft attacked the Western Australia coast in 1942. Talk of a 'Brisbane line', which would abandon the West to invasion, only served to reinforce Western Australia's sense of isolation from the rest of the nation. The post-war years saw increasing demand for wheat and wool but the 1954–55 decline in farm incomes led to diversification. Work began in the early 1950s on steel production and oil processing. Oil was discovered in 1953 but it was not until 1966 that it was commercially exploited. The discovery of deposits of iron ore in the Pilbara, bauxite in the Darling scarp, nickel in Kambalda and ilmenite from mineral sands led to the State becoming a major world supplier of mineral exports by 1965.

TERRITORY AND POPULATION

Western Australia lies between 113° 09' and 129° E. long. and 13° 44' and 35° 08' S. lat.; its area is 2,525,500 sq. km.

The population at each census from 1947 was as follows¹:

¹1961 and earlier exclude persons of predominantly Aboriginal descent; from 1966 figures refer to total population (*i.e.*, including Aborigines). Figures from 1971 are based on estimated resident population.

The population at the 1996 census was 1,726,095. Of the total 1996 census population, 1,178,331 were born in Australia. Married persons numbered 710,468 (355,594 males and 354,874 females); widowers, 13,656; widows, 59,635; divorced, 39,624 males and 48,986 females; never married, 233,048 males and 186,081 females. Estimated resident population at 30 June 2000 was 1,883,900 (annual growth rate, 1.4%).

Perth, the capital, had an estimated resident population of 1,381,127 at 30 June 1998.

Principal local government areas outside the metropolitan area, with population at 30 June 1997 (estimate): Mandurah, 42,072; Kalgoorlie-Boulder, 30,488; Bunbury, 27,664; Geraldton, 20,295; Busselton, 19,188; Albany, 15,503; Roebourne, 13,985; Port Hedland, 12,823.

CLIMATE

Western Australia is a region of several climate zones, ranging from the tropical north to the semi-arid interior and Mediterranean-style climate of the southwest. Most of the State is a plateau between 300 and 600 metres above sea level. Except in the far southwest coast, maximum temperatures in excess of 40°C have been recorded throughout the State. The normal average number of sunshine hours per day is 8.0.

CONSTITUTION AND GOVERNMENT

In 1870 partially representative government was instituted, and in 1890 the administration was vested in the Governor, a Legislative Council and a Legislative Assembly. The Legislative Council was, in the first instance, nominated by the Governor, but it was provided that in the event of the population of the colony reaching 60,000, it should be elective. In 1893 this limit of population being reached, the Colonial Parliament amended the Constitution accordingly.

The *Legislative Council* consists of 34 members elected for a term of 4 years. There are 6 electoral regions for Legislative Council elections. 4 electoral regions return 5 members and the other 2 electoral regions 7 members. Each member represents the entire region.

There are 57 members of the *Legislative Assembly*, each member representing one of the 57 electoral districts of the State. Members are elected for the duration of the Assembly which may be for a period of up to 4 years. The qualifications applying to candidates and electors are identical for the Legislative Council and the Legislative Assembly. A candidate must be at least 18 years of age and free from legal incapacity, be an Australian citizen, and be enrolled, or qualified for enrolment, as an elector. A member of the Commonwealth Parliament or of the legislature of a territory or another state, an undischarged bankrupt or a debtor against whose estate there is a subsisting receiving order in bankruptcy, or a person who has been attainted or convicted of treason or felony, is disqualified from membership of the legislature. No person may hold office as a member of the Legislative Assembly and the Legislative Council at the same time. An elector must be at least 18 years of age, be an Australian citizen (or a British subject who was at some time within the 3 months preceding 26 Jan. 1984 an elector of the Assembly or the Commonwealth parliament), be free from legal incapacity, and must have resided in Western Australia for 3 months continuously, and in the electoral district for which he or she claims enrolment for a continuous period of 1 month immediately preceding the date of his or her claim. Enrolment is compulsory for all qualified persons. Voting at elections is on the preferential system and is compulsory for all enrolled persons. A system of proportional representation is used to elect members of the Legislative Council.

Ordinary members of the legislature were paid (with effect from 1 Jan. 2000) a salary of \$A95,000 a year with an electorate allowance of \$A21,000 a year. They also receive an additional electorate allowance ranging from \$A1,650 to \$A17,500 a year according to location of the electorate.

The Premier receives a salary of \$A220,400 and other ministers \$A171,000. No additional allowances are paid.

ECONOMY

Budget. Revenue and expenditure (in \$A1m.), as reported in the Consolidated Revenue Fund, in years ending 30 June:

	1996	1997	1998
Revenue	7,152.9	7,023.6	7,095.8
Expenditure	7,152.9	6,864.7	7,613.9

Main items of revenue in 1997–98: departmental (\$A1,339.6m.), taxation (\$A2,383.2m.), timber and mining (\$A661.5m.), from Commonwealth funds (\$A3,069.2m.). Western Australia had a gross operating surplus of \$A1,385.4m. on 30 June 1998 (including \$A229.3m. from Public Trading Enterprises, \$A640.0m. from General Government). The Financial Enterprises Sector had a deficit of \$A141.6m.

Banking and Finance. At 30 June 1998 there were 18 banks operating in Western Australia.

ENERGY AND NATURAL RESOURCES

Electricity. The Office of Energy was established to administer energy policy and regulatory functions previously managed by the State Electricity Commission of Western Australia (SECWA), which was split into 2 corporate utilities in 1995 (Western Power and AlintaGas). The Office of Energy reports directly to the Minister of Energy and provides advice on policy and co-ordinates economic and commercial issues in the Western Australian energy sector. Deregulation of the energy industry was passed by the Office of Energy during 1996–97. The gradual introduction of the Electricity Transmission Open Access Plan commenced on 1 July 1997, allowing independent generators to supply associated loads by utilizing Western Power's transmission system. Electricity users now have the option of obtaining power from Western Power or private sector operators. In the year ended 30 June 1999 total Western Power customer consumption stood at 11,407m. kWh, including 3,605m. kWh by residential customers.

Oil and Gas. Towards the end of the 1990s petroleum became the State's most valuable contributor to the resource sector, with a record production rate for oil, gas and condensate, increasing the value of output by 24% to \$A4,693m. in 1996. The State accounted for approximately 51% of Australia's total crude oil and condensate, and 48% of gas production in 1996, making Western Australia the main producer of

petroleum in Australia. In 1996, 45% of Western Australia's crude oil production was exported overseas. Of this, most went to Asia.

The value of natural gas production increased 11% in 1996 to \$A495m. This was due to the commencement of production from the East Spar subsea gas gathering system. The first full year's production from a new \$A300m. liquefied petroleum gas (LPG) plant occurred in 1996, with approximately 310,000 tonnes of LPG worth \$A41m. produced.

Water. The administration of Western Australia's water resources is the responsibility of the Water and Rivers Commission, and the Water Corporation is the primary provider of services. The operation and activities of the Water Corporation are monitored by the Office of Water Regulation.

Minerals. Mining is a significant contributor to the Western Australia economy, accounting for nearly 18% of gross state product. Until the mid-1960s the major mineral produced was gold. It was then replaced by iron ore in terms of value, and has at various times fallen behind nickel concentrates, bauxite, oil, mineral sands and salt. In the latter half of the 1980s gold enjoyed a resurgence and has continued to exceed iron ore in value terms (with the exception of 1991-92 and 1992-93).

The total ex-mine value of minerals from mining and quarrying in 1996 was \$A15,956m. Principal minerals produced in 1996 were: gold, 221,033 kg (value \$A3,526.3m.); iron ore, 133.7m. tonnes (\$A2,924.5m.); crude oil, 16,255 megalitres (\$A2,732.5m.); bauxite-alumina, 8.2m. tonnes (\$A1,974.4m.); liquefied natural gas, 377,819m. gigajoules (\$A1,391.2m.); nickel concentrates, 0.8m. tonnes (\$A1,033.9m.); heavy mineral sands concentrates, 2.0m. tonnes (\$A598.1m.); natural gas, 6,623 gigalitres (\$A494.7m.); diamonds, 47.4m. carats (\$A442.0m.); coal, 5.8m. tonnes (\$A268.4m.); salt, 7.2m. tonnes (\$A143.3m.).

Agriculture. At 31 March 1999 there were 13,822 establishments mainly engaged in agriculture with a total area of 113.1m. ha of which 7.6m. ha were under crops.

<i>Crop</i>	<i>1996</i>		<i>1997</i>

Production, 1997 (in tonnes), apples, 38,217.9; pears, 9,931.7; oranges, 5,307.5.

Livestock at 31 March 1999: cattle, 1,931,000; sheep and lambs, 26,400,000; pigs, 277,000.

The wool clip in 1997 was 159,981 tonnes.

Forestry. The area of State forests and timber reserves at 30 June 1997 was 1,725,036 ha; production of sawn timber was 1,036,466 cu. metres in 1994-95. Jarrah and Karri hardwoods account for 69.0% and pine accounts for 28.9% of sawn timber production.

Fisheries. The total fisheries production in 1998-99 was 39,652 tonnes and was worth \$A592.2m. Of this, crustaceans totalled 18,667 tonnes with a value of \$A331.1m. Pearling was also a significant contributor, producing \$A171.4m. worth of pearls, or 30% of the total value of Western Australia's fishing production.

INDUSTRY

Heavy industry is concentrated in the southwest, and is largely tied to export-orientated mineral processing, especially alumina and nickel. Other significant manufacturing industries include meat and seafood processing, production of timber and wood products, metal fabrication and production of industrial and mining machinery. The North West Shelf development has stimulated recent growth in industries involved in providing materials and equipment during the construction phase, as well as in new and existing industries using gas in processing.

The following table shows manufacturing industry statistics for 1996-97:

The Western Australian Industrial Appeal Court consists of 3 Judges, one of whom is the Presiding Judge. The members are nominated by the Chief Justice of Western Australia. An appeal lies to the Court from decisions of the President of the Western Australian Industrial Commission, the Full Bench or the Commission in Court Session. The Western Australian Industrial Commission consists of a President (who must be a judge), a Chief Industrial Commissioner, a Senior Commissioner, and 'such number of other Commissioners as may, from time to time, be necessary'. The President or a Commissioner sitting or acting alone constitutes the Commission and may exercise the appropriate powers of an award, order or declaration relating to such matter. The Commission may also make inquiries where industrial action has occurred or is likely to occur. The Commission in Court Session is constituted by not less than 3 Commissioners sitting or acting together, and may make General Orders, hear matters referred by the Commission, and hear appeals from decisions of Boards of Reference.

The Full Bench is constituted by not less than 3 members of the Commission, 1 of whom is the President, and may hear matters referred by the Commission on questions of law, and appeals from decisions of the Commission and Industrial Magistrates.

The following table shows details of the number of industrial awards, unions and members registered with the Western Australian Industrial Commission.

All courts exercise both civil and criminal jurisdiction except Justices of the Peace who deal with summary criminal matters only. Juvenile offenders are dealt with by the Children's Court. Overall responsibility for the Children's Court is vested in a President, who has the status of a District Court Judge. A children's court may be constituted by a judge, a magistrate or 2 lay members. Each has different sentencing powers. For certain offences involving first offenders under the age of 16 years who have pleaded guilty, such cases may be dealt with by the Children's (suspended Proceedings) Panel which comprises a representative from the Department for Community Services and one from the Police Department. The Family Court also forms part of the justice system and comprises a Chief Judge, 4 other judges, 7 magistrates/registrars, and exercises both State and Federal jurisdictions.

Technical and Further Education (TAFE) is offered by the Department of TAFE, a sub-department of the Ministry of Education, and by three independent regional colleges. The latter also provide higher education facilities. Additionally, higher education is available through 4 state universities and 1 private (Notre Dame).

Specialist units work in the areas of child abuse, adoptions, youth activities and Family Court counselling.

The Department provides residential facilities for the temporary accommodation, care and training of children, is responsible for young offenders recommended for detention or remand by a Court, and also supervises young offenders subject to non-custodial court orders.

The State Reference Library is situated in the Alexander Library in the Perth Cultural Centre. Also located in the Alexander Library Building is the J. S. Battye Library of Western Australian History.

The provision of public library services is a partnership between LISWA and local government authorities. Through its Public Library Services Program, LISWA provides and maintains the bookstock and other resource materials for public libraries throughout the State.

Museums and Galleries. The Western Australian Museum was established in the early 1890s, and its headquarters and principal exhibition centre is located in the Perth Cultural Centre, with branches in Fremantle (Fremantle History Museum including Samson House, and the Western Australian Maritime Museum incorporating the Historic Boats Museum), Albany, Geraldton and Kalgoorlie. The Art Gallery of Western Australia is the oldest visual arts organization in the State, having acquired its first work of art in 1895. The Gallery is located in the Perth Cultural Centre and is housed in 2 buildings: the Main Galleries and the adjoining Centenary Galleries. AUSTRALIAN EXTERNAL TERRITORIES

AUSTRALIAN ANTARCTIC TERRITORY

An Imperial Order in Council of 7 Feb. 1933 placed under Australian authority all the islands and territories other than Adélie Land situated south of 60° S. lat. and lying between 160° E. long. and 45° E. long. The Order came into force with a Proclamation issued by the Governor-General on 24 Aug. 1936 after the passage of the Australian Antarctic Territory Acceptance Act 1933. The boundaries of Adélie Land were definitively fixed by a French Decree of 1 April 1938 as the islands and territories south of 60° S. lat. lying between 136° E. long. and 142° E. long. The Australian Antarctic Territory Act 1954 declared that the laws in force in the Australian Capital Territory are, so far as they are applicable and are not inconsistent with any ordinance made under the Act, in force in the Australian Antarctic Territory.

The area of the territory is estimated at 6,119,818 sq. km (2,362,875 sq. miles).

There is a research station on MacRobertson Land at lat. 67° 37' S. and long. 62° 52' E. (Mawson), one on the coast of Princess Elizabeth Land at lat. 68° 34' S. and long. 77° 58' E. (Davis), and one at lat. 66° 17' S. and long. 110° 32' E. (Casey). The Antarctic Division also operates a station on Macquarie Island.

COCOS (KEELING) ISLANDS

GENERAL DETAILS

The Cocos (Keeling) Islands are 2 separate atolls comprising some 27 small coral islands with a total area of about 14.2 sq. km, and are situated in the Indian Ocean at

COCOS (KEELING) ISLANDS

12° 05' S. lat. and 96° 53' E. long. They lie 2,768 km northwest of Perth and 3,685 km west of Darwin.

The main islands are West Island (the largest, about 10 km from north to south), on which there is an airport and an animal quarantine station, and most of the European community; Home Island, occupied by the Cocos Malay community; Direction, South and Horsburgh Islands, and North Keeling Island, 24 km to the north of the group.

The islands were discovered in 1609 by Capt. William Keeling but remained uninhabited until 1826. In 1857 the islands were annexed to the Crown; in 1878 responsibility was transferred from the Colonial Office to the government of Ceylon, and in 1886 to the government of the Straits Settlement. By indenture in 1886, Queen Victoria granted all land in the islands to George Clunies-Ross and his heirs in perpetuity (with certain rights reserved to the Crown). In 1903 the islands were incorporated in the Settlement of Singapore and in 1942–46 were temporarily placed under the Governor of Ceylon. In 1946 a Resident Administrator, responsible to the Governor of Singapore, was appointed.

On 23 Nov. 1955 the Cocos Islands were placed under the authority of the Australian government as the Territory of Cocos (Keeling) Islands. An Administrator, appointed by the Governor-General, is the government's representative in the Territory and is responsible to the Minister for Territories and Local Government. The Cocos (Keeling) Islands Council, established as the elected body of the Cocos Malay community in July 1979, advises the Administrator on all issues affecting the Territory.

In 1978 the Australian government purchased the Clunies-Ross family's entire interests in the islands, except for the family residence. A Cocos Malay co-operative was established to take over the running of the Clunies-Ross copra plantation and to engage in other business with the Commonwealth in the Territory, including construction projects. In 1993 the Australian government took control of the Clunies-Ross family residence also.

The population of the Territory (1994) was 670, distributed between Home Island (75%) and West Island (25%).

The islands are low-lying, flat and thickly covered by coconut palms, and surround a lagoon in which ships drawing up to 7 metres may be anchored, but which is extremely difficult for navigation.

There is an equable and pleasant climate, affected for much of the year by the southeast trade winds. Temperatures range over the year from 68° F (20° C) to 88° F (31.1° C) and rainfall averages 80" (2,000 mm) a year.

The Cocos (Keeling) Islands Act 1955 is the basis of the Territory's administrative, legislative and judicial systems. Under section 8 of this Act, those laws which were in force in the Territory immediately before the transfer continued in force there.

The legislative, judicial and administrative systems are regulated by the Christmas Island Act, 1958–73. They are the responsibility of the Commonwealth government and are operated by an Administrator. The Territory underwent major changes to its legal system when the Federal Parliament passed the Territories Law Reform Bill of 1992; Commonwealth and State laws applying in the state of Western Australia now apply in the Territory as a result, although some laws have been repealed to take into account the unique status of the Territory. The first Island Assembly was elected in Sept. 1985, and is now replaced by the elected members of the Christmas Island Shire Council.

Extraction and export of rock phosphate dust is the main industry. The government is also encouraging the private sector development of tourism.

NORFOLK ISLAND

KEY HISTORICAL EVENTS

The island was formerly part of the colony of New South Wales and then of Van Diemen's Land. It was a penal colony between 1788–1814 and 1825–55. In 1856 it received all 194 descendants of the *Bounty* mutineers from Pitcairn Island. It has been a distinct settlement since 1856, under the jurisdiction of the state of New South Wales; and finally by the passage of the Norfolk Island Act 1913, it was accepted as a Territory of the Australian government. The Norfolk Island Act 1957 is the basis of the Territory's legislative, administrative and judicial systems.

TERRITORY AND POPULATION

Situated 29° 02' S. lat. 167° 57' E. long.; area 3,455 ha; population (June 1993), 1,896.

Descendants of the *Bounty* mutineer families constitute the 'original' settlers and are known locally as 'Islanders', while later settlers, mostly from Australia, New Zealand and the UK, are identified as 'mainlanders'. Over the years the Islanders have preserved their own lifestyle and customs, and their language remains a mixture of West Country English, Gaelic and Tahitian.

CLIMATE

Sub-tropical. Summer temperatures (Dec.–March) average about 75°F (25°C), and 65°F (18°C) in winter (June–Sept.). Annual rainfall is approximately 50" (1,200 mm), most of which falls in winter.

CONSTITUTION AND GOVERNMENT

An Administrator, appointed by the Governor-General and responsible to the Minister for Territories and Local Government, is the senior government representative in the Territory.

The Norfolk Island Act 1979 gives Norfolk Island responsible legislative and executive government to enable it to run its own affairs to the greatest practicable extent. Wide powers are exercised by the Norfolk Island Legislative Assembly of 9 members, elected for a period of 3 years, and by an Executive Council, comprising the executive members of the Legislative Assembly, who have ministerial-type responsibilities. The seat of administration is Kingston, the only major settlement. The Act preserves the Commonwealth's responsibility for Norfolk Island as a Territory under its authority, indicating Parliament's intention that consideration would be given to an extension of the powers of the Legislative Assembly and the political and administrative institutions of Norfolk Island within 5 years. Some powers were transferred in 1985 and further transfers are being considered.

RECENT ELECTIONS

At the last elections, on 23 Feb. 2000, only non-partisans were elected.

CURRENT ADMINISTRATION

Administrator: Hon. Anthony J. Messner (since 1997).

Chief Minister: Ronald Coane Nobbs (since 2000).

ECONOMY

The office of the Administrator is financed from Commonwealth expenditure which in 1999–2000 was \$A560,000; local revenue for 1999–2000 totalled \$A10,300,000; expenditure, \$A10,400,000.

AUSTRALIA

Public revenue is derived mainly from tourism, the sale of postage stamps, customs duties, liquor sales, telecommunications and electricity generation charges, company registration and licence fees. Residents are not liable for income tax on earnings within the Territory, nor are death and personal stamp duties levied.

Currency. Australian notes and coins are the legal currency.

Banking and Finance. There are 2 banks, Westpac and the Commonwealth Bank of Australia.

Telecommunications. In 1999 there were 1,920 telephones.

Postal Services. There is one post office located in Burnt Pine.

SOCIAL INSTITUTIONS

HEARD AND McDONALD ISLANDS

These islands, about 2,500 miles southwest of Fremantle, were transferred from UK to Australian control as from 26 Dec. 1947. Heard Island is about 43 km long and 21 km wide; Shag Island is about 8 km north of Heard. The total area is 412 sq. km (159 sq. miles). The McDonald Islands are 42 km to the west of Heard. Heard is an active stratovolcano that has erupted 8 times since 1910, most recently in 1993. In 1985–88 a major research programme was set up by the Australian National Antarctic Research Expeditions to investigate the wildlife as part of international studies of the Southern Ocean ecosystem. Subsequent expeditions followed from June 1990 through to 1992.

TERRITORY OF ASHMORE AND CARTIER ISLANDS

By Imperial Order in Council of 23 July 1931, Ashmore Islands (known as Middle, East and West Islands) and Cartier Island, situated in the Indian Ocean, some 320 km off the northwest coast of Australia (area, 5 sq. km), were placed under the

TERRITORY OF CORAL SEA ISLANDS

authority of the Commonwealth. Under the Ashmore and Cartier Islands Acceptance Act, 1933, the islands were accepted by the Commonwealth as the Territory of Ashmore and Cartier Islands. It was the intention that the Territory should be administered by the State of Western Australia but owing to administrative difficulties the Territory was deemed to form part of the Northern Territory of Australia (by amendment to the Act in 1938). On 16 Aug. 1983 Ashmore Reef was declared a National Nature Reserve. The islands are uninhabited but Indonesian fishing boats fish within the Territory and land to collect water in accordance with an agreement between the governments of Australia and Indonesia. It is believed that the islands and their waters may house considerable oil reserves.

TERRITORY OF CORAL SEA ISLANDS

The Coral Sea Islands, which became a Territory of the Commonwealth of Australia under the Coral Sea Islands Act 1969, comprises scattered reefs and islands over a sea area of about 1m. sq. km. The Territory is uninhabited apart from a meteorological station on Willis Island.

KEY HISTORICAL EVENTS

Governed by the Hapsburgs from 1282, Austria served thereafter as the centre of their expanding power and empire, an empire which lasted until 1918. At their greatest extent under Charles V (1519–55), the Hapsburg dominions included part of Hungary (wholly conquered from the Turks in 1688), Belgium, Italian territories, Spain and its vast empire. It remained the major power in Central Europe till defeated in 1866 by Prussia and her German allies, a position confirmed by

the unification of Germany in 1870–71 under Prussian leadership. Empire politics turned increasingly on national rivalries and aspirations. Tension was particularly high among the Serbs of Bosnia (annexed 1908) who looked to the independent state of Serbia. It was at Sarajevo in Bosnia on 28 June 1914 that the heir to the throne, Archduke Franz Ferdinand, was assassinated by Serbian nationalists, an event that triggered the First World War. In 1918 the Empire disintegrated into its national units.

Christian Socialists dominated the governments of Austria (except for 1929–30) until 1938. But the Socialists were strong and the general strike of July 1927 and the rising of Feb. 1934 induced Chancellor Dolfuss to end parliamentary democracy and introduce Fatherland Front backed by the paramilitary Heimwehr. The Nazis who assassinated Dolfuss on 25 July 1934 helped to bring about the *Anschluss* or Union with Germany, which was achieved by a German invasion on 12 March 1938. Until 1945 Austria was Ostmark, a province of the Third Reich.

Although the 1943 Moscow Conference of Allied Foreign Ministers regarded Austria as the first victim of German aggression, Austria was occupied by Britain, France, USA and USSR (and paid reparations over a ten-year period). Independence came with the Austrian State Treaty of 15 May 1955. Austria became a member of the European Union on 1 Jan. 1995.

In Jan. 2000 the Freedom Party headed by the far-right leader Jörg Haider joined the government. Although Haider, described as a 'dangerous extremist' by EU leaders, did not take a post in the government, he continued to exercise political influence and remained popular with the Austrian electorate. However, in May 2000 he was succeeded as party leader by deputy-chancellor Susanne Riess-Passer. Meanwhile sanctions against Austria were imposed by the European Union in Feb. 2000, but lifted in Sept. 2000. In local elections in Vienna in March 2001 the Freedom Party lost more than a quarter of its support.

TERRITORY AND POPULATION

Austria is bounded in the north by Germany and the Czech Republic, east by Slovakia and Hungary, south by Slovenia and Italy, and west by Switzerland and Liechtenstein. It has an area of 83,858 sq. km (32,378 sq. miles). Population (1999) 8,092,300; density, 96·5 per sq. km. Previous population censuses: (1923) 6·53m., (1934) 6·76m., (1951) 6·93m., (1971) 7·49m., (1981) 7·56m., (1991) 7·80m. A census took place on 15 May 2001. In 1998, 64·3% of the population lived in urban areas. In 1990 the percentage had been higher, at 64·5%. Austria is the only European country to have had a decline in the proportion of the population living in urban areas in the period 1990–98.

In 1991, 93·4% of residents were of Austrian nationality and 94% were German-speaking, with linguistic minorities of Slovenes (29,000), Croats (60,000), Hungarians (33,000) and Czechs (19,000). Between 1986 and 1996 the number of foreigners living in Austria more than doubled, from just over 4% to just over 9%.

The UN gives a projected population for 2010 of 8·46m.

CONSTITUTION AND GOVERNMENT

The Constitution of 1 Oct. 1920 was restored on 27 April 1945. Austria is a democratic federal republic comprising 9 states (*Länder*), with a federal *President* (*Bundespräsident*) directly elected for not more than 2 successive 6-year terms, and a bicameral National Assembly which comprises a National Council and a Federal Council.

The National Council (*Nationalrat*) comprises 183 members directly elected for a 4-year term by proportional representation in a 3-tier system by which seats are allocated at the level of 43 regional and 9 state constituencies, and 1 federal constituency. Any party gaining 4% of votes cast nationally is represented in the National Council.

The Federal Council (*Bundesrat*) has 64 members appointed by the 9 states for the duration of the individual State Assemblies' terms; the number of deputies for each state is proportional to that state's population. In Dec. 1999 the ÖVP held 27 seats, the SPÖ 22 and the FPÖ 15.

The head of government is a *Federal Chancellor*, who is appointed by the President (usually the head of the party winning the most seats in National Council elections). The *Vice-Chancellor*, the *Federal Ministers* and the *State Secretaries* are appointed by the President at the Chancellor's recommendation.

NAGORNO-KARABAKH

Established on 7 July 1923 as an Autonomous Region within Azerbaijan, in 1989 the area was placed under a 'special form of administration' subordinate to the USSR government. In Sept. 1991 the regional Soviet and the Shaumyan district Soviet jointly declared a Nagorno-Karabakh republic, which declared itself independent with a 99.9% popular vote (only the Armenian community took part in this vote as the Azeri population had already been expelled from Nagorno-Karabakh) in Dec. 1991. The autonomous status of the region was meanwhile abolished by the Azerbaijan Supreme Soviet in Nov. 1991, and the capital renamed Khankendi. A presidential decree of Jan. 1992 placed the region under direct rule. Azeri-Armenian fighting for possession of the region culminated in its occupation by Armenia in 1993 (and the occupation of 7 other Azerbaijani regions outside it), despite attempts at international mediation. Since May 1994 there has been a ceasefire. Negotiations on settlements are conducted within the OSCE Minsk Group.

KEY HISTORICAL EVENTS

Bahrain was controlled by the Portuguese from 1521 until 1602. The Khalifa family gained control in 1783 and has ruled since that date. British assistance was sought to retain independence and from 1861 until 1971 Bahrain was in all but name a British protectorate. Bahrain declared its independence in 1971. Shaikh Isa bin Salman Al-Khalifa became the Amir. A constitution was ratified in June 1973 providing for a National Assembly of 30 members, popularly elected for a 4-year

term, together with all members of the cabinet (appointed by the Amir). However, in 1975 the National Assembly was dissolved and the Amir began ruling by decree. In 1987 the main island was joined to the Saudi mainland by a causeway.

TERRITORY AND POPULATION

The State of Bahrain forms an archipelago of 36 low-lying islands in the Arabian (Persian) Gulf, between the Qatar peninsula and the mainland of Saudi Arabia. The total area is 706.6 sq. km.

The island of Bahrain (578 sq. km) is connected by a 1.5-mile causeway to the second largest island, Muharraq to the northeast, and by a causeway with the island of Sitra to the east. A causeway links Bahrain with Saudi Arabia. From Sitra, oil pipelines and a causeway carrying a road extend out to sea for 3 miles to a deep-water anchorage.

Population (1996 est.) 598,600 (males, 349,100; females, 249,500), of which 369,200 were Bahraini and 229,400 non-Bahraini. The population density was 850 per sq. km. In 1998, 91.6% of the population were urban.

The UN gives a projected population for 2010 of 717,000.

There are 12 regions: Central, Eastern, Hamad Town, Hidd Town, Isa Town, Jidhafs, Manama, Muharraq, Northern, Rifa'a, Sitra, Western. Manama, the capital and commercial centre, had a 1999 population of 162,000. Other towns (1991 census population) are Muharraq (74,254), Rifa'a (45,596), Jidhafs (44,769), Sitra (36,755) and Isa Town (34,509).

the Assembly and has since ruled through the cabinet alone. However, a referendum was held on 14–15 Feb. 2001 in which proposals for a new national charter were approved, leading to a freely-elected parliament from 2003 or 2004. It will also turn Bahrain into a constitutional monarchy. Women had the right to vote for the first time. Turn-out was 90%, with 98.4% of voters supporting the charter.

By decree of the Amir on 20 Dec. 1992 a *Consultative Council* was set up. It consists of 30 members nominated by the Amir for 4-year terms. Friction between Bahrain's Shia Muslims and their Sunni rulers has been intensified by high unemployment.

KEY HISTORICAL EVENTS

When the Indian sub-continent gained independence from Britain in 1947, it was partitioned according to religion. West Bengal became part of India while East Bengal elected to join Pakistan as East Pakistan. The province, however, was separated from West Pakistan physically and ethnically. Differences became unmanageable when East Pakistan's Awami League, campaigning for greater autonomy, won the majority of seats in the federal parliament in Dec. 1970. There was civil war from March to Dec. 1971. With the help of Indian troops, the Pakistani forces were defeated and the East broke away as an independent state to become the Republic of Bangladesh. The constitution of 1972 provided parliamentary democracy but in Jan. 1975 the president banned political parties. There followed a succession of coups until 1991 when democratic parliamentary elections were held. Continuing unrest reflected the increasing strength of Islamic fundamentalism.

TERRITORY AND POPULATION

Bangladesh is bounded in the west and north by India, east by India and Myanmar and south by the Bay of Bengal. The area is 57,295 sq. miles (148,393 sq. km). In 1992 India granted a 999-year lease of the Tin Bigha corridor linking Bangladesh with its enclaves of Angarpota and Dahagram. At the 1991 census the population was 111,455,000 (54,141,000 females). Estimate, July 1997: 125,430,000. Population density, 845 per sq. km. The most recent census took place in Jan. 2001.

The UN gives a projected population for 2010 of 151.89m.

In 1998, 80.0% of the population lived in rural areas. The country is administratively divided into 5 divisions, subdivided into 64 *zila*. Area (in sq. km) and population (in 1,000) in 1994 of the 5 divisions:

Dhaka: The capital of Bangladesh, Dhaka is in the south of the country. It grew in stature when it became the seat of Moghul rule in the Bengal province (1608–39, 1660–1704). It was part of the British empire from 1765 until the partition in 1947, when it became the capital of East Bengal province. In 1956 it was named as the capital of East Pakistan. During the war of independence in 1971 it suffered great damage but has since risen to prominence as an important industrial centre and seat of learning.

SOCIAL STATISTICS

Bangladesh has had one of the largest reductions in its fertility rate of any country in the world over the past 20 years. It has also made some of the best progress in recent years in reducing child mortality. The number of deaths per 1,000 live births among children under 5 was reduced from nearly 150 in 1990 to around 90 in 1999.

CONSTITUTION AND GOVERNMENT

Bangladesh is a unitary republic. The Constitution came into force on 16 Dec. 1972 and provides for a parliamentary democracy. The head of state is the *President*, elected by parliament every 5 years, who appoints a *Vice-President*. There is a *Council of Ministers* to assist and advise the President. The President appoints the government ministers.

Parliament has one chamber of 300 members directly elected every 5 years by citizens over 18. There are additionally 30 seats reserved for women members elected by Parliament.

KEY HISTORICAL EVENTS

Integration with Russia was close until the Gorbachev reforms of the mid-1980s encouraged demands for greater freedom. On 25 Aug. 1991 Belarus declared its independence and in Dec. it became a founder member of the CIS. The Communists retained power in Belarus despite formidable opposition and it was not until a new constitution was adopted in March 1994 that the economic reformers began to influence events. Even so, by 1996 only 11% of state enterprises had been

privatized and the government remains pro-Russian. A referendum held over 9–24 Nov. 1996 extended the President's term of office from 3 to 5 years and increased his powers to rule by decree.

TERRITORY AND POPULATION

Belarus is situated along the western Dvina and Dnieper. It is bounded in the west by Poland, north by Latvia and Lithuania, east by Russia and south by Ukraine. The area is 207,600 sq. km (80,134 sq. miles). The capital is Minsk. Other important towns are Homel, Vitebsk, Mahilyou, Bobruisk, Hrodno and Brest. On 2 Nov. 1939 western Belorussia was incorporated with an area of over 108,000 sq. km and a population of 4·8m. Census population, 1999, 10,045,237; density, 48·4 per sq. km.

The UN gives a projected population for 2010 of 10·06m.

In 1998, 73·2% of the population lived in urban areas. Major ethnic groups: 78% Belorussians, 13% Russians, 4% Poles, 3% Ukrainians, 1% Jews, 1% others.

Belarus comprises 6 provinces. Areas and estimated populations:

<i>Province</i>	<i>Area sq. km</i>	<i>Population 1995</i>	<i>Capital</i>	<i>Population 1996</i>
Brest	32,300	1,508,000	Brest	293,100
Homel	40,400	1,594,000	Homel	500,600
Hrodno	25,000	1,209,000	Hrodno	301,800
Mahilyou	29,000	1,259,000	Mahilyou	366,700
Minsk	40,800	3,288,000	Minsk	1,671,600
Vitebsk	40,100	1,439,000	Vitebsk	356,400

There is an 11-member *Constitutional Court*. The chief justice and 5 other judges are appointed by the President.

4 referendums held on 14 May 1995 gave the President powers to dissolve parliament; work for closer economic integration with Russia; establish Russian as an official language of equal status with Belorussian; and introduce a new flag.

At the referendum of 9–24 Nov. 1996 turn-out was 84.05%. 79% of votes cast were in favour of the creation of an upper house of parliament nominated by provincial governors and 70% in favour of extending the presidential term of office by 2 years to 5 years. KEY HISTORICAL EVENTS

The War of the Spanish Succession (1701–14) ended with the cession of Belgium to the Austrian Hapsburgs. Briefly annexed to France during the Napoleonic war, Belgium and Holland were reunited by the Treaty of Paris (1815) to form one state. The Belgians rose in revolt and the kingdom of Belgium was formed as an independent state in 1830. By the Treaty of London, 15 Nov. 1831, the neutrality of Belgium was guaranteed by Austria, Russia, Great Britain and Prussia. In 1914

Belgian neutrality was violated and, as a consequence, Britain declared war on Germany. In the Second World War Belgium was again invaded by Germany. In the post-war years, linguistic rivalry between the Flemish (Dutch)-speaking north of the country and the French-speaking Walloons of the south led to bitter political divisions. Following constitutional reforms voted by Parliament in May 1993, Belgium became a federal state.

TERRITORY AND POPULATION

Belgium is bounded in the north by the Netherlands, northwest by the North Sea, west and south by France, and east by Germany and Luxembourg. Its area is 30,528 sq. km. The Belgian exclave of Baarle-Hertog in the Netherlands has an area of 7 sq. km and a population (1996) of 2,702. Population (1991 census), 9,978,681. Population (2000 estimate) 10,239,085, (5,233,071 females); density, 335.4 per sq. km. There were 897,110 resident foreign nationals as at 1 Jan. 2000. In 1998, 97.2% of the population lived in urban areas.

The UN gives a projected population for 2010 of 10-34m.

Dutch (Flemish) is spoken by the Flemish section of the population in the north, French by the Walloon south. The linguistic frontier passes south of the capital, Brussels, which is bilingual. Some German is spoken in the east. Each language has official status in its own community. (Bracketed names below signify French or Dutch alternatives.)

It houses the headquarters of both the EU and NATO. Capital of Belgium since its creation as a kingdom in 1831, Brussels has a population of more than 950,000 and is a notable manufacturer of chemicals and machinery. Constitutional changes since 1970 have consolidated its status as the seat of Belgium's federal government.

CONSTITUTION AND GOVERNMENT

According to the constitution of 1831, Belgium is a constitutional, representative and hereditary monarchy. The legislative power is vested in the King, the federal parliament and the community and regional councils. The King convokes parliament after an election or the resignation of a government, and has the power to dissolve it in accordance with Article 46 of the Constitution.

The reigning King is **Albert II**, born 6 June 1934, who succeeded his brother, Baudouin, on 9 Aug. 1993. Married on 2 July 1959 to Paola Ruffo di Calabria, daughter of Don Fuleo and Donna Luisa Gazelli de Rossena. *Offspring*: Prince Philippe, Duke of Brabant, b. 15 April 1960; Princess Astrid, b. 5 June 1962; Prince Laurent, b. 19 Oct. 1963. Prince Philippe married Mathilde d'Udekem d'Acoz, 4 Dec. 1999. Princess Astrid married Archduke Lorenz of Austria, 22 Sept. 1984. *Offspring*: Prince Amedeo, b. 21 Feb. 1986; Princess Maria Laura, b. 26 Aug. 1988; Prince Joachim, b. 9 Dec. 1991; Princess Luisa Maria, b. 11 Oct. 1995.

The Dowager Queen. Queen Fabiola de Mora y Aragón, daughter of the Conde de Mora y Aragón and Marqués de Casa Riera; married to King Baudouin on 15 Dec. 1960. *Sister of the King*. Josephine Charlotte, Princess of Belgium, b. 11 Oct. 1927; married to Prince Jean of Luxembourg, 9 April 1953. *Half-brother and half-sisters of the King*. Prince Alexandre, b. 18 July 1942; Princess Marie Christine, b. 6 Feb. 1951; Princess Maria-Esmeralda, b. 30 Sept. 1956.

A constitutional amendment of June 1991 permits women to accede to the throne.

The King receives an annual tax-free sum from the civil list of BEF244m. for the duration of his reign; Prince Philippe receives BEF31m.; Queen Fabiola, BEF50m.

Constitutional reforms begun in Dec. 1970 culminated in May 1993 in the transformation of Belgium from a unitary into a 'federal state, composed of communities and regions'. The communities are 3 in number and based on language: Flemish, French and German. The regions also number 3, and are based territorially: Flemish, Walloon and the Capital Brussels.

Since 1995 the federal parliament has consisted of a 150-member *Chamber of Representatives*, directly elected by obligatory universal suffrage from 20 constituencies on a proportional representation system for 4-year terms; and a *Senate* of 71 members (excluding senators by right, i.e. certain members of the Royal Family). 25 senators are elected by a Flemish, and 15 by a French, electoral college; 21 are designated by community councils (10 Flemish, 10 French and 1 German). These senators co-opt a further 10 senators (6 Flemish and 4 French).

The federal parliament's powers relate to constitutional reform, federal finance, foreign affairs, defence, justice, internal security, social security and some areas of public health. The Senate is essentially a revising chamber, though it may initiate certain legislation, and is equally competent with the Chamber of Representatives in matters concerning constitutional reform and the assent to international treaties.

The number of ministers in the federal government is limited to 15. The Council of Ministers, apart from the Prime Minister, must comprise an equal number of Dutch- and French-speakers. Members of parliament, if appointed ministers, are replaced in parliament by the runner-up on the electoral list for the minister's period of office. Community and regional councillors may not be members of the Chamber of Representatives or Senate.

National Anthem. 'La Brabançonne'; words by C. Rogier, tune by F. van Campenhout. The Flemish version is 'O Vaderland, o edel land der Belgen' ('Oh Fatherland, noble land of the Belgians').

DEFENCE

Conscription was abolished in 1995 and the Armed Forces were restructured, with the aim of progressively reducing the size and making more use of civilian personnel. The Interforces Territorial Command is responsible for assignments to assure the safety of the National Territory and for logistic support in those fields which are mutual for the different forces.

In 1999 defence expenditure totalled US\$3,445m. (US\$341 per capita), representing 1.5% of GDP. The budget for 1999 was BEF100.8bn. (US\$2,700m.). The budget for 1999 was BEF100.8bn. (US\$2,700m.).

Army. The Army consists of 3 divisions: the Intervention Force, the Combat Support Division and the Logistical Support Division. Total strength (1999) 26,400 including 1,500 women. In addition there is a reserve force of 105,000 personnel.

Navy. The naval forces, based at Ostend and Zeebrugge, include 3 frigates. Naval personnel (1999) totalled 2,600.

The naval air arm comprises 3 general utility helicopters.

Air Force. The Belgian Royal Air Force has a strength of (1999) 11,500 personnel and comprises a Tactical Air Force and a Training and Support Command (schools and logistical units). The Tactical Air Force operates 90 combat aircraft including F-16s.

INTERNATIONAL RELATIONS

Belgium is a member of the UN, WTO, EU, Council of Europe, WEU, NATO, BIS, OECD, OSCE, CERN, Inter-American Development Bank, Asian Development Bank, IOM, Antarctic Treaty and the International Organization for Francophonie. Belgium is a signatory to the Schengen Accord abolishing border controls between Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain and Sweden.

ECONOMY

Services contributed 71.2% of GDP in 1997, with industry accounting for 27.6% and agriculture just 1.1%.

Performance. The *OECD Economic Survey* of Jan. 1999 reports: 'The Belgian economy has performed fairly well over the past couple of years, with buoyant growth and low inflation... As business fixed investment has remained buoyant and private consumption and residential investment have strengthened, the driving force of the expansion has progressively shifted from net exports to domestic demand. The revival of private consumption has reflected not only stronger job creation and an acceleration in disposable personal income, but also a fall in the saving ratio, as consumer confidence has rebounded, possibly as a result of remarkable progress in fiscal consolidation and better prospects in the labour market.'

Real GDP growth was 2.8% in 1998 and 2.3% for 1999. Total GDP was US\$248.72bn. in 1998.

Wage-price performance has remained relatively good during this upswing. According to the OECD: 'The end of the 1995-96 real wage freeze was followed by modest acceleration in wage increases and compensation per employee. Contributing factors to this include the introduction of the law on employment and competitiveness, which limits on an *ex ante* basis the maximum increase in compensation per employee in the private sector to the expected weighted average increase in Germany, France and the Netherlands.'

Budget. In 1997 federal revenue (in BEF1,000m.) was 1,444.6 and expenditure 1,619.8; in 1997 regional and community revenue was 1,037.2, and expenditure 1,039.5.

The budget deficit hit a record low of 1.3% of GDP in 1998, compared with an original target of 1.7% (down from around 7% in the early 1990s). Government debt

fell from 121.9% in 1997 to 116.5% in 1998, beating the target of 118%. The projected figure for the end of 1999 was revised down from 115% to 113.8%.

VAT is 21% (reduced rate, 6%).

Currency. On 1 Jan. 1999 the euro (EUR) became the legal currency in Belgium; irrevocable conversion rate BEF40.3399 to EUR1. The euro, which consists of 100 cents, will not be in circulation until 1 Jan. 2002—until then the national currency will be used for payment in cash. There will be 7 euro notes in different colours and sizes denominated in 500, 200, 100, 50, 20, 10 and 5 euros, and 8 coins denominated in 2 and 1 euros, then 50, 20, 10, 5, 2 and 1 cents. Even though notes and coins will not be introduced until 1 Jan. 2002, the euro can be used in banking, by means of cheques, travellers' cheques, bank transfers, credit cards and electronic purses. Banking will be possible in both euros and Belgian francs until the Belgian franc is withdrawn from circulation—which must be by 1 July 2002 and is scheduled for 28 Feb. 2002. The *Belgian franc* (BEF) consists of 100 *centimes*. On 30 June 1997 the notes in circulation totalled BEF482bn. Total money supply in Dec. 1997 was BEF1,510bn. In Jan. 2000 gold reserves were 8.29m. troy oz and in Feb. 1998 foreign exchange reserves US\$15,124m. Inflation in both 1998 and 1999 was 1.1%.

In 1990 Belgian authorities decided to peg the franc to the EMS currencies considered to be stability anchors. In the present case this is the German mark.

Banking and Finance. The National Bank of Belgium was established in 1850. The *Governor*—in 2000, Guy Quaden—is appointed for a 5-year period. Its shares are listed on Euronext (Brussels); half of them are nominative held by the state.

The law of 22 Feb. 1998 has adapted the status of the National Bank of Belgium in view of the realization of the Economic and Monetary Union.

The national Bank of Belgium is within the ESCB-framework in charge of the issue of banknotes and the execution of exchange rate policy and monetary policy. Furthermore, it is the bank of banks and the cashier of the federal state.

The law of 22 March 1993 defines the legal provisions governing banking activity. It transposes into Belgian legislation the European Directive of 15 Dec. 1989 on the co-ordination of laws, regulations and administrative provisions relating to the taking up and pursuit of the business of credit institutions; and the Directive of 6 April 1992 on the supervision of credit institutions on a consolidated basis.

The term 'credit institutions' covers the Belgian credit institutions and those which come under the law of another country, be it a member of the European Union or not, with a registered office in Belgium. The activity of credit institutions must consist of receiving deposits and other repayable funds from the public, and granting credit on their own account.

The law of 4 Dec. 1990 on financial transactions and financial markets defines the legal framework for collective investment institutions, the sole object of which is the collective investment of capital raised from the public. It transposes into Belgian legislation the European Directive of 20 Dec. 1985 on the co-ordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities.

The law of 6 April 1995 relating to secondary markets, status and supervision of investment firms, intermediaries and investment consultants, provides the credit institutions with direct access to securities' stock exchanges. Stock exchange legislation was also subject to an important reform. The law fundamentally modifies the competitive environment and strengthens exercise conditions for securities' dealers.

On 31 Dec. 1999, 119 credit institutions with a balance sheet totalling BEF31,102bn. (EUR 771bn.) were established in Belgium: 75 governed by Belgian law and 44 by foreign law. 400 collective investment institutions (143 Belgian and 257 foreign) were marketed in Belgium and supervised by the Banking and Finance Commission; and 82 investment firms were operating in Belgium with the approval of the Banking and Finance Commission.

There is a stock exchange (a component of Euronext) in Brussels. Euronext was created in Sept. 2000 through the merger of the Amsterdam, Brussels and Paris bourses.

Weights and Measures. The metric system is in force.

KEY HISTORICAL EVENTS

From the 17th century, British settlers, later joined by British soldiers and sailors disbanded after the capture of Jamaica from Spain in 1655, governed themselves under a form of democracy by public meeting. A constitution was granted in 1765 and, with some modification, continued until 1840 when an executive council was created. In 1862 what was then known as British Honduras was declared a British colony with a legislative assembly and a Lieut.-Governor under the

Governor of Jamaica. The administrative connection with Jamaica was severed in 1884. Universal suffrage was introduced in 1964 and thereafter the majority of the legislature were elected rather than appointed. In June 1974 British Honduras became Belize. Independence was achieved on 21 Sept. 1981 and a new constitution introduced.

KEY HISTORICAL EVENTS

The People's Republic of Benin is the former Republic of Dahomey. Dahomey was a powerful, well-organized state from the 17th century, trading extensively in slaves through the port of Whydah with the Portuguese, British and French. On the coast an educated African elite grew up in the 19th century.

After the defeat of Dahomey, whose monarchy was abolished, the French occupied territory inland up to the River Niger and created the colony of Dahomey as part

of French West Africa. The African elite protested frequently at French rule and, as African nationalism blossomed after the Second World War, Dahomey saw lively political activity.

After Dahomey became independent on 1 Aug. 1960 civilian government was interrupted by long periods of military rule. In Oct. 1972 Gen. Mathieu Kérékou seized power and installed a new left-wing regime committed to socialist policies. A constitution was adopted in 1977, based on a single Marxist-Leninist party, the *Parti de la Révolution Populaire du Bénin* (PRPB). Benin is beset with economic problems, factional fighting and frequent plots to overthrow the regime.

KEY HISTORICAL EVENTS

A sovereign kingdom in the Himalayas, Bhutan was governed by a spiritual ruler and a temporal ruler—the Dharma and Deb Raja—from the 17th century. The interior was organized into districts controlled by governors and fort commanders. These officials formed the electoral council appointing the Deb Raja. During the 19th century civil wars were fought between district governors for the office of the Deb Raja. The election became a formality and the governors of Tongsa and

Paro were the most frequently chosen because they were the strongest. In 1863 a British attempt to bring stability to Bhutan led to war on the frontier with India.

In 1907 the office of Dharma Raja came to an end. The governor of Tongsa, Ugyen Wangchuk, was then chosen Maharajah of Bhutan, the throne becoming hereditary in his family (the title is now King of Bhutan). He concluded a treaty with the British in 1910 allowing internal autonomy but British control of foreign policy. The treaty was renewed with the Government of India in 1949. In the early 1990s, tens of thousands of 'illegal immigrants', mostly Nepali-speaking Hindus, were forcibly expelled. Nearly ten years on, there are still nearly 90,000 people claiming to be Bhutanese refugees in camps set up by the UNHCR in eastern Nepal.

TERRITORY AND POPULATION

Bhutan is situated in the eastern Himalayas, bounded in the north by Tibet and on all other sides by India. In 1949 India retroceded 32 sq. miles of Dewangiri, annexed in 1865. Area about 18,000 sq. miles (46,500 sq. km); population estimate, 1997, 1·87m.; density, 40 per sq. km.

The UN gives a projected population for 2010 of 2·61m.

In 1998, 6·7% of the population lived in urban areas. Only Rwanda has a larger proportion of its population living in rural areas. A Nepalese minority makes up 30–35% of the population, mainly in the south. The capital is Thimphu (1999, 28,000 population).

The official language is Dzongkha.

SOCIAL STATISTICS

1995 (estimates) births, 74,000 (rate of 41·4 per 1,000 population); deaths, 25,000 (rate of 14·4 per 1,000 population). Life expectancy at birth, 1998, was 60·0 years for men and 62·5 years for women. Infant mortality, 1998, 84 per 1,000 live births. Annual population growth rate, 1990–99, 2·2%; fertility rate, 1999, 5·4 children per woman.

CLIMATE

The climate is largely controlled by altitude. The mountainous north is cold, with perpetual snow on the summits, but the centre has a more moderate climate, though winters are cold, with rainfall under 40" (1,000 mm). In the south, the climate is humid sub-tropical and rainfall approaches 200" (5,000 mm).

CONSTITUTION AND GOVERNMENT

There is no formal constitution. The monarchy acts in consultation with a National Assembly (*Tshogdu*), which was reconstituted in 1953. But King Wangchuck is leaning towards democracy. In July 1998 the National Assembly was given the right to dismiss him. This has 150 members and meets at least once a year. Two-thirds are representatives of the people and are elected for a 3-year term. All Bhutanese over 30 years may be candidates.

The reigning King is **Jigme Singye Wangchuck** (b. 1955), who succeeded his father Jigme Dorji Wangchuck (died 21 July 1972).

KEY HISTORICAL EVENTS

Bolivia was part of the Inca Empire until conquered by the Spanish in the 16th century. Independence was won and the Republic of Bolivia was proclaimed on 6 Aug. 1825. During the first 154 years of its independence, Bolivia had 189 governments, many of them installed by coups. In the 1960s the Argentinian revolutionary and former minister of the Cuban government, Ernesto 'Che' Guevara, was killed in Bolivia while fighting with a left-wing guerrilla group. In 1971 Bolivian instability reached a peak with the brief establishment of a revolutionary Popular Assembly during the regime of Gen. Torres. Later repression under Gen. Hugo

Banzer took a heavy toll on the left-wing parties. Banzer was followed by a succession of military-led governments until civilian rule was restored in Oct. 1982 when Dr Siles Zuazo became president. He introduced a period of economic reform embracing free markets and open trade.

'While other Andean republics have suffered upheaval or decline, Bolivia has been a model of democratic stability for 15 years, with 2 coalitions alternating in power.' (*The Economist*, 24 June 2000).

Capital: Sarajevo

Population estimate, 2000: 4.34m.

Estimated GDP: \$5.8bn.

Republika Bosna i
Hercegovina

KEY HISTORICAL EVENTS

Settled by Slavs in the 7th century, Bosnia was conquered by the Turks in 1463 when much of the population was gradually converted to Islam. At the Congress of Berlin (1878) the territory was assigned to Austro-Hungarian administration under nominal Turkish suzerainty. Austria-Hungary's outright annexation in 1908 generated international tensions which contributed to the outbreak of the First World War. After 1918 Bosnia Hercegovina became part of a new kingdom of

Serbs, Croats and Slovenes under the Serbian monarchy. Its name was changed to Yugoslavia in 1929. (See YUGOSLAVIA for developments up to and beyond the Second World War.)

On 15 Oct. 1991 the National Assembly adopted a 'Memorandum on Sovereignty', the Serbian deputies abstaining. This envisaged Bosnian autonomy within a Yugoslav federation. Though boycotted by Serbs, a referendum in March 1992 supported independence. In March 1992 an agreement was reached by Muslims, Serbs and Croats to set up 3 autonomous ethnic communities under a central Bosnian authority.

Bosnia-Hercegovina declared itself independent on 5 April 1992. Fighting broke out between the Serb, Croat and Muslim communities, with particularly heavy casualties and destruction in Sarajevo, leading to extensive Muslim territorial losses and an exodus of refugees. UN-sponsored ceasefires were repeatedly violated.

On 13 Aug. 1992 the UN Security Council voted to authorize the use of force if necessary to ensure the delivery of humanitarian aid to besieged civilians. Internationally sponsored peace talks were held in Geneva in 1993, but Serb-Muslim-Croat fighting continued.

In Dec. 1994 Bosnian Serbs and Muslims signed a countrywide interim ceasefire. Bosnian Croats also signed in Jan. 1995. However, Croatian Serbs and the Muslim secessionist forces under Fikret Abdić did not sign the agreement, and fighting continued. On 16 June 1995 Bosnian government forces launched an attack to break the Bosnian Serb siege of Sarajevo. On 11 July Bosnian Serb forces began to occupy UN security zones despite retaliatory NATO air strikes, and on 28 Aug. shelled Sarajevo.

To stop the shelling of UN safe areas, more than 60 NATO aircraft attacked Bosnian Serb military installations on 30–31 Aug. On 26 Sept. in Washington the foreign ministers of Bosnia, Croatia and Yugoslavia (the latter negotiating for the Bosnian Serbs) agreed a draft Bosnian constitution under which a central government would handle foreign affairs and commerce and a Serb Zone, and a Muslim-Croat Federation would run their internal affairs. A ceasefire came into force on 12 Oct. 1995.

In Dayton (Ohio) on 21 Nov. 1995 the prime ministers of Bosnia, Croatia and Yugoslavia initialled a US-brokered agreement to end hostilities. The Bosnian state was divided into a Serb Republic containing 49% of Bosnian territory and a Croat-Muslim Federation. A central government authority representing all ethnic groups with responsibility for foreign and monetary policy and citizenship issues was established, and free elections held. On 20 Dec. 1995 a NATO contingent (IFOR) took over from UN peacekeeping forces to enforce the Paris peace agreements and set up a 4-km separation zone between the Serb and Muslim-Croat territories.

TERRITORY AND POPULATION

The republic is bounded in the north and west by Croatia and in the east and southeast by Yugoslavia. It has a coastline of only 20 km with no harbours. Its area is 51,129 sq. km. The capital is Sarajevo.

The UN gives a projected population for 2010 of 4.38m.

In 1999 Bosnia-Herzegovina had the fastest-growing population in Europe, with a rise of 4.6% on the 1998 figure. In 1995 an estimated 58.9% of the population lived in rural areas. By 1996, 1,319,250 Bosnians had taken refuge abroad, including 0.45m. in Yugoslavia, 0.32m. in Germany, 0.17m. in Croatia and 0.12m. in Sweden.

CONSTITUTION AND GOVERNMENT

On 18 March 1994, in Washington, Bosnian Muslims and Croats reached an agreement for the creation of a federation of cantons with a central government responsible for foreign affairs, defence and commerce. It is envisaged that there will be a president elected by a 2-house legislature alternating annually between the nationalities.

On 30 March 1994 a 123-member constituent assembly adopted the constitution by 112 votes in favour. On 31 May 1994 the National Assembly approved the creation of the Muslim Croat federation. Alija Izetbegović remained the unitary states' President. An interim government with Hasan Muratović as Prime Minister was formed on 30 Jan. 1996.

Following the Dayton agreement the government structure was established in 1996 as follows:

Heading the state is a 3-member *Presidency* (1 Croat, 1 Muslim, 1 Serb) with a rotating president. The Presidency is elected by direct universal suffrage, and is responsible for foreign affairs and the nomination of the prime minister. There is a 2-chamber parliament: the *Chamber of Representatives* (which meets in Sarajevo) comprises 42 directly elected deputies, two-thirds Croat and Muslim and one-third Serb; and the *Chamber of Peoples* (which meets in Lukavica) comprises 5 Croat, 5 Muslim and 5 Serb delegates.

Below the national level the country is divided into 2 self-governing entities along ethnic lines.

The **Croat-Muslim Federation** is headed by a President and Vice-President, alternately Croat and Muslim, a 140-member Chamber of Representatives and a 74-member Chamber of Peoples. The **Serb Republic** is also headed by an elected President and Vice-President, and there is a National Assembly of 83 members, elected by proportional representation.

Central government is conducted by a *Council of Ministers*, which comprises Muslim and Serb Co-Prime Ministers and a Croat Deputy Prime Minister. The Co-Prime Ministers alternate in office every week.

KEY HISTORICAL EVENTS

The Tswana or Batswana people are the principal inhabitants of the country formerly known as Bechuanaland. The territory was declared a British protectorate in 1895. Britain ruled through her High Commissioner in South Africa until the post was abolished in 1964. Frequent suggestions for the addition of Bechuanaland and the other two High Commission Territories to South Africa were rejected, the Africans being strongly against the idea. Economically,

however, the country was very closely tied to that of South Africa and has remained so.

In Dec. 1960 Bechuanaland received its first constitution. Further constitutional change brought full self-government in 1965 and full independence on 30 Sept. 1966.

For years Botswana had great difficulties with the neighbouring settler regime in Rhodesia, until that country became Zimbabwe in 1980. Relations with South Africa were also strained until the ending of apartheid.

‘Since independence in 1966, Botswana has enjoyed stability, democracy and an economy that has grown faster than that of any other African country.’ (*The Economist*, 20 Nov. 1999).

TERRITORY AND POPULATION

Botswana is bounded in the west and north by Namibia, northeast by Zambia and Zimbabwe, and east and south by South Africa. The area is 581,730 sq. km. Population (1991 census), 1,326,796 (45·7% urban). Estimate, 1998, 1,550,000; density, 2·3 per sq. km.

The UN gives a projected population for 2010 of 1·99m.

In 1998, 68·8% of the population were urban. Between 1990 and 1995 there was a 10% rise in the urban population every year, the largest percentage increase anywhere in the world in the same period.

The country is divided into 10 districts (Central, Chobe, Ghanzi, Kgalagadi, Kgatleng, Kweneng, Ngamiland, Ngwaketse, North East and South East).

The main towns (with population, 1998) are Gaborone (192,845), Francistown (92,516), Selebi-Phikwe (46,766), Molepolole (44,564), Kanye (35,515); 1991: Serowe (30,260), Mahalapye (28,079), Maun (26,769), Lobatse (26,052) and Mochudi (25,542).

The official languages are Setswana and English. Setswana is spoken by over 90% of the population and English by approximately 40%. More than 10 other languages, including Shona, San and Hottentot, are spoken in various tribal areas.

CONSTITUTION AND GOVERNMENT

The Constitution adopted on 30 Sept. 1966 provides for a republican form of government headed by the President with 3 main organs: the Legislature, the Executive and the Judiciary. The executive rests with the President who is responsible to the National Assembly. The President is elected for 5-year terms by the National Assembly.

The *National Assembly* consists of 47 members, 40 elected by universal suffrage, and 7 elected by itself. Elections are held every 5 years. Voting is on the first-past-the-post system.

The President is an *ex officio* member of the Assembly.

There is also a *House of Chiefs* to advise the government. It consists of the Chiefs of the 8 tribes who were autonomous during the days of the British protectorate, plus 4 members elected by and from among the sub-chiefs in 4 districts; these 12 members elect a further 3 politically independent members.

ENERGY AND NATURAL RESOURCES

Electricity. Installed capacity was 197,000 kW in 1993. Production in 1998 was 1bn. kWh. Consumption per capita was an estimated 747 kWh in 1993. The coal-fired power station at Morupule supplies cities and major towns.

Water. Surface water resources are about 18,000m. cu. metres a year. Nearly all flows into northern districts from Angola through the Okavango and Kwando river systems. The Zambezi, also in the north, provides irrigation in the Chobe District. In the southeast, there are dams to exploit the ephemeral flow of the tributaries of the Limpopo. 80% of the land has no surface water, and must be served by some 6,000 boreholes.

Minerals. Botswana is the world's biggest diamond producer in terms of value; in 1997 the total value was estimated to be US\$1.82bn. Debswana, a partnership between the government and De Beers, runs 3 mines producing around 17.5m. carats a year, with plans to double the capacity of the largest mine from 6m. to 12m. carats a year. Coal reserves are estimated at 17,000m. tonnes. There is also copper, salt and soda ash. Mineral production, 1998: diamonds, 18,500,000 carats; copper (1997), 18,350 tonnes; nickel ore (1996), 17,461 tonnes; coal (1997), 776,000 tonnes.

Agriculture. 70-80% of the total land area is desert. 80% of the population is rural, 71% of all land is 'tribal', protected and allocated to prevent over-grazing, maintain small farmers and foster commercial ranching. Agriculture provides a livelihood for over 80% of the population, but accounts for only 3% of GDP (1997). In 1997, 343,000 ha were arable and 3,000 ha permanent crops. There were 6,000 tractors in 1997 and 95 harvester-threshers. Cattle-rearing is the chief industry after diamond-mining, and the country is more a pastoral than an agricultural one, crops depending entirely upon the rainfall. In 1995, 258,000 persons were economically active in agriculture. In 1997, 100,000 ha were sown to sorghum. In 1998 there were: cattle, 2.3m.; goats, 1.82m.; sheep, 240,000; asses, 238,000; chickens, 2m. In 1995, 80% of cattle were owned by traditional farmers, about half owning fewer than 20 head. A serious outbreak of cattle lung disease in 1995-96 led to the slaughter of around 300,000 animals.

Production (1998, in 1,000 tonnes): maize, 1; sorghum, 7; millet, 1; wheat, 1; roots and tubers, 10; pulses, 12; seed cotton, 2; vegetables, 15; fruit, 8.

17% of the land is set aside for wildlife conservation and 20% for wildlife management areas, with 4 national parks and game reserves.

Forestry. Forests covered 139,000 sq. km, or 24.6% of the total land area, in 1995 (25.2% in 1990). There are forest nurseries and plantations. Concessions have been granted to harvest 7,500 cu. metres in Kasane and Chobe Forestry Reserves, and up

to 2,500 cu. metres in the Masame area. In 1998, 1.67m. cu. metres of roundwood were cut.

Environment. According to the *World Bank Atlas* Botswana's carbon dioxide emissions in 1996 were the equivalent of 1.4 tonnes per capita.

Fisheries. In 1998 total catch was estimated to be 2,000 tonnes, exclusively from inland waters.

INDUSTRY

According to the Financial Times Survey (FT 500) published in May 2000, the largest companies in Botswana in Jan. 2000 were Barclays Bank Botswana (market capitalization of US\$276.1m.) and Standard Chartered Botswana (market capitalization of US\$239.5m.).

Meat is processed, and textiles, foodstuffs and soap manufactured. 565 companies were registered at the end of 1992. Rural technology is being developed and traditional crafts encouraged.

Labour. In 1999, 255,607 persons were in formal employment. At the 1991 census there were 276,950 paid employees (including informal employment) and 28,764 self-employed. A further 76,101 persons worked on a non-cash basis, e.g. as family helpers. 60,757 were seeking work. In March 1994 there were 12,342 Botswana nationals employed in the mines of South Africa. In 1991 there were 57,001 building workers, 34,322 in trade and 29,325 in domestic service. Average earnings in 1994 in the formal sector were P807 per month. Botswana's biggest individual employer is the Debswana Diamond Company, with a workforce (1997) of nearly 6,000. In April 1998 the unemployment rate was 21%.

INTERNATIONAL TRADE

Botswana is a member of the Southern African Customs Union (SACU) with Lesotho, Namibia, South Africa and Swaziland. There are no foreign exchange restrictions. External debt in 1998 totalled US\$548m.

Imports and Exports. In 1998 imports totalled US\$2,060m. More than three-quarters of all imports are from the SACU countries, the main commodities being machinery and electrical equipment, foodstuffs, vehicles and transport equipment, textiles and petroleum products.

In 1998 export earnings totalled US\$1,921m., including diamonds (74.6% of exports), vehicles, copper, nickel and beef.

In addition to the SACU countries, other significant trading partners are the UK, Zimbabwe and the USA for exports; and South Korea, Zimbabwe and the UK for imports.

COMMUNICATIONS

Roads. In 1996 some 4,600 km of road were bitumen-surfaced out of a total of 18,482 km. In 1996 there were 66,330 motor vehicles in use (22,540 cars and 44,000 trucks and vans). In 1995, there were 410 deaths in road accidents.

In 1997 Air Botswana flew 2.1m. km, carrying 108,000 passengers (81,900 on international flights). In Oct. 1999 an Air Botswana pilot who had been suspended 2 months earlier crashed an empty passenger plane into the airline's 2 serviceable aeroplanes at Gaborone Airport, killing himself and destroying the airline's complete fleet in the process. In 1999 Gaborone handled 190,000 passengers (154,000 on international flights).

Telecommunications. There were 120,000 main telephone lines in 1999 (75.1 per 1,000 inhabitants). In 1996 there were 3,500 fax machines, and in 1999, 50,000 PCs were in use (31.3 per 1,000 persons). The number of Internet users in July 2000 was

12,000, up from 3,000 in May 1999. There were 140,000 mobile phone subscribers in Sept. 2000, compared to just 23,000 in 1998.

Postal Services. There are 109 post offices and 65 agencies.

SOCIAL INSTITUTIONS

Justice. Law is based on the Roman-Dutch law of the former Cape Colony, but judges and magistrates are also qualified in English common law. The Court of Appeal has jurisdiction in respect of criminal and civil appeals emanating from the High Court, and in all criminal and civil cases and proceedings. KEY HISTORICAL EVENTS

Brazil, South America's largest country, was colonized by the Portuguese in the 16th century and remained under Portuguese rule until independence in 1822. Bursts of economic growth were interspersed by periods of intense political rivalry which held up development. Brasília, supposed to be the catalyst for development of Brazil's huge interior, was built in the late 1950s when there was massive inflation. In 1964 the military took power, inaugurating 20 years of single party rule and censored press.

Brazil's military regime was not as brutal as those of Chile or Argentina, but at its height, around 1968 and 1969, the use of torture was widespread. The generals benefited from the Brazilian economic miracle in the late '60s and '70s when the economy was growing more than 10% every year. Brazil became one of the biggest industrial nations in the world, but unco-ordinated growth spawned corruption and inflation. By the 1980s Brazil had descended into economic chaos. Efforts to bring order to the economy climaxed in 1994 when Fernando Henrique Cardoso, a former finance minister responsible for the 'Plano Real', the economic plan to end inflation, was elected president. He instituted a radical privatization programme, a lowering of trade barriers and tight financial control, a programme which met with success up to 1997 when Brazil was hit by economic turbulence spreading from the Far East.

Rio De Janeiro: Although situated on the southeast coast and deprived of status as national capital since 1960, Rio is still the pulsing heart of Brazil. Backed by mountains and possessing the famed Copacabana beach, many colonial buildings remain as a reminder of the Portuguese arrival in 1502. A major port for the export of sugar, iron ore and coffee, Rio's roads and city centre buckle and bend under the weight of the teeming population of more than 5.5m.

São Paulo: Founded by Jesuit missionaries on 25 Jan. 1554, the city is Brazil's biggest and is the fourth largest in the world. It is 55 km from the Atlantic coast, southwest of Rio De Janeiro, and is Latin America's foremost industrial centre, accounting for 33% of Brazil's total exports. It has an international airport and is served by the nation's busiest port, Santos.

Brasília: The idea of a centralized Brazilian capital to replace vulnerable, coastal Rio was first mooted in 1789 but the site was not selected until 1956. After four years of construction Brasília was inaugurated as the new capital in 1960. Crammed with fascinating modern architecture, original plans to house 500,000 occupants have been outstripped by rapid population growth, necessitating the building of satellite towns. Total population, including these satellites, is around 2m. people.

Approximately 54% of the population of Brazil is white, 40% mixed white and black, and 5% black. There are some 260,000 native Indians, compared to nearly 5m. when the country was discovered in 1500.

SOCIAL STATISTICS

1999 estimates: births, 3,295,000 (rate of 20.1 per 1,000 population); deaths, 1,102,000 (6.7 per 1,000 population). Life expectancy was 68.32 years in 1999.

1999 growth rate, 1.3%; infant mortality (1999), 38 per 1,000 live births; fertility rate, 1999, 2.2 children per woman.

CLIMATE

Because of its latitude, the climate is predominantly tropical, but factors such as altitude, prevailing winds and distance from the sea cause certain variations, though temperatures are not notably extreme. In tropical parts, winters are dry and summers wet, while in Amazonia conditions are constantly warm and humid. The northeast *sertão* is hot and arid, with frequent droughts. In the south and east, spring and autumn are sunny and warm, summers are hot, but winters can be cold when polar air-masses impinge. Brasília, Jan. 72°F (22.3°C), July 68°F (19.8°C). Annual rainfall 60" (1,512 mm). Belém, Jan. 78°F (25.8°C), July 80°F (26.4°C). Annual rainfall 105" (2,664 mm). Manaus, Jan. 79°F (26.1°C), July 80°F (26.7°C). Annual rainfall 92" (2,329 mm). CONSTITUTION AND GOVERNMENT

The present Constitution came into force on 5 Oct. 1988, the eighth since independence. The *President* and *Vice-President* are elected for a 4-year term. To be elected candidates must secure 51% of the votes, otherwise a second round of voting is held to elect the President between the two most voted candidates. Voting is compulsory for men and women between the ages of 18 and 70, and optional for illiterates, persons from 16 to 18 years old and persons over 70. A referendum on constitutional change was held on 21 April 1993. Turn-out was 80%. 66.1% of votes cast were in favour of retaining a republican form of government, and 10.2% for re-establishing a monarchy. 56.4% favoured an executive presidency, 24.7% parliamentary supremacy.

A constitutional amendment of June 1997 authorizes the re-election of the President for one extra term of 4 years.

Congress consists of an 81-member *Senate* (3 Senators per federal unit) and a 513-member *Chamber of Deputies*. The Senate is two-thirds directly elected (50% of these elected for 8 years in rotation) and one-third indirectly elected. The Chamber of Deputies is elected by universal franchise for 4 years. There is a *Council of the Republic* which is convened only in national emergencies.

Cardoso thus became the first Brazilian president to win a second successive term in office. Turn-out was 80%.

Parliamentary elections were also held on 4 Oct. 1998 for both the Chamber of Deputies and the Senate.

In the elections to the Chamber of Deputies the government coalition gained 347 seats (Liberal Front, 106; Brazilian Social Democratic Party, 99; Party of the Brazilian Democratic Movement, 82; Progressive Party, 60); their ally the Brazilian Labour Party gained 31 seats and the opposition gained 135 (Workers' Party, 58; Democratic Labour Party, 25; others, 52).

In 1999 defence expenditure totalled US\$15,978m. (US\$98 per capita), representing 2.7% of GDP. Brazil's spending on defence is approximately 45% of all the spending on defence in South American countries. In 1985 expenditure was just US\$5,738m.

Army. There are 7 military commands and 11 military regions. Strength, 1999, 189,000 (40,000 conscripts). There is an additional potential first-line 1,115,000 of whom 400,000 are subject to immediate recall. There is a second-line reserve of 225,000 and a paramilitary Public Police Force of some 385,000.

Navy. The principal ship of the Navy is the 20,200-tonne Light Aircraft Carrier *Minas Gerais*, formerly the British *Vengeance*, completed in 1945 and purchased in 1956. There are also 4 diesel submarines and 14 frigates including 4 bought from the UK in 1995 and 1996. Fleet Air Arm personnel only fly helicopters.

Naval bases are at Rio de Janeiro, Recife, Belém, Florianópolis and Salvador, with river bases at Ladário and Manaus.

Active personnel, 1999, totalled 52,000 (3,200 conscripts), including 13,900 Marines and 1,150 in Naval Aviation.

The Brazilian navy is preparing to buy 20 McDonnell Douglas A-4 Skyhawk fighter-bombers from Kuwait for US\$70m. (£43m.) as part of a long-term project to increase its ability to protect military and civilian shipping. The jets will be the Brazilian navy's first fixed-wing aircraft and will be operated from its single aircraft carrier, the *Minas Gerais*.

INTERNATIONAL RELATIONS

Brazil is a member of the UN, WTO, OAS, Inter-American Development Bank, LAIA, Mercosur and the Antarctic Treaty.

ECONOMY

Agriculture accounted for 8.4% of GDP in 1998, industry 46.1% and services 50.3%.

Policy. In 1991 a National Reconstruction Plan was introduced to promote growth and investment and reduce the role of the state. State monopolies in ports, communications and fuels were reduced and agricultural and industrial subsidies ended. A sixth economic plan was introduced in 1993 to cut spending and accelerate privatization. Since Oct. 1994 the government has authorized privatization of the energy, electricity, petrochemicals and telecommunications sectors. The programme is the largest privatization drive in the world. After an initial stage in which steel, petrochemical, fertilizers and mining industries were privatized, the programme was headed by roads, railways, sea ports, electricity and telecommunications in 1997.

During 1990–97, 94 companies were privatized. The Real Plan (*Plano Real*), a monetary and economic stability programme, was launched in July 1994. In Nov. 1997 the government announced a package of proposed spending cuts and tax rises worth R\$20,000m. to reduce the long-standing fiscal and balance-of-payments deficits.

Revenue from privatization since 1991 has exceeded US\$18m.

In 1997 the Asian financial crisis put the *real* under pressure, forcing up interest rates to 50%. A US\$18bn. package of tax rises and spending cuts was intended to cut the budget deficit by 2.5% of GDP. Even so, Brazil's borrowing requirement had climbed from 4.5% of GDP in 1997 to 7.8% in 1998. In Nov. 1998 the IMF announced a US\$41bn. financing package to help shore up the Brazilian economy.

Performance. Real GDP growth was 17% from 1994 through 1998, equal to an annual average growth rate of 3.3%. 1998 was the sixth consecutive year of GDP growth. In 1999 growth was 0.9%. For 2000 a growth rate of 4.0% was forecast. In March 1999 an IMF agreement introduced a tight monetary policy with an emphasis on reducing the ratio of debt to GDP. Total GDP in 1998 was US\$778.2bn.

Budget. 1998 (in R\$1,000): revenue was 139,086,000 and expenditure 148,333,000. Internal federal debt, July 1996, was R\$176,478m. Internal states and municipalities (main securities outstanding), R\$49,672m.

Currency. The unit of currency is the *real* (equal to 100 *centavos*), which was introduced on 1 July 1994 to replace the former *cruzeiro real* at a rate of 1 real (R\$1) = 2,750 cruzeiros reais (CR\$2,750). The *real* was devalued in Sept. 1994. March 1995, June 1995 and Jan. 1999. Inflation fell from 2,500% in 1993 to 22% in 1995 and 11.1% in 1996, and was –1.8% in 1998, although with a forecast of a rise of 7.4% in 1999. In Sept. 1999 foreign exchange reserves were US\$41,943m. Gold reserves in Jan. 2000 totalled 2.74m. troy oz. Total money supply in Sept. 1999 was R\$47,200m.

Banking and Finance. On 31 Dec. 1964 the Banco Central do Brasil (*President*, Arminio Fraga Neto) was founded as the national bank of issue.

The Bank of Brazil (founded in 1853 and reorganized in 1906) is a state-owned commercial bank; it had 2,815 branches in 1998 throughout the republic. On 31 Dec. 1996 deposits were R\$33,604m. In 1994 there were 6 public-sector banks and 24 banks controlled by state governments.

Brazil received a record US\$33.5bn. worth of foreign direct investment in 2000. Spain was the leading investor, providing 21.3% of foreign capital, ahead of the USA.

There are 9 stock exchanges of which Rio de Janeiro and São Paulo are the most important. All except São Paulo are linked in the National Electronic Trading System (Senn).

Weights and Measures. The metric system has been compulsory since 1872.

ENERGY AND NATURAL RESOURCES

Electricity. Hydro-electric power accounts for over 90% of Brazil's total electricity output. Although Brazil was only the 10th largest electricity producer overall in the world in 1998, it was the 3rd largest producer of hydro-electric power. Installed electric capacity (1998) 61,312 MW, of which 55,857 MW were hydro-electric. There is 1 nuclear power plant, supplying some 0.2% of total output. Production (1998) 301,198 GWh (286,391 GWh hydro-electric). Consumption per capita in 1998 was 1,846 kWh.

Oil and Gas. There are 13 oil refineries, of which 11 are state-owned. Crude oil production (1997), 48,831,925 cu. metres. In 1997 domestic production of 1m. bbls. a day met 55% of demand. The state petroleum company Petrobrás was negotiating joint ventures with up to 70 interested foreign companies to develop some of its oilfields, many off-shore. Crude oil reserves were estimated at 7.3bn. bbls. in 1999.

Gas production (1998), 10,787,596,000 cu. metres with reserves of 230bn. cu. metres. One of the most significant developments recently has been the construction of the 3,150-km Bolivia-Brazil gas pipeline, one of Latin America's biggest infrastructure projects, costing around US\$2bn. (£1.2bn.). The pipeline runs from

the Bolivian interior across the Brazilian border at Puerto Suárez-Corumbá to the far southern port city of Porto Alegre. Gas from Bolivia began to be pumped to São Paulo in 1999.

Minerals. The chief minerals are bauxite, gold, iron ore, manganese, nickel, phosphates, platinum, tin and uranium. Brazil is the only source of high-grade quartz crystal in commercial quantities; output, 1992, 38,148 tonnes raw, 27,275 tonnes processed. It is a major producer of chrome ore: output, 1996, 861,845 tonnes. Other minerals, with 1996 output in tonnes, are mica, 7,000 processed; zirconium, 26,326; beryllium 6,138; graphite, 842,721; and magnesite, 1,270,015. Along the coasts of the states of Rio de Janeiro, Espírito Santo and Bahia are found monazite sands containing thorium. Manganese ores of high content are important: output, 1996, 3,715,910 tonnes; Output, 1998 (in tonnes) of bauxite, 11,961,000; salt, 6,500,000; tungsten ore, 37,058; lead (1995), 6,000; asbestos (1993), 185,000; hard coal (1996), 5,647,000. Aluminium production in 1997 was 1,189,000 tonnes. Deposits of coal exist in Rio Grande do Sul, Santa Catarina and Paraná. Total reserves were estimated at 5,190.2m. tonnes in 1988.

Iron is found chiefly in Minas Gerais, notably the Cauê Peak at Itabira. The government is opening up iron-ore deposits in Carajás, in the northern state of Pará, with estimated reserves of 35,000m. tonnes, representing a 66% concentration of high-grade iron ore. Total output of iron ore, 1998, mainly from the Vale do Rio Doce mine at Itabira, was 195m. tonnes. Brazil is the second largest producer of iron ore after China.

Production of tin ore was 20,304 tonnes in 1996; output of barytes, 1996, 44,361 tonnes, and of phosphate rock (1992), 15.5m. tonnes.

Gold is chiefly from Pará, Mato Grosso and Minas Gerais; total production (1998), 55 tonnes. Silver output (1997), 27 tonnes. Diamond output in 1998 was 900,000 carats, with the principal output coming from Minas Gerais and Mato Grosso.

Agriculture. In 1995, 30.22m. people depended on agriculture. There were 4.86m. farms in 1995. There were 53.3m. ha of arable land in 1997 and 12.0m. ha of permanent crops. 3.17m. ha were irrigated in 1997.

Brazil is the world's leading producer of sugarcane, oranges and coffee (and the second largest consumer of coffee after the USA). Harvested coffee area, 1998, 2,081,591 ha, principally in the states of Minas Gerais, Espírito Santo, São Paulo and Paraná. Harvested cocoa area, 1998, 709,997 ha. Bahia furnished 84% of the output in 1998. 2 crops a year are grown. Harvested castor-bean area, 1998, 60,979 ha. Tobacco is grown chiefly in Rio Grande do Sul and Santa Catarina.

Rubber is produced chiefly in the states of Acre, Amazonas, Rondônia and Pará. Output, 1997 (preliminary), 32,959 tonnes (natural). Brazilian consumption of rubber in 1996 was 150,676 tonnes. Plantations of tung trees were established in 1930; output, 1995, 993 tonnes.

Forestry. With forest lands covering 5,511,000 sq. km in 1995, only Russia had a larger area of forests. In 1995, 65.2% of the total land area of Brazil was under

forests, down from 66.7% in 1990. In 1990 the total area under forests was 5,639,000 sq. km. The loss of 128,000 sq. km of forests between 1990 and 1995 was the biggest in any country in the world over the same period, and more than twice the area lost in Indonesia, the country with the second biggest reduction in forest area. Nevertheless, an independent study commissioned by NASA found that the rate of deforestation was on the decline and stated that the government had been extremely active since 1990 in reducing the rate of illegal deforestation. In 1996 the government ruled that Amazonian landowners could log only 20% of their holdings, instead of 50%, as had previously been permitted. Timber production in 1998 totalled 197.8m. cu. metres. In 1997 the government's environmental agency, Ibama, levied fines of nearly US\$11m. on illicit loggers.

Environment. According to the *World Bank Atlas* Brazil's carbon dioxide emissions in 1996 were the equivalent of 1.7 tonnes per capita.

Brazil has the world's biggest river system and about a quarter of the world's primary rainforest. Current environmental issues are deforestation in the Amazon Basin, air and water pollution in Rio de Janeiro and São Paulo (the world's fourth largest city), and land degradation and water pollution caused by improper mining activities. Contaminated drinking water causes 70% of child deaths.

Fisheries. The fishing industry had a 1998 catch of an estimated 760,000 tonnes (76% sea fishing and 24% inland).

INDUSTRY

According to the Financial Times Survey (FT 500) published in May 2000, the largest companies in Brazil in April 2000 were Petrobras (market capitalization of US\$23,223.6m.), Telesp (market capitalization of US\$10,745.4m.) and Vale de Roce (market capitalization of US\$8,345.8m.).

The main industries are textiles, shoes, chemicals, cement, lumber, iron ore, tin, steel, aircraft, motor vehicles and parts, and other machinery and equipment. The National Iron and Steel Co. at Volta Redonda, State of Rio de Janeiro, furnishes a substantial part of Brazil's steel. Total output, 1999: crude steel, 24,995,000 tonnes; rolled steel, 16,808,000 tonnes; cast iron, 24,507,000 tonnes. Cement output, 1999, was 40,248,000 tonnes. Production of rubber tyres for motor vehicles (1994), 33,820,000 units; motor vehicles (1999), 1,337,003; distillate fuel oil (1997), 24,236,000 tonnes; residual fuel oil (1997), 14,993,000 tonnes; beer (1997), 6,658.2m. litres; soft drinks (1997), 5,460.2m. litres.

Labour. The workforce in 1998 numbered 69,963,113, of whom 16,338,100 worked in agriculture and 13,210,555 worked in industry (including the construction industry). A constitutional amendment of Oct. 1996 prohibits the employment of children under 14 years. In 1999 there was a minimum monthly wage of R\$136. In Feb. 2000 an estimated 8.2% of the workforce was unemployed (7.6% in 1998).

Trade Unions. The main union is the United Workers' Centre (CUT).

INTERNATIONAL TRADE

In 1990 Brazil repealed most of its protectionist legislation. Import tariffs on some 13,000 items were reduced in 1995. Since 1991 direct foreign investment on equal terms with domestic has been permitted. Foreign investment reached an annual average of US\$21.6bn. in 1997-98, much of it as a result of the privatization programme. In 1991 the government permitted an annual US\$100m. of foreign debt to be converted into funds for environmental protection. Total foreign debt, 1998, US\$232,004m. (the highest in the world).

They are in process of being privatized: all 6 branches of the RFFSA network were under private management by the end of Aug. 1997. RFFSA had a route-length of 22,069 km (65 km electrified) in 1994, and Fepasa 4,344 km (1,044 km electrified). An RFFSA subsidiary, CBTU (the Brazilian Urban Train Company), runs passenger services in some cities, while others are in the hands of the local authorities. Principal gauges are metre (24,720 km) and 1,600 mm (5,419 km). Passenger-km travelled in 1996 came to 13,999m. and freight tonne-km to 128.79bn.

There are also Regional Federal Courts, Labour Courts, Electoral Courts and Military Courts. Each state organizes its own courts and judicial system in accordance with the federal Constitution.

In Dec. 1999 President Cardoso created the country's first intelligence agency (the Brazilian Intelligence Agency) under civilian rule. It replaced informal networks which were a legacy of the military dictatorship, and will help authorities crack down on organized drug gangs.

KEY HISTORICAL EVENTS

Brunei became an independent Sultanate in the 15th century, controlling most of Borneo, its neighbouring islands and the Suhi Archipelago. By the end of the 16th century, however, the power of Brunei was on the wane. By the middle of the 19th century the State had been reduced to its present limits. Brunei became a British protectorate in 1888. The discovery of major oilfields in the western end of the State in the 1920s brought economic stability to Brunei and created a new style of

life for the population. Brunei was occupied by the Japanese in 1941 and liberated by the Australians in 1945. Self-government was introduced in 1959 but Britain retained responsibility for foreign affairs. In 1965 constitutional changes were made which led to direct elections for a new Legislative Council. Full independence and sovereignty were gained in Jan. 1984.

TERRITORY AND POPULATION

Brunei, on the coast of Borneo, is bounded in the northwest by the South China Sea and on all other sides by Sarawak (Malaysia), which splits it into two parts, the smaller portion forming the Temburong district. The UN gives a projected population for 2010 of 329,000.

In 1998, 71.1% of the population lived in urban areas. The 4 districts are Brunei/Muara (1995: 195,000), Belait (60,000), Tutong (32,500), Temburong (8,500). The capital is Bandar Seri Begawan (estimate 1999: 85,000); other large towns are Kuala Belait (1991: 21,163) and Seria (1991: 21,082). Ethnic groups include Malays 64%, and Chinese 20%.

KEY HISTORICAL EVENTS

The Bulgarians take their name from an invading Asiatic horde (Bulgars) and their language from the Slav population, with whom they merged after 680. The Bulgarians carved out empires against a background of conflict with Byzantium and Serbia but after the Serb-Bulgarian defeat at Kosovo in 1389 Bulgaria finally succumbed to Ottoman encroachment. The Ottoman empire's decline, however, engendered rebellion which met with brutal repression, provoking great power

intervention. By the Treaty of Berlin (1878): Macedonia and Thrace reverted to Turkey, Eastern Rumelia became semi-autonomous and Bulgaria proper became a principality under Turkish suzerainty.

After Austria annexed Bosnia in 1908, Bulgaria declared itself independent. To block Austrian expansion into the Balkans, Russia encouraged Greece, Serbia, Montenegro and Bulgaria to attack Turkey (First Balkan War, 1912), but in the dispute which followed over the territorial spoils Bulgaria failed to secure her claims against her formal allies by force (Second Balkan War, 1913). Territorial aspirations led Bulgaria to join the First World War on the German side.

Economic decline caused by the war produced social unrest. Ferdinand was forced to abdicate in favour of his son, Boris III, in Oct. 1918. Bedevilled by Macedonian terrorism and the effects of the world economic depression, parliamentary government was ended by a military coup in May 1934. In 1935 Boris established a royal dictatorship under which political parties were banned. Boris died in 1943 and was succeeded by a regency.

Increasingly drawn into the German economic orbit, Bulgaria joined the Nazis against Britain in March 1941. In Sept. 1944 the Soviet Union declared war and sent its troops across the frontiers. The Communist-dominated Fatherland Front formed a government and a referendum in 1946 abolished the monarchy. Demonstrations in Sofia in Nov. 1989, occasioned by the Helsinki Agreement ecological conference, broadened into demands for political reform. In Dec. the National Assembly approved 21 measures of constitutional reform, including the abolition of the Communist Party's sole right to govern. But attempts at economic reform led to strikes and unrest. In 1996 Petar Stoyanov was elected as an anti-Communist pro-reform President. In the election the following April the anti-Communist Union of Democratic Forces (UDF) coalition, led by Ivan Kostov and Alexander Bozhkov, swept back to power.

The area of Bulgaria is 110,993 sq. km (42,855 sq. miles). It is bounded in the north by Romania, east by the Black Sea, south by Turkey and Greece, and west by Yugoslavia and the Republic of Macedonia. The country is divided into 9 regions.

Area and population in 1996:

Region	Area (sq. km)	Pop. (1,000)	Region	Area (sq. km)	Pop. (1,000)
Bourgas	14,724	847	Rousse	10,843	760
Haskovo	13,824	889	Sofia (city)	1,311	1,192

Defence expenditure in 1999 totalled US\$392m. (US\$47 per capita), representing 3.3% of GDP. In 1985 the total had been US\$2,425m., equivalent to US\$288 per capita and representing 14.0% of GDP.

At the European Union's Helsinki Summit in Dec. 1999 Bulgaria, along with 5 other countries, was invited to begin full negotiations for membership in Feb. 2000.

ECONOMY

Agriculture accounted for 18.8% of GDP in 1998, industry 25.5% and services 55.7%.

Policy. At the beginning of 1992, 95% of enterprises were still in state ownership. A plan to privatize a further 500 large and medium-sized firms was introduced in 1993. Mining, energy, oil processing, railways and munitions production remain in state hands. A law of April 1992 allocates 10% of the proceeds of privatization to agricultural development, 20% to the compensation of former owners, 30% to social funds and 40% to local management councils to cover irrecoverable debts. A Centre for Mass Privatization was set up in 1994 to supervise a new stage of privatization in an attempt to speed it up. By mid-1999 nearly 2,000 privatization deals had been completed.

Privatized firms enjoy a 5-year tax exemption. 67 loss-making public enterprises were wound up in 1996.

Performance. Total GDP in 1998 was US\$12.3bn. Real GDP growth in 1997 was -7.5% (-10.7% in 1996), but was estimated to be 3.5% in 1998. In 1999 it was forecast to be negative again, at -1.2%, but then followed by a rate of 4.5% for 2000. In 1997-98 the country pulled itself back from the abyss of economic and financial disaster. Its success in stabilizing the economy, in the wake of the collapse of the banking system and the lurch into hyperinflation in early 1997, has exceeded most expectations.

Budget. The fiscal year is the calendar year.

Government revenue and expenditure (in 1m. leva):

KEY HISTORICAL EVENTS

Formerly known as Upper Volta, the country's name was changed in 1984 to Burkina Faso, meaning 'the land of honest men'. The area it covers was settled by farming communities until their invasion by the Mossi people in the 11th century, who successfully resisted Islamic crusades and attacks by neighbouring empires for seven centuries until conquered by the French between 1895 and 1903.

France made Upper Volta a separate colony in 1919, only to abolish it as such in 1932, dividing its territory between the Ivory Coast (now Côte d'Ivoire), French Sudan (now Mali) and Niger. In 1947 the territory of Upper Volta was reconstituted. Upper Volta remained a desperately poor country often hit by drought, particularly in 1972-74 and again in 1982-84. The military has held power for most of the period after independence. In Aug. 1983 a coup brought to power Capt. Thomas Sankara, a leading radical, who headed a left-wing regime. Sankara was overthrown and killed in a coup on 15 Oct. 1987, the fifth since 1960, led by his friend Capt. Blaise Compaoré.

KEY HISTORICAL EVENTS

From 1890 Burundi was part of German East Africa and from 1919 part of Ruanda-Urundi administered by Belgium as a League of Nations mandate. Internal self-government was granted on 1 Jan. 1962, followed by independence on 1 July 1962. In April 1972 fighting broke out between rebels from both Burundi and neighbouring countries and the ruling Tutsi, apparently with the intention of destroying the Tutsi hegemony. Up to 120,000 died. On 1 Nov. 1976 President Micombero

was deposed by the Army, as was President Bagaza on 3 Sept. 1987. Pierre Buyoya assumed the presidency on 1 Oct. 1987.

On 1 June 1993 President Buyoya was defeated in elections by Melchior Ndadaye, who thus became the country's first elected president and the first Hutu president, but on 21 Oct. President Ndadaye and 6 ministers were killed in an attempted military coup. A wave of Tutsi-Hutu massacres broke out, killing over 100,000 people. On 6 April 1994 the new president, Cyprien Ntaryamira, was also killed, possibly assassinated, together with the President of Rwanda.

On 25 July 1996 the army seized power, installing Maj. Pierre Buyoya as president for the second time. In June 1998 Maj. Buyoya drew up a settlement for a power-sharing transitional government and the replacement of the prime minister by two vice-presidents, one Hutu and one Tutsi. Extremists on both sides denounced the agreement which is still under negotiation.

TERRITORY AND POPULATION

Burundi is bounded in the north by Rwanda, east and south by Tanzania and west by the Democratic Republic of the Congo, and has an area of 27,834 sq. km (10,759 sq. miles). The population at the 1990 census was 5,292,793; estimate (1996) 5,356,000; population density, 192.4 per sq. km. Only 8.4% of the population was urban in 1998.

The UN gives a projected population for 2000 of 8.92m.

There are 15 regions, all named after their chief towns. Area and population:

<i>Region</i>	<i>Area (in sq. km.)</i>	<i>Population (1990 census)</i>

The Constitution of 1981 provided for a one-party state. In Jan. 1991 the government of President Buyoya, leader of the sole party, the Party of Unity and National Progress (Uprona), proposed a new constitution which was approved by a referendum in March 1992 (with 89% of votes cast in favour), legalizing parties not based on ethnic group, region or religion and providing for presidential elections by direct universal suffrage.

There used to be a *National Assembly* with 81 members elected from 16 constituencies by proportional representation. There was a 5% threshold. On 16 July 1998 the *National Assembly* was reformed into a *National Transition Assembly*, whereby 40 additional members were appointed from a mix of political parties and civil society. Government activities are overseen by a 10-member *National Security Council*, of which the President and Prime Minister are members.

After Ntaryamira's death and possible assassination, Sylvestre Ntibantunganya (b. 1956; Frodebu) was elected *President* by the National Assembly on 5 Sept. 1994 against 5 opponents.

At the parliamentary elections of 29 June 1993, 740 candidates stood representing 6 parties. The Front for Democracy in Burundi (Frodebu) gained 65 seats with 71.4% of votes cast, and Uprona, 16 with 21.4%. A number of Frodebu MPs elected in June 1993 have been killed in the meantime. 40 additional members were elected on 16 July 1998.

Initially most countries did not recognize either Maj. Pierre Buyoya as President or the government that was formed. However, in Feb. 2001 heads of state from the Great Lakes region gave their approval to Maj. Buyoya leading the first phase of transitional government, which in April 2001 comprised:

KEY HISTORICAL EVENTS

Cambodia was made a French protectorate in 1863. A nationalist movement began in the 1930s, and anti-French feeling strengthened in 1940–41 when the French submitted to Japanese demands for bases in Cambodia. Anti-French guerrillas, active from 1945, gave the impetus to a communist-led revolution. A fragile peace was established before Cambodia gained independence in 1953 but in 1967 the Khmer Rouge took up arms to support peasants against a rice tax. Their aim was to

establish a communist rice-growing dynasty, a combination of Maoism and ancient xenophobic nationalism. From 1970 hostilities extended throughout most of the country involving US and North Vietnamese forces. During 1973 direct US and North Vietnamese participation came to an end, leaving a civil war which continued with large-scale fighting between the Khmer Republic, supported by US arms, and the United National Cambodian Front including 'Khmer Rouge' communists, supported by North Vietnam and China. After unsuccessful attempts to capture Phnom Penh in 1973 and 1974, the Khmer Rouge defeated the American backed leader Lon Nol in April 1975, when the remnants of the republican forces surrendered the city.

From 1975 the Khmer Rouge instituted a harsh and highly centralized regime. All cities and towns were forcibly evacuated and the citizens set to work in the fields. In 1978, in response to repeated border attacks, Vietnam invaded Cambodia. On 7 Jan. 1979 Phnom Penh was captured by the Vietnamese, and the Prime Minister, Pol Pot, fled. Over 2m. Cambodian lives were lost from 1975 to 1979. On 23 Oct. 1991 the warring factions and 19 countries signed an agreement in Paris instituting a ceasefire in Cambodia to be monitored by UN troops. Following the election of a constituent assembly in May 1993, a new constitution was promulgated on 23 Sept. 1993 restoring parliamentary monarchy. The Khmer Rouge continued hostilities, refusing to take part in the 1993 elections. By 1996 the Khmer Rouge had split into two warring factions. The leader of one, Ieng Sary, who had been sentenced to death in his absence for genocide, was pardoned by the King in Sept. 1996. In early Nov. 1996 Ieng Sary and some 4,000 of his forces threw in their lot with government forces.

In July 1997 Hun Sen, the second prime minister, engineered a coup which led to the exiling of first prime minister, Prince Norodom Ranariddh. However, on 30 March 1998 he returned as guest of a Japanese-brokered plan to ensure 'fair and free' elections. These took place on 26 July 1998 against a background of violence and general intimidation. Hun Sen's Cambodian People's Party declared victory.

A parliamentary monarchy was re-established by the 1993 constitution. Prince Norodom Sihanouk (b. 31 Oct. 1922) regained the throne (which had been abolished in 1955) as King on 23 Sept. 1993. He had previously reigned from 1941 to 1955. The protocol of succession is to be determined by a Throne Council consisting of the Speaker and 2 Deputy Speakers, the First and Second Prime Ministers and 2 Buddhist patriarchs. In Jan. 1996 King Sihanouk's wife, Queen Monineath, was dubbed 'First Lady'.

There is a 122-member constituent assembly, which on 14 June 1993 elected Prince Sihanouk head of state. On 21 Sept. it adopted a constitution (promulgated on 23 Sept.) by 113 votes to 5 with 2 abstentions making him monarch of a parliamentary democracy. The constitution converted the constituent assembly into a legislature sitting for a 5-year term.

RECENT ELECTIONS

Parliamentary elections were held on 27 July 1998. Under the UN-brokered constitution, a party had to win two-thirds of seats in the 122-member Parliament in order to form a government. Navy. Navy personnel in 1999 totalled about 3,000 including a naval infantry of 1,500.

Air Force. Aviation operations were resumed in 1988 under the aegis of the Army. Personnel (1999), 2,000. Of the 24 combat aircraft operated only 8 MiG-21s are serviceable.

INTERNATIONAL RELATIONS

In Jan. 1998 the European Union agreed to provide the Cambodian government with over US\$11m., primarily to fund voter registration for the election which was held in July 1998.

Cambodia is a member of the UN, Asian Development Bank, Colombo Plan, Mekong Group and the International Organization for Francophonie. Cambodia has failed to secure membership of ASEAN (deferred because of the coup in July 1997).

ECONOMY

Agriculture accounted for 50.6% of GDP in 1998, industry 14.8% and services 34.6%.

Performance. Real GDP growth was 5.0% in 1999 (1.3% in 1998). For 2000 growth of 6.0% was forecast. In 1998 total GDP was US\$2.9bn.

Budget. In 1996 revenues were 797.5bn. riels and expenditure 1,395.1bn. riels.

Currency. The unit of currency is the *riel* (KHR) of 100 *sen*. Inflation was 14.7% in 1998. Foreign exchange reserves were US\$293m. in Feb. 1998. Total money supply in Dec. 1997 was 384,761m. riels. Inflation in 1997 stood at 11.8%.

Banking and Finance. The banking system consists of the National Bank of Cambodia, which is the bank of issue; the Central Bank and 28 commercial banks (2 state-owned, 17 privately-owned, 6 foreign and 3 joint venture banks). The National Bank of Cambodia is studying the possibility of setting up a stock market and a capital market for stimulating the flow of capital from foreign countries.

ENERGY AND NATURAL RESOURCES

Electricity. Installed capacity was 100,000 kW in 1995. Production (1998) was 210m. kWh. Consumption per capita in 1997 was 20 kWh. A long-term plan for hydro-electricity has been issued by the government.

Water. In 1995, 65% of the urban and 26% of the rural population had access to safe water.

Minerals. There are phosphates and high-grade iron-ore deposits. Some small-scale gold panning and gem (mainly zircon) mining is carried out.

Agriculture. The majority of the population is engaged in agriculture, fishing or forestry. In 1997 there were 3.7m. ha of arable land and 107,000 ha of permanent crops. Before the spread of war, the high productivity provided for a low but well-fed standard of living for the peasant farmers, the majority of whom owned the land they worked before agriculture was collectivized. A relatively small proportion of the food production entered the cash economy. The war and unwise pricing policies led to a disastrous reduction in production, so much so that the country became a net importer of rice. Private ownership of land was restored by the 1989 Constitution.

A crop of 3.52m. tonnes of rice was produced in 1998. Production of other crops, 1998 (in tonnes): maize, 62,000; oranges, 62,000; soybeans, 59,000; coconuts, 58,000.

Livestock (1996): cattle, 2.8m.; pigs, 2.05m.; buffaloes, 744,000; poultry, 11m. (1995).

Forestry. Some 9.8m. ha, or 55.7% of the land area, were covered by forests in 1995, nearly half of which is reserved by the government to be awarded to concessionaires. Such areas are not at present worked to any extent. The remainder is available for exploitation by the local residents, and as a result some areas are over-exploited and conservation is not practised. Timber exports have been banned since Dec. 1996. In 1990 the area under forests was 10.65m. ha. There are substantial reserves of pitch pine. Rubber plantations are a valuable asset with production at around 40,000 tonnes per year. There are plans to expand the area

under rubber cultivation from 50,000 ha to 800,000 ha. Timber production in 1998 was 8.01m. cu. metres. In 1997 forestry represented 43% of foreign trade.

Environment. According to the *World Bank Atlas* Cambodia's carbon dioxide emissions in 1996 were less than 0.1 tonnes per capita.

Fisheries. 1998 catch, 107,900 tonnes (75,700 tonnes from inland waters).

INDUSTRY

Some development of industry had taken place before the spread of open warfare in 1970, but little was in operation by the 1990s except for rubber processing, sea-food processing, jute sack making and cigarette manufacture. In the private sector small family concerns produce a wide range of goods. Apart from rice mills, about 70 factories were functioning in 1994. Light industry is generally better developed than heavy industry.

Labour. In 1996 the labour force was 5,322,000. Females constituted 52% of the labour force in 1998—the highest proportion of women in the workforce anywhere in the world. More than 60% of the economically active population are engaged in agriculture, fishing and forestry.

INTERNATIONAL TRADE

Foreign investment has been encouraged since 1989. Legislation of 1994 exempts profits from taxation for 8 years, removes duties from various raw and semi-finished materials and offers tax incentives to investors in tourism, energy, the infrastructure and labour-intensive industries. External debt was US\$2,210m. in 1998.

Imports and Exports. Imports and exports for calendar years in US\$1m.:

	1993	1994	1995	1996	1997
Imports	470.9	744.4	855.2	643.6	736.0
Exports	280.7	486.5	852.4	641.4	732.3

The main exports are timber, rubber, soybeans and sesame. Main imports include cigarettes, construction materials, petroleum products, machinery and motor vehicles. Principal export destinations, 1995: Thailand (42.7%), Singapore (11.1%) and India (7.6%). Major import sources, 1995: Singapore (35.7%), Thailand (23.8%) and Vietnam (6.8%).

Rail. Main lines link Phnom Penh with Sisophon near the Thai border and the port of Kompong Som (total 603 km, metre gauge). After a long period of disruption due to political unrest, limited services were restored on both lines in 1992. Passengers carried, 1994, 500,000; freight carried, 1994, 100,000 tonnes.

Telecommunications. There are telephone exchanges in all the main towns. Number of telephone main lines in 1999 totalled 27,700 (2.5 per 1,000 persons). In 1997 mobile phone subscribers numbered 33,500 and there were 3,000 fax machines. In 1999, 76.3% of all telephone subscribers were mobile phone subscribers—the highest ratio of mobile to fixed-line subscribers of any country in the world. In 1999, 13,000 PCs were in use (1.2 for every 1,000 persons).

KEY HISTORICAL EVENTS

The name Cameroon derives from *camarões* (prawns), introduced by Portuguese navigators. Called Kamerun in German and Cameroun in French, the estuary was later called the Cameroons River by British navigators. The Duala people living there were important traders, selling slaves and later palm oil to Europeans. On 12 July 1884 they signed a treaty establishing German rule over Kamerun. Originally covering the Duala's territory on the Wouri, this German colony later expanded to cover a

large area inland, home to a number of African peoples. In the First World War Allied forces occupied the territory which was partitioned between France and Britain. British Cameroons consisted of British Southern Cameroons and British Northern Cameroons, adjoining Nigeria. France's mandated territory of Cameroun occupied most of the former German colony. The Dualas continued to take the lead in anti-colonial protest.

In 1946 the French and British territories became Trust Territories of the UN. In French Cameroun the *Union des Populations du Cameroun* (UPC), founded in 1948, became the major nationalist party, calling for independence and 'reunification' with British Cameroons. In Dec. 1956, when elections were held prior to self-government, the UPC began a guerrilla war against the French and the new Cameroonian government. On 1 Jan. 1960 French Cameroun gained independence. The UPC guerrillas were largely defeated by 1963. On 11 Feb. 1961 British Southern Cameroons voted in a referendum to join ex-French Cameroun, while British Northern Cameroons chose to join Nigeria. The country's name was changed to the Republic of Cameroon in 1984.

The dispute continues, with Equatorial Guinea also having become involved in the meantime. Population (1987 census) 10,494,000. Estimate (July 1996) 14,261,600 (7,150,400 females); density, 30.0 per sq. km.

KEY HISTORICAL EVENTS

The first European in Canada was John Cabot in 1497. France claimed possession in 1534. The territories which now constitute Canada came under British power at various times by settlement, conquest or cession. For the most part such efforts were directed at gaining advantage over the indigenous Indian and Eskimo communities as well as displacing French colonial rule. Conflict also broke out, however, with the fledgling United States in the Anglo-American war of 1812–14. Since then,

Canada and the USA have maintained the world's longest undefended border. Nova Scotia was occupied in 1628 by settlement at Port Royal, was ceded back to France in 1632 and was finally ceded by France in 1713 by the Treaty of Utrecht. The Hudson's Bay Company's charter, conferring rights over all the territory draining into Hudson Bay, was granted in 1670. Canada, with all its dependencies, including New Brunswick and Prince Edward Island, was formally ceded to Great Britain by France in 1763; Vancouver Island was acknowledged to be British by the Oregon Boundary Treaty of 1846; and British Columbia was established as a separate colony in 1858. As originally constituted, Canada was composed of the provinces of Upper and Lower Canada (now Ontario and Quebec), Nova Scotia and New Brunswick. They were united under the British North America Act, 1867. The Act provided that the constitution of Canada should be 'similar in principle to that of the United Kingdom'; that the executive authority should be vested in the Sovereign and carried out by a Governor-General and Privy Council; and that the legislative power should be exercised by a Parliament of two Houses: the Senate, membership of which is by appointment, and the House of Commons, whose members are elected.

In 1931 the Statute of Westminster emancipated the Provinces as well as the Dominion from the operation of the Colonial Laws Validity Act, thus removing any remaining limitations on Canada's legislative autonomy.

Provision was made in the British North America Act for the admission of British Columbia, Prince Edward Island, the Northwest Territories and Newfoundland into the Union. In 1869 Rupert's Land, or the Northwest Territories, was purchased from the Hudson's Bay Company; the province of Manitoba was erected from this territory and admitted into the confederation on 15 July 1870. On 20 July 1871 the province of British Columbia was admitted and Prince Edward Island on 1 July 1873. The provinces of Alberta and Saskatchewan were formed from the provisional districts of Alberta, Athabaska, Assiniboia and Saskatchewan, and were admitted on 1 Sept. 1905. Newfoundland formally joined Canada as its 10th province on 31 March 1949. In Feb. 1931 Norway formally recognized the Canadian title to the Sverdrup group of Arctic islands. Canada thus holds sovereignty in the whole Arctic sector north of the Canadian mainland.

In 1982 an amended constitution replaced the British North America Act to give Canada prerogative over all future constitutional changes. At the same time a charter of Rights and Freedoms was introduced recognizing the nation's multi-cultural heritage, affirming the existing rights of native peoples and the principle of equality of benefits to the provinces.

In April 1999 the predominantly-Inuit territory of Nunavut came into existence.

CONSTITUTION AND GOVERNMENT

In Nov. 1981 the Canadian government agreed on the provisions of an amended constitution, to the end that it should replace the British North America Act and that its future amendment should be the prerogative of Canada. These proposals were adopted by the Parliament of Canada and were enacted by the UK Parliament as the Canada Act of 1982. This was the final act of the UK Parliament in Canadian constitutional development. The Act gave to Canada the power to amend the Constitution according to procedures determined by the Constitutional Act 1982. The latter added to the Canadian Constitution a charter of Rights and Freedoms, and provisions which recognize the nation's multi-cultural heritage, affirm the existing rights of native peoples, confirm the principle of equalization of benefits among the provinces, and strengthen provincial ownership of natural resources.

Under the Constitution legislative power is vested in Parliament, consisting of the Queen, represented by a Governor-General, a Senate and a House of Commons. The members of the *Senate* are appointed until age 75 by summons of the Governor-General under the Great Seal of Canada. Members appointed before 2 June 1965 may remain in office for life. The Senate consists of 105 senators: 24 from Ontario, 24 from Quebec, 10 from Nova Scotia, 10 from New Brunswick, 4 from Prince Edward Island, 6 from Manitoba, 6 from British Columbia, 6 from Alberta, 6 from Saskatchewan, 6 from Newfoundland, 1 from the Yukon Territory, 1 from the Northwest Territories, and 1 from Nunavut. Each senator must be at least 30 years of age and reside in the province for which he or she is appointed. The *House of*

Commons is elected by universal secret suffrage, by a first-past-the-post system, for 5-year terms. Representation is based on the population of all the provinces taken as a whole with readjustments made after each census.

The Special Joint Committee of the Senate and the House of Commons on a Renewed Canada released a unanimous report on 28 Feb. 1992 (Beaudoin-Dobbie Report). Another constitutional document was released on 16 July 1992 by the provincial premiers which summarized the multilateral meetings on the Constitution. A final constitutional accord was arrived at by the provinces and the federal government in Aug. 1992. At a national referendum on 26 Oct. 1992 proposed constitutional reforms were rejected by 54.4% of votes cast.

Indians have representation in the *Assembly of First Nations* (Chief, Matthew Coon Come).

The office and appointment of the Governor-General are regulated by letters patent of 1947. In 1977 the Queen approved the transfer to the Governor-General of functions discharged by the Sovereign. The Governor-General is assisted by a *Privy Council* composed of Cabinet Ministers.

Canada is a member of the UN, WTO, NATO, the Commonwealth, OAS, OECD, OSCE, APEC, BIS, Inter-American Development Bank, Asian Development Bank, IOM, Antarctic Treaty and the International Organization for Francophonie.

ECONOMY

Agriculture accounted for 3% of GDP in 1998, industry 31% and services 66%.

According to the anti-corruption organization *Transparency International*, Canada ranked 5th in the world in 2000 in a survey of the countries with the least corruption in business and government. It received 9.2 out of 10 in the annual index.

Performance. GDP at market prices was \$830,828m. CDN in 1998 (\$806,737m. CDN in 1997). Real GDP growth was 4.0% in 1997, 3.1% in 1998, 4.1% in 1999 and 4.7% in 2000.

Budget. Federal government revenue and expenditure for fiscal years ending 31 March (in \$1m. CDN):

On 1 Jan. 1991 a 7% Goods and Services Tax (GST) was introduced, superseding a 13.5% Manufacturers' Sales Tax.

Banking and Finance. The Bank of Canada (established 1935) is the central bank and bank of issue. The *Governor* (David Dodge) is appointed by the Bank's directors for 7-year terms. The Minister of Finance owns the capital stock of the Bank on behalf of Canada. Banks in Canada are chartered under the terms of the Bank Act, which imposes strict conditions on capital reserves, returns to the federal government, types of lending operations, ownership and other matters. In June 2000 there were 50 chartered banks, 11 domestic and 39 foreign, with 8,267 branches in all provinces and both territories in Canada. The total assets owned by the domestic banks in 1999 came to \$1,277bn. CDN. The First Nations Bank was founded in Dec. 1996 to provide finance to Inuit and Indian entrepreneurs.

Bank charters expire every 10 years which gives the federal government an opportunity to review and amend sections of the Bank Act. Extensive changes were brought into force in June 1992. As a result of the substantial revision, bank charters were only renewed for 5 years. The chartered banks make regular detailed returns to and are subject to periodic inspection by the Superintendent of Financial Institutions, an official appointed by the government.

The Bank Act of 1980 required chartered banks to maintain a statutory primary reserve of 10% on demand deposits, 3% on foreign-currency deposits and 2% on notice deposits, with an additional 1% on the portion of notice deposits exceeding \$500m.CDN. This reserve is required to be maintained in the form of notes and deposits with the Bank of Canada. A secondary reserve of 4% in the form of treasury bills, government bonds, etc., is also required.

There are stock exchanges at Calgary (Alberta Stock Exchange), Montreal, Toronto, Vancouver and Winnipeg.

Forestry. Forestry is of great economic importance, and forestry products (pulp, newsprint, building timber) constitute Canada's most valuable exports. As of 1986, the total area of land covered by forests was estimated at 453.3m. ha. In 1995, the area classed as productive forest land was estimated at 2,446 sq. km, or 26.5% of the total land area, up from 2,437 sq. km in 1990 as a result of afforestation.

In 1998, 191.18m. cu. metres of roundwood was produced.

Fur Trade. In 1996, 1,467,500 wildlife pelts valued at \$34,541,000 CDN, and 948,800 ranch-raised pelts valued at \$41,265,300 CDN were produced.

Environment. According to the *World Bank Atlas* Canada's carbon dioxide emissions in 1996 were the equivalent of 13.8 tonnes per capita.

Fisheries. In 1993 the fishing fleet comprised 432 vessels totalling 169,900 GRT.

In 1998 the total catch was 995,011 tonnes (954,071 tonnes from sea fishing). In 1997 Atlantic landings totalled 679,283 tonnes and Pacific landings 226,183 tonnes. Value of sea fisheries landed in 1996 totalled \$1,536m. CDN.

INDUSTRY

According to the Financial Times Survey (FT 500) published in May 2000, the largest companies in Canada in April 2000 were Nortel Networks (market capitalization of US\$136,941.3m.), BCE (market capitalization of US\$64,392.0m.) and Seagram (market capitalization of US\$22,820.0m.).

At the end of 1999 the unemployment rate stood at 6.9%, the lowest rate since 1961.

In 1995, 1,607,000 working days were lost in industrial disputes.

Trade Unions. Union membership in 1994 was 4,077,987, 29.2% of the workforce. 60.8% of the membership was affiliated to the Canadian Labour Congress, 6.3% to the Confédération des Syndicats Nationaux and 4.9% to the Canadian Confederation of Labour. 19.4% of unions were unaffiliated.

It is generally established by legislation, both federal and provincial, that a trade union to which the majority of employees in a unit suitable for collective bargaining belong, is given certain rights and duties. An employer is required to meet and negotiate with such a trade union to determine wage rates and other working conditions of employees. The employer, the trade union and the employees affected are bound by the resulting agreement. If an impasse is reached in negotiation, conciliation services provided by the appropriate government board are available. Generally, work stoppages do not take place until an established conciliation or mediation procedure has been carried out, and are prohibited while an agreement is in effect.

A North American Free Trade Agreement (NAFTA) between Canada, Mexico and the USA was signed on 7 Oct. 1992 and came into force on 1 Jan. 1994.

In general, highways are controlled and maintained by the provinces, who also have the responsibility of providing assistance to their municipalities and townships. Federal expenditures are directed largely to the maintenance of national park highways, Indian Reserve roads and designated provincial/territorial highway construction projects. The Alaska Highway is part of the Canadian highway system.

In 1991 intercity and rural bus services carried 15.3m. passengers 163.6m. vehicle-km, earning \$408.2m. CDN.

There were 3,064 fatalities in road accidents in 1997.

Rail. Canada has 2 great trans-continental systems: the Canadian National Railway system (CN), a body privatized in 1995 which operated 34,483 km (1998) of routes, and the Canadian Pacific Railway (CP), a joint-stock corporation operating 24,635 km (1998). A government-funded organization, VIA Rail, operates passenger services; 3.6m. passengers were carried in 1998. There are several provincial and private railways.

There are metros in Montreal, Toronto and Vancouver, and tram/light rail systems in Calgary, Edmonton and Toronto.

Civil Aviation. Civil aviation is under the jurisdiction of the federal government. The technical and administrative aspects are supervised by Transport Canada, while the economic functions are assigned to the National Transportation Agency.

The busiest Canadian airport is Toronto (Lester B. Pearson International), which in 1998 handled 26,745,000 passengers, ahead of Vancouver International, with 15,510,000 passengers in 1998 and Calgary International, with 7,675,000 passengers in 1998. Toronto (Lester B. Pearson International) is also the busiest airport for freight, handling 360,000 tonnes in 1999. The 2 major airlines are Air Canada (privatized in July 1989) and Canadian Airlines International. In 1997 Air Canada flew 319.6m. km and carried 15,636,800 passengers, and Canadian Airlines International flew 199.7m. km and carried 8,344,600 passengers.

Shipping. In 1998 the merchant marine comprised 835 vessels over 100 GRT, including 27 oil tankers. Total tonnage, 1998, 2.5m. GRT, including oil tankers, 0.3m. GRT. In 1997 vessels totalling 74,422,000 net registered tons entered ports and vessels totalling 124,999,000 NRT cleared.

There were approximately 13.28m. Internet users in Dec. 1999 and 1m. fax machines. In 1999 there were 7m. mobile phone subscribers (229.6 for every 1,000 persons) and 11m. PCs (360.8 for every 1,000 persons).

SOCIAL INSTITUTIONS

Justice. There is a Supreme Court in Ottawa, having general appellate jurisdiction in civil and criminal cases throughout Canada. The Exchequer Court (established in 1875) was replaced by the Federal Court in 1971. This has a Trial Division, consisting of the Associate Chief Justice and 9 other judges, and an Appeal Division, consisting of the Chief Justice and 3 other judges. Its seat is in Ottawa, but each Division may sit in any place in Canada. Decisions of the Trial Division may be appealed to the Appeal Division, those of the latter to the Supreme Court. There is a Superior Court in each province and county courts, with limited jurisdiction, in most of the provinces, all the judges in these courts being appointed by the Governor-General. Police, magistrates and justices of the peace are appointed by the provincial governments.

For the year ended 31 Dec. 1997, 2,632,082 Criminal Code Offences (excluding traffic) were reported. 203,900 cases were heard in Youth Courts in 1995. There were 269 violent crimes per 100,000 population in 1996 (598 per 100,000 in the USA). In 1999 there were 536 homicides in Canada, down from 555 in 1998, giving a rate of 1.76 homicides per 100,000 population (the lowest rate for 32 years). The population in penal institutions in 1998 was 34,166 (115 per 100,000 of national population).

Royal Canadian Mounted Police (RCMP). The RCMP is a civil force maintained by the federal government. Established in 1873 as the North-West Mounted Police, it became the Royal North-West Mounted Police in 1904. Its sphere of operations was expanded in 1918 to include all of Canada west of Thunder Bay. In 1920 the force absorbed the Dominion Police, its headquarters was transferred from Regina to Ottawa, and its title was changed to Royal Canadian Mounted Police. The force is responsible to the Solicitor-General of Canada and is controlled by a Commissioner who is empowered to appoint peace officers in all the provinces and territories of Canada.

The responsibilities of the RCMP are national in scope. The administration of justice within the provinces, including the enforcement of the Criminal Code of Canada, is the responsibility of provincial governments, but all the provinces except Ontario and Quebec have entered into contracts with the RCMP to enforce criminal and provincial laws under the direction of the respective Attorneys-General. In addition, in these 8 provinces the RCMP is under agreement to provide police services to municipalities. The RCMP is also responsible for all police work in the Yukon, Northwest Territories and Nunavut, enforcing federal law and territorial ordinances. The 14 Divisions, alphabetically designated, make up the strength of the RCMP across Canada; they comprise 52 sub-divisions which include 800 detachments. Headquarters Division, as well as the Office of the Commissioner, is located in Ottawa.

Assisting the criminal investigation work of the RCMP is the Directorate of Identification Services; its services, together with those of divisional and sub-divisional units, and of 6 Forensic Laboratories, are available to police forces throughout Canada. The Canadian Police Information Centre (CPIC) at RCMP Headquarters, a national computer network, is staffed and operated by the RCMP. Law Enforcement agencies throughout Canada have access via remote terminals to information on stolen vehicles, licences and wanted persons.

In Feb. 2001 the Force had a total strength of 20,000 including regular members, special constables, civilian members and public service employees. It maintained 8,677 motor vehicles, 92 police service dogs and 156 horses.

The Force has 14 divisions actively engaged in law enforcement, 1 Headquarters Division and 1 training division. Marine services are divisional responsibilities and the Force currently has 402 boats at various points across Canada. The Air Directorate has stations throughout the country and maintains a fleet of 21 fixed-wing aircraft and 8 helicopters.

Education. Under the Constitution the provincial legislatures have powers over education. These are subject to certain qualifications respecting the rights of denominational and minority language schools. School board revenues derive from local taxation on real property, and government grants from general provincial revenue.

In 1996-97 there were 16,096 elementary and secondary public and private schools and 198 community colleges. There were 541,650 children in pre-elementary institutions; 4,969,317 children in elementary and secondary schools with 306,498 teachers; and 388,976 students in community colleges.

The adult literacy rate in 1998 was at least 99%.

In 1996 public education expenditure represented 7% of GDP.

Health. Constitutional responsibility for healthcare services rests with the provinces and territories. Accordingly, Canada's national health insurance system consists of an interlocking set of provincial and territorial hospital and medical insurance plans conforming to certain national standards rather than a single national programme. These national standards, which are set out in the Canada Health Act, include: provision of a comprehensive range of hospital and medical benefits; universal population coverage; access to necessary services on uniform terms and conditions; portability of benefits; and public administration of provincial and territorial insurance plans.

Provinces and territories satisfying these national standards are eligible for federal financial transfer payments. The provinces and territories are entitled to receive equal-per-capita federal health contributions escalated annually by the 3-year average increase in nominal GNP. These federal contributions, estimated at \$3,734m. CDN in 1993-94, are paid in the form of a combination of tax point and cash transfers. Over and above these health transfers, the federal government also provides financial support for such provincial and territorial extended healthcare service programmes as nursing-home care, certain home care services, ambulatory healthcare services and adult residential care services. These supplementary equal-per-capita cash payments were estimated at \$1,475m. CDN in 1993-94.

The national health insurance programmes were introduced in stages. The Hospital Insurance and Diagnostic Services Act was passed in 1957, providing prepaid coverage to all Canadians for in-patient and, at the option of each province

and territory, out-patient hospital services. The Medical Care Act was introduced in 1968 to extend universal coverage to all medically equipped services provided by medical practitioners. The Canada Health Act, which took effect on 1 April 1984, consolidated the original federal health insurance legislation and clarified the national standards provinces and territories are required to meet in order to qualify for full federal health contributions.

The approach taken by Canada is one of state-sponsored health insurance. Accordingly, the advent of insurance programmes produced little change in the ownership of hospitals, almost all of which are owned by non-government non-profit corporations, or in the rights and privileges of private medical practice. Patients are free to choose their own general practitioner. Except for a small percentage of the population whose care is provided for under other legislation (such as serving members of the Canadian Armed Forces and inmates of federal penitentiaries), all residents are eligible, regardless of whether they are in the workforce. Benefits are available without upper limit so long as they are medically necessary, provided any registration obligations are met.

In addition to the benefits qualifying for federal contributions, provinces and territories provide additional benefits at their own discretion. Most fund their portion of health costs out of general provincial and territorial revenues. There are no co-charges for medically necessary short-term hospital care or medical care. Most provinces and territories have charges for long-term chronic hospital care geared, approximately, to the room and board portion of the OAS-GIS payment mentioned under Welfare. Public sector spending accounts for about 72.2% of total national health expenditure.

In 1997 there were estimated to be 66,600 doctors, giving a rate of 455 persons per doctor.

Welfare. The social security system provides financial benefits and social services to individuals and their families through a variety of programmes administered by federal, provincial and municipal governments, and voluntary organizations. Federally, Human Resources and Labour is responsible for research into the areas of social issues, provision of grants and contributions for various social services, and the administration of several income security programmes. These services are: the Old Age Security programme, introduced in 1952 and to which were added the Guaranteed Income Supplement in 1967 and the Spouse's Allowance in 1975; and the Canada Pension Plan and Canada Assistance Plan which came into being in 1966.

The Old Age Security (OAS) pension is payable to persons 65 years of age and over who satisfy the residence requirements stipulated in the Old Age Security Act. The amount payable, whether full or partial, is also governed by stipulated conditions, as is the payment of an OAS pension to a recipient who absents himself from Canada. OAS pensioners with little or no income apart from OAS may, upon application, receive a full or partial supplement known as the Guaranteed Income Supplement (GIS). Entitlement is normally based on the pensioner's income in the preceding year, calculated in accordance with the Income Tax Act. The spouse of an OAS pensioner, aged 60 to 64, meeting the same residence requirements as those stipulated for OAS, may be eligible for a full or partial Spouse's Allowance (SPA). SPA is payable, on application, depending on the annual combined income of the couple (not including the pensioner spouse's basic OAS pension or GIS). In 1979 the SPA programme was expanded to include a spouse, who is eligible for SPA in the month the pensioner spouse dies, until the age of 65 or until remarriage (Extended Spouse's Allowance). Since Sept. 1985 SPA has also been available to low income widow(er)s aged 60-64 regardless of the age of their spouse at death. In Aug. 1999 the basic OAS pension was \$396.80 CDN monthly; the maximum Guaranteed Income Supplement was \$496.07 CDN monthly for a single pensioner or a married pensioner whose spouse was not receiving a pension or a Spouse's Allowance, and \$323.12 CDN monthly for each spouse of a married couple where both were pensioners. The maximum Spouse's Allowance for the same quarter was \$740.54 CDN monthly (equal to the basic pension plus the maximum GIS married rate), and \$817.57 CDN for widow(er)s.

The Canada Pension Plan (CPP) is designed to provide workers with a basic level of income protection in the event of retirement, disability or death. Benefits may be payable to a contributor, a surviving spouse or an eligible child. Actuarially adjusted

retirement benefits may begin as early as age 60 or as late as age 70. Benefits are determined by the contributor's earnings and contributions made to the Plan. Contribution is compulsory for most employed and self-employed Canadians 18 to 65 years of age. The CPP does not operate in Quebec, which has exercised its constitutional prerogative to establish a similar plan. In 1999 the maximum retirement pension payable under CPP was \$751.67 CDN; the maximum disability pension was \$903.55 CDN; and the maximum surviving spouse's pension was \$451.00 CDN (for survivors 65 years of age and over) or 60% of the retirement pension which the deceased contributor would have received at age 65. The survivor pension payable to a surviving spouse under 65 (maximum of \$414.46 CDN in 1999) is composed of two parts: a flat-rate component and an earnings-related portion. In 1999 CPP was funded by equal contributions of 3.5% of pensionable earnings from the employer and 3.5% from the employee (self-employed persons contribute the full 7%), in addition to the interest on the investment of excess funds. In 1999 the range of yearly pensionable earnings was from \$3,500 CDN to \$37,400 CDN. A person who earned and contributed at less than the maximum level generally receives monthly benefits at rates lower than the maximum allowable under CPP. There are, however, drop-out provisions that offer some protection due to child rearing, periods of disablement, unemployment or other periods of no or low earnings. In June 1999 over 5m. Canadians received Canada or Quebec Pension Plan benefits.

Social security agreements co-ordinate the operation of the Old Age Security and the CPP with the comparable social security programmes of certain other countries.

The Federal government passed legislation in Nov. 1992 which replaced the Family Allowances programme with a new Child Tax Benefit, administered jointly by Human Resources and Labour and Revenue Canada. The programme delivered Canada its first payments in Jan. 1993.

The Canadian Broadcasting Corporation operates 2 national TV networks, one in English and one in French, and there are 3 private TV networks (colour by NTSC). In 1995 there were 2,245 cable TV systems, and in 1997 there were 7,867,000 subscribers to cable television—approximately 69% of all households with TV licences in 1997 had cable TV. There were 21.5m. TV receivers and 32.3m. radio receivers in 1997.

There were 841 originating radio stations operating in 1996, of which 333 were AM and 508 FM. There were also 968 radio re-broadcasters.

CANADIAN PROVINCES

GENERAL DETAILS

The 10 provinces each have a separate parliament and administration, with a Lieut.-Governor, appointed by the Governor-General in Council at the head of the executive. They have full powers to regulate their own local affairs and dispose of their revenues, provided only that they do not interfere with the action and policy of the central administration. Among the subjects assigned exclusively to the provincial legislatures are: the amendment of the provincial constitution, except as regards the office of the Lieut.-Governor; property and civil rights; direct taxation for revenue purposes; borrowing; management and sale of Crown lands; provincial hospitals, reformatories, etc.; shop, saloon, tavern, auctioneer and other licences for local or provincial purposes; local works and undertakings, except lines of ships, railways, canals, telegraphs, etc., extending beyond the province or connecting with other provinces, and excepting also such works as the Canadian Parliament declares are for the general good; marriages, administration of justice within the province; education. On 18 July 1994 the federal and provincial governments signed an agreement easing inter-provincial barriers on government procurement, labour mobility, transport licences and product standards. Federal legislation of Dec. 1995 grants provinces a right of constitutional veto.

For the administration of the 3 territories *see* Northwest Territories, Nunavut, Yukon Territory *below*.

These persons are referred to as non-permanent residents.

Local Government. Under the terms of the British North America Act the provinces are given full powers over local government. All local government institutions are, therefore, supervised by the provinces, and are incorporated and function under provincial acts.

The acts under which municipalities operate vary from province to province. A municipal corporation is usually administered by an elected council headed by a mayor or reeve, whose powers to administer affairs and to raise funds by taxation and other methods are set forth in provincial laws, as is the scope of its obligations to, and on behalf of, the citizens. Similarly, the types of municipal corporations, their official designations and the requirements for their incorporation vary between provinces. The following table sets out the classifications as at the 1996 census:

Following the creation of Nunavut (part of the Northwest Territories) on 1 April 1999, both the Northwest Territories and Nunavut have one federal electoral district. The Northwest Territories has two census divisions and Nunavut has three.

SOCIAL INSTITUTIONS

Justice. The administration of justice within the provinces, including the enforcement of the Criminal Code of Canada, is the responsibility of provincial governments, but all the provinces except Ontario and Quebec have entered into contracts with the Royal Canadian Mounted Police (RCMP) to enforce criminal and provincial law. In addition, in these 8 provinces the RCMP is under agreement to provide police services to municipalities.

ALBERTA

KEY HISTORICAL EVENTS

The southern half of Alberta was administered from 1670 as part of Rupert's land by the Hudson's Bay Company. Trading posts were set up after 1783 when the North West Company took a share in the fur trade. In 1869 Rupert's land was transferred from the Hudson's Bay Company (which had absorbed its rival in 1821) to the new Dominion and in the following year this land was combined with the former Crown land of the North Western Territories to form the Northwest Territories. In 1882 'Alberta' first appeared as a provisional 'district', consisting of the southern half of the present province. In 1905 the Athabasca district to the north was added when provincial status was granted to Alberta.

TERRITORY AND POPULATION

The area of the province is 661,185 sq. km; 644,389 sq. km being land area and 16,796 sq. km water area. The population at the 1996 census was 2,696,826; the July 2000 estimate was 2,997,236. The urban population (1996), centres of 1,000 or over, was 79.5% and the rural 20.5%. Population (14 May 1996) of the 14 cities, as well as the 2 specialized municipalities (*see below under* Local Government for definition): Calgary, 768,082; Edmonton, 616,306; Lethbridge, 63,053; Red Deer, 60,075; St Albert, 46,888; Medicine Hat, 46,783; Grande Prairie, 31,140; Airdrie, 15,946; Leduc, 14,305; Spruce Grove, 14,271; Camrose, 13,728; Fort Saskatchewan, 12,408; Lloydminster (Alberta portion), 11,317; Wetaskiwin, 10,959; Specialized Municipality of Wood Buffalo (Fort McMurray), 35,213; Specialized Municipality of Strathcona County (Sherwood Park), 64,176.

SOCIAL STATISTICS

Births in 1999–2000 numbered 37,775 (a rate of 12.7 per 1,000 population), and deaths 18,276 (rate of 6.1 per 1,000 population).

CLIMATE

Alberta has a continental climate of warm summers and cold winters—extremes of temperature. For the capital city—Edmonton—the average temperature is 2°C (37°F). The average high temperature is 8°C (47°F), and the average low is –2°C (27°F). The hottest month is usually July (mean 17.5°C) while the coldest are Dec. and Jan. (–12.5°C). Rainfall amounts are greatest between May and Sept. In a year, the average precipitation is 461 mm (19.6") with about 129.6 cm of snowfall.

CONSTITUTION AND GOVERNMENT

The constitution of Alberta is contained in the British North America Act of 1867, and amending Acts; also in the Alberta Act of 1905, passed by the Parliament of the Dominion of Canada, which created the province out of the then Northwest Territories. All the provisions of the British North America Act, except those with respect to school lands and the public domain, were made to apply to Alberta as they apply to the older provinces of Canada. On 1 Oct. 1930 the natural resources were transferred from the Dominion to provincial government control. The province is represented by 6 members in the Senate and 26 in the House of Commons of Canada.

The executive is vested nominally in the Lieut.-Governor, who is appointed by the federal government, but actually in the Executive Council or the Cabinet of the legislature. Legislative power is vested in the Assembly in the name of the Queen.

Members of the Legislative Assembly are elected by the universal vote of adults over the age of 18 years.

RECENT ELECTIONS

In the elections held on 12 March 2001 the Progressive Conservatives won 74 of the 83 seats with 61.8% of the vote, the Liberals 7 with 27.3% and the New Democrats 2 with 8.1%.

ECONOMY

GDP per person in 1999 was \$9,005 CDN.

Performance. Real GDP growth was 2.5% in 1999. Alberta's economy is now expanding faster than that of any other Canadian province, with growth estimated to be 6.1% in 2000.

Banking and Finance. The budgetary revenue and expenditure (in \$1m. CDN) for years ending 31 March were as follows:

	1995-96	1996-97	1997-98	1998-99	1999-2000

Personal income *per capita* (1999), \$27,325 CDN.

ENERGY AND NATURAL RESOURCES

Oil and Gas. Oil sands underlie some 60,000 sq. km of Alberta, the 4 major deposits being: the Athabasca, Cold Lake, Peace River and Buffalo Head Hills deposits. Some 7% (3,250 sq. km) of the Athabasca deposit can be exploited through open-pit mining. The rest of the Athabasca, and all the deposits in the other areas, are deeper reserves which must be developed through in situ techniques. These reserves reach depths of 760 metres.

In 1999, 45,541,600 cu. metres of crude oil and crude oil by-products were produced with gross sales value of \$6,998.1m. CDN. Alberta produced 58% of Canada's crude petroleum output in 1999.

18,766,900 cu. metres of synthetic crude oil were produced in 1999.

Natural gas is found in abundance in numerous localities. In 1999, 134,575,500 cu. metres valued at \$11,934.23m. CDN were produced. Production of natural gas by-products (1997) was 25,642,500 cu. metres, valued at \$2.52m. CDN.

Minerals. Production in 1999 was 34,217,912 tonnes with 9,083,029 tonnes of coal being exported.

Value of total mineral production was \$28,999.7m. CDN in 1998.

Agriculture. There were 59,000 farms in Alberta in 1996 with a total area of 21,029,228 ha. About 9,546,547 ha are land in crop (1996 census). The majority of farms are made up of cattle, followed by grains and oilseed, and wheat.

For particulars of agricultural production and livestock *see* CANADA: Agriculture. Farm cash receipts in 1999 totalled \$6,549.1m. CDN of which crops contributed \$2,326.7m. CDN, livestock and products \$3,984.8m. CDN, and direct payments \$237.6m. CDN.

Forestry. Forest land in 1997 covered some 38.2m. ha. In 1997, 50,697 ha of forest was harvested.

Fisheries. The largest catch in commercial fishing is whitefish. Perch, tullibee, walley, pike and lake trout are also caught in smaller quantities. Commercial fish production in 1998 was 1,811 tonnes, value \$2.24m. CDN.

INDUSTRY

The leading manufacturing industries are food and beverages, petroleum refining, metal fabricating, wood industries, primary metal, chemical and chemical products and non-metallic mineral products. In 1999 there were 2,880 manufacturing establishments, in which were employed 129,000 people.

Manufacturing shipments had a total value of \$33,359m. CDN in 1999. Greatest among these shipments were (in \$1m. CDN): food, 7,815; chemicals and chemical products, 5,894; refined petroleum and coal products, 5,131; wood, 2,283; electrical and electronic products, 2,326; machinery, 1,554; fabricated metal products, 2,041; paper and allied products, 1,876; non-metal mineral products, 1,196 and printing, publishing and allied products, 1,131.

Main sales in 1999 were (in \$1m. CDN): automobiles, 7,936; food, 6,361; general merchandise, 4,457; clothing, 1,499; and fuel 1,997.

Labour. In 2000 the labour force was 1,671,400 (750,500 females), of whom approximately 1,588,200 (713,200) were employed. In 2000 a total of 35,000 new jobs were created. Alberta's unemployment rate dropped to 5% in 2000, compared to the national average of 6.8%.

INTERNATIONAL TRADE

Imports and Exports. Energy accounted for 54.5% of exports in 1999, with the USA the destination of 84.5% of all exports.

COMMUNICATIONS

Roads. In 1998 there were 13,825 km of primary highways, 15,060 km secondary highways and 130,144 km of municipal roads.

At 31 March 1999 there were 2,099,676 motor vehicles registered, including 1,673,807 passenger vehicles.

Rail. In 1998 the length of main railway lines was 7,944 km. There are light rail networks in Edmonton (12.3 km) and Calgary (29.3 km).

Telecommunications. The primary telephone system is owned and operated by the Telus Corporation. There were 4.55m. telephone subscriber lines (including residential, business and centrex lines) in service in 1999.

SOCIAL INSTITUTIONS

Justice. The Supreme Judicial authority of the province is the Court of Appeal. Judges of the Court of Appeal and Court of Queen's Bench are appointed by the Federal government and hold office until retirement at the age of 75. There are courts of lesser jurisdiction in both civil and criminal matters. The Court of Queen's Bench has full jurisdiction over civil proceedings. A Provincial Court which has jurisdiction in civil matters up to \$2,000 CDN is presided over by provincially appointed judges. Youth Courts have power to try boys and girls 12-17 years old inclusive for offences against the Young Offenders Act.

The jurisdiction of all criminal courts in Alberta is enacted in the provisions of the Criminal Code. The system of procedure in civil and criminal cases conforms as nearly as possible to the English system. In 1999, 277,995 Criminal Code offences were reported, including 55 homicides.

Education. Schools of all grades are included under the term of public school (including those in the separate school system which are publicly supported). The same board of trustees controls the schools from kindergarten to university entrance. In 1999-2000 there were approximately 579,400 pupils enrolled in grades 1-12, including private schools and special education programmes. The University of Alberta (in Edmonton), founded in 1907, had, in 1999-2000, 30,682 students; the University of Calgary, formerly part of the University of Alberta and autonomous

BRITISH COLUMBIA

since April 1966, had 25,959; University of Lethbridge, founded in 1966, had 6,010; and the Athabasca University had 19,552 students. Alberta has 26 post secondary institutions including 4 universities and 2 technical colleges.

CULTURE

Alberta has several annual festivals. Heritage Days in Edmonton (Aug.) is a celebration of multiculturalism. There are various music festivals around Alberta (rock, folk, country, jazz) throughout the summer. The Fringe Festival in Edmonton (Aug.) is ten days of performance art and theatre shows. The Calgary Stampede (July) is a rodeo, agricultural exhibits, parade and carnival. Klondike Days (July) is a celebration of gold rush heritage including a carnival and parade in Edmonton.

BRITISH COLUMBIA

KEY HISTORICAL EVENTS

British Columbia, formerly known as New Caledonia, was first administered by the Hudson's Bay Company. In 1849 Vancouver Island was given crown colony status and in 1853 the Queen Charlotte Islands became a dependency. The discovery of gold on the Fraser river and the following influx of population resulted in the creation in 1858 of the mainland crown colony of British Columbia, to which the Strikine Territory (established 1862) was later added. In 1866 the two colonies were united.

TERRITORY AND POPULATION

British Columbia has an area of 947,800 sq. km of which land area is 892,677 sq. km. The capital is Victoria. The province is bordered westerly by the Pacific Ocean and Alaska Panhandle, northerly by the Yukon and Northwest Territories, easterly by the Province of Alberta and southerly by the USA along the 49th parallel. A chain of islands, the largest of which are Vancouver Island and the Queen Charlotte Islands, affords protection to the mainland coast.

The 1996 census population was 3,724,500; estimate, 2000, 4,064,000.

The principal cities and their population estimates for 1999 are as follows: Metropolitan Vancouver, 1,990,961; Metropolitan Victoria, 334,368; Abbotsford (amalgamated with Matsqui), 114,216; Kelowna, 97,385; Kamloops, 81,958; Prince George, 80,845; Nanaimo, 76,173; Chilliwack, 65,263; Vernon, 34,227; Mission, 32,660; Campbell River, 31,295; Penticton, 30,987; North Cowichan, 27,346; Cranbrook, 19,797; Port Alberni, 19,334.

CONSTITUTION AND GOVERNMENT

The British North America Act of 1867 provided for eventual admission into the Canadian Confederation, and on 20 July 1871 British Columbia became the sixth province of the Dominion.

The Lieut.-Governor is appointed by the Governor-General of Canada, usually for a term of 5 years, and is the head of the executive government of the province.

The Legislative Assembly is elected for a maximum term of 5 years. There are 75 electoral districts. Every Canadian citizen 18 years and over, having resided a minimum of 6 months in the province, duly registered, is entitled to vote. The province is represented in the Federal Parliament by 33 members in the House of Commons, and 6 Senators.

Goods-producing industries accounted for about 14% of GDP in 1999. After 7 consecutive years of growth Manitoba's manufacturing shipments fell by 2·6% in 1999. Weak demand for agricultural machinery, the province's third largest manufacturing industry, drove down overall machinery shipments by 31·4%. Shipments by most other manufacturing industries increased, led by plastics (13·5%) and chemicals (10·4%). Manitoba's largest manufacturing industry, food processing, recorded a 4·4% increase in shipments in 1999.

The Mactaquac hydro-electric development near Fredericton has a name plate capacity of 672 MW. The largest thermal generating station, Coleson Cove, near Saint John, has 1,006 MW of installed capacity. Atlantic Canada's first nuclear generating station, a 635 MW plant on a promontory in the Bay of Fundy,

near Saint John, went into operation in 1982. New Brunswick is electrically inter-connected with utilities in neighbouring provinces of Quebec, Nova Scotia and Prince Edward Island, as well as the New England States of the USA. The sale of out-of-province power accounted for 26.4% of revenue in 1999–2000. Total revenue amounted to \$1,248m. CDN. Major construction projects were the natural gas pipeline and the oil refinery expansion.

Minerals. In 1999 approximately 15 different metals, minerals and commodities were produced. These included lead, zinc, copper, cadmium, bismuth, gold, silver, antimony, potash, salt, lime, stone, gas, coal, sand and gravel, clay, peat and marl. The total value of minerals produced in 1999 reached \$857.5m. CDN. The top 4 contributors to mineral production are zinc, silver, lead and peat accounting for 72.8% of total value in 1999. In Canada in 1999 New Brunswick ranked first in the production of zinc, bismuth and lead, second in silver, and fifth in the production of copper. Not all of the province's minerals have been explored sufficiently and research continues.

Agriculture. The total area under crops is estimated at 135,008 ha. Farms numbered 3,405 and averaged 129 ha each (census 1996). Potatoes accounted for 26.2% of total farm cash receipts in 1999. Mixed farming is common throughout the province. Dairy farming is centred around the larger urban areas, and is located mainly along the Saint John River Valley and in the southeastern sections of the province. Income from dairy products provides 18.6% of farm cash receipts. New Brunswick is self-sufficient in fluid milk and supplies a processing industry. For particulars of agricultural production and livestock, *see* CANADA: Agriculture. Farm cash receipts in 1998 were \$336.6m. CDN.

Forestry. New Brunswick contains some 59,500 sq. km of productive forest lands. The value of manufacturing shipments for the wood-related industries in 1999 was \$3,462.5m. CDN, representing 39.5% of total shipments in the province. The paper and allied industry group is the largest component of the industry, contributing 58.4% of forestry output. In 1999 wood industries employed about 16,533 people for all aspects of the forest industry, including harvesting, processing and transportation. Practically all forest products are exported from the province's numerous ports and harbours, near which many of the mills are located, or sent by road or rail to the USA.

Fisheries. Commercial fishing is one of the most important primary industries of the province, employing 7,123 in 1999. Nearly 50 commercial species of fish and shellfish are landed, including scallop, shrimp, crab, herring and cod. Landings in 1999 (116,398 tonnes) amounted to \$162.6m. CDN. In 1999 molluscs and crustaceans ranked first with a value of \$143.6m. CDN, 88.3% of the total landed value; pelagic fish second, 9.7%; and groundfish third, 1.6%. Exports (1999) totalled \$508.3m. CDN, and went mainly to the USA and Japan.

INDUSTRY

New Brunswick's location, with deepwater harbours open throughout the year and container facilities at Saint John, makes it ideal for exporting. Industries include food and beverages, paper and allied industries, and timber products. Nearly 20% of the industrial labour force work in Saint John.

Labour. New Brunswick's labour force increased by 1.6% in 2000 to 371,000 while employment rose by 1.8%. Goods producing industries employed 84,300 and the service-producing industries employed 250,100. In 2000 the participation rate rose to 61.0% and the unemployment rate was 10%.

NEWFOUNDLAND AND LABRADOR

KEY HISTORICAL EVENTS

Archaeological finds at L'Anse-au-Meadow in northern Newfoundland show that the Vikings established a colony here in about AD 1000. This site is the only known Viking colony in North America. Newfoundland was discovered by John Cabot on 24 June 1497, and was soon frequented in the summer months by the Portuguese, Spanish and French for its fisheries. It was formally occupied in Aug. 1583 by Sir Humphrey Gilbert on behalf of the English Crown but various attempts to colonize the island remained unsuccessful. Although British sovereignty was recognized in 1713 by the Treaty of Utrecht, disputes over fishing rights with the French were not finally settled till 1904. By the Anglo-French Convention of 1904, France renounced her exclusive fishing rights along part of the coast, granted under the Treaty of Utrecht, but retained sovereignty of the offshore islands of St Pierre and Miquelon. Self-governing from 1855, the colony remained outside of the Canadian confederation in 1867 and continued to govern itself until 1934, when a commission of government appointed by the British Crown assumed responsibility for governing the colony and Labrador. This body controlled the country until union with Canada in 1949.

TERRITORY AND POPULATION

Area, 371,666 sq. km (143,501 sq. miles), of which freshwater, 34,030 sq. km (13,139 sq. miles). In March 1927 the Privy Council decided the boundary between Canada and Newfoundland in Labrador. This area, now part of the Province of Newfoundland and Labrador, is 265,911 sq. km (102,699 sq. miles). The coastline is extremely irregular. Bays, fiords and inlets are numerous, and there are many good harbours with deep water close to shore. The coast is rugged with bold rocky cliffs from 60 to 130 metres high; in the Bay of Islands some of the islands rise 150 metres, with the adjacent shore 300 metres above tide level. The interior is a plateau of moderate elevation, and the chief relief features trend northeast and southwest. Long Range, the most notable of these, begins at Cape Ray and extends northeast for 300 km, the highest peak reaching 815 metres. Approximately one-third of the area is covered by water. Grand Lake, the largest body of water, has an area of about 500 sq. km. The principal rivers flow towards the northeast. On the borders of the lakes and water-courses, good land is generally found, particularly in the valleys of the Terra Nova River, the Gander River, the Exploits River and the Humber River, which are also heavily timbered.

Census population, 1996, was 551,792; estimate, July 1997, 563,641.

The capital of Newfoundland is the City of St John's (1991 population, 171,859, metropolitan area). The other cities are Mt Pearl (23,689) and Corner Brook (22,410); important towns are Conception Bay South (17,590), Grand Falls-Windsor (14,693), Gander (10,339), Labrador City (9,061), Happy Valley-Goose Bay (8,610), Stephenville (7,621), Marystown (6,739), Channel-Port aux Basques (5,644), Bay Roberts (5,474), Carbonear (5,259).

SOCIAL STATISTICS

Births in 1999–2000 numbered 4,724 (a rate of 8.8 per 1,000 population), and deaths 4,599 (rate of 8.5 per 1,000 population).

CLIMATE

The cool temperate climate is marked by heavy precipitation, distributed evenly over the year, a cool summer and frequent fogs in spring. St. John's, Jan. -4°C , July $15-8^{\circ}\text{C}$. Annual rainfall 1,240 mm.

CONSTITUTION AND GOVERNMENT

Until 1832 Newfoundland was ruled by the Governor under instructions of the Colonial Office. In that year a Legislature was brought into existence, but the Governor and his Executive Council were not responsible to it. Under the constitution of 1855, which lasted until its suspension in 1934, the government was administered by the Governor appointed by the Crown with an Executive Council responsible to the House of Assembly of 27 elected members, and a Legislative Council of 24 members nominated for life by the Governor in Council. Women were enfranchised in 1925. At the Imperial Conference of 1917 Newfoundland was constituted as a Dominion.

In 1933 the financial situation had become so critical that the government of Newfoundland asked the government of the UK to appoint a Royal Commission to investigate conditions. On the strength of their recommendations, the parliamentary form of government was suspended and Government by Commission was inaugurated on 16 Feb. 1934.

A National Convention, elected in 1946, made recommendations to H. M. government in Great Britain in 1948 as to the possible forms of future government to be submitted to the people at a national referendum. Two referenda were held. In the first referendum (June 1948) the three forms of government submitted to the people were: commission of government for 5 years; confederation with Canada; and responsible government as it existed in 1933. No one form of government received a clear majority of the votes polled, and commission of government, receiving the fewest votes, was eliminated. In the second referendum (July 1948) confederation with Canada received 78,408 and responsible government 71,464 votes.

In the Canadian Senate on 18 Feb. 1949 Royal Assent was given to the terms of union of Newfoundland and Labrador with Canada, and on 23 March 1949, in the House of Lords, London. Royal assent was given to an amendment to the British North America Act, made necessary by the inclusion of Newfoundland and Labrador as the tenth Province of Canada.

Under the terms of union of Newfoundland and Labrador with Canada, which was signed at Ottawa on 11 Dec. 1948, the constitution of the Legislature of Newfoundland and Labrador as it existed immediately prior to 16 Feb. 1934 shall, subject to the terms of the British North America Acts, 1867 to 1946, continue as the constitution of the Legislature of the Province of Newfoundland and Labrador until altered under the authority of the said Acts.

The franchise was in 1965 extended to all male and female residents who have attained the age of 19 years and are otherwise qualified as electors.

The House of Assembly (Amendment) Act, 1979, established 52 electoral districts and 52 members of the Legislature.

The province is represented by 6 members in the Senate and by 7 members in the House of Commons of Canada.

ENERGY AND NATURAL RESOURCES

Electricity. The electrical energy requirements of the province are met mainly by hydro-electric power, with petroleum fuels being utilized to provide the balance. The total amount of energy generated in the province in 1993 was 40,849,949 MWh, of which 96% was derived from hydro-electric facilities. The greater part of the energy produced in 1993 came from Churchill Falls, of which 29,942,214 MWh was sold to Hydro-Quebec under the terms of a long-term contract. Energy consumed in the province during 1993 totalled 10,907,775 MWh, with 9,251,443 MWh, or 85%, coming from hydro-electric facilities. At Dec. 1994 total electrical generating capacity in the province was 7,343 MW, with hydro-electric plants accounting for 6,601 MW, or 90%. It is estimated that potential additional hydro-electric generating capacity of up to 4.5m. kW can be developed at various sites in Labrador.

Oil and Gas. Since 1965, 140 wells have been drilled on the Continental Margin of the Province. Only the Hibernia discovery had commercial capability with production starting in the early 1990s. In 1999 oil production from Hibernia reached 36.4m. barrels (23.8m. in 1998). 2000 production is expected to increase to around 50m. barrels. The Terra Nova development is expected to produce oil early in 2001 and has approval to produce almost 40m. barrels annually.

Minerals. The mineral resources are vast but only partially documented. Large deposits of iron ore, with an ore reserve of over 5,000m. tonnes at Labrador City, Wabush City and in the Knob Lake area, are supplying approximately half of Canada's production. Other large deposits of iron ore are known to exist in the Julianne Lake area. There are a variety of other minerals being produced in more limited amounts. The Central Mineral Belt, which extends from the Smallwood Reservoir to the Atlantic coast near Makkovik, holds uranium, copper, beryllium and molybdenite potential.

Gold is the province's second most significant mineral.

Nickel exploration at Voisey's Bay, Labrador, was reduced in 1999 and was expected to be reduced further in 2000.

The percentage share of mineral shipment value in 1999 stood at 92.0% for iron ore; 2.0%, gold; 1.3%, industrial minerals (including antimony); 4.7%, structural metals. The value of mineral shipments in 1999 totalled \$833m. CDN, a drop of 24% due to reduced demand in key markets.

Agriculture. The estimated value of agricultural products sold, including livestock, 1994, was \$62.2m. CDN. In 1996, 573 census farms reported total gross farm receipts of \$2,500 CDN or more.

Forestry. The forestry economy in the province is mainly dependent on the operation of 3 newsprint mills—Corner Brook Pulp and Paper and Abitibi-Consolidated (which operates 2 mills). In 1999 the estimated value of newsprint exported totalled \$550m. CDN, an increase of 9% over 1998. Lumber mills and saw-log operations produced an all-time high of 110m. flat bd ft in 1998-99.

Fisheries. Closure of the northern cod and other groundfish fisheries has resulted in significant changes to the structure of the fishing industry. New resource

opportunities, secondary seafood production and aquaculture are the main focus today with over 100 commercial or developing aquaculture operations generating \$18m. CDN in exports in 1999. Production value rose by 37% to \$1bn. CDN.

The total catch in 1999 increased by 4% to 258,000 tonnes valued at \$518m. CDN. Crab landings increased by 31.4% and shrimp by 15.6%.

INDUSTRY

The total value of manufacturing shipments in 1999 was \$1.98bn. CDN, an increase of 13.1% compared to 1998. This consisted largely of fish products, refined petroleum and newsprint.

Labour. In 1999 those in employment numbered 204,900 (189,700 in 1999) with 18,100 workers employed in manufacturing, the highest number since 1991. The unemployment rate was expected to fall from 16.9% in 1999 to 15.9% in 2000.

Trade Unions. There were 35 unions in 1993 representing 75,627 members of international and national unions, and government employee associations.

COMMUNICATIONS

Roads. In 1993 there were 8,895 km of roads, of which 6,356 were paved. In 1994 there were 322,652 motor vehicles registered, including 216,760 passenger cars.

Rail. In 1993 the Quebec North Shore and Labrador Railway operated 576 km of standard-gauge main railway track. The route runs from Sept-Iles, Quebec, to Shefferville, Quebec, with a branch at Ross Bay Junction to Wabush, Labrador. In 1995, 22m. tonnes of freight were carried.

Civil Aviation. The province is linked to the rest of Canada by regular air services provided by Air Canada, Canadian Airlines International, Quebecair and a number of smaller air carriers.

Shipping. At 21 Dec. 1995 there were 1,624 ships on register in Newfoundland. In 1993 Marine Atlantic provided a freight and passenger service all year round to the south of the island and during the ice-free season as far north as Nain. There is a year-round ferry from Port-aux-Basques to North Sydney, Nova Scotia; and seasonal ferries connect Argentia with North Sydney, and Lewisporte with Goosebay, Labrador.

Telecommunications. There were 430 post offices in 1995. Telephone access lines numbered 262,856 in 1993 (193,987 private). There were 3,384 public pay phones.

SOCIAL INSTITUTIONS

Justice. In 1996, 33,828 Criminal Code offences were reported, including 7 homicides.

Education. The number of schools in 1994-95 was 479. The enrolment was 114,010; full-time teachers numbered 7,331. The Memorial University, offering courses in arts, science, engineering, education, nursing and medicine, had 17,226 full- and part-time students in 1994 (calendar year). Total expenditure for education by the government in 1995-96 (estimate) was \$716m. CDN.

CULTURE

Tourism. In 1999, 408,500 non-resident tourists spent approximately \$261m. CDN in the province, an increase of 9.5% over 1998. The year 2000 was expected to be the best ever for tourism as the province celebrated the 1,000th anniversary of the Vikings' arrival in North America.

NOVA SCOTIA

KEY HISTORICAL EVENTS

Nova Scotia was visited by John and Sebastian Cabot in 1497–98. In 1605 a number of French colonists settled at Port Royal. The old name of the colony, Acadia, was changed in 1621 to Nova Scotia. The French were granted possession of the colony by the Treaty of St-Germain-en-Laye (1632). In 1654 Oliver Cromwell sent a force to occupy the settlement. Charles II, by the Treaty of Breda (1667), restored Nova Scotia to the French. It was finally ceded to the British by the Treaty of Utrecht in 1713. In the Treaty of Paris (1763) France resigned all claims and in 1820 Cape Breton Island united with Nova Scotia. Representative government was granted as early as 1758 and a fully responsible legislative assembly was established in 1848. In 1867 the province entered the dominion of Canada.

QUEBEC—QUÉBEC

KEY HISTORICAL EVENTS

Quebec was known as New France from 1534 to 1763; as the province of Quebec from 1763 to 1790; as Lower Canada from 1791 to 1846; as Canada East from 1846 to 1867, and when, by the union of the four original provinces, the Confederation of the Dominion of Canada was formed, it again became known as the province of Quebec (Québec).

The Quebec Act, passed by the British Parliament in 1774, guaranteed to the people of the newly conquered French territory in North America security in their religion and language, their customs and tenures, under their own civil laws.

In a referendum on 20 May 1980, 59.5% voted against 'separatism'. At a further referendum on 30 Oct. 1995, 50.6% of votes cast were against Quebec becoming 'sovereign in a new economic and political partnership' with Canada. The electorate was 5m.; turn-out was 93%.

On 20 Aug. 1998 Canada's supreme court ruled that Quebec was prohibited by both the constitution and international law from seceding unilaterally from the rest of the country, but that a clear majority in a referendum would impose a duty on the Canadian government to negotiate. Both sides claimed victory.

SASKATCHEWAN

KEY HISTORICAL EVENTS

Saskatchewan derives its name from its major river system, which the Cree Indians called 'Kis-is-ska-tche-wan', meaning 'swift flowing'. It officially became a province when it joined the Confederation on 1 Sept. 1905.

In 1670 King Charles II granted to Prince Rupert and his friends a charter covering exclusive trading rights in 'all the land drained by streams finding their outlet in the Hudson Bay'. This included what is now Saskatchewan. The trading company was first known as The Governor and Company of Adventurers of England; later as the Hudson's Bay Company. In 1869 the Northwest Territories was formed, and this included Saskatchewan. In 1882 the District of Saskatchewan was formed. By 1885 the North-West Mounted Police had been inaugurated, with headquarters in Regina (now the capital), and the Canadian Pacific Railway's transcontinental line had been completed, bringing a stream of immigrants to southern Saskatchewan. The Hudson's Bay Company surrendered its claim to territory in return for cash and land around the existing trading posts.

TERRITORY AND POPULATION

Saskatchewan is bounded in the west by Alberta, in the east by Manitoba, in the north by the Northwest Territories and in the south by the USA. THE NORTHWEST TERRITORIES

KEY HISTORICAL EVENTS

The Territory was developed by the Hudson's Bay Company and the North West Company (of Montreal) from the 17th century. The Canadian government bought out the Hudson's Bay Company in 1869 and the Territory was annexed to Canada in 1870. The Arctic Islands lying north of the Canadian mainland were annexed to Canada in 1880.

A plebiscite held in March 1992 approved the division of the Northwest Territories into 2 separate territories. (For the new territory of Nunavut see CONSTITUTION AND GOVERNMENT, *below*, and NUNAVUT on page 416).

TERRITORY AND POPULATION

The total area of the Territories was 3,426,320 sq. km, but since the formation of Nunavut is now 1,171,918 km. Of its 5 former administrative regions—Fort Smith, Inuvik, Kitikmeot, Keewatin and Baffin—only Fort Smith and Inuvik remain in the Northwest Territories. The population at the 1991 census was 57,649, 37% of whom were Inuit (Eskimo), 16% Dene (Indian) and 7% Metis. The population at the 1996 census was 64,402; estimate, July 1997, 67,500. Following the formation of Nunavut in 1999, the population of the Northwest Territories declined to approximately 45,000. The capital is Yellowknife, population (1991); 15,179. Other main centres (with population in 1991): Iqaluit (3,552), Hay River (3,206), Inuvik (3,206), Fort Smith (2,480), Rankin Inlet (1,706) and Rae-Edzo (1,521). Iqaluit and Rankin Inlet are now in Nunavut.

SOCIAL STATISTICS

Births in 1999–2000 numbered 758 (a rate of 18.2 per 1,000 population), and deaths 160 (rate of 3.8 per 1,000 population).

CLIMATE

Conditions range from cold continental to polar, with long hard winters and short cool summers. Precipitation is low. Yellowknife, Jan. mean high -24.7°C , low -33°C ; July mean high 20.7°C , low 11.8°C . Annual rainfall 26.7 cm.

CONSTITUTION AND GOVERNMENT

The Northwest Territories comprises all that portion of Canada lying north of the 60th parallel of N. lat. except those portions within Nunavut, the Yukon Territory and the provinces of Quebec and Newfoundland.

The Northwest Territories is governed by a Premier, with a cabinet (the Executive Council) of 8 members including the Speaker, and a Legislative Assembly. The Assembly is composed of 24 members elected for a 4-year term of office. A Commissioner of the Northwest Territories acts as a Lieut.-Governor and is the federal government's senior representative in the Territorial government. The seat of government was transferred from Ottawa to Yellowknife when it was named Territorial Capital on 18 Jan. 1967. On 10 Nov. 1997 the governments of Canada and the Northwest Territories signed an agreement so that the territorial government could assume full responsibility to manage its elections.

Legislative powers are exercised by the Executive Council on such matters as taxation within the Territories in order to raise revenue, maintenance of justice, licences, solemnization of marriages, education, public health, property, civil rights and generally all matters of a local nature.

The Territorial government has assumed most of the responsibility for the administration of the Northwest Territories but political control of Crown lands and non-renewable resources still rests with the Federal government. On 6 Sept. 1988 the Federal and Territorial governments signed an agreement for the transfer of management responsibilities for oil and gas resources, located on- and off-shore, in the Northwest Territories to the Territorial government. In a Territory-wide plebiscite in April 1982, a majority of residents voted in favour of dividing the Northwest Territories into two jurisdictions, east and west. In a plebiscite held in March 1992 residents voted in favour of an east-west boundary line. Constitutions for an eastern and western government have been under discussion since 1992. A

referendum was held in Nov. 1992 among the Inuit on the formation of a third territory, **Nunavut** ('Our Land'), in the eastern Arctic, and comprising the administrative regions of Kitikmeot, Keewatin and Baffin. The electorate was 9,648; turn-out was 80%. 69% of votes cast were in favour. An agreement was signed on 25 May 1993 by the federal Prime Minister beginning the process of establishing this territory. Nunavut became Canada's 3rd territory on 1 April 1999. Its first Premier, Paul Okalik, 34, was the first and only Inuit lawyer in Nunavut. Its area of 2,254,402 sq. km was to be made over to the population of 25,000, of which some 80% are Inuit. The remainder will remain federal property. The capital is Iqaluit (formerly Frobisher Bay) with a 1999 population of 3,600. Rankin Inlet had 2,300 inhabitants in 1999, 90% of whom are Inuit.

Oil and Gas. As of July 1993, 13 licences for oil and gas exploration were held for 1.4m. ha, 20 production licences were held for 64,578 ha and 108 significant discovery licences were retained on 695,473 ha.

Crude oil is produced at Norman Wells and piped to Alberta. Value of crude oil production in 1992 was \$142.5m. CDN.

Minerals. Mineral production in 1992 was valued at \$476.2m. CDN, 4.7% of Canada's total. The Northwest Territories yielded 12.3% of lead, 15.1% of zinc, 8.8% of gold, and 2% of silver produced in Canada in 1992.

Forestry. Forest land area in the NWT consists of 61.4m. ha, about 18% of the total land area. The principal trees are white and black spruce, jack-pine, tamarack, balsam poplar, aspen and birch. In 1990–91, 56,000 cu. metres of timber, valued at \$1.83m. CDN, was produced.

Trapping and Game. The 39,629 pelts, furs and hides sold by 1,838 Northwest Territories hunters and trappers in the 1991–92 season were valued at \$2,325,814 CDN. The pelts of highest value are those of the polar bear, black and brown bear, wolf, wolverine and lynx. There are some 1.3m. barren-ground caribou, 113,000 musk ox and 12,700 polar bears. There are 2 protected herds of wood bison.

Fisheries. Commercial fishing, principally on Great Slave Lake, in 1991–92 produced 1,431,000 kg of fish valued at \$912,000 CDN, principally trout, whitefish and pickerel.

INDUSTRY

Co-operatives. There are 39 active co-operatives, including 2 housing co-operatives and one central organization to service local co-operatives, in the Northwest Territories. They are active in handicrafts, furs, fisheries, retail stores, hotels and print shops. Total revenue in 1991 was about \$41m CDN.

COMMUNICATIONS

Roads. The Mackenzie Route connects Grimshaw, Alberta, with Hay River, Pine Point, Fort Smith, Fort Providence, Rae-Edzo and Yellowknife. The Mackenzie Highway extension to Fort Simpson and a road between Pine Point and Fort Resolution have both been opened.

Highway service to Inuvik in the Mackenzie Delta was opened in spring 1980, extending north from Dawson, Yukon as the Dempster Highway. The Liard Highway connecting the communities of the Liard River valley to British Columbia opened in 1984.

In 1994 there were 26,721 motor vehicles registered, including 9,582 passenger cars and 14,890 trucks and truck tractors.

Rail. There is one small railway system in the north which runs from Hay River, on the south shore of Great Slave Lake, 435 miles south to Grimshaw, Alberta, where it connects with the Canadian National Railways, but it is not in use.

Civil Aviation. In 1993 there were 9 certified airports operated by the federal Department of Transport and 33 certified and 9 uncertified airports operated by the government of the Northwest Territories. Numerous certified and uncertified airports are operated privately in support of military operations, mining and resource exploration, and tourism. There are also privately owned float plane bases. Major communities receive daily jet service to southern points. Most smaller communities are served by scheduled turboprop air service several times weekly.

Shipping. A direct inland-water transportation route for about 1,700 miles is provided by the Mackenzie River and its tributaries, the Athabasca and Slave rivers. Subsidiary routes on Lake Athabasca, Great Slave Lake and Great Bear Lake total more than 800 miles. Communities in the eastern Arctic are resupplied by ship each summer via the Atlantic and Arctic Oceans or Hudson Bay.

Telecommunications. Telephone service is provided to nearly all communities in the Northwest Territories. Those few communities without service have high frequency or very high frequency radios for emergency use.

Postal Services. There is a postal service in all communities.

SOCIAL INSTITUTIONS

Education. In 1993-94 there were 8 divisional boards of education, which provide for more local and regional control of education. There were also 3 boards of education operating in Yellowknife: a separate school board, a public school board and a board of secondary education.

In 1993-94 there were 80 schools operating with 1,091 teachers for 16,089 enrolled students. Residences in regional larger communities provide accommodation for students from smaller communities that cannot provide all education services up to grade 12. There is a full range of courses available in the school system: academic, French immersion, native language and culture, commercial, technical and occupational training, post-secondary programmes, along with a first-year general arts university programme. Financial assistance (from the territorial government) is available to qualifying students for post-secondary studies.

Health. In 1988 complete responsibility for health services was transferred to the Territorial government by the government of Canada. There are (1993) 8 Boards of Management established to operate, manage and control the health services and programmes in their respective service regions. The health system is comprised of: 6 hospitals, providing both acute and long-term care; 6 public health clinics; 43 community health centres; 8 lay dispensaries; 6 boarding homes for patients and escorts travelling.

Welfare. Welfare services are provided by professional social workers. Facilities included (1993) for children: 7 group homes and 2 residential treatment centres.

NUNAVUT

KEY HISTORICAL EVENTS

Inuit communities started entering and moving around what is now the Canadian Arctic between 4500 BC and 1000 AD. By the 19th century these communities were under the jurisdiction of the Northwest Territories. In 1963 the Canadian government first introduced legislation to divide the territory, a proposal that failed at the order paper stage. In 1973 the Comprehensive Land Claims Policy was established which sought to define the rights and benefits of the Aboriginal population in a land claim settlement agreement. The Northwest Territories Legislative Assembly voted in favour of dividing the territory in 1980, and in a public referendum of 1982, 56% of votes cast were also for the division. In 1992 the proposed boundary was ratified in a public vote and the Inuit population approved their land claim settlement. A year later, the Nunavut Act (creating the territory) and the Nunavut Land Claim Agreement Act were passed by parliament. Iqaluit was selected as the capital in 1995.

On 15 Feb. 1999 Nunavut held elections for its Legislative Assembly and on 1 April the territory officially came into existence and the government was inaugurated.

TERRITORY AND POPULATION

The total area of the region is 2,254,402 sq. km or about 23% of Canada's total mass, making Nunavut Canada's largest territory. It contains 7 of Canada's 12 largest islands and two thirds of the country's coastline. The territory is divided into 3 regions: Qikiqtaaluk (Baffin), Kivalliq (Keewatin) and Kitikmeot. The total population at the 1996 census was 24,720 (12,910 males, 11,810 females) or 97 persons per 10,000 sq. km. 85% of the population are Inuit. The population is divided up into 28 communities of which the largest is in the capital Iqaluit, numbering 4,500.

The native Inuit language is Inuktitut.

SOCIAL STATISTICS

Births in 1999–2000 numbered 779 (a rate of 28.5 per 1,000 population), and deaths 141 (rate of 5.2 per 1,000 population). Nunavut's birth rate is the highest in Canada and is more than twice the national average of 10.9 per 1,000 births. Life expectancy, 1996: males, 67; females, 72. 56% of the population are under 25 years of age.

CLIMATE

Conditions range from cold continental to polar, with long hard winters and short cool summers. In Iqaluit, there can be as little as 4 hours sunshine per day in winter and up to 21 hours per day at the summer solstice. Iqaluit, Jan. mean high -22°C ; July mean high, 15°C .

CONSTITUTION AND GOVERNMENT

Government is by a Legislative Assembly of 19 elected members, who then choose a leader and ministers by consensus. There are no political parties. The government is being established in evolutionary stages, a process which began in 1993 and is scheduled for completion in 2009. It is intended that government be highly decentralized, consisting of 10 departments spread over 11 different communities.

Inuktitut will be the working language of government but government agencies will also offer services in English and French. Though the Inuits will be the dominant force in public government, non-Inuit citizens have the same voting rights.

RECENT ELECTIONS

The first Legislative Assembly elections were held on 15 Feb. 1999 and the government was inaugurated on 1 April. Turn-out was 99%.

CURRENT ADMINISTRATION

In March 2001 the cabinet was as follows:

Premier and Minister for Executive and Intergovernmental Affairs and Minister of Justice: Paul Okalik.

Minister for Community Government and Transportation: Jack Anawak. *Culture, Language, Elders and Youth:* Paul Kattuk. *Education:* James Arvaluk. *Finance and Administration and Human Resources:* Kelvin Ng. *Health and Social Services:* Ed Picco. *Public Works and Services:* Manito Thompson. *Sustainable Development:* Peter Kilabuk.

ECONOMY

While the cost of living in Nunavut is around 160 to 200% that of southern Canadians, the average household income is \$31,471 CDN compared to \$45,251 CDN for Canada as a whole. With unemployment running high, transport costs expensive and education limited, Nunavut has many challenges to face in its quest for self-sufficiency.

Policy. Nunavut is looking to capitalize on its wealth of natural resources and also develop its existing industries such as tourism, and arts and crafts.

Currency. The Canadian dollar is the standard currency.

Banking and Finance. Few banks have branches in the province. Iqaluit has two automated cash machines and stores are increasingly installing debit card facilities.

ENERGY AND NATURAL RESOURCES

Water. Nunavut's major rivers are on the mainland.

Minerals. There are 2 lead and zinc mines operating in the High Arctic region. There are also known deposits of copper, gold, silver and diamonds.

Hunting and Trapping. Most communities still rely on traditional foodstuffs such as caribou and seal. The Canadian government now provides meat inspections so that caribou and musk ox meat can be sold across the country.

Fisheries. Fishing is still very important in Inuit life. The principal catches are shrimp, scallop and arctic char.

INDUSTRY

The main industries are mining, tourism, fishing, hunting and trapping, arts and crafts production.

Labour. Unemployment was running at 15.3% in 1996.

COMMUNICATIONS

Roads. There is one 21-km government-maintained road between Arctic Bay and Nanisivik. There are a few paved roads in Iqaluit and Rankin Inlet, but most are unpaved. Some communities have local roads and tracks but Kivalliq has no direct land connections with southern Canada.

Civil Aviation. There are air connections between communities and a daily air connection between Iqaluit and Montreal/Ottawa.

Shipping. There is an annual summer sea-lift by ship and barge for transport of construction materials, dry goods, non-perishable food, trucks and cars, etc.

Telecommunications. There are telephone services in all communities except for Bathurst Inlet and Umingmaktok. Because of the wide distances between

communities, there is a very high rate of Internet use in Nunavut. However, line speeds are slow and there is a problem with satellite bounce.

Postal Services. There is no door-to-door delivery service, so correspondence has to be retrieved from post offices.

SOCIAL INSTITUTIONS

Justice. A territorial court has been put in place. Policing is by the Royal Canadian Mounted Police (RCMP).

Education. Approximately one third of Nunavut's population aged over 15 have less than Grade 9 schooling. Training and development is seen as central to securing a firm economic foundation for the province. The Canadian government has pledged \$40m. CDN for recruiting and training Inuit employees into Nunavut public service.

Courses in computer science, business management and public administration may be undertaken at Arctic College. In 1997–98 there were 39 schools with 7,770 students.

Health. There is one hospital in Iqaluit. 26 health centres provide nursing care for communities. For more specialized treatment, patients of Qikiqtaaluk may be flown to Montreal, patients in Kivalliq to Churchill or Winnipeg and patients in Kitikmeot to Yellowknife's Stanton Regional Hospital.

CULTURE

Broadcasting. The Canadian Broadcasting Corporation (CBC) North transmits television to Iqaluit and other communities. The Inuit Broadcasting Corporation (IBC) transmits in Inuktitut and Television Northern Canada (TVNC) is devoted to programming by and for northerners and native citizens. There are 5½ hours of Inuktitut television programming per week. Cable satellite television is also widely available.

CBC is the only local radio station accessible in all Nunavut communities.

Tourism. Auyuittuq National Park is one of the principal tourist attractions, along with the opportunity of seeing Inuit life first-hand. Under the terms of the land claim settlement, 3 more national parks are planned. It is also hoped that the publicity surrounding the new territory will encourage visitors.

YUKON TERRITORY

KEY HISTORICAL EVENTS

The territory owes its fame to the discovery of gold in the Klondike at the end of the 19th century. Formerly part of the Northwest Territories, the Yukon was joined to the Dominion as a separate territory on 13 June 1898.

Yukon First Nations People lived a semi-nomadic subsistence lifestyle in the region long before it was established as a territory. The earliest evidence of human activity was found in caves containing stone tools and animal bones estimated to be 20,000 years old. The Athapaskan cultural linguistic tradition to which most Yukon First Nations belong is more than 1,000 years old. The territory's name comes from the native 'Yu-kun-ah' for the great river that drains most of this area.

The Yukon was created as a district of the North West Territories in 1895. The Klondike Gold Rush in the late 1890s saw the invasion of thousands of stampedeers pouring into the gold fields of the Canadian northwest. Population at the peak of the rush reached 40,000. This event spurred the federal government to set up basic administrative structures in the Yukon. The territory was given the status of a separate geographical and political entity with an appointed legislative council in 1898.

YUKON TERRITORY

In 1953 the capital was moved south from Dawson City to Whitehorse, where most of the economic activity was centred.

The federal government granted the Yukon responsible government in 1979.

TERRITORY AND POPULATION

The territory consists of 1 city, 2 towns, 4 villages, 2 hamlets, 2 unincorporated communities and 13 rural communities. It is situated in the northwestern region of Canada and comprises 483,450 sq. km of which 4,480 sq. km is fresh water.

The population in 1999 was 31,166.

Principal centres are Whitehorse, the capital, 22,917; Dawson City, 1,986; Watson Lake, 1,615; Haines Junction, 777; Faro, 577.

The Yukon represents 4.8% of Canada's total land area.

SOCIAL STATISTICS

Births in 1999–2000 numbered 368 (a rate of 11.9 per 1,000 population), and deaths 163 (rate of 5.3 per 1,000 population).

CLIMATE

Temperatures in the Yukon are usually more extreme than those experienced in the southern provinces of Canada. A cold climate in winter with moderate temperatures in summer provide a considerable annual range of temperature and moderate rainfall.

Whitehorse, Jan. -18.7°C (-2.0°F), July 14°C (57.2°F). Annual precipitation 268.8 mm. Dawson City, Jan. -30.7°C (-23.3°F), July 15.6°C (60.1°F). Annual precipitation 183 mm.

CONSTITUTION AND GOVERNMENT

The Yukon was constituted a separate territory on 13 June 1898.

The Yukon Legislative Assembly consists of 17 elected members and functions in much the same way as a provincial legislature. The seat of government is at Whitehorse. It consists of an executive council with parliamentary powers similar to those of a provincial cabinet. A federally appointed commissioner acts on the recommendations made by the legislative assembly, and serves in a similar capacity to Lieut.-Governor in the provinces.

The Yukon government consists of 12 departments, as well as a Women's Directorate and 4 Crown corporations. Government departments and agencies are responsible for a similar range of activities as found in Canadian provinces, including education, economic development, tourism, renewable resources, justice, community and transportation services and finance.

The administration of certain programmes, mostly in the natural resources field, remains under federal control. The Yukon government is, however, involved in negotiations with the federal government on the transfer of further responsibilities to its jurisdiction.

RECENT ELECTIONS

At elections held on 17 April 2000 the Liberals took 10 of the available 17 seats; the New Democratic Party 6; and the Yukon Party 1.

CURRENT ADMINISTRATION

Commissioner: Jack Cable (took office on 1 Oct. 2000).

Premier: Pat Duncan.

ECONOMY

The key sectors of the economy are government, tourism, finance, insurance and real estate.

Performance. GDP at market prices in 1999 was \$1,080m. CDN. Renewable resource industries' production was estimated at \$9m. CDN in 1995. Processing of renewable resources is an important source of economic diversification. In the manufacturing sector, manufacturers' shipments were valued at \$47m. CDN in 1995. GDP per person in 1999 was \$34,839 CDN.

Banking and Finance. The Territorial government's revenue and expenditure (in \$1,000 CDN) for years ended 31 March was:

	1998-99	1999-2000 ¹	2000-01 ¹
Revenue	485,318	473,188	481,116
Expenditure	454,858	512,379	508,667

¹Projected.

ENERGY AND NATURAL RESOURCES

Electricity. The Yukon currently depends on imported refined petroleum products for about 16% of the energy it uses. At the same time, 75% of the territory's electrical supply comes from 4 utility-owned hydro-electrical facilities. There are also several microhydro facilities and studies indicate a number of sites that could support new developments.

Hydro-generated power is supplemented with diesel power plants which are located in most communities. Current capacity is 136.5 MW combined hydrodiesel-generated power. Production (1999), 295,610 MWh. There are over 100 known occurrences of coal in the Yukon and potential local markets include power generation and industrial heating.

Fuel wood represents approximately \$4m. CDN to \$5m. CDN in direct employment and petroleum substitution in the Yukon annually.

A number of Yukon homes and businesses use solar energy for heating water and to supply electricity in remote locations. Wind energy is an option being explored by both private interests and the crown-owned utility. A number of sites have been identified with wind regimes on the verge of commercial viability.

Oil and Gas. In 1997 the Yukon Oil and Gas Act was passed, replacing the federal legislation. This Act provides for the transfer of responsibility for oil and gas resources to Yukon jurisdiction. 5 unexplored oil and gas basins with rich potential exist. Modest exploration has been conducted in 3 basins. Current net production is about 1.7m. cu. metres of natural gas per day.

Minerals. Gold and silver are the chief minerals. There are also deposits of lead, zinc, copper, tungsten and iron ore. Gold deposits, both hard rock and placer, are being mined. In addition, several important occurrences of asbestos, barite and coal have been discovered.

Estimates for 1999 mineral production: gold, \$61.3m. CDN; and silver, \$0.44m. CDN. Total: \$61.8m. CDN.

Agriculture. Many areas have suitable soils and climate for the production of forages, cereal grains and vegetables, domestic livestock and game farming. The territory also has arctic char fish farms. The greenhouse industry is the Yukon's largest horticulture sector.

In 1996 there were 160 farms operating full- and part-time. There were about 24,000 acres associated with farm operations, of which 13,000 acres were in production or under development.

Farm receipts in 1996 were estimated at \$3.5m. CDN. Total farm capital, 1996, was \$45m. CDN.

Forestry. The forests, covering 281,030 sq. km of the territory, are part of the great Boreal forest region of Canada, which covers 57% of the Yukon. Vast areas are covered by coniferous stands in the southern region of Yukon, with white spruce and lodgepole pine forming on wet sites, and in northern aspects. Deciduous species form pure stands or occur mixed with conifers throughout forest areas. Yukon forestry products include posts and beams for the construction industry, roof trusses, niche products and timber.

Production from forestry was 323.5m. cu. metres in 1997-98.

Game and Furs. The country abounds with big game, such as moose, goat, caribou, mountain sheep and bear (grizzly and black). The fur-trapping industry is considered vital to rural and remote residents and especially First Nations people wishing to maintain a traditional lifestyle. Preliminary fur production in 1999 (mostly marten—in terms of both number and value—beaver, lynx, wolf and wolverine) was valued at \$225,649 CDN.

Environment. The Yukon is recognized as a critical habitat for many species of rare and endangered flowers, big game animals, birds of prey and migratory birds. There

YUKON TERRITORY

are 254 species of birds and 38 species of fish. The vegetation is classified as sub-arctic and alpine.

Three national parks (total area 36,572 sq. km), 5 territorial parks (7,861 sq. km), 2 ecological reserves (181 sq. km), 8 wildlife management areas (10,651 sq. km) and 1 wildlife sanctuary (6,450 sq. km) have been established to protect fragile and significant areas for the future.

Fisheries. Commercial fishing concentrates on chinook salmon, chum salmon, lake trout and whitefish.

INDUSTRY

The key sectors of the economy are tourism and government.

Labour. The 1999 labour force was 15,467, of whom 13,442 were employed.

INTERNATIONAL TRADE

Imports and Exports. In 1998 exports made up 38.7% of Yukon goods and services produced. In 1999 exports were valued at \$380.8m. CDN.

COMMUNICATIONS

Roads. The Alaska Highway and branch highway systems connect Yukon's main communities with Alaska, the Northwest Territories, southern Canada and the United States. The year round highway system is built and maintained to accommodate loads up to 77,000 kg. The 735-km Dempster Highway north of Dawson City connects with Inuvik, on the Arctic coast; this highway, the first public road to be built to the Arctic Ocean, was opened in Aug. 1979. The South Klondike Highway links the tidewater port of Skagway, Alaska with the Yukon. It was opened in May 1979, providing a new access to the Pacific Ocean. In 1996-97 there were 4,680 km of roads maintained by the Yukon Territorial government, of which 260 km were paved. The other major roads, including the Alaska Highway, have received a new surface treatment which resembles pavement, and the rest are all-weather gravel, of which 700 km are accessible during the summer months only. Vehicles registered in 1997 totalled 30,540, including 10,072 passenger vehicles and 19,538 trucks and truck tractors.

Rail. The 176-km White Pass and Yukon Railway connected Whitehorse with year-round ocean shipping at Skagway, Alaska, but was closed in 1982. A modified passenger service was restarted in 1988 to take cruise ship tourists from Skagway to Carcross, Yukon, over the White Pass summit.

Civil Aviation. Whitehorse has an international airport with direct daily flights from Vancouver, Alaska and the Northwest Territories. In the summer there are regular scheduled flights from Europe. There are 10 airports throughout the territory, with many smaller airstrips and aerodromes in remote areas. Commercial airlines offering charter services are located throughout the territory.

Shipping. The majority of goods are shipped into the territory by truck over the Alaska and Stewart-Cassiar Highways. Some goods are shipped through the ports of Skagway and Haines, Alaska, and then trucked to Whitehorse for distribution throughout the territory. Skagway, 160 km south of Whitehorse, is a commercial shipping outlet for goods destined for Asia and the west coast of North America. The majority of goods are transported by road within the territory, while a modest amount is shipped by air.

Telecommunications. All telephone and telecommunications, including Internet access in most communities, are provided by Northwestel, a subsidiary of Bell Canada Enterprises. Microwave stations, satellite ground stations and radio-telephone facilities provide most of the telephone transmission services to the communities.

SOCIAL INSTITUTIONS

Education. The Yukon Department of Education operates (with the assistance of elected school boards) the territory's 28 schools, both public and private, from kindergarten to grade 12. In 2000 there were 5,751 pupils. There are also 1 French

First Language school and 1 Roman Catholic school. Yukon College provides adult education for 6,100 students. The Whitehorse campus is the administrative and programme centre for 13 other campuses located throughout the territory. In 1998–99 a total of 581 full-time and 4,589 part-time students enrolled in programmes and courses. The Yukon government provides financial assistance to students for post-secondary education whether they study at Yukon College or outside the territory.

Health. In 1999 there were 2 hospitals with 68 staffed beds, 4 nursing stations, 9 health treatment centres, 11 doctors and 35 dentists. The territorial government operates a medical travel programme to send patients to nearby provinces for specialized treatment not available in the territory.

CULTURE

Broadcasting. There are 3 radio stations in Whitehorse and 15 low-power relay radio transmitters operated by CBC, and 6 operated by the Yukon government. CHON-FM, operated by Northern Native Broadcasting, is broadcast to virtually all Yukon communities by satellite. Dawson City has its own community-run radio station, CFYT-FM. There are also 27 basic and 36 extended pay-cable TV channels in Whitehorse, and private cable operations in some communities. Live CBC national television and TVNC is provided by satellite and relayed to all communities.

Press. In 2000 there were 1 daily and 1 semi-weekly newspaper in Whitehorse, and a semi-weekly (summer only) and a monthly newspaper in Dawson City. Other communities with local newspapers include Stewart Crossing, Haines Junction and Faro. There is also a monthly newspaper for francophones. In total, the territory publishes 10 newspapers which range in publication from daily to annual.

Tourism. In 1999 there were 300,000 visitors, generating revenues exceeding \$124m. CDN. Primary tourist activities are related to highway travel, wilderness adventure and historical and cultural interests. Major markets for Yukon tourism include North America, German-speaking European nations and the United Kingdom. Emerging markets include Japan, Taiwan, New Zealand and Australia. Enhanced airport infrastructure has stimulated direct flights from Europe and increased flights by national charter companies.

Tourism is the largest private sector employer. 70% of employed Yukon people work for businesses that report some level of tourism revenue. 20% of businesses generate more than 33% of gross revenues from tourism.

KEY HISTORICAL EVENTS

During centuries of Portuguese rule the islands were gradually peopled with Portuguese, slaves from Africa, and people of mixed African-European descent who became the majority. While retaining some African culture, the Cape Verdians spoke Portuguese or the Portuguese-derived Crioulo (Creole) language and became Catholics. In 1956 nationalists from Cape Verde and Portuguese Guinea formed the *Partido Africano da Independência da Guiné e Cabo Verde* (PAIGC). In the

1960s the PAIGC waged a successful guerrilla war. On 5 July 1975 Cape Verde became independent, ruled by the PAIGC, which was already the ruling party in ex-Portuguese Guinea-Bissau. But resentment at Cape Verdians' privileged position in Guinea-Bissau led to the end of the ties between the two countries' ruling parties. Although the PAIGC retained its name in Guinea-Bissau, in Jan. 1981 it was renamed the *Partido Africano da Independência do Cabo Verde* (PAICV) in Cape Verde. The Constitution of 1981 made the PAICV the sole legal party but in Sept. 1990 the National Assembly abolished its monopoly and free elections were permitted.

TERRITORY AND POPULATION

Cape Verde is situated in the Atlantic Ocean 620 km off west Africa and consists of 10 islands (Boa Vista, Brava, Fogo, Maio, Sal, Santa Luzia, Santo Antão, São Nicolau, São Tiago and São Vicente) and 5 islets. The islands are divided into 2 groups, named Barlavento (windward) and Sotavento (leeward). The total area is 4,033 sq. km (1,557 sq. miles). The population was 341,491 at the census of 1990. 2000 census population (provisional), 434,812, giving a density of 107.8 per sq. km. In 1998, 59.3% of the population lived in urban areas.

The UN gives a projected population for 2010 of 541,000.

About 600,000 Cape Verdeans live abroad.

It became a separate colony in 1920, and in 1946 one of the 4 constituent territories of French Equatorial Africa. It achieved full independence on 11 Aug. 1960. Conflicts between the government and secessionist groups, particularly in the Muslim north and centre, began in 1965 and developed into civil war. In 1982 forces led by Hissène Habré gained control of the country. In June 1983 Libyan-backed forces re-occupied some territory but a ceasefire took effect in Sept. 1987. Rebel forces of the Popular Salvation Movement led by Idriss Déby entered Chad from Sudan in Nov. 1990. On 4 Dec. 1990 Déby declared himself President. In Feb. 2000 Hissène Habré was charged with torture and barbarity in Senegal, where he had lived since being toppled in 1990, and placed under house arrest.

KEY HISTORICAL EVENTS

Magellan sighted what is now Chile in 1520. Subsequently Spaniards colonized the land in the 1530s and 1540s, defeating the Incas in the north and subjugating the Araucanian Indians in the South. In 1810 the Republic of Chile threw off allegiance to the Spanish crown. However, there were seven years of fighting before Chile was recognized as an independent republic. A constitution was adopted in 1883, and the country enjoyed stable government. In 1925 the constitution was amended to strengthen the executive at the expense of the legislature. In 1970 Dr Salvador Allende Gossens was elected president as the

Marxist leader of a left-wing coalition. This government was overthrown in 1973 by a military junta headed by Gen. Augusto Pinochet Ugarte. President Allende died in the course of the coup and tens of thousands of his supporters were murdered. A new constitution came into force on 11 March 1981 providing for a return to democracy. Gen. Pinochet continued as head of state until 1989 and army commander until March 1998 when he claimed his constitutional right to become a senator for life (and hence immune from prosecution). While clearing the way for much-needed economic reforms, the Pinochet regime was responsible for wholesale human rights abuses, a legacy which had its consequences in 1999 when Pinochet, in Britain for medical treatment, was held on human rights charges instigated by Spain. On 2 March 2000 he returned to Chile after the British government ruled he was too ill to be extradited to Spain to face torture charges.

TERRITORY AND POPULATION

Chile is bounded in the north by Peru, east by Bolivia and Argentina, and south and west by the Pacific Ocean. The area is 736,905 sq. km (284,520 sq. miles) excluding the claimed Antarctic territory. Many islands to the west and south belong to Chile: the Islas Juan Fernández (179 sq. km with 516 inhabitants in 1982) lie about 600 km west of Valparaíso, and the volcanic Isla de Pascua (Easter Island or Rapa Nui, 118 sq. km with 1,867 inhabitants in 1982), lies about 3,000 km west-northwest of Valparaíso. Small uninhabited dependencies include Sala y Gómez (400 km east of Easter Is.), San Ambrosio and San Félix (1,000 km northwest of Valparaíso, and 20 km apart) and Islas Diego Ramírez (100 km southwest of Cape Horn).

In 1940 Chile declared, and in each subsequent year has reaffirmed, its ownership of the sector of the Antarctic lying between 53° and 90° W. long., and asserted that the British claim to the sector between the meridians 20° and 80° W. long. overlapped the Chilean by 27°. Seven Chilean bases exist in Antarctica. A law of 1955 put the governor of Magallanes in charge of the 'Chilean Antarctic Territory' which has an area of 1,269,723 sq. km and a population (1982) of 1,368.

The population at the census of 1992 was 13,231,803 (6,730,478 females). Estimate, 1997, 14,656,200 (84.3% urban in 1998; 7,416,500 females in 1997); density, 20 per sq. km.

The UN gives a projected population for 2010 of 17.01m.

In the extreme south, conditions are very wet and stormy. Santiago, Jan. 67°F (19.5°C), July 46°F (8°C). Annual rainfall 15" (375 mm). Antofagasta, Jan. 69°F (20.6°C), July 57°F (14°C). CONSTITUTION AND GOVERNMENT

A new Constitution was approved by 67.5% of the voters on 11 Sept. 1980 and came into force on 11 March 1981. It provided for a return to democracy after a minimum period of 8 years. Gen. Pinochet would remain in office during this period after which the government would nominate a single candidate for President. At a plebiscite on 5 Oct. 1988 President Pinochet was rejected as a presidential candidate by 54.6% of votes cast.

The *President* is directly elected for a non-renewable 6-year term. Parliament consists of a 120-member *Chamber of Deputies* and a *Senate* of 48 members.

KEY HISTORICAL EVENTS

The Han dynasty (216 BC–220 AD) made Confucianism a state philosophy and instituted the system of civil service recruitment by public competitive examination. Buddhism was introduced from India. The fall of the dynasty was followed by centuries of division and disorder. Unity was restored under the T'angs (618–906), but was lost again until the Sung period (960–1279). Mongol invaders succeeded in imposing a foreign dynasty (Yuan) and were quickly assimilated to the

higher cultural and technological level of the Chinese. A peasant rising drove the last Mongol from the throne in 1368 and ushered in the Ming dynasty.

A new imperial capital was built at Beijing only 40 miles from the Wall and thus vulnerable to attack; preoccupation with the defence of this frontier contributed to a neglect of the defence of the sea, whence came the Portuguese in 1516, the Dutch in 1622, and the English in 1637. A wave of nomad invaders, the Manchus, breached the Wall to capture Beijing in 1644 and founded the Ch'ing dynasty, which lasted until 1912. Catholic missionaries were tolerated and even employed in state service, but external events and ideas made little impression on the traditionalism of the court. A British expeditionary force sent to overturn a Chinese ban on imports of opium forced the empire to cede Hong Kong and grant Britain economic and diplomatic privileges. Other western nations followed suit. Foreigners established concessions in 'treaty ports' administered by their own officials. The British and French seized Beijing in 1860 and burnt the imperial palace. In 1895 China was defeated by a modernized Japan and forced to cede Korea and Taiwan. An anti-foreigner *Boxer* rebellion was suppressed by Western forces in 1900. Sun Yat-sen founded the Kuomintang (Nationalist Party) in 1905.

In the early part of the century the country disintegrated into the hands of squabbling warlords while Sun Yat-sen, who had formed a separatist government in Canton, turned to the Soviet regime. The Communist Party (founded in 1921) co-operated with the Kuomintang, led after 1926 by Chiang Kai-shek, in attacking both warlords and foreign concessionaries, but in 1937 Chiang turned on the Communists. Communism was then carried on by Mao Zedong's rural 'Soviet', at first in Kiangsi, and then, after the Long March, in Yen-an. Chiang's aim to create a modern state were thwarted by Japanese invasions in 1931 and 1937 and by his campaign against the Communists.

After the Second World War full-scale civil war broke out. Chiang was defeated and took refuge on Taiwan where the Republic of China was set up. Mao proclaimed a People's Republic on 1 Oct. 1949. The Maoist period was marked by innovatory excesses: the agricultural communes (now abolished); the conscription of intellectuals to till the fields; the disastrous 'Great Leap Forward' with its backyard blast furnaces; the Thought (and cult) of Mao and the Cultural Revolution. After Mao's death in 1976 moderates within the Communist Party triumphed, and the radical Gang of Four led by Mao's wife Chang Ch'ing were first publicly denounced and then arrested.

The funeral of the Communist party General Secretary Hu Yaobang on 15 April 1989 sparked off mass student demonstrations which escalated into a popular 'pro-democracy' movement in Beijing, Shanghai and other provincial centres, culminating in the Tiananmen Square sit-in when troops opened fire on the demonstrators. Martial law was imposed from May 1989 to Jan. 1990. Since then, however, China has moved cautiously towards a more open society, with an economy that is increasingly tied to market principles.

For the background to the handover of Hong Kong in 1997, see p. 460.

TERRITORY AND POPULATION

China is bounded in the north by Russia and Mongolia; east by North Korea, the Yellow Sea and the East China Sea, with Hong Kong and Macao as enclaves on the southeast coast; south by Vietnam, Laos, Myanmar, India, Bhutan and Nepal; west by India, Pakistan, Afghanistan, Tajikistan, Kyrgyzstan and Kazakhstan. The total area (including Taiwan, Hong Kong and Macao) is estimated at 9,574,000 sq. km (3,696,500 sq. miles). A law of Feb. 1992 claimed the Spratly, Paracel and Diaoyutai Islands. An agreement of 7 Sept. 1993 at prime ministerial level settled Sino-Indian border disputes which had first emerged in the war of 1962.

At the 1990 census the population was 1,130,510,638 (548,690,231 females). Population estimate, 1998: 1,248.10m. (611.81m. female); density, 143 per sq. km. In 1998, 67.3% of the population were rural. The most recent census took place in Oct.–Nov. 2000, involving 6m. census officials.

The UN gives a projected population for 2010 of 1,364.95m.

China is set to lose its status as the world's most populous country to India by 2050.

1979 regulations restricting married couples to a single child, a policy enforced by compulsory abortions and economic sanctions, have been widely ignored, and it was admitted in 1988 that the population target of 1,200m. by 2000 would have to be revised to 1,270m. Since 1988 peasant couples have been permitted a second child after 4 years if the first born is a girl, a measure to combat infanticide. In 1999 China started to implement a more widespread gradual relaxation of the one-child policy.

43.2m. persons of Chinese origin lived abroad in 1993.

A number of widely divergent varieties of Chinese are spoken. The official 'Modern Standard Chinese' is based on the dialect of North China. Mandarin in one form or another is spoken by 800m. people in China, or around 63% of the population. The Wu language and its dialects has some 90m. native speakers and Cantonese 70m. The ideographic writing system of 'characters' is uniform throughout the country, and has undergone systematic simplification. In 1958 a phonetic alphabet (*Pinyin*) was devised to transcribe the characters, and in 1979 this was officially adopted for use in all texts in the Roman alphabet. The previous transcription scheme (Wade) is still used in Taiwan and Hong Kong.

China is administratively divided into 22 provinces, 5 autonomous regions (originally entirely or largely inhabited by ethnic minorities, though in some regions now outnumbered by Han immigrants) and 4 government-controlled municipalities. These are in turn divided into 335 prefectures, 666 cities (of which 218 are at prefecture level and 445 at county level), 2,142 counties and 717 urban districts.

Beijing: Located in the northeast of China, Beijing (Peking) is the capital of China and its second largest city. China's traditional cultural heartland, it has also been at the centre of the country's political life for over 800 years. Since Chairman Mao proclaimed it capital of the People's Republic in 1949 the city has grown massively both in area and population. Beijing was the launch pad for Mao's Cultural Revolution when much of its rich heritage was destroyed. Today, though, it is the showpiece of 21st century China.

Shanghai: Situated on the Huangpu River on the coast of the East China Sea, Shanghai is China's biggest city and one of the world's largest seaports. Before the Communist Party came to power in 1947 the city was notorious for its corruption and huge social inequalities. Today, however, Shanghai is a central part of the country's drive for modernization. With huge financial backing it has become the major industrial and commercial centre in China.

The autonomous regions and provinces (*see table above*) have non-Han components in their populations, ranging from 97.2% (in 1994) in Tibet to 9.9% in Zhejiang. Total minority population, 1994, 72,818,100. 55 ethnic minorities are identified. At the 1990 census the largest were: Zhuang, 15,555,820; Manchu, 9,846,776; Hui, 8,612,001; Miao, 7,383,622; Uighur, 7,207,024; Yi, 6,578,524; Tujia, 5,725,049; Mongolian, 4,802,407; Tibetan, 4,593,072.

Tibet

After the 1959 revolt was suppressed, the Preparatory Committee for the Autonomous Region of Tibet (set up in 1955) took over the functions of local

government, led by its Vice-Chairman, the Banqen Lama, in the absence of its Chairman, the Dalai Lama, who had fled to India in 1959. In Dec. 1964 both the Dalai and Banqen Lamas were removed from their posts and on 9 Sept. 1965 Tibet became an Autonomous Region. 301 delegates were elected to the first People's Congress, of whom 226 were Tibetans. The Chief of Government is Gyaincain Norbu. The senior spiritual leader, the Dalai Lama, is in exile. He was awarded the Nobel Peace Prize in 1989. The Banqen Lama died in Jan. 1989. The borders were opened for trade with neighbouring countries in 1980. In July 1988 Tibetan was reinstated as a 'major official language', competence in which is required of all administrative officials. Monasteries and shrines have been renovated and reopened. There were some 15,000 monks and nuns in 1987. In 1984 a Buddhist seminary in Lhasa opened with 200 students. A further softening of Beijing's attitude towards Tibet was shown during President Bill Clinton's visit to China in June 1998. Jiang Zemin, China's president, said he was prepared to meet the Dalai Lama provided he acknowledged Chinese sovereignty over Tibet and Taiwan.

In 1996 the population was 2.49m. In 1994 there were 2.22m. Tibetans living in Tibet out of a total population of 2.36m. Birth rate (per 1,000), 1996, 24.7; death rate, 8.5; growth rate, 16.2. Population of the capital, Lhasa, in 1992 was 124,000. Expectation of life was 65 years in 1990. 2m. Tibetans live outside Tibet, in China, and in India and Nepal.

Chinese efforts to modernize Tibet include irrigation, road-building and the establishment of light industry. In 1991 there were 328 township and 123 village enterprises employing 21,168 persons; 12,000 persons worked in heavy industry, 16,000 in state-owned enterprises. 1990 output included 136,300 metres of woollen fabrics, 1,000 tonnes of salt, 1,900 tonnes of vegetable oil, 208,200 cu. metres of timber and 132,300 tonnes of cement. In 2000 plans were announced to build a railway of some 900 km to link Lhasa with the town of Golmud, which already has a link with the city of Xining. It would be the highest railway in the world. The Chinese government approved the plan on 8 Feb. 2001 with the aim of completing the link by 2008.

Electricity production in 1990 was 330m. kWh, of which 323m. kWh were hydro-electric.

In 1996 there were 953,000 rural labourers, including 886,000 in farming, forestry and fisheries. The total sown area was 220,100 ha, including 52,500 ha sown to wheat, 18,300 ha to rapeseed, 18,300 ha to oil-bearing crops and 14,500 ha to soya beans. Output (in 1,000 tonnes), 1996: wheat, 261; soya beans, 41; oil-bearing crops, 35; rapeseed, 35. There were 5.10m. cattle, 1.21m. draught animals, 0.36m. horses, 0.22m. pigs, 11.10m. sheep and 5.83m. goats in 1996.

In 1991 there were 21,842 km of roads, of which 6,240 km were paved. There are airports at Lhasa and Bangda providing external links. 30,000 tourists visited Tibet in 1986.

In 1988 there were 2,437 primary schools, 67 secondary schools, 14 technical schools and 3 higher education institutes. The total number of primary school pupils in 1990–91 was 101,000. A university was established in 1985.

In 1990 there were some 9,000 medical personnel and 1,006 medical institutions, with a total of about 5,000 beds.

SOCIAL STATISTICS

Births, 1998, 20,010,000 (more than the total population of Australia); deaths, 8,110,000. 1998 birth rate (per 1,000 population), 16.03; death rate, 6.50. The birth rate in 1998 declined for the 12th successive year. There were 9,339,615 marriages

and 1,132,215 divorces in 1996. The suicide rate in China in 1994 was 14.3 per 100,000 population among men but 17.9 per 100,000 among women. China is the only major country in which the suicide rate is higher among females—over half the world's women suicides occur in China. In 1996 the most popular age for marrying was 25–29 for both men and women. Life expectancy at birth, 1998, was 68.1 years for men and 72.3 years for women. Annual population growth rate, 1990–99, 1.0%. Infant mortality, 1998, 38 per 1,000 live births. Fertility rate, 1999, 1.8 births per woman.

CLIMATE

Most of China has a temperate climate but, with such a large country, extending far inland and embracing a wide range of latitude as well as containing large areas at high altitude, many parts experience extremes of climate, especially in winter. Most rain falls during the summer, from May to Sept., though amounts decrease inland. Beijing (Peking), Jan. 24°F (–4.4°C), July 79°F (26°C). Annual rainfall 24.9" (623 mm). Chongqing, Jan. 45°F (7.2°C), July 84°F (28.9°C). Annual rainfall 43.7" (1,092 mm). Shanghai, Jan. 39°F (3.9°C), July 82°F (27.8°C). Annual rainfall 45.4" (1,135 mm). Tianjin, Jan. 24°F (–4.4°C), July 81°F (27.2°C). Annual rainfall 21.5" (533.4 mm).

CONSTITUTION AND GOVERNMENT

On 21 Sept. 1949 the *Chinese People's Political Consultative Conference* met in Beijing, convened by the Chinese Communist Party. The Conference adopted a 'Common Programme' of 60 articles and the 'Organic Law of the Central People's Government' (31 articles). Both became the basis of the Constitution adopted on 20 Sept. 1954 by the 1st National People's Congress, the supreme legislative body. The Consultative Conference continued to exist after 1954 as an advisory body. Its 9th session was convened in 1998. It has 2,093 members.

New Constitutions were adopted in 1975, 1978, 1982 and 1993, the latter embodying the principles of a 'Socialist market economy'. The constitution was amended in 1999 to endorse formally the concept of private ownership.

The *National People's Congress* can amend the Constitution and nominally elects and has power to remove from office the highest officers of state. The Congress elects a *Standing Committee* (which supervises the State Council) and the *President* and *Vice-President* for a 5-year term. Congress has 2,978 deputies and is elected for a 5-year term, and meets once a year for 2 or 3 weeks. When not in session, its business is carried on by its *Standing Committee*. It is composed of deputies elected on a constituency basis by direct secret ballot. Any voter, and certain organizations, may nominate candidates. Nominations may exceed seats by 50–100%.

The *State Council* is the supreme executive organ and comprises the Prime Minister, Deputy Prime Ministers and State Councillors.

National Anthem. 'March of the Volunteers'; words by Tien Han, tune by Nieh Erh.

DEFENCE

President Jiang Zemin is chairman of the State and Party's Military Commissions. China is divided into 7 military regions. The military commander also commands the air, naval and civilian militia forces assigned to each region.

Conscription is compulsory but for organizational reasons selective: only some 10% of potential recruits are called up. Service is 3 years with the Army; and 4 years with the Air Force and Navy. A military academy to train senior officers in modern warfare was established in 1985.

Defence expenditure in 1999 totalled US\$39,889m. (US\$32 per capita) and represented 5.4% of GDP, down from 7.9% of GDP in 1985.

Nuclear Weapons. Having carried out its first test in 1964, there have been 45 tests in all (the last in 1996). The nuclear arsenal consisted of approximately 410 warheads in Jan. 2000 according to the Stockholm International Peace Research Institute. China has been helping Pakistan with its nuclear efforts.

Army. The Army (PLA: 'People's Liberation Army') is divided into main and local forces. Main forces, administered by the 7 military regions in which they are stationed, but commanded by the Ministry of Defence, are available for operation anywhere and are better equipped. Local forces concentrate on the defence of their own regions. There are 24 Integrated Group Armies comprising 78 infantry, 10 armoured and 5 artillery divisions; and 15 engineer regiments. Total strength in 1999 was 1.83m. including some 1.08m. conscripts. Reserve forces are undergoing major reorganization on a provincial basis but are estimated to number some 1m.

There is a paramilitary People's Armed Police force estimated at 1.1m. (set to increase) under PLA command.

Joffe, E., *The Chinese Army after Mao*. London, 1987

Navy. The naval arm of the PLA comprises 1 nuclear-powered ballistic missile armed submarine, 5 nuclear-propelled fleet submarines, 2 diesel-powered cruise missile submarines and some 62 patrol submarines. Surface combatant forces include 18 missile-armed destroyers, 35 frigates and some 92 missile craft.

The land-based naval air force of about 541 combat aircraft, primarily for defensive and anti-submarine service, is organized into 3 bomber and 6 fighter divisions. The force includes H-5 torpedo bombers, Q-5 fighter/ground attack aircraft and J-5 (MiG-17), J-6 (MiG-19) and J-7 (MiG-21) fighters.

Main naval bases are at Qingdao (North Sea Fleet), Shanghai (East Sea Fleet) and Zhanjiang (South Sea Fleet).

In 1999 naval personnel were estimated at 230,000, including 25,000 in the naval air force, 25,000 coastal defence troops and 5,000 naval infantry.

Air Force. The Air Force has an estimated 3,520 combat aircraft, organized in 100 regiments of jet-fighters and about 12 regiments of tactical bombers, plus reconnaissance, transport and helicopter units.

Equipment includes J-7 (MiG-21) and J-6 (MiG-19) interceptors and fighter-bombers, H-5 (Il-28) jetbombers, H-6 Chinese-built copies of Tu-16 strategic bombers, Q-5 fighter-bombers (evolved from the MiG-19) and Su-27 fighters supplied by Russia. About 100 of a locally-developed fighter designated J-8 (known in the West as 'Finback') are in service.

Total strength (1999) was 420,000 (160,000 conscripts), including 220,000 in air defence organization. The Air Force headquarters are in Beijing.

INTERNATIONAL RELATIONS

The People's Republic of China is a member of UN (and its Security Council), the Asian Development Bank, APEC, Mekong Group and the Antarctic Treaty.

China is heavily dependent on foreign aid. In 1996 it received US\$2.6bn., more than any other country.

ECONOMY

In 1998 industry accounted for 48.7% of GDP, services 32.9% and agriculture 18.4%.

It has been estimated that corruption cost China approximately US\$150bn. during the 1990s, or between 13% and 16% of the country's GDP.

Policy. A tenth 5-year plan covers 2001–2005; there is also a 15-year strategic plan 'Long-Term Target for 2010'. The 5-year plan has 5 guiding principles: making development the central theme; concentrating on economic restructuring; making reform and opening up and technological progress the driving force for economic growth; making improvement of the people's living standards the prime goal; and coordinating economic development with social development.

A Communist Party statement of Nov. 1993 declared that public ownership should remain the mainstay of the economy, but alongside a modern enterprise system suited to the demands of a market economy in which government control is separated from management. Private enterprise, which did not exist until the late 1970s, now accounts for over 30% of national output.

The new cabinet appointed in March 1998 was composed of technocrats chosen for their ability to solve problems and push through a series of reforms. The new Prime Minister Zhu Rongji stressed the urgency of reforming the debt-ridden state industrial sector consisting of some 370,000 enterprises, and its central bureaucracy. Zhu Rongji stated that the number of civil servants in the central bureaucracy would be halved in 1998.

Performance. GDP totalled US\$961m. in 1999. GDP growth was 7.8% in 1998 and 7.1% in 1999 (the slowest rate for a decade), but then an estimated 8% in 2000. Between 1990 and 1996 the average annual real growth in GNP per capita was 11%—the second highest in the world after Equatorial Guinea.

Budget. Government revenue and expenditure (in 1bn. yuan):

	1994	1995	1996	1997	1998
Revenue	297.7	330.6	372.9	432.3	496.7
Expenditure	440.0	482.2	540.6	601.7	730.8

Of the total revenue in 1996, local government revenue accounted for 374,692m. yuan, and local government expenditure 578,628m. yuan. Total debt incurred, 1996, 196,728m. yuan, of which 119,510m. yuan were foreign debts. The current account surplus was running at US\$29,718m. in 1997.

Sources of revenue, 1996 (in 1m. yuan): taxes, 690,982; industrial and commercial taxes, 527,004. Expenditure: economic construction, 285,578 (1995); culture and education, 175,672 (1995); national defence, 63,672 (1995); government administration, 99,654 (1995); agriculture, 51,007; pensions and social welfare, 12,803; debt payments, 131,191.

Currency. The currency is called Renminbi (*i.e.*, People's Currency). The unit of currency is the yuan (CNY) which is divided into 10 *jiao*, the *jiao* being divided into 10 *fen*. The yuan was floated to reflect market forces on 1 Jan. 1994 though remaining state-controlled, and the official rate of exchange was abolished. It became convertible for current transactions from 1 Dec. 1996. Total money supply in Dec. 1997 was 3,834bn. yuan. In Feb. 1998 foreign exchange reserves were US\$140,333m. (only Japan, with US\$209,778m., had more). Gold reserves were 12.7m. troy oz in Jan. 2000. Annualized inflation, which was more than 20% in 1994, was 6.1% in 1996, but in 1998 there was deflation, of 0.8%. For 1999 deflation of 1.2% was forecast.

Banking and Finance. The People's Bank of China is the central bank and bank of issue (*Director*: Dai Xianglong, b. 1945). There are a number of other banks, the

largest of which are Agricultural Bank of China, Industrial and Commercial Bank of China, China Construction Bank, Bank of China, Bank of Communications and Agricultural Development Bank of China. Legislation of 1995 permitted the establishment of commercial banks; credit co-operatives may be transformed into banks, mainly to provide credit to small businesses. Insurance is handled by the People's Insurance Company. There were (1994) 350,813 credit co-operatives. The Bank of China is responsible for foreign banking operations.

Savings bank deposits were 2,151,880m. yuan in 1994.

611,566m. yuan was loaned from State Banks in 1996. It is estimated that up to 20% of outstanding loans are bad debts (about US\$145bn. at the end of 1996).

There are stock exchanges in the Shenzhen Special Economic Zone and in Shanghai. The Shanghai B Index (for foreign investors) was the best performing stock exchange in the world in 2000, gaining 136% in the course of the year. A securities trading system linking 6 cities (Securities Automated Quotations System) was inaugurated in 1990 for trading in government bonds.

In 1998 China received a record \$45bn. worth of foreign direct investment—a figure exceeded only in the USA and the UK.

Weights and Measures. The metric system is in general use alongside traditional units of measurement.

ENERGY AND NATURAL RESOURCES

Electricity. Installed capacity, 1997, 254m. kW. In 1998 electricity output was 1,160,000 MWh. Consumption per capita was 922 kWh in 1997. Sources of energy in 1996 as percentage of total energy production: coal, 74·8%; crude oil, 17·1%; hydro-electric power, 6·2%; natural gas, 1·9%. In 2000 there were 5 nuclear reactors in use, with 2 more due to be opened in 2002. Generating electricity is not centralized; local units range between 30 and 60 MW of output.

Oil and Gas. There are on-shore fields at Daqing, Shengli, Dagang and Karamai, and 10 provinces south of the Yangtze River have been opened for exploration in co-operation with foreign companies. Crude oil production was 161m. tonnes in 1999. Proven reserves in 1999 were 24bn. bbls.

Natural gas is available from fields near Canton and Shanghai, and in Sichuan province. Production was 24·3bn. cu. metres in 1999 with proven reserves of 1,370bn. cu. metres.

Minerals. Most provinces contain coal, and there are 70 major production centres, of which the largest are in Hebei, Shanxi, Shandong, Jilin and Anhui. Recoverable coal reserves were estimated at 118bn. tonnes in 1997. Coal production was 1,409m. tonnes in 1997.

Iron ore reserves were 47,560m. tonnes in 1996. Deposits are abundant in the anthracite field of Shanxi, in Hebei and in Shandong, and are found in conjunction with coal and worked in the northeast. Production in 1998 was 210m. tonnes, making China the world's leading iron ore producer.

Tin ore is plentiful in Yunnan, where the tin-mining industry has long existed. Tin production was 54,076 tonnes in 1994.

China is a major producer of wolfram (tungsten ore). Mining of wolfram is carried on in Hunan, Guangdong and Yunnan.

Salt production was 30·8m. tonnes in 1998; gold production was 178 tonnes in 1998. Output of other minerals (in 1,000 tonnes) in 1998: bauxite, 8,500; aluminium, 2,100; zinc (1997), 1,400; lead (1997), 650; copper, 476; diamonds, 1,130,000 carats. Other minerals produced: nickel, barite, bismuth, graphite, gypsum, mercury, molybdenum, silver. Reserves (in tonnes) of phosphate ore, 15,766m.; sylvite, 458m.; salt, 402,400m.

Agriculture. Agriculture accounted for approximately 19% of GDP in 1997, compared to over 50% in 1949 at the time of the birth of the People's Republic of China and over 30% in 1980. In 1998 areas harvested for major crops were (in 1m. ha): rice, 31·85; wheat, 30·00; maize, 24·07; soybeans, 8·20; rapeseed, 6·45; sweet potatoes, 6·01. Intensive agriculture and horticulture have been practised for millennia. Present-day policy aims to avert the traditional threats from floods and droughts by soil conservancy, afforestation, irrigation and drainage projects, and to increase the 'high stable yields' areas by introducing fertilizers, pesticides and improved crops. In spite of this, 18·1m. ha of land were flooded in 1996 and 20·1m.

ha were covered by drought. 51·82m. ha were irrigated in 1997. In Aug. 1998 more than 21m. ha, notably in the Yangtze valley, were under water as China experienced its worst flooding in recent times.

'Township and village enterprises' in agriculture comprise enterprises previously run by the communes of the Maoist era, co-operatives run by rural labourers and individual firms of a certain size. There were 24·95m. such enterprises in 1994, employing 120·18m. persons. There were 2,157 state farms in 1994 with 5·18m. employees. In 1996 there were 234·38m. rural households. The rural workforce was 452·88m., of whom 322·6m. were employed in agriculture, fishing or land management. Net per capita annual peasant income, 1996: 1,926 yuan. Around 50% of the total workforce is engaged in agriculture, down from 68% in 1980. The percentage of the total population living in rural areas remains around 70%, however, as it was in 1980.

In 1992 there were 25,023 agricultural technical stations. There were 703,100 tractors in 1997.

Confucianism has no ecclesiastical organization and appears rather as a philosophy of ethics and government. Protestants are members of the All-China Conference of Protestant Churches. 2 Protestant bishops were installed in 1988, the first for 30 years. HONG KONG

KEY HISTORICAL EVENTS

Hong Kong island and the southern tip of the Kowloon peninsula were leased to Britain for 99 years in 1898. Talks began in Sept. 1982 between Britain and China over the future of Hong Kong after the lease expiry in 1997. On 19 Dec. 1984 the two countries signed a Joint Declaration by which Hong Kong became, with effect from 1 July 1997, a Special Administrative Region of the People's Republic of China enjoying a high degree of autonomy, and vested with executive, legislative and independent judicial power, including that of final adjudication. The existing social and economic systems were to remain unchanged for another 50 years. This 'one country, two systems' principle, embodied in the Basic Law, became the constitution for the Hong Kong Special Administrative Region of the People's Republic of China.

TERRITORY AND POPULATION

Hong Kong ('Xianggang' in Mandarin *Pinyin*) island is situated off the southern coast of the Chinese mainland 32 km east of the mouth of the Pearl River. The area of the island is 79.99 sq. km. It is separated from the mainland by a fine natural harbour. On the opposite side is the peninsula of Kowloon (46.27 sq. km). Total area of the Territory is 1,091 sq. km, a large part of it being steep and unproductive hillside. Country parks and special areas cover over 40% of the land area. Since 1945 the government has reclaimed over 5,400 ha from the sea, principally from the seafronts of Hong Kong and Kowloon, facing the harbour. The 'New Territories' are on the mainland, north of Kowloon.

The population was 6,217,600 at the 1996 by-census. Population increased to 6,843,000 in mid-1999. In 1998, 95.4% of the population lived in urban areas. Some 19,300 persons emigrated in 1998. The British Nationality Scheme enables persons to acquire citizenship without leaving Hong Kong. There were 56,039 legal immigrants (one-way permit holders) from the mainland of China in 1998. Unlike much of the industrialized world, Hong Kong is preparing itself for a population boom. Immigration from Mainland China is forecast to push the population above 8m. by 2015. 60.3% of the population was born in Hong Kong, 33.7% in Mainland China and Macau (1996 population by-census). The population of Vietnamese migrants ('boat people') in Oct. 1996 was 12,710. All remaining 'boat people' were repatriated by Jan. 1997.

The official languages are Chinese and English.

SOCIAL STATISTICS

Annual growth rate, 1998, 2.8%. Vital statistics, 1998: known births, 53,000; known deaths, 32,800; registered marriages, 31,700. Rates (per 1,000): birth, 7.9; death, 4.9; marriage, 4.7; infant mortality, 3.2 (per 1,000 live births). Life expectancy, 1998: males, 77.2 years; females, 82.6. The median age for marrying was 30.8 for males and 27.5 for females. Total fertility rate, 1998, 1 child per woman.

CLIMATE

The climate is sub-tropical, tending towards temperate for nearly half the year, the winter being cool and dry and the summer hot and humid, May to Sept. being the wettest months. Normal temperatures are Jan. 60°F (15.8°C), July 84°F (28.8°C). Annual rainfall 87" (2,214.3 mm).

THE BRITISH ADMINISTRATION

Hong Kong used to be administered by the Hong Kong government. The Governor was the head of government and presided over the *Executive Council*, which advised the Governor on all important matters. The last British Governor was Chris Patten. In Oct. 1996 the Executive Council consisted of 3 ex officio members and 10 appointed members, of whom 1 was an official member. The chief functions of the *Legislative Council* were to enact laws, control public expenditure and put questions to the administration on matters of public interest. The Legislative Council elected in Sept. 1995 was, for the first time, constituted

solely by election. It comprised 60 members, of whom 20 were elected from geographical constituencies, 30 from functional constituencies encompassing all eligible persons in a workforce of 2.9m., and 10 from an election committee formed by members of 18 district boards. A president was elected from and by the members.

At the elections on 17 Sept. 1995 turn-out for the geographical seats was 35.79%, and for the functional seats (21 of which were contested), 40.42%. The Democratic Party and its allies gained 29 seats, the Liberal Party 10 and the pro-Beijing Democratic Alliance 6. The remaining seats went to independents.

CONSTITUTION AND GOVERNMENT

In Dec. 1995 the Standing Committee of China's National People's Congress set up a Preparatory Committee of 150 members (including 94 from Hong Kong) to oversee the retrocession of Hong Kong to China on 1 July 1997. In Nov. 1996 the Preparatory Committee nominated a 400-member Selection Committee to select the Chief Executive of Hong Kong and a provisional legislature to replace the Legislative Council. The Selection Committee was composed of Hong Kong residents, with 60 seats reserved for delegates to the National People's Congress and appointees of the People's Political Consultative Conference. On 11 Dec. 1996 Tung Chee Hwa was elected Chief Executive by 80% of the Selection Committee's votes.

On 21 Dec. 1996 the Selection Committee selected a provisional legislature which began its activities in Jan. 1997 while the Legislative Council was still functioning. In Jan. 1997 the provisional legislature began repealing some civil rights legislation.

Theoretically Hong Kong is a Special Administrative Region of the People's Republic of China. It is supposed to retain a high degree of autonomy, and the legislative, judicial and administrative systems which were previously in operation are to remain in place. The Special Administrative Region Government is also empowered to decide on Hong Kong's monetary and economic policies independent of China.

In July 1997 the first-past-the-post system of electing the Legislative Council was replaced by proportional representation.

RECENT ELECTIONS

In the Legislative Council election held on 10 Sept. 2000 turn-out was just 43%, a drop of nearly 10% on the 1998 vote. 24 of the 60 seats were directly elected, the other 36 being returned by committees and professional associations. The Democratic Party gained 12 seats, the pro-Beijing Democratic Alliance for the Betterment of Hong Kong 11, Liberals 8, Progressives 4, Frontier 3, New Century 2 and others 20. The Democrats saw their share of the vote in the directly-elected seats fall, from 42.6% of votes cast in 1998 to 34.7% of votes cast in 2000, while the Democratic Alliance for the Betterment of Hong Kong saw their share rise, from 25.2% of votes cast in 1998 to 29.7% of votes cast in 2000.

CURRENT ADMINISTRATION

Chief Executive: Tung Chee Hwa; b. 1937 (elected 11 Dec. 1996).

Chief Secretary: Donald Tsang, OBE, JP.

Financial Secretary: Antony Leung. *Secretary for Justice:* Elsie Leung, JP. *Convenor:* Leung Chun-ying, GBS, JP.

The Chief Executive is aided by the Executive Council, consisting of the Chief Secretary, the Financial Secretary and the Secretary for Justice together with 10 non-officials of whom one serves as the Convenor.

ECONOMY

Services accounted for 84% of GDP in 1997 and industry 15%.

According to the anti-corruption organization *Transparency International*, Hong Kong ranked 15th in the world in 2000 in a survey of the countries and regions with the least corruption in business and government. It received 7.7 out of 10 in the annual index.

Income tax is a flat 15% and only 25% of the population pay any tax at all. With the income disparity between the very wealthy and the very poor being so great, 6%

of the population pays 80% of the total income tax bill. Hong Kong represents 20% of China's total worth.

Performance. Hong Kong was second behind Singapore in the World Economic Forum's Global Competitiveness Report, which assesses countries on their potential for economic growth and their income levels, in both 1997 and 1998, but fell to third behind Singapore and the USA in 1999, and further to eighth in 2000. Total GDP in 1998 was US\$163.7bn. Following real GDP growth of 5.0% in 1997, it was negative in 1998, at -5.1%, representing Hong Kong's most severe recession since the 1970s. For 1999 growth was 2.9%, but for 2000 growth of 10.2% was forecast. The economic recovery led to growth of 14.3% in the first quarter of 2000.

Budget. The total government revenue and expenditure for financial years ending 31 March were as follows (in HK\$1m.):

	1997	1998	1999	2000
Revenue ¹	208,358	281,226	216,115	232,995
Expenditure ²	173,644	194,241	218,811	214,533

¹Including the change in the net worth of investments up to 31 Oct. 1998.

²Excluding Capital Investment Fund.

Public expenditure in 2000 (based on revised estimates 1999-2000) was divided as follows (HK\$1bn.): education, 52.3; support, 31.7; health, 32.3; housing, 47.0; security, 27.0; social welfare, 28.4; infrastructure, 24.3; economic, 13.0; community and external affairs, 9.7; environment and food, 12.7.

The final reserve balance as at 31 March 2000 was HK\$444.3bn.

Currency. The unit of currency is the *Hong Kong dollar* (HKD) of 100 cents. Banknotes are issued by the Hongkong and Shanghai Banking Corporation and the Standard Chartered Bank, and, from May 1994, the Bank of China. Total money supply was HK\$174m. in Jan. 1998. Fiscal reserves at 31 March 1997 stood at HK\$163,000m. In Jan. 2000 gold reserves were 70,000 troy oz and in Feb. 1998 foreign exchange reserves US\$78,617m. Inflation was negative in 1999, at -3.3%, and was forecast to be negative again in 2000, at -1.2%.

Banking and Finance. The Hong Kong Monetary Authority acts as a central bank. The *Chief Executive* is Joseph Yam. As at Dec. 1995 there were 185 banks licensed under the Banking Ordinance, of which 31 were locally incorporated, 63 restricted licence banks and 154 representative offices of foreign banks. Licensed bank deposits were HK\$2,601,971m. in June 1997; restricted licence bank deposits were HK\$62,033m. There were 132 deposit-taking companies registered under the Banking Ordinance with total deposits of HK\$18,419m. as at Nov. 1995.

In March 2000 the stock exchange, the futures exchange and the clearing settlement merged into Hong Kong Exchanges and Clearing (HKEx). The summer of 1997 saw record highs on the Hang Seng index (16,365 in July 1997 compared with 10,681 in July 1996). In July 1997 the average daily turnover was HK\$19,500m.

Weights and Measures. Metric, British Imperial, Chinese and US units are all in current use in Hong Kong. However, government departments have now effectively adopted metric units; all new legislation uses metric terminology and existing legislation is being progressively metricated. Metrication is also proceeding in the private sector.

ENERGY AND NATURAL RESOURCES

Electricity. Installed capacity was 11m. kW in 1997. Production in 1998 was 31.41bn. kWh. Consumption in 1998 was 34.85bn. kWh.

Water. Reservoirs are needed to store the summer rainfall in order to meet supply requirements. There are 17 impounding reservoirs with a total capacity of 586m. cu. metres. Raw water is also purchased from the Guangdong Province of China (760m. cu. metres in 1998). Consumption in 1998 was 916m. cu. metres.

Agriculture. The local agricultural industry is directed towards the production of high quality fresh food through intensive land use and modern farming techniques. Out of the territory's total land area of 1,097 sq. km, only 27 sq. km is currently

farmed. In 1999 local production accounted for 11.7% of fresh vegetables, 18.2% live poultry and 22.2% of live pigs consumed. Pig production increased by about 17% compared with the previous year. Crop production continued to fall as vegetable prices fell and land redeveloped for other uses. The common crops cultivated are leafy vegetables, high value cut flowers and ornamental plants. In 1999, 48,000 tonnes of vegetables were produced. Poultry production was 12,650 tonnes. There were 415,400 pigs in 1999.

Forestry. Timber production in 1995 was 200,000 cu. metres.

Environment. According to the *World Bank Atlas* Hong Kong's carbon dioxide emissions in 1996 were the equivalent of 3.7 tonnes per capita.

Fisheries. In 1999 the capture and mariculture fisheries supplied about 36% of seafood consumed in Hong Kong and pond fish farm produced about 10% of the freshwater fish consumed. The capture fishing industry employs some 5,170 fishing vessels and some 12,900 local fishermen. In 1999 the industry produced an estimated 127,800 tonnes of fisheries produce. Some 75,000 tonnes were supplied for local consumption and the remainder landed or exported outside Hong Kong. On the other hand, there are 26 fish culture zones occupying a total sea area of 209 ha with some 1,450 licensed operators. The estimated production in 1999 was 1,250 tonnes, or 7% of local consumption of live marine fish. Then inland fish ponds, covering a total of 1,094 ha, produced 4,500 of freshwater fish in 1999. The first phase of the artificial reefs programme was successfully completed in 1999 with more than 110 species of fish recorded on the reefs.

INDUSTRY

According to the Financial Times Survey (FT 500) published in May 2000, the largest companies in Hong Kong in April 2000 were: China Telecom (market capitalization of US\$99,426.4m.), Hutchison Whampoa (market capitalization of US\$54,737.7m.), and Cable and Wireless HKT (market capitalization of US\$26,776.2m.).

An economic policy based on free enterprise and free trade, a skilled workforce, an efficient commercial infrastructure, the modern and efficient sea-port (including container shipping terminals) and airport facilities, a geographical position relative to markets in North America and traditional trading links with the UK all contribute to Hong Kong's success as a modern industrial territory. Links with China have been growing increasingly strong in recent years and will remain so.

In Sept. 1999 there were 23,079 manufacturing establishments employing 244,532 persons. Other establishment statistics by product type (and persons engaged) were: textiles and clothing, 4,502 (74,972); plastics, 1,317 (7,967); electronics, 893 (25,479); watches and clocks, 562 (4,253); shipbuilding, 360 (3,082); electrical appliances, 75 (1,064).

Labour. In 1999 the labour force (economically active population) totalled 3,342,500 (1,378,800 female). The employed population in Sept. 1999 included 997,000 people in wholesale, retail and import/export trades, restaurants and hotels, 407,000 in finance, insurance, real estate and business services, 245,000 in manufacturing, 188,000 in the civil service and 69,000 manual labourers.

Unemployment in 1999 was running at an unprecedented high of 6.3%, but by June 2000 had come down to 5.1%.

EXTERNAL ECONOMIC RELATIONS

Imports and Exports. Industry is mainly export-oriented. In 1999 the total value of imports (c.i.f.) was HK\$1,392.7bn. and total exports (f.o.b.) HK\$1,349.0bn. In 1999, 33.3% of total exports went to the mainland of China, 23.8% to the USA, 5.4% to Japan, 4.1% to the United Kingdom and 3.9% to Germany. The main suppliers of imports were the mainland of China (43.6%), Japan (11.7%), Taiwan (7.2%), USA (7.1%) and South Korea (4.7%).

In 1999 domestic exports included (in HK\$1m.): clothing and accessories, 74,251; electrical machinery and parts, 23,790; textiles and fabrics, 9,488; parts and accessories suitable for use solely with office machines and automatic data

processing machines, 6,261. The chief import items were consumer goods (508,354), raw materials and semi-manufactures (471,854), capital goods (327,933) and foodstuffs (57,214).

Visible trade normally carries an adverse balance which is offset by a favourable balance of invisible trade, in particular transactions in connection with air transportation, shipping, tourism and banking services.

Hong Kong has a free exchange market. Foreign merchants may remit profits or repatriate capital. Import and export controls are kept to the minimum, consistent with strategic requirements.

COMMUNICATIONS

Roads. In 1998 there were 1,865 km of roads, more than 900 km of which were in the New Territories. There are 8 major road tunnels, including 2 under Victoria Harbour. In 1998 there were 501,000 licensed motor vehicles, including 318,000 private cars, 115,000 goods vehicles and 23,000 motorcycles. There were 14,014 road accidents in 1998, 221 fatal. A total of 14.8m. tonnes of cargo were transported by road in 1996.

Rail. The railway network covers around 143 km. The electrified Kowloon-Canton Railway runs for 34 km from the terminus at Hung Hom in Kowloon to the border point at Lo Wu. It carried 255m. passengers in 1998. In 1996, 939,000 tonnes of cargo were transported by rail. A light rail system (32 km and 57 stops) is operated by the Kowloon-Canton Railway Corporation in Tuen Mun, Yuen Long and Tin Shui Wai; it carried 105m. passengers in 1998.

The electric tramway on the northern shore of Hong Kong Island commenced operating in 1904 and has a total track length of 16 km. The Peak Tram, a funicular railway connecting the Peak district with the lower levels in Victoria, has a track length of 1,365 metres and a capacity of 120 passengers per trip.

A metro, the Mass Transit Railway system, comprises 74 km with 43 stations and carried 2.3m. passengers per weekday in 1998.

The Airport Express Line (35 km) opened in 1998 and carried a total of 3.9m. passengers in that year.

In 1996 a total of 3.9m. passenger journeys were made on public transport (including local railways, buses, etc.).

Civil Aviation. The new Chek Lap Kok airport, built on reclaimed land off Lantau Island to the west of Hong Kong, opened on 6 July 1998, replacing Hong Kong International Airport (Kai Tak), which was situated on the north shore of Kowloon Bay. A total of 63 airlines now operate scheduled services to and from Hong Kong. British Airways operates 14 passenger and 5 all-cargo flights per week to the UK, while Virgin Atlantic Airways operate daily services between Hong Kong and London. Cathay Pacific Airways, one of the 3 Hong Kong-based airlines, operates more than 460 passenger and cargo services weekly to Europe (including 21 passenger and 4 cargo services per week to the UK), the Far and Middle East, South Africa, Australasia and North America. Hong Kong Dragon Airlines provides scheduled services to 17 cities in Mainland China and 8 other destinations in Asia. Air Hong Kong, an all-cargo operator, provides 13 weekly scheduled services to and from Hong Kong with Manchester, UK, Brussels, Dubai and Osaka as destinations. In 1999-2000, 181,460 aircraft arrived and departed and 29.6m. passengers and 2.06m. tonnes of freight were carried on aircraft. Hong Kong International Airport handled more international freight in 1999 than any other airport.

Shipping. The port of Hong Kong handled 16.2m. 20-ft equivalent units in 1999. The Kwai Chung Container Port has 18 berths with 5,794 metres of quay backed by 201 ha of cargo handling area. Merchant shipping in 1998 totalled 6,171,000 GRT, including oil tankers, 340,000 GRT. In 1999, 37,580 ocean-going vessels, 115,330 river cargo vessels and 59,930 river passenger vessels called at Hong Kong. In 1999, 168.8m. tonnes of freight were handled. In 1998 vessels totalling 261,210,000 NRT entered ports and vessels totalling 261,396,000 NRT cleared.

Telecommunications. In Nov. 2000 there were 3,944,442 telephones (580 per 1,000 population), of which 1,734,345 were for business use and 2,210,097 were residential lines. There were also 400,281 fax lines.

The local fixed telecommunications network services (FTNS) market in Hong Kong was liberalized in 1995. Apart from the incumbent FTNS operator at that time, 3 new local FTNS operators were licensed. In July 1999 the Government invited the industry to apply for licences to operate local wireless fixed networks. On 18 Jan. 2000 the Government announced that 5 licences for the local fixed wireless FTNS services would be provided. This would further increase the choice of consumers in the local fixed market.

In Dec. 2000 there were 6 mobile phone operators providing 11 networks in Hong Kong. There were only 687,600 mobile phone subscribers in 1995, since when the sector has expanded substantially. By Nov. 2000 there were approximately 5.13m. mobile phone subscribers (76% of Hong Kong's population). In addition there were 29 radio paging operators serving 333,990 users. The Internet market also grew considerably in 2000. In Nov. 2000 there were over 2.5m. Internet users, nearly doubling the number at the beginning of the year.

The external telecommunications services market has been fully liberalized since 1 Jan. 1999, and the external telecommunications facilities market was also liberalized starting from 1 Jan. 2000.

In 1999 there were 2m. PCs in use (290 per 1,000 persons).

SOCIAL INSTITUTIONS

Justice. The Hong Kong Act of 1985 provided for Hong Kong ordinances to replace English laws in specified fields.

The courts of justice comprise the Court of Final Appeal (inaugurated on 1 July 1997) which hears appeals on civil and criminal matters from the High Court; the High Court (consisting of the Court of Appeal and the Court of First Instance); the Lands Tribunal which determines on statutory claims for compensation over land and certain landlord and tenant matters; the District Court (which includes the Family Court); the Magistracies (including the Juvenile Court); the Coroner's Court; the Labour Tribunal, which provides a quick and inexpensive method of settling disputes between employers and employees; the Small Claims Tribunal deals with monetary claims involving amounts not exceeding HK\$50,000; and the Obscene Articles Tribunal.

While the High Court has unlimited jurisdiction in both civil and criminal matters, the District Court has limited jurisdiction. The maximum term of imprisonment it may impose is 7 years. Magistracies exercise criminal jurisdiction over a wide range of offences, and the powers of punishment are generally restricted to a maximum of 2 years' imprisonment or a fine of HK\$100,000.

After being in abeyance for 25 years, the death penalty was abolished in 1992.

71,962 crimes were reported in 1998, of which 14,682 were violent crimes. A total of 40,422 people were arrested in 1998, of whom 9,207 were for violent crimes. The prison population was 11,637 in 1997 (190 per 100,000 of national population).

Religion. In 1997 there were 4,790,000 Buddhists and Taoists, 280,000 Protestants, 270,000 Roman Catholics and 1,150,000 people of other beliefs.

In around three-quarters of the ordinary secondary day schools teaching has been in Cantonese since 1998-99, with about a quarter of ordinary secondary day schools still using English. In 1998 there were 175,073 pupils in 744 kindergartens (all private), 476,802 full-time students in 832 ordinary primary day schools (some 10.7% in private schools) and 455,872 in 37 government, 352 aided and 82 private ordinary secondary day schools.

MACAO

KEY HISTORICAL EVENTS

Macao was visited by Portuguese traders from 1513 and became a Portuguese colony in 1557. Initially sovereignty remained vested in China, with the Portuguese paying an annual rent. In 1848–49 the Portuguese declared Macao a free port and established jurisdiction over the territory. On 6 Jan. 1987 Portugal agreed to return Macao to China on 20 Dec. 1999 under a plan in which it would become a special administrative zone of China, with considerable autonomy.

TERRITORY AND POPULATION

The territory, which lies at the mouth of the Pearl River, comprises a peninsula (7.84 sq. km) connected by a narrow isthmus to the People's Republic of China, on which is built the city of Santa Nome de Deus de Macao, and the islands of Taipa (5.79 sq. km), linked to Macao by a 2-km bridge, and Colôane (7.82 sq. km) linked to Taipa

by a 2-km causeway. The total area of Macao is 21.45 sq. km. Land is being reclaimed from the sea. The population (1991 census) was 339,464 (174,858 females). Population on 31 Dec. 1999, 437,500 (206,600 females), a growth rate of 1.6%; density (1997), 19,387 people per sq. km. An estimated 98.8% of the population lived in urban areas in 1995. The Governor is appointed by the Portuguese President, who also appoints up to 7 Under-Secretaries on the Governor's nomination. The Legislative Assembly of 23 deputies, chosen for a 3-year term, comprises 8 members directly elected by universal suffrage, 8 indirectly elected by economic, cultural and social bodies and 7 appointed by the Governor. TAIWAN¹

KEY HISTORICAL EVENTS

Taiwan, christened Ilha Formosa (beautiful island) by the Portuguese, was ceded to Japan by China by the Treaty of Shimonoseki in 1895. After the Second World War the island was surrendered to Gen. Chiang Kai-shek who made it the headquarters for his crumbling Nationalist Government. Until 1970 the US fully supported Taiwan's claims to represent all of China. Only in 1971 did the government of the People's Republic of China manage to replace that of Chiang Kai-shek at the UN. In Jan. 1979 the UN established formal diplomatic relations with the People's Republic of China, breaking off all formal ties with Taiwan. Taiwan itself has continued to reject all attempts at reunification, and although there have been frequent threats from mainland China to precipitate direct action (including military manoeuvres off the Taiwanese coast) the prospect of confrontation with the USA supports the status quo.

In July 1999 President Lee Teng-hui repudiated Taiwan's 50-year-old One China policy—the pretence of a common goal of unification—arguing that Taiwan and China should maintain equal 'state to state' relations. This was a rejection of Beijing's view that Taiwan is no more than a renegade Chinese province which must be reunited with the mainland, by force if necessary. In the Presidential election of 18 March 2000 Chen Shui-bian, leader of the Democratic Progressive Party, was

elected, together with Annette Lu Hsiu-bien as his Vice-President. Both support independence though Chen Shui-bian has made friendly gestures towards China and has distanced himself from colleagues who want an immediate declaration of independence.

TERRITORY AND POPULATION

Taiwan lies between the East and South China Seas about 100 miles from the coast of Fujian. The territories currently under the control of the Republic of China include Taiwan, Penghu (the Pescadores), Kinmen (Quemoy), and the Matsu Islands, as well as the archipelagos in the South China Sea. Off the Pacific coast of Taiwan are Green Island and Orchid Island. To the northeast of Taiwan are the Tiaoyutai Islets. The total area of Taiwan Island, the Penghu Archipelago and the Kinmen area (including the fortified offshore islands of Quemoy and Matsu) is 13,973 sq. miles (36,188 sq. km). Population (1999), 22,092,387. The ethnic composition is 84% native Taiwanese (including 15% of Hakka), 14% of Mainland Chinese, and 2% aborigine of Malayo-Polynesian origin. There are also 401,989 aboriginals of Malay origin. Population density: 610 per sq. km.

Taiwan's administrative units comprise (with 1999 populations): 2 special municipalities: Taipei, the capital (2.64m.) and Kaohsiung (1.48m.); 5 cities outside the county structure: Chiayi (265,109), Hsinchu (361,958), Keelung (385,201), Taichung (940,589), Tainan (728,060); 16 counties (*hsien*): Changhwa (1,305,640), Chiayi (562,662), Hsinchu (433,767), Hualien (355,686), Ilan (465,004), Kaohsiung (1,230,352), Miaoli (559,804), Nantou (544,038), Penghu (89,013), Pingtung (909,015), Taichung (1,481,407), Tainan (1,103,723), Taipei (3,510,917), Taitung (247,801), Taoyuan (1,691,292), Yunlin (746,241).

SOCIAL STATISTICS

In 1999 the birth rate was 12.9 per 1,000 population; death rate, 5.7 per 1,000; rate of growth, 0.7% per annum. Life expectancy, 1999: males, 72.46 years; females, 78.12 years. The death rate was 5.71 per 1,000 persons; infant mortality per 1,000 live births, 7.23.

CLIMATE

The climate is subtropical in the north and tropical in the south. The typhoon season extends from July to Sept. The average monthly temperatures of Jan. and July in Taipei are 59.5°F (15.3°C) and 84.2°F (29.0°C) respectively, and average annual rainfall is 85.8" (2,180.2 mm). Kaohsiung's average monthly temperatures of Jan. and July are 65.1°F (18.4°C) and 83.7°F (28.7°C) respectively, and average annual rainfall is 63.7" (1,619 mm).

CONSTITUTION AND GOVERNMENT

The ROC Constitution is based on the Principles of Nationalism, Democracy and Social Wellbeing formulated by Dr Sun Yat-sen, the founding father of the Republic of China. The ROC government is divided into 3 main levels: central, provincial/municipal and county/city each of which has well-defined powers.

The central government consists of the Office of the President, the National Assembly, which is specially elected only for constitutional amendment, and five governing branches called 'yuan', namely the Executive Yuan, the Legislative Yuan (225 seats, increased from 164 for the 1998 elections), the Judicial Yuan, the Examination Yuan and the Control Yuan.

At the provincial level, the provincial governments exercise administrative responsibility. Since the ROC government administers only Taiwan Province and two counties in Fukien Province, only two provincial governments are currently operational—the Taiwan Provincial Government and the Fukien Provincial Government. Taipei and Kaohsiung are special municipalities which are under the direct jurisdiction of the central government. At the local level, under the Taiwan Provincial Government are five city governments: Keelung, Hsinchu, Taichung, Chiayi and Tainan; and 16 county governments with the governments of their subordinate cities. The Fukien Provincial Government oversees the regional affairs of Kinmen County and Lienchiang County. From 5 May to 23 July 1997 the *Additional Articles of the Constitution of the Republic of China* underwent yet

another amendment. The roles of the provincial government and the Control Yuan have taken on drastic changes. Under the newest revision:

- The provincial government is to be streamlined and the popular elections of the governor and members of the provincial council are suspended.
- A resolution on the impeachment of the President or Vice President is no longer to be instituted by the Control Yuan but rather by the Legislative Yuan.
- The Legislative Yuan has the power to pass a no-confidence vote against the premier of the Executive Yuan, while the president of the Republic has the power to dissolve the Legislative Yuan.
- The premier of the Executive Yuan is to be directly appointed by the president of the Republic. Hence the consent of the Legislative Yuan is no longer needed.
- Educational, scientific and cultural budgets, especially the compulsory education budget, will be given priority, but no longer restricted by Article 164 of the Constitution to remain at least 15% of the total national budget.

National Anthem. 'San Min Chu I'; words by Dr Sun Yat-sen, tune by Cheng Mao-yun.

INTERNATIONAL RELATIONS

By a treaty of 1 Dec. 1954 the USA was pledged to protect Taiwan, but this treaty lapsed 1 year after the USA established diplomatic relations with the People's Republic of China on 1 Jan. 1979. In April 1979 the Taiwan Relations Act was passed by the US Congress to maintain commercial, cultural and other relations between USA and Taiwan through the American Institute on Taiwan and its Taiwan counterpart, the Taipei Economic and Cultural Representative Office in the USA, which were accorded quasi-diplomatic status in 1980.

The People's Republic took over the China seat in the UN from Taiwan on 25 Oct. 1971.

In May 1991 Taiwan ended its formal state of war with the People's Republic.

As of Nov. 2000 Taiwan has formal diplomatic ties with 29 countries and maintains substantive relations with over 100 countries and territories around the globe.

ECONOMY

Policy. As regional economic blocs take shape, Taiwan plans to develop itself into an operations centre for the Asia-Pacific region over the next 10 years. The plan calls for 6 operations centres to handle high value-added manufacturing, air and sea cargo and passenger transportation, and professional services.

Performance. Although Taiwan was less affected by the Asian crisis than many of its neighbours, GDP growth in 1999 was just 5.7% after growth in 1998 of 4.7% when economic expansion was at its weakest for 16 years. For 2000 growth of 6.5% was forecast, above the target of 6.1%. Between 1990 and 1997 growth was around 6% each year.

Budget. There are 2 budgets, the central government's general budget together with some special defence and infrastructure appropriations and the provincial budget for Taiwan proper. As a result of the constitutional amendment to abolish the provincial government from the fiscal year 2000 the central government budget has been enlarged to include the former provincial government. For the period July 1999–Dec. 2000 the central government's general budget was NT\$2,234,769m. Expenditure planned: 15.8% on defence; 9.8% on economic development; 16.4% on social security; 16.1% on education, science and culture. Foreign exchange reserves were US\$109,056m. in Oct. 2000.

Currency. The unit of currency is the *New Taiwan dollar* (TWD) of 100 cents. Gold reserves were 13.55m. oz in Oct. 2000. Inflation was 0.2% in 1999, with a forecast for 2000 of 1.55%.

Banking and Finance. The Central Bank of China (reactivated in 1961) regulates the money supply, manages foreign exchange and issues currency. The *Governor* is Peng Fai-nan. The Bank of Taiwan is the largest commercial bank and the fiscal agent of the government. The number of financial institutions totalled 6,528 in June 2000. Banks in Taiwan have the lowest bad-loan ratios in Asia.

There are 2 stock exchanges in Taipei.

KEY HISTORICAL EVENTS

In 1564 the Spanish Crown appointed a President of New Granada, which included the territories of Colombia, Panama and Venezuela. In 1718 a viceroyalty of New Granada was created. This viceroyalty gained its independence from Spain in 1819, and together with the present territories of Panama, Venezuela and Ecuador was officially constituted as the state of 'Greater Colombia'. This new state lasted only until 1830 when it split up into Venezuela, Ecuador and the republic of New Granada, later renamed *Estados Unidos de Colombia*. The constitution of 5 Aug. 1886, forming the Republic of Colombia, abolished the sovereignty of the states, converting them into departments with governors appointed by the President of the Republic. The department of Panama, however, became an independent country in 1903. Conservatives and Liberals fought a civil war from 1948 to 1957 (*La Violencia*) during which some 300,000 people were killed. Subsequently, powerful drugs lords have made violence endemic. Two Marxist guerrilla forces are active, the Colombian Revolutionary Armed Forces (FARC), and the smaller National Liberation Army (ELN). They are opposed by a well-armed paramilitary organization which emerged after the setting up of rural self-defence groups. Killings and other abuses by paramilitary squads, guerrillas and the military in 1996 made it the most infamous year in the nation's history for human rights violations. On average, 10 Colombians were killed every day for political or ideological reasons, while one person disappeared every two days.

There were hopes of a fresh start in 1998 when Andrés Pastrana was elected president. Offers to talk peace were taken up by the rebels and by their paramilitary enemies. But political differences are wide, with FARC demanding sweeping agrarian reform and a redistribution of wealth. FARC controls around 40% of the country including areas which produce the bulk of illegal drugs. Approximately 80% of the cocaine and 60% of the heroin sold in the USA originates in Colombia.

TERRITORY AND POPULATION

Colombia is bounded in the north by the Caribbean Sea, northwest by Panama, west by the Pacific Ocean, southwest by Ecuador and Peru, northeast by Venezuela and southeast by Brazil. The estimated area is 1,141,815 sq. km (440,855 sq. miles). Population census (1993), 37,127,293; density, 40.2 per sq. km.

The UN gives a projected population for 2010 of 44.77m.

In 1998, 74.1% lived in urban areas. Bogotá, the capital (estimate 1999): 6,276,000.

CONSTITUTION AND GOVERNMENT

Simultaneously with the presidential elections of May 1990, a referendum was held in which 7m. votes were cast for the establishment of a special assembly to draft a new constitution. Elections were held on 9 Dec. 1990 for this 74-member 'Constitutional Assembly' which operated from Feb. to July 1991. The electorate was 14.2m.; turn-out was 3.7m. The Liberals gained 24 seats, M19 (a former guerrilla organization), 19. The Assembly produced a new constitution which came into force on 5 July 1991. It stresses the state's obligation to protect human rights, and establishes constitutional rights to healthcare, social security and leisure. Indians are allotted 2 Senate seats. Congress may dismiss ministers, and representatives may be recalled by their electors.

The *President* is elected by direct vote for a term of 4 years, and is not eligible for re-election until 4 years afterwards. A vice-presidency was instituted in July 1991.

RECENT ELECTIONS

In the first round of the presidential election on 31 May 1998, the Liberal Party candidate, Horacio Serpa, won by a mere 25,000 votes from a total of 10.8m, but in the second round on 21 June the Social Conservative Party candidate, Andrés Pastrana, received approximately 50.5% against 46.5% for Serpa.

Congressional elections were held on 8 March 1998, the ruling Liberal Party beating the Social Conservatives into second place amidst indications of large-scale vote buying. Hundreds of people were arrested with forged identity cards or other evidence of attempted fraud. Voting was cancelled in more than 50 towns and in other incidents, election officials were kidnapped, transport disrupted and electricity supplies sabotaged. The Liberal Party claimed 98 of the 161 available seats, against the Social Conservatives 52. Other parties shared the remaining 11 seats. In elections to the Senate on the same day, the Liberal party claimed 51 seats, the Social Conservatives 26 and 22 other parties shared the remaining 31 seats.

KEY HISTORICAL EVENTS

The 3 islands forming the present state became French protectorates at the end of the 19th century and were proclaimed colonies in 1912. With neighbouring Mayotte they were administratively attached to Madagascar from 1914 until 1947 when the 4 islands became a French Overseas Territory, achieving internal self-government in Dec. 1961. In referendums held on each island on 22 Dec. 1974, the 3 western islands voted overwhelmingly for independence, while Mayotte

voted to remain French. Recent years have been marked by political disruption. In 1997 the islands of Anjouan and Mohéli attempted to secede from the federation.

There is a 15-member *Senate* (5 members for each island) which is nominated for 6 years by an electoral college. The constitution was further amended in 1996.

However, following a coup of April 1999, the constitution was suspended and superseded by a new version. Among its provisions, it was stated that the National Army of Development would uphold individual and collective liberties.

KEY HISTORICAL EVENTS

King Leopold II of the Belgians took the lead in exploring and exploiting the Congo Basin. In 1908 the country was annexed to Belgium as the Belgian Congo. After gaining independence in June 1960, the country's name was changed to Zaïre in 1971. Mobutu Sésé Séko came to power in a coup in 1965. At first he was seen as a strongman who could hold together a huge, unstable country comprising hundreds of tribes and language groups. In the 1970s he was feted by the USA which

used Zaïre as a springboard for operations into neighbouring Angola where western-backed Unita rebels were locked in civil war with a Cuban and Soviet backed government. Because Mobutu was useful in the fight against Communism the brutality and repressiveness of his regime was ignored.

After armed insurrection by Tutsi rebels in the province of Kivu, the government alleged pro-Tutsi intervention by the armies of Burundi and Rwanda and on 25 Oct. 1996 declared a state of emergency. By Dec. the secessionist forces of Laurent-Désiré Kabila, the Alliance of Democratic Forces for the Liberation of Congo-Zaïre (ADFL), had begun to drive the regular Zaïrean army out of Kivu and an attempt was made to establish a rebel administration, 'Democratic Congo'. In the face of continuing rebel military successes and the disaffection of the army, the Government accepted a UN resolution demanding the immediate cessation of hostilities. The Security Council asked the rebels also to make a public declaration of their acceptance. However, the latter continued in their victorious advance westwards, capturing Kisangani on 15 March 1997, then Kasai and Shaba, giving Kabila control of eastern Zaïre, and crucially the country's mineral wealth. After a futile attempt to deploy Serbian mercenaries, Mobutu succumbed to pressure—particularly from the USA and South Africa—and agreed to meet Kabila. Little happened but the meeting had all the trappings of a symbolic surrender. Mobutu fled without warning or conditions on the night of 15–16 May 1997. He died of cancer 4 months later. Described as one of the most destructive tyrants of the African independence era, it is said that his personal fortune, if ever recovered, could wipe out his country's national debt.

On coming to power Kabila changed the name of the country to the Democratic Republic of the Congo. Hopes for democratic and economic renewal were soon disappointed. The Kabila regime relied too closely on its military backup, mainly Rwandans and eastern Congolese from the Tutsi minority. Those supporters seemed more interested in eliminating tribal enemies in eastern border areas than in establishing democracy. As a result, Rwanda and Uganda switched support to rebel forces. When Zimbabwe and Angola sent in troops to help President Kabila, full-scale civil war threatened. A ceasefire was negotiated at a Franco-African summit in Nov. 1998 but the military build-up continued into the new year and violence intensified.

A ceasefire agreement was signed by leaders from more than a dozen African countries in July 1999 to bring the civil war between the government of President Kabila and rebel forces to an end. Rival factions of the Congolese Rally for Democracy, the main rebel group opposed to the president, also signed the accord, but not until Sept. The threat remained of an early return to outright civil war. The conflict, which has been described as Africa's first continental war, has drawn in

Zimbabwe, Angola and Namibia (and, for a time, Sudan and Chad) on the side of the government, which controls the west of the country, while Rwanda and Uganda back different rival factions. Burundi also has troops in the country, allied to the Rwandans, although they stay close to the border with Burundi. Approximately 2m. people have been displaced as a result of the conflict, and large numbers of people have sought asylum in Tanzania and Zambia.

'On the third anniversary of Kabila's assumption of power, a dispatch from the Panafrican News Agency reviewed the Democratic Republic of the Congo's condition:— Basic infrastructure is in total decay. Major sections of trunk "A" roads ... are not usable. Proposals for the rehabilitation of other facilities, such as hospitals, industries, manufacturing, and other structures, have also been stalled. On the social front, dirt and environmental decay have spewed all sorts of diseases. Smallpox, diarrhoea, sleeping sickness, among others, have come back in force while AIDS, malaria and poliomyelitis continue to devastate a population already weakened by under-nourishment... More than 60 per cent of the country's working population is not at work...' (*The New Yorker*, 25 Sept. 2000).

On 16 Jan. 2001 President Kabila was assassinated, allegedly by one of his own bodyguards. Kabila was succeeded by his son Joseph.

Prospects for peace improved dramatically in Feb. 2001 when the UN Security Council approved a plan for the disengagement of the warring factions that would allow the eventual deployment of 3,000 UN-supported peacekeepers.

TERRITORY AND POPULATION

The Democratic Republic of the Congo is bounded in the north by the Central African Republic, northeast by Sudan, east by Uganda, Rwanda, Burundi and Lake Tanganyika, south by Zambia, southwest by Angola and northwest by the Republic of the Congo. There is a 37-km stretch of coastline which gives access to the Atlantic Ocean, with the Angolan exclave of Cabinda to the immediate north, and Angola itself to the south. Although parties other than the ADFL have been dissolved, a constitutional referendum was due to be held in Dec. 1998, and presidential and parliamentary elections in April 1999. However, these did not take place as scheduled.

CURRENT ADMINISTRATION

President: Joseph Kabila; b. 1971 (in office since 17 Jan. 2001).

On 4 April 2001 President Kabila dismissed his entire cabinet, stating that it had had not been operational since the assassination of the previous president, his father, on 16 Jan. 2001. He planned to appoint a new cabinet and hold elections as early as possible.

DEFENCE

Following the overthrow of the Mobutu regime in May 1997, the former Zaïrean armed forces were in disarray. The insurgent Congo Liberation Army has between 20,000 and 40,000 fighters, equipped with small arms and some SA-7 SAMs. Much of this equipment is believed to be non-operational.

Defence expenditure totalled US\$411m. in 1999 (US\$9 per capita), representing 7.8% of GDP.

Policy. In its search for hard currency to buy weapons and pay the foreign armies it relies on for its survival, the Kabila government started to use desperate measures in 1999 including the ban on the use of dollars for local transactions, a tax squeeze on companies still operating and the seizure of privately-owned timber stocks for export.

Performance. GDP growth was -6.0% in 1998 and -2.0% in 1999. In Feb. 1998 GDP was reported to be 65% lower than it was in 1960, when the country gained independence. Total GDP in 1998 was US\$7.0bn.

KEY HISTORICAL EVENTS

First occupied by France in 1882, the Congo became a territory of French Equatorial Africa from 1910–58, and then a member state of the French Community. Between 1940 and 1944, thanks to Equatorial Africa's allegiance to General de Gaulle, he named Brazzaville the capital of the Empire and Liberated France. Independence was granted in 1960. A Marxist-Leninist state was introduced in 1970. Free elections were restored in 1992 but violence erupted when in June 1997 President

Lissouba tried to disarm opposition militia ahead of a fresh election. There followed 4 months of civil war with fighting concentrated on Brazzaville which became a ghost town. In Oct. Gen. Sassou-Nguesso proclaimed victory, having relied upon military support from Angola. President Lissouba went into hiding in Burkina Faso. A peace agreement signed in Nov. 1999 between President Sassou-Nguesso and the Cocoye and Ninja militias brought a period of relative stability.

KEY HISTORICAL EVENTS

Discovered by Columbus in 1502 on his last voyage, Costa Rica (Rich Coast) was part of the Spanish viceroyalty of New Spain from 1540 to 1821. It was part of the Central American Federation until 1838 when it achieved full independence. Coffee was introduced in 1808 and became a mainstay of the economy, helping to create a peasant land-owning class. In 1948 accusations of election fraud led to a 6-week civil war, at the conclusion of which José Figueres Ferrer won power at

the head of a revolutionary junta. A new constitution was promulgated with, amongst other changes, the abolition of the army. In 1986 Oscar Arias Sánchez was elected president. He promised to prevent Nicaraguan anti-Sandinista (*contra*) forces using Costa Rica as a base. In 1987 he received the Nobel Peace Prize as recognition of his Central American peace plan, agreed to by the other Central American states. Costa Rica was beset with economic problems in the early 1990s when several politicians, including President Calderón, were accused of profiting from drug trafficking.

TERRITORY AND POPULATION

The UN gives a projected population for 2010 of 4.53m.

There are 7 provinces (with 2000 population): Alajuela (655,944); Cartago (408,571); Guanacaste (285,388); Heredia (293,939); Limón (286,221); Puntarenas (406,448); San José (1,315,292). The largest cities, with estimated 2000 populations, are San José (346,600); Limón (62,000); and Alajuela (53,900).

The population is mainly of Spanish (85%) and mixed (8%) descent. About 3% are Afro-Caribbean (including some 70,000 speakers of an English Creole along the Caribbean coast). There is a residual Amerindian population of about 10,000.

Spanish is the official language.

KEY HISTORICAL EVENTS

France obtained rights on the coast in 1842 but did not occupy the territory until 1882. In the early 1870s a French offer to exchange Côte d'Ivoire with the British for the Gambia, which bisected the French colony of Senegal, was refused. Rumours of gold later rekindled French interest and in 1889 Côte d'Ivoire was declared a French protectorate. Governors appointed from France administered the colony using a system of centralized rule that allowed little room for local participation. In

1946 Côte d'Ivoire's first political party, the Democratic Party of Côte d'Ivoire, was created under the leadership of Félix Houphouët-Boigny who eventually adopted a policy of co-operation with the French authorities. By the mid-1950s the country had become the wealthiest in French West Africa and in 1958 Côte d'Ivoire became an autonomous republic within the French Community. Côte d'Ivoire achieved full independence on 7 Aug. 1960, with Félix Houphouët-Boigny as its first president.

On 23 Dec. 1999 President Henri Konan Bédié was ousted in a military coup led by Gen. Robert Guéi, the country's military chief from 1990 to 1995. On 6 Oct. 2000 a state of emergency was declared ahead of an announcement by the Supreme Court of the candidates allowed to stand for the presidential election on 22 Oct. 2000. After Robert Guéi declared himself the winner in the election, a violent popular uprising in which over 2,000 people were killed resulted in Gen. Guéi fleeing to Benin. The veteran opposition candidate Laurent Gbagbo was then declared the rightful winner.

There is a 175-member *National Assembly* elected by universal suffrage for a 5-year term. The President is also directly elected for a 5-year term (renewable). He appoints and leads a Council of Ministers.

In Nov. 1990 the National Assembly voted that its Speaker should become President in the event of the latter's incapacity, and created the post of Prime Minister to be appointed by the President. Following the death of President Houphouët-Boigny on 7 Dec. 1993, the speaker, Henri Konan Bédié, proclaimed himself head of state till the end of the presidential term in Sept. 1995.

Following the coup of Dec. 1999 a referendum was held on 23 July 2000 on the adoption of a new constitution, which set eligibility conditions for presidential candidates (the candidate and both his parents must be Ivorian), reduced the voting age from 21 to 18, and abolished the death penalty. It also offered an amnesty to soldiers who staged the coup and the junta, but committed the junta to hand over power to an elected civilian head of state and parliament within 6 months of the proclamation of the text. 87% of votes cast were in favour of the new constitution.

KEY HISTORICAL EVENTS

Croatia was united with Hungary in 1091 and remained under Hungarian administration until the end of the First World War. On 1 Dec. 1918 Croatia became a part of the new Kingdom of Serbs, Croats and Slovenes, which was renamed Yugoslavia in 1929. During the Second World War an independent fascist (Ustaša) state was set up under the aegis of the German occupiers. During the Communist period Croatia became one of the 6 'Socialist Republics' constituting the Yugoslav federation led by

Marshal Tito. With the collapse of Communism, an independence movement gained momentum.

In a referendum on 19 May 1991, 94.17% of votes cast were in favour of Croatia becoming an independent sovereign state with the option of joining a future Yugoslav confederation as opposed to remaining in the existing Yugoslav federation. The Krajina and other predominantly Serbian areas of Croatia wanted union with Serbia and seized power by force of arms. Croatian forces and Serb insurgents backed by federal forces became embroiled in a conflict throughout 1991 until the arrival of a UN peace-keeping mission at the beginning of 1992 and the establishment of 4 UN peace-keeping zones ('pink zones'). In early May 1995 Croatian forces re-took Western Slavonia from the Serbs and opened the Zagreb-Belgrade highway. In a 60-hour operation mounted on 4 Aug. 1995 the former self-declared Serb Republic of Krajina was occupied, provoking an exodus of 180,000 Serb refugees. Croats who had left the area in 1991 began to return. On 12 Nov. 1995 the Croatian government and Bosnian Serbs reached an agreement to place Eastern Slavonia, the last Croatian territory still under Bosnian Serb control, under UN administration.

TERRITORY AND POPULATION

Croatia is bounded in the north by Slovenia and Hungary and in the east by Yugoslavia and Bosnia-Herzegovina. It includes the areas of Dalmatia, Istria and Slavonia which no longer have administrative status. Its area is 56,542 sq. km. Population at the 1991 census was 4,784,265, of whom the predominating ethnic groups were Croats (3,736,356) and Serbs (581,663). Estimate, 1997, 4,664,700; density, 85.5 per sq. km.

The UN gives a projected population for 2010 of 4.41m.

In 1998, 56.9% of the population lived in urban areas. Zagreb, the capital, had a 1999 population of 1,047,000. Other major towns (with 1991 census population): Split (189,388), Rijeka (167,964), Osijek (104,761).

At the beginning of 1991 there were some 0.6m. resident Serbs. A law of Dec. 1991 guaranteed the autonomy of Serbs in areas where they are in a majority after the establishment of a permanent peace.

The official language is the western variant of Serbo-Croat (in Croatia called Croato-Serb or, familiarly, Croatian).

CONSTITUTION AND GOVERNMENT

A new constitution was adopted on 21 Dec. 1990. The *President* is elected for renewable 5-year terms. Parliament (*Sabor*) consists of the 127-member *House of Representatives*, in which 12 seats are reserved for the Croat diaspora and 3 for the Serb minority. It is elected by a combination of proportional representation and first-past-the-post methods. KEY HISTORICAL EVENTS

Cuba was a Spanish possession for four hundred years until sovereignty was relinquished in 1898 at the end of the Spanish-American War. Cuba became an independent republic in 1901. In 1933 Fulgencio Batista Zaldívar led a successful military revolution. He ruled the country for most of the period up to 1959. A revolutionary movement, led by Dr Fidel Castro from 26 July 1953, was eventually successful and Batista fled the country on 1 Jan. 1959. Under Castro, Cuba's

relationship with the USA deteriorated while relations with the USSR became closer. In Jan. 1961 the USA severed diplomatic relations after US business interests in Cuba had been expropriated without compensation. On 17 April an invasion force of émigrés and adventurers, encouraged by the USA, landed in Cuba but was defeated at the Bay of Pigs. At the end of 1961 Castro declared Cuba to be a Communist state. The US Navy imposed a blockade on Cuba from 22 Oct. until 22 Nov. 1962 to force the USSR to withdraw Soviet missile bases. Cuba continued to receive financial aid and technical advice from the USSR until the early 1990s when subsidies were suspended. This led to a 40% drop in GDP between 1989 and 1993. The USA has maintained an economic embargo against the island and relations between Cuba and the USA have remained embittered.

TERRITORY AND POPULATION

The island of Cuba forms the largest and most westerly of the Greater Antilles group and lies 135 miles south of the tip of Florida, USA. The area is 110,860 sq. km, and comprises the island of Cuba (104,945 sq. km.); the Isle of Youth (Isla de la Juventud, formerly the Isle of Pines; 2,200 sq. km.); and some 1,600 small isles ('cays'; 3,715 sq. km). Population, census (1981), 9,723,605; 1998, 11.1m.; density, 100.5 per sq. km.; growth rate (per 1,000 per year), 4.2%. In 1998, 77.1% of the population were urban.

The UN gives a projected population for 2010 of 11.52m.

The area, population and density of population of the 14 provinces and the special Municipality of the Isle of Youth (Isla de la Juventud) were as follows (1998):

	<i>Area</i> <i>sq. km</i>	<i>Population</i>		<i>Area</i> <i>sq. km.</i>	<i>Population</i>
Pinar del Río	10,860	731,300	Camagüey	14,134	782,200

The capital city, Havana, had a population in 1999 of 2,242,000. Other major cities (1993 population estimate in 1,000): Santiago de Cuba (430), Camagüey (294), Holguín (242), Guantánamo (208), Santa Clara (205), Bayamo (138), Cienfuegos (130), Pinar del Río (129), Las Tunas (127) and Matanzas (123).

DEFENCE

The National Defence Council is headed by the President of the republic. Conscription is for 2 years.

In 1999 defence expenditure totalled US\$750m. (US\$67 per capita), representing 4.8% of GDP. Defence expenditure in 1985 was US\$2,366m.

Army. The strength was estimated at 45,000 (including conscripts and Ready Reservists) in 1999. Border Guard and State Security forces total 26,500. The Territorial Militia is estimated at 1m. INTERNATIONAL RELATIONS

Cuba is a member of the UN, WTO, OAS, LAIA, ACS, Antarctic Treaty and SELA (Latin American Economic System).

ECONOMY

Agriculture accounted for an estimated 6.4% of GDP in 1998, industry 36.9% and services 56.7%.

Policy. Prices were increased by at least 50% on 1 June 1994. The Central Planning Board was abolished in Jan. 1995. After the economic crisis of the early 1990s, growth has picked up through the legalization of the use of the US dollar, the promotion of dollar-based tourism and of a parallel dollar economy around it. Over 50% of the population now have access to dollars, but there remains 50% who have to survive in the more limited pesos economy.

Performance. A combination of poor commodity export prices and a poor sugar harvest slowed down Cuba's economic growth in 1998 to 1.2%, below the government's original target of 2.5–3.5%. In 1999, however, growth was an impressive 6.2%. GDP in 1997 was estimated to be only 80% of that in 1984.

Budget. The 1998 budget envisaged revenue of 12,502bn. pesos and expenditure of 13,061bn. pesos. Hard-currency earners and the self-employed became liable to a 10–50% income tax in Nov. 1995.

Currency. The unit of currency is the *Cuban peso* (CUP) of 100 *centavos*, which is not convertible, although an official exchange rate is announced daily reflecting any changes in the strength of the US dollar. The US dollar has been legal tender since 1993. 9,710m. pesos were in circulation in 1998. Inflation was expected to be 3.6% in 1999.

Banking and Finance. The Central Bank of Cuba (*Governor*, Francisco Soberón Valdés) replaced the National Bank of Cuba as the central bank in June 1997. On 14 Oct. 1960 all banks were nationalized. Changes to the banking structure beginning in 1996 divested the National Bank of its commercial functions, and created new commercial and investment institutions. There were 7 commercial banks in March 1999 and 9 local non-banking financial institutions. In addition, 17 foreign financial institutions, including 14 foreign banks, had representative offices in 1999; foreign branches are not permitted.

All insurance business was nationalized in Jan. 1964. A National Savings Bank was established in 1983.

Weights and Measures. The metric system is legally compulsory, but the American and old Spanish systems are much used. The sugar industry uses the Spanish long ton (1.03 tonnes) and short ton (0.92 tonne). Cuba sugar sack = 329.59 lb or 149.49 kg. Land is measured in *caballerías* (of 13.4 ha or 33 acres).

ENERGY AND NATURAL RESOURCES

Electricity. Installed capacity was 4m. kW in 1997. Production was 14.1bn. kWh in 1998; consumption per capita in 1997 was 1,273 kWh.

Oil and Gas. Crude oil production (1998), 1,678,000 tonnes. Raw gas production (1998), 120m. cu. metres.

Minerals. Iron ore abounds, with deposits estimated at 3,500m. tonnes. Output of copper concentrate (1997) was 1,000 tonnes; refractory chrome (1987), 52,400 tonnes. Other minerals are nickel (1998, 68,000 tonnes), cobalt, silica and barytes. Gold and silver are also worked. Salt output in 1998 was 180,000 tonnes. Sulphuric acid production (1989), 381,500 tonnes.

Agriculture. In 1959 all land over 30 *caballerías* were nationalized and eventually turned into state farms. Under legislation of 1993, state farms are being re-organized as 'units of basic co-operative production'. These units have the use of the land in perpetuity from the state. Unit workers select their own managers, and are paid an advance on earnings. 294,700 persons were employed in these units in 1995. In 1963 private holdings were reduced to a maximum of 5 *caballerías*. In Sept. 1984 there were 1,472 co-operatives comprising 70,000 *caballerías* of land. In 1994 farmers were permitted to trade on free market principles after state delivery quotas had been met.

The most important product is sugar and its by-products, but in 1998 the harvest suffered a series of weather disasters reducing production to 3.2m. tonnes (3.4m. tonnes in 1995-96), the smallest crop for 50 years. Production of other important crops in 1998 was (in 1,000 tonnes): grapefruit and pomelos, 420; rice, 388; oranges, 340; potatoes, 326; bananas, 325; cassava, 250; sweet potatoes, 220; plantains, 216; tomatoes, 164; maize, 126.

These forests contain valuable cabinet woods, such as mahogany and cedar, besides dye-woods, fibres, gums, resins and oils. Cedar is used locally for cigar boxes, and mahogany is exported. In 1998, 2.76m. cu. metres of roundwood were produced.

KEY HISTORICAL EVENTS

In 1193 the island became a Frankish kingdom, in 1489 a Venetian dependency, and in 1751 was conquered by the Turks. In 1914 the island was annexed by Great Britain and on 1 May 1925 it was given the status of a Crown Colony. In the 1930s the Greek Cypriots began to agitate for ENOSIS (Union with Greece). In 1955 they started a guerrilla movement (EOKA) against the British, with Archbishop Makarios, the head of the Greek Orthodox Church in Cyprus, as leader. In 1959 the Greek and

Turkish Cypriots agreed on a constitution for an independent Cyprus and Makarios was elected President. On 16 June 1960 Cyprus became an independent state. In Dec. 1963 the Turkish Cypriots withdrew from the government. Fighting between Turkish and Greek Cypriots led to a UN peacekeeping force being sent in. Turkey invaded the island on 20 July 1974, eventually occupying the northern part. 0.2m. Greek Cypriots fled to live as refugees in the south. In 1975 a Turkish Cypriot Federated State was proclaimed. Rauf Denktaş was appointed President. In 1983 the Turkish state unilaterally proclaimed itself the 'Turkish Republic of Northern Cyprus' (TRNC). In 1991 the UN rejected Rauf Denktaş' demands for the recognition of sovereignty for the TRNC, including a right to secession. In 1998 a proposal by Rauf Denktaş that the Greek and Turkish communities should join in a federation that recognizes 'the equal and sovereign status of Cyprus' Greek and Turkish parts' was rejected by the Greek and Cypriot governments. The need for a settlement has taken on fresh urgency with Turkey's application to join the EU. Greece is threatening to block progress on this front until the Cyprus question is resolved.

TERRITORY AND POPULATION

The island lies in the Mediterranean, about 60 km off the south coast of Turkey and 90 km off the coast of Syria. Area, 3,572 sq. miles (9,251 sq. km). The Turkish-occupied area is 3,335 sq. km. Population by ethnic group:

<i>Ethnic group</i>	<i>1960</i>	<i>1973</i>	<i>1992</i>	<i>1999²</i>
Greek Cypriot	447,901	498,511	599,000	642,700
Turkish Cypriot	103,822	116,000	95,000 ¹	88,000
Others	20,984	17,267	20,000	24,100
Total	572,707	631,778	714,000	754,800

¹Revised to take into account Turkish Cypriots who have emigrated from the Turkish-occupied area since 1974 (estimated at over 41,000).

²Estimate.

Estimated population, 1999, 754,800; density, 82 per sq. km.

The UN gives a projected population for 2010 of 867,000.

69.8% of the population lived in urban areas in 1999. Principal towns with populations (1999 estimate): Nicosia (the capital), 197,800; Limassol, 157,600; Larnaca, 69,700; Paphos, 40,000.

As a result of the Turkish occupation of the northern part of Cyprus, 0.2m. Greek Cypriots were displaced and forced to find refuge in the south. The urban centres of Famagusta, Kyrenia and Morphou were completely evacuated. *See below* for details of the 'Turkish Republic of Northern Cyprus'. Nicosia is a divided city, with the UN-patrolled Green Line passing through it.

Greek and Turkish are official languages. English is widely spoken.

CONSTITUTION AND GOVERNMENT

Under the 1960 Constitution executive power is vested in a *President* elected for a 5-year term by universal suffrage, and exercised through a Council of Ministers appointed by him or her. The *House of Representatives* exercises legislative power. It is elected by universal suffrage for 5-year terms, and consists of 80 members, of whom 56 are elected by the Greek Cypriot and 24 by the Turkish Cypriot community. Voting is compulsory, and is by preferential vote in a proportional representation system with reallocation of votes at national level. KEY HISTORICAL EVENTS

The Czech tribe rose to dominance in Bohemia in the 8th century. In 1212 Otakar I received a hereditary kingship from the Holy Roman Emperor. Wenceslas II was elected king of Poland in 1300. Wenceslas was succeeded in 1310 by John of Luxemburg whose son, Charles (1346–78), became Holy Roman Emperor as Charles IV in 1355. Bohemia attained a high degree of prosperity and civilization at this time. In 1527 the diet elected the Hapsburg Ferdinand as king. The Hapsburgs

gradually encroached upon Czech rights and religious freedom. The Czech nobility were replaced by German-speaking adventurers; the burgesses lost their rights; burdens were piled on to the peasantry; and Catholicism was enforced.

The increasingly political aspirations of Czech nationalists were not for the resuscitation of the old Bohemia but for the formation of a new Czechoslovakia, an idea fostered by Thomas Masaryk. Manhood suffrage was granted in 1906 but the chamber of deputies was constantly bypassed by the emperor. The First World War brought a complete estrangement between Czech and German sectors of the population, the latter supporting the German war effort. Masaryk and other leaders went into exile. In 1918 he secured the support of US president Woodrow Wilson for Czech and Slovak unity (*see* Slovakia). Austria accepted President Wilson's terms on 27 Oct. 1918 and the next day a republic was proclaimed with Masaryk as president and Edvard Beneš as foreign minister. On 29 Oct. the Slovak leaders declared Slovakia part of the Czechoslovak nation. Czechoslovakia developed into a prosperous democracy but was hard hit by the economic depression of the 1930s. Nationalist agitation amongst the Sudeten Germans was fomented by Hitler. Czechoslovakia relied on France for her defence against German aggression but France sided with Britain in the Munich agreement of 29 Sept. 1938 which stipulated that all districts with a German population of more than 50% should be ceded to Germany. Beneš resigned the presidency and went into exile. On 14 March 1939 Slovakia declared itself independent under German hegemony, and the next day the German army occupied the rest of the country. Czechoslovaks who managed to escape joined Beneš to form a government in exile. Liberation by the Soviet Army and US Forces was completed by May 1945 and territories taken by Germans, Poles and Hungarians were restored to Czechoslovak sovereignty. Elections were held in May 1946, at which the Communist Party obtained about 38% of the votes. A coalition government under a Communist Prime Minister, Klement Gottwald, remained in power until 20 Feb. 1948, when a predominantly Communist government was formed by Gottwald. In May elections resulted in an 89% majority for the government, and President Beneš resigned.

In 1968 pressure for liberalization culminated in the overthrow of the Stalinist leader, Antonín Novotný. Under Alexander Dubček's leadership the 'Prague Spring' began to take shape, with an 'Action Programme' of far-reaching reforms. Soviet pressure to abandon this programme was exerted between May and Aug. 1968, when Warsaw Pact forces occupied Czechoslovakia.

Mass demonstrations demanding political reform began in Nov. 1989. On 30 Nov. the Federal Assembly abolished the Communist Party's sole right to govern. On 10 Dec. Gustáv Husák resigned as President and was replaced by Václav Havel.

On 25 Nov. 1992 the Federal Assembly voted the dissolution of the Czech and Slovak Federal Republic. Economic property was divided in accordance with a federal law of 13 Nov. 1992. Government real estate became the property of the republic in which it was located. Other property was divided by specially constituted commissions in the proportion of 2 (Czech Republic) to 1 (Slovakia) on the basis of population size. Czechoslovakia split into the Czech Republic and Slovakia on 1 Jan. 1993.

TERRITORY AND POPULATION

The Czech Republic is bounded in the west by Germany, north by Poland, east by Slovakia and south by Austria. Minor exchanges of territory to straighten their mutual border were agreed between the Czech Republic and Slovakia on 4 Jan. 1996, but the Czech parliament refused to ratify them on 24 April 1996. Its area is 78,864 sq. km. At the 1991 census the population was 10,302,215. 1996 estimate, 10,331,206 (51.4% female); density, 131 per sq. km. In 1998, 65.9% of the population lived in urban areas.

The UN gives a projected population for 2010 of 10.05m.

There are 14 administrative regions (*Kraj*), one of which is the capital, Prague (Praha).

The koruna became convertible on 1 Oct. 1995. In May 1997 the koruna was devalued 10% and allowed to float. Total money supply was Kč. 371m. in Feb. 1998.

Banking and Finance. The central bank and bank of issue is the Czech National Bank (*Governor*, Zdenek Tuma), which also acts as banking supervisor and regulator. Decentralization of the banking system began in 1991, and private banks began to operate. The Commercial Bank and Investment Bank are privatized nationwide networks with a significant government holding. Specialized banks include the Czech Savings Bank and the Czech Commercial Bank (for foreign trade payments). Private banks tend to be on a regional basis, many of them agricultural banks. There are also subsidiaries of foreign banks, joint ventures with foreign participation, and branches and representative offices of foreign banks. In Nov. 1997 the cabinet agreed to sell off large stakes in 3 of the largest state-held banks to individual foreign investors through tenders, in preparation for European Union entry. In June 2000 the country's 4th largest bank, Československá obchodní banka (CSOB), acquired the operations of the 3rd largest bank, Investiční a Poštovní banka (IPB). The newly-formed institution became the country's largest bank, with assets of US\$16.6bn. in Dec. 1999. Other major banks are Komerční banka (assets of US\$10.8bn. in Dec. 1999) and Česká Spořitelna (assets of US\$9.6bn.). The privatization of the state's 60% stake in Komerční banka was scheduled for completion in April 2001, following which all of the leading banks will have been privatized.

Foreign direct investment, which was only US\$1.3bn. in 1997, more than doubled to US\$2.72bn. in 1998 and rose to US\$5.11bn. in 1999.

Savings deposits were Kč. 289,163m. in 1993.

A stock exchange was founded in Prague in 1992.

Justice. The post-Communist judicial system was established by a law of July 1991. This provides for a unified system of 4 types of court: civil, criminal, commercial and administrative. Commercial courts arbitrate in disputes arising from business activities. Administrative courts examine the legality of the decisions of state institutions when appealed by citizens. In addition, there are military courts which operate under the jurisdiction of the Ministry of Defence. There is a Supreme Court, and a hierarchy of courts under the Ministry of Justice at republic, region and district level. District courts are courts of first instance. Cases are

usually decided by senates comprising a judge and 2 associate judges, though occasionally by a single judge. (Associate judges are citizens in good standing over the age of 25 who are elected for 4-year terms). Regional courts are courts of first instance in more serious cases and also courts of appeal for district courts. Cases are usually decided by a senate of 2 judges and 3 associate judges, although again occasionally by a single judge. There is also a Supreme Administrative Court. The Supreme Court interprets law as a guide to other courts and functions also as a court of appeal. Decisions are made by senates of 3 judges. Judges are appointed for life by the National Council.

There is no death penalty. In 1993, 398,505 crimes were reported, of which 31.7% were solved. The population in penal institutions in Oct. 1998 was 22,138 (215 per 100,000 of national population).

KEY HISTORICAL EVENTS

Denmark was first organized as a unified state in the 10th century with a Christian monarchy. King Canute was also King of England and King of Norway in the 11th century, but the union of the three countries was soon dissolved. In 1363 a royal marriage united Denmark and Norway and these two countries joined with Sweden in 1397. Sweden separated herself in 1523 and thereafter was in conflict with Denmark until the Peace of Copenhagen in 1660. Denmark acquired approximately its present boundaries in 1815 at the end of the Napoleonic Wars. Having supported Napoleon, it was forced to cede Norway to Sweden by the Treaty of Kiel (1814); it lost its north-German territory to Prussia 1864–66 and only in 1920 was North Schleswig returned to Denmark.

After 1815 there was much pressure for a more liberal form of government in preference to the traditional absolute monarchy, and on 5 June 1849 the royal assent was given to a new constitution. A parliament, the *Rigsdag*, was created, divided into an upper house, the *Landsting*, and a lower house, the *Folketing*. The franchise was granted to men over 30 years old.

During the First World War (1914–18) Denmark remained neutral and in 1939, at the commencement of the Second World War, it again declared its neutrality. On this occasion, however, it was soon overwhelmed by the German forces which invaded on 9 April 1940. Throughout the war there was a considerable Danish resistance movement to which the Germans responded by imposing direct rule. Immediately after the Second World War, Denmark recognized the independence of Iceland. Home rule was granted to the Faroes in 1948 and to Greenland in 1979. Denmark became a member of the European Union on 1 Jan. 1973.

TERRITORY AND POPULATION

Denmark is bounded in the west by the North Sea, northwest and north by the Skagerrak and Kattegat straits (separating it from Norway and Sweden), and south by Germany. A 16-km long fixed link with Sweden was opened in July 2000 when the Øresund motorway and railway bridge between Copenhagen and Malmö was completed.

The UN gives a projected population for 2010 of 5·34m.

In 1999 an estimated 85·0% of the population lived in urban areas. In 1999, 93·7% of the inhabitants were born in Denmark, including the Faroe Islands and Greenland.

On 1 Jan. 2000 the population of the capital, Copenhagen (comprising Copenhagen, Frederiksberg and Gentofte municipalities), was 653,983; Aarhus, 217,260; Odense, 145,062; Aalborg, 119,617; Esbjerg, 73,341; Randers, 55,761; Kolding, 53,447; Horsens, 48,730; Vejle, 47,930; Roskilde, 43,100.

Copenhagen: Bishop Absalom built his 'Castle at Havn' (Harbour) in 1167 and from this salt marsh on the coast of Øresund (The Sound) the capital city of Copenhagen grew. Today more than 12% of the Danish population live in Copenhagen. The image most often associated with the city, 'The Little Mermaid', was based on the fairy-tale by Hans Christian Andersen. The sculptor was Edvard Eriksen and the model was his wife.

The official language is Danish.

The climate is much modified by marine influences and the effect of the Gulf Stream, to give winters that may be both cold or mild and often cloudy. Summers may be warm and sunny or chilly and rainy. Generally the east is drier than the west. Long periods of calm weather are exceptional and windy conditions are common. Copenhagen, Jan. 33°F (0·5°C), July 63°F (17°C). Annual rainfall 650 mm. Esbjerg, Jan. 33°F (0·5°C), July 61°F (16°C). Annual rainfall 800 mm. In general 10% of precipitation is snow.

CONSTITUTION AND GOVERNMENT

The present constitution is founded upon the Basic Law of 5 June 1953. The legislative power lies with the Queen and the *Folketing* (parliament) jointly. The executive power is vested in the monarch, who exercises authority through the ministers.

The reigning Queen is **Margrethe II**, b. 16 April 1940; married 10 June 1967 to Prince Henrik, b. Count de Monpezat. She succeeded to the throne on the death of her father, King Frederik IX, on 14 Jan. 1972. *Offspring*: Crown Prince Frederik, b. 26 May 1968; Prince Joachim, b. 7 June 1969; married 18 Nov. 1995 Alexandra Manley, b. 30 June 1964 (*Offspring*: Prince Nikolai William Alexander Frederik, b. 28 Aug. 1999).

Sisters of the Queen: Princess Benedikte, b. 29 April 1944; married 3 Feb. 1968 to Prince Richard of Sayn-Wittgenstein-Berleburg; Princess Anne-Marie, b. 30 Aug. 1946; married 18 Sept. 1964 to King Constantine of Greece.

The crown was elective from the earliest times but became hereditary by right in 1660. The direct male line of the house of Oldenburg became extinct with King Frederik VII on 15 Nov. 1863. In view of the death of the king, without direct heirs, the Great Powers signed a treaty at London on 8 May 1852, by the terms of which the succession to the crown was made over to Prince Christian of Schleswig-Holstein-Sonderburg-Glücksburg, and to the direct male descendants of his union

with the Princess Louise of Hesse-Cassel. This became law on 31 July 1853. Linked to the constitution of 5 June 1953, a new law of succession, dated 27 March 1953, has come into force, which restricts the right of succession to the descendants of King Christian X and Queen Alexandrine, and admits the sovereign's daughters to the line of succession, ranking after the sovereign's sons.

The Queen receives a tax-free annual sum of 48.9m. kroner from the state (2000).

The judicial power is with the courts. The monarch must be a member of the Evangelical-Lutheran Church, the official Church of the State, and may not assume major international obligations without the consent of the Folketing. The Folketing consists of one chamber. All men and women of Danish nationality of more than 18 years of age and permanently resident in Denmark possess the franchise, and are eligible for election to the Folketing, which is at present composed of 179 members; 135 members are elected by the method of proportional representation in 17 constituencies. In order to attain an equal representation of the different parties, 40 additional seats are divided among such parties which have not obtained sufficient returns at the constituency elections. 2 members are elected for the Faroe Islands and 2 for Greenland. The term of the legislature is 4 years, but a general election may be called at any time. The Folketing convenes every year on the first Tuesday in Oct. Besides its legislative functions, every 6 years it appoints judges who, together with the ordinary members of the Supreme Court, form the *Rigsret*, a tribunal which can alone try parliamentary impeachments.

National Anthem. 'Kong Kristian stod ved højen mast' ('King Christian stood by the lofty mast'); words by J. Ewald, tune by J. E. Hartmann.

DEFENCE

The Danish military defence is organized in accordance with 'The Act on the Aims, Tasks and Organization etc of the Armed Forces' from 8 Dec. 1993. The Defence Act identifies 2 main mission areas for the Danish Armed Forces: (1) conflict prevention, peacekeeping, peacemaking and humanitarian missions under the mandate of either the UN or the OSCE, and (2) conflict prevention, crises management and defence in the NATO-context.

The overall organization of the Danish Armed Forces includes the Ministry of Defence (MoD), the Danish Defence Command, the Army, the Navy, the Air Force and several joint service institutions and authorities; to this should be added the Home Guard, which is an integral part of Danish military defence. The Chief of Defence (CHOD), answering to the Minister of Defence, is in full command of the Army, the Navy and the Air Force.

Denmark has a compulsory military service with mobilization based on The Constitution of 1849. This states that it is the duty of every fit man to contribute to the national defence. In 1999 defence expenditure totalled US\$2,806m. (US\$528 per capita), representing 1.62% of GDP.

Army. The Danish Army is comprised of field army formations and local defence forces. The peacetime strength of the Danish Army is approximately 16,300 (including about 5,000 conscripts and 3,400 civilians). The Army's military wartime establishment would be about 46,000. The Danish Army is organized in 1 division, 4 brigades, and 2 regimental combat groups, headquarters units and support elements.

Navy. The peacetime strength of the Royal Danish Navy is approximately 5,000 (including some 400 conscripts and 1,600 civilians). The naval wartime establishment would be about 7,300. The fleet includes 3 coastal submarines and 4 ocean patrol vessels with Sea Lynx helicopters. The 2 main naval bases are located at Frederikshavn and Korsør.

Air Force. The peacetime strength of the Royal Danish Air Force is approximately 6,700 (including approximately 125 conscripts and 2,100 civilians). The wartime establishment would be about 11,600. It operates 69 combat aircraft (all F-16s) of which 9 are kept in reserve.

Home Guard (Hjemmeværnet). The personnel of the Danish Home Guard are recruited on a voluntary basis. The personnel establishment of the Home Guard is approximately 61,300 soldiers (46,500 in the Army Home Guard, 4,500 in the Naval Home Guard, 5,500 in the Air Force Home Guard, 2,900 in the Service Corps and 1,900 in the Establishment-related Home Guard).

INTERNATIONAL RELATIONS

In a referendum in June 1992 the electorate voted against ratifying the Maastricht Treaty for closer political union within the EU. Turn-out was 82%. 50.7% of votes were against ratification, 49.3% in favour. However, a second referendum on 18 May 1993 reversed this result, with 56.8% of votes cast in favour of ratification and 43.2% against. Turn-out was 86.2%. In a referendum held on 28 Sept. 2000 Danish voters rejected their country's entry into the common European currency, 53.2% opposing membership of the euro against 46.8% voting in favour. Turn-out was 87.6%.

Denmark gave US\$1.7bn. in international aid in 1999, which at 1.01% of GDP made it the world's most generous country as a percentage of its gross domestic product.

Denmark is a member of the UN, WTO, NATO, OECD, the EU, Council of Europe, OSCE, CERN, Nordic Council, Council of the Baltic Sea States, Inter-American Development Bank, Asian Development Bank, IOM and the Antarctic Treaty. On 19 Dec. 1996 Denmark acceded to the Schengen Accord of June 1990 which abolishes border controls between Denmark, Austria, Belgium, Finland, France, Germany, Greece, Iceland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain and Sweden.

ECONOMY

In 1997 services accounted for 69% of GDP, industry 27% and agriculture 4%.

According to the Berlin-based organization *Transparency International*, Denmark ranked second in 2000 behind Finland in having the least corruption in business and government of any country in the world. It received 9.8 out of 10 in a corruption perceptions index.

Policy. The government announced tax reform proposals in June 1998, with the corporate income tax rate being lowered from 34 to 26%. This, plus other changes, would help to trim back GDP growth.

Performance. Real GDP growth averaged 3% in the period 1995–97. For 1998 a growth rate of 2.5% was recorded, followed by growth of 1.7% in 1999. For both 2000 and 2001 growth of 1.8% has been forecast. The current account has moved into deficit and was unlikely to return to surplus before 2000. As stated in the *OECD's Economic Survey of Denmark (1998–99)*, assessing recent economic performance as a whole, it is evident that fiscal consolidation, monetary policy credibility and the structural reform programme have together been highly successful in creating the conditions for long-term growth. Total GDP in 1998 was US\$174.9bn.

Budget. The following shows the actual revenue and expenditure as shown in central government accounts for the calendar years 1998 and 1999, the approved budget figures for 2000 and the budget for 2001 (in 1,000 kroner):

The 2001 budget envisaged revenue of 124,233m. kroner from income and property taxes and 207,084m. from consumer taxes. The central government debt on 31 Dec. 1999 amounted to 598,020m. kroner.

While not participating directly in EMU, the Danish krone is pegged to the new currency in ERM-2, the successor to the exchange rate mechanism.

Banking and Finance. On 31 Dec. 1999 the accounts of the National Bank (*Governor*, Bodil Nyboe Andersen) balanced at 281,802m. kroner. The assets included official net foreign reserves of 165,298m. kroner. The liabilities included notes and coins totalling 46,382m. kroner. Civil Aviation. The main international airport is at Copenhagen (Kastrup), and there are also international flights from Aalborg, Aarhus, Billund and Esbjerg. The Scandinavian Airlines System (SAS) resulted from the 1950 merger of the 3 former Scandinavian airlines. Services were also provided in 1998 by Adria, Aer Lingus, Aeroflot, Air Baltic, Air Canada, Air China, Air France, Air India, Air Lithuania, Air Malta, Alitalia, Atlantic Airways (Faroe Islands), Austrian Airlines, Balkan, Braathens, British Airways, British Midland, Cimber Air, Continental Airlines, Croatia Airlines, Crossair, Czech Airlines, Delta Air Lines, Egyptair, El Al, Estonian Air, Finnair, Go, Greenlandair, Helikopterservice, Iberia, Icelandair, Interimpex-Avioimpex, Iran Air, JAT, KLM, Kenya Airways, Kuwait Airways, Lithuanian Airlines, LOT, Lufthansa, Luxair, Maersk Air, Malév, Muk Air, Olympic Airways, Pakistan International Airlines, Regional Airlines, Royal Air Maroc, SABENA, Singapore Airlines, Skyways, South African Airways, Spanair, Swissair, TAP, Tarom, Thai Airways International, Transeast Airlines, Tunis Air, Turkish Airlines, United Airlines, Varig, Virgin Express and Widerøe's Flyveselskap.

Postal Services. In 1999 there were 1,160 post offices.

SOCIAL INSTITUTIONS

Justice. The lowest courts of justice are organized in 82 tribunals (*byretter*), where minor cases are dealt with by a single judge. The tribunal at Copenhagen has one president and 49 other judges; and Aarhus one president and 15 other judges; the other tribunals have 1 to 11 judges. Cases of greater consequence are dealt with by the 2 High Courts (*Landsretterne*); these courts are also courts of appeal for the above-named minor cases. The Eastern High Court in Copenhagen has one president and 63 other judges; and the Western in Viborg one president and 38 other judges. From these an appeal lies to the Supreme Court in Copenhagen, composed of a president and at present 18 other judges. Judges under 65 years of age can be removed only by judicial sentence.

In 1999, 14,510 men and 1,800 women were convicted of violations of the criminal code, fines not included. In 1999 the daily average population in penal institutions was 3,477 (65.2 per 100,000 of national population), of whom 845 men and 56 women were on remand.

Religion. There is complete religious liberty. The state church is the Evangelical-Lutheran to which about 85% of the population belong. It is divided into 10 dioceses, each with a Bishop. The Bishop together with the Chief Administrative Officer of the county make up the diocesan-governing body, responsible for all matters of ecclesiastical local finance and general administration. Bishops are

appointed by the Crown after an election by the clergy and parish council members. Each diocese is divided into a number of deaneries (111 in the whole country), each with its Dean and Deanery Committee, who have certain financial powers.

Education. Education has been compulsory since 1814. The first stage of the Danish education system is the basic school (education at first level). This starts with an optional pre-school year (education preceding the first level) and continues up to and including the optional 10th year in the *folkeskole* (municipal primary and lower secondary school). In 1997, 639,000 pupils attended education at first level and second level, first stage. Of this group, 67,000 began their education at pre-school, while 124,000 attended grades 8 to 10. Of the latter group, 19,600 students attended continuation school. Owing to the changes in the age distribution in the population, the number of pupils attending pre-school has increased by 31% since 1989, whereas the number of students attending grades 8 to 10 (education at second level, first stage) has fallen by 22% during the same period.

Of all students leaving basic school in 1996–97, 77% had commenced further education after a period of 3 months. Almost half the students had elected to attend general upper-secondary education (general programmes of education at secondary level, second stage), while 29% opted for a vocational education at secondary level, second stage.

Education that qualifies students for education at third level is called general upper-secondary education and comprises general upper-secondary education (general programmes of education at second level, second stage), such as *gymnasium* (upper-secondary school), higher preparatory examination, and adult upper-secondary level courses as well as general/vocational upper secondary education at the vocational education institutions. In 1997, 72,000 students attended general upper-secondary education, of which 32,000 students attended general/vocational upper-secondary education.

Higher education is divided into 3 levels: short-cycle higher education involves 2 years of training, sometimes practical, after completion of upper-secondary education (19,000 students in 1997); medium-cycle higher education involves 2–4 years of mainly theoretical training (77,900 students in 1997); long-cycle higher education requires more than 4 years of education, mainly theoretical (89,400 students in 1997). In 1998 an estimated 37% of men and 34% of women smoked. The rate among women is one of the highest in the world.

Welfare. The main body of Danish social welfare legislation is consolidated in 7 acts concerning: (1) public health security, (2) sick-day benefits, (3) social pensions (for early retirement and old age), (4) employment injuries insurance, (5) employment services, unemployment insurance and activation measures, (6) social assistance including assistance to handicapped, rehabilitation, child and juvenile guidance, daycare institutions, care of the aged and sick, and (7) family allowances.

Public health security, covering the entire population, provides free medical care, substantial subsidies for certain essential medicines together with some dental care, and a funeral allowance. Hospitals are primarily municipal and treatment is normally free. All employed workers are granted daily sickness allowances; others can have limited daily sickness allowances. Daily cash benefits are granted in the case of temporary incapacity because of illness, injury or childbirth to all persons in paid employment. The benefit is paid up to the rate of 100% of the average weekly earnings. There is, however, a maximum rate of 2,846 kroner a week.

Social pensions cover the entire population. Entitlement to the old-age pension at the full rate is subject to the condition that the beneficiary has been ordinarily resident in Denmark for 40 years. For a shorter period of residence, the benefits are reduced proportionally. The basic amount of the old-age pension in July 1999 was 144,192 kroner a year to married couples and 98,700 to single persons. Various supplementary allowances, depending on age and income, may be payable with the basic amount. Depending on health and income, persons aged 60–66 may apply for an early retirement pension. Persons over 67 years of age are entitled to the basic amount. The pensions to a married couple are calculated and paid to the husband and the wife separately. Early retirement pension to a disabled person is payable at ages 18–66 years, having regard to the degree of disability (physical as well as otherwise), at a rate of up to 156,084 kroner to a single person. Early retirement pensions may be subject to income regulation. The same applies to the basic amount of the old-age pension to persons aged 67–69.

Employment injuries insurance provides for disability or survivors' pensions and compensations. The scheme covers practically all employees.

Employment services are provided by regional public employment agencies. Insurance against unemployment provides daily allowances and covers about 85% of the unemployed. The unemployment insurance system is based on state subsidized insurance funds linked to the trade unions. The unemployment insurance funds had a membership of 2,184,969 in Aug. 2000.

The *Social Assistance Act* applies to individual benefits in contrast to the other fields of social legislation which apply to fixed benefits. Total social expenditure, including hospital and health services, statutory pensions, etc. amounted in the financial year 1999 to 349,833.9m. kroner.

A Norwegian province till the peace treaty of 14 Jan. 1814, the islands have been represented by 2 members in the Danish parliament since 1851. In 1852 they obtained an elected parliament of their own which in 1948 secured a certain degree of home-rule. There are 17 inhabited islands (the main ones being Streymoy, Eysturoy, Vágoy, Suðuroy, Sandoy and Borðoy) and numerous islets, all mountainous and of volcanic origin. Population in 1995 was 43,678; density, 31 per sq. km. In 1995 an estimated 67.9% of the population lived in rural areas. The capital is Tórshavn (16,000 residents in 1999) on Streymoy.

France affirmed that the Territory of the Afars and the Issas was destined for independence but no date was fixed. Independence as the Republic of Djibouti was achieved on 27 June 1977. Afar rebels in the north, belonging to the Front for the Restoration of Unity and Democracy (FRUD), signed a 'Peace and National Reconciliation Agreement' with the government on 26 Dec. 1994, envisaging the formation of a national coalition government, the redrafting of the electoral roll and the

integration of FRUD militants into the armed forces and civil service.

DOMINICAN REPUBLIC

República Dominicana

Capital: Santo Domingo
Population estimate, 2000: 8·49m.
GDP per capita: (PPPS) 4,598
HDI/world rank: 0·729/87

KEY HISTORICAL EVENTS

Columbus discovered the island of Santo Domingo, which he called La Isla Española, and which for a time was also known as Hispaniola. The city of Santo Domingo, founded by his brother, Bartholomew, in 1496, is the oldest city in the Americas. The western third of the island—now the Republic of Haiti—was later occupied and colonized by the French, to whom the Spanish colony of Santo Domingo was also ceded in 1795. In 1808 the Dominican population routed the

French at the battle of Palo Hincado. Eventually, with the aid of a British naval squadron, the French were forced to return the colony to Spanish rule, from which it declared its independence in 1821. It was invaded and held by the Haitians from 1822 to 1844, when the Dominican Republic was founded and a constitution adopted.

Thereafter the rule was dictatorship interspersed with brief democratic interludes. Between 1916 and 1924 the country was under US military occupation. From 1930 until his assassination in 1961, Rafael Trujillo was one of Latin America's legendary dictators. The conservative pro-American Joaquin Balaguer was president from 1966 to 1978. In 1986 Balaguer returned to power at the head of the Socialist Christian Reform Party, leading the way to economic reforms. But there was violent opposition to spending cuts and general austerity. The 1996 elections brought in a reforming government pledged to act against corruption.

TERRITORY AND POPULATION

The Dominican Republic occupies the eastern portion (about two-thirds) of the island of Hispaniola, the western division forming the Republic of Haiti. The frontier with Haiti is closed. The area is 48,671 sq. km (18,800 sq. miles). The area and 1993 census populations of the 29 provinces and National District (Santo Domingo area) were:

There is a bicameral legislature, the *Congress*, comprising a 30-member Senate (one member for each province and one for the National District of Santo Domingo) and a 149-member *Chamber of Deputies*, both elected for 4-year terms. ECUADOR

República del Ecuador

Capital: Quito

Population estimate, 2000: 12·65m.

GDP per capita: (PPP\$) 3,003

HDI/world rank: 0·722/91

KEY HISTORICAL EVENTS

In 1532 the Spaniards founded a colony in Ecuador, then called Quito. In 1821 a revolt led to the defeat of the Spaniards at Pichincha and thus independence from Spain. On 13 March 1830, Quito became the Republic of Ecuador. Political instability was endemic. From the mid-1930s, President José María Velasco Ibarra gave more continuity to the presidential regimes, although he was deposed by military coups from four of his five presidencies.

From 1963 to 1966 and from 1976 to 1979 military juntas ruled the country. The second of these juntas produced a new constitution which came into force on 10 Aug. 1979. Since then presidencies have been more stable but civil unrest continued in the wake of economic reforms and attempts to combat political corruption.

In Jan. 2000 President Mahaud declared a state of emergency as protesters demanded his resignation over his handling of the country's economic crisis. There was a coup on 21 Jan., but after 5 hours in control the military junta handed power to the former vice-president, Gustavo Noboa.

TERRITORY AND POPULATION

Ecuador is bounded in the north by Colombia, in the east and south by Peru and in the west by the Pacific ocean. The frontier with Peru has long been a source of dispute. It was delimited in the Treaty of Rio, 29 Jan. 1942, when, after being invaded by Peru, Ecuador lost over half her Amazonian territories. Ecuador unilaterally denounced this treaty in Sept. 1961. Fighting between Peru and Ecuador began again in Jan. 1981 over this border issue but a ceasefire was agreed in early Feb. Following a confrontation of soldiers in Aug. 1991 the foreign ministers of both countries signed a pact creating a security zone, and took their cases to the UN in Oct. 1991. On 26 Jan. 1995 further armed clashes broke out with Peruvian forces in the undemarcated mutual border area ('Cordillera del Cóndor'). On 2 Feb. talks were held under the auspices of the guarantor nations of the 1942 Protocol of Rio de Janeiro (Argentina, Brazil, Chile and the USA), but fighting continued. A ceasefire was agreed on 17 Feb., which was broken, and again on 28 Feb. On 25 July 1995 an agreement between Ecuador and Peru established a demilitarized zone along their joint frontier. The frontier was re-opened on 4 Sept. 1995. Since 23 Feb. 1996 Ecuador and Peru have signed 3 further agreements to regulate the dispute. The dispute was settled in Oct. 1998. Confirming the Peruvian claim that the border lies along the high peaks of the Cóndor, Ecuador gained navigation rights on the Amazon within Peru.

No definite figure of the area of the country can yet be given. One estimate of the area of Ecuador is 275,830·0 sq. km, excluding the litigation zone between Peru and Ecuador, which is 190,807 sq. km, but including the **Galápagos** Archipelago (8,010 sq. km), situated in the Pacific ocean about 960 km west of Ecuador, and comprising 13 islands and 19 islets. These were discovered in 1535 by Fray Tomás de Berlanga and had a population of 10,207 in 1996. They constitute a national park, and had about 80,000 visitors in 1995.

The population is an amalgam of European, Amerindian and African origins. Some 40% of the population is Amerindian: Quechua, Swiwiar, Achuar and Zaparo. In May 1992 they were granted title to the 1m. ha of land they occupy in Pastaza.

The official language is Spanish. Quechua and other languages are also spoken.

Census population in 1990, 9,648,189. Estimate, 1996, 11,698,400; density, 42 per sq. km.

The UN gives a projected population for 2010 of 14·90m.

In 1998, 61·1% lived in urban areas.

CONSTITUTION AND GOVERNMENT

A new Constitution came into force on 10 Aug. 1979. It provides for an executive President and a Vice-President to be directly elected for a non-renewable 4-year term by universal suffrage, with a further 'run-off' ballot being held between the two leading candidates where no-one has secured an absolute majority of the votes cast. The President appoints and leads a Council of Ministers. A referendum on constitutional reform was held in Nov. 1995, and in the election of Nov. 1997 Ecuador voted in favour of constitutional reform to strengthen the presidency and to limit the participation of the state in the economy.

Legislative power is vested in a 125-member *National Congress*, 105 members in 2- or multi-seat constituencies and 20 members elected at large by proportional representation. Voting is obligatory for all literate citizens of 18–65 years.

National Anthem. 'Salve, Oh Patria, mil veces, Oh Patria' ('Hail, Oh Fatherland, a thousand times, Oh Fatherland'); words by J. L. Mera, music by A. Neumane.

RECENT ELECTIONS

Jamil Mahuad, candidate of the centre-right Popular Democracy party (DP), won in the second round of the presidential election on 12 July 1998, with 51.3% of the votes, against 48.7% for Alvaro Noboa, a populist businessman.
